INTRODUCTORY SECTION

February 21, 2020

Citizens of the State of Florida
The Honorable Ron DeSantis, Governor
The Honorable Bill Galvano, President of the Senate
The Honorable Jose R. Oliva, Speaker of the House of Representatives

To the Citizens of Florida, Governor DeSantis, President Galvano, and Speaker Oliva:

I am pleased to submit the State of Florida's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2019, in accordance with Section 216.102(3), Florida Statutes (F.S.). This report is prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

Management assumes full responsibility for the completeness and reliability of the information contained in this report based upon a comprehensive framework of internal control. The objective of internal control is to provide reasonable, rather than absolute, assurance that the financial statements are free of material misstatements. The concept of reasonable assurance ensures that the costs do not exceed the benefits derived.

The Auditor General has issued an opinion on the state's financial statements for the fiscal year ended June 30, 2019. The independent auditor's report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE STATE

Florida's Constitution divides the governmental structure of the state into three independent branches. The Legislative Branch has exclusive lawmaking power for the state. The Executive Branch, consisting of the Governor, Cabinet, and their agencies, administers the laws made by the Legislature. The Governor shares executive power and responsibility with the Cabinet, which is composed of the Attorney General, Chief Financial Officer, and Commissioner of Agriculture. The Judicial Branch interprets the law and applies the Constitution. The organizational chart following this letter provides an overview of the state's structure. Florida's government provides a range of services to its citizens including education, health and family services, transportation, public safety, law and corrections, natural resources and environmental protection.

The financial reporting entity of the state includes the primary government as well as component units for which the state is either financially accountable or a relationship exists with the state such that exclusion would cause the financial statements to be misleading. Refer to Note 1 to the financial statements for a listing of Florida's component units and the Financial Section of the report to obtain an overview of their financial positions.

Florida's budget is prepared using the processes set forth in Chapter 216, F.S. The major phases of the budget process are detailed in the Other Required Supplementary Information Section of this report. Florida law strictly prohibits overspending and requires budgetary control to be maintained at the individual appropriation account level.

ECONOMIC CONDITION

Florida marked the conclusion of its tenth consecutive year of positive growth in General Fund collections in June 2019. While the state's recovery from the Great Recession was protracted, most of the key measures of the Florida economy had returned to or surpassed their prior peaks by the close of the 2016-17 fiscal year and have now moved well beyond those levels. The drags—particularly construction—have proven to be more persistent than past events, but the strength in tourism is compensating for this, allowing overall healthy economic conditions to first be achieved three years ago and continue through today. In this regard, the state's Economic Estimating Conference confirmed in mid-December that Florida's overall economy improved as expected in the first half of the 2019-20 fiscal year, although modest slowing of economic growth is expected in the latter part of the 2020 calendar year. This is largely due to national events beyond the state's control and produces a u-shaped pattern, with some variables (primarily related to construction) exhibiting stronger growth rates in fiscal year 2019-20 than in 2020-21. The key drivers underlying the Florida-specific forecasts are discussed in greater detail below.

Notably, Florida's population growth and other key indicators continue to show strength. Florida's real Gross Domestic Product (GDP) in 2018 showed healthy growth of 3.2 percent, remaining above the national average for the sixth consecutive year. Newly released data for the second quarter (GDP for 2019:Q2) indicated some slowing in the current year, ranking Florida seventeenth in the nation in real growth and matching the national average (2.0 percent). The Economic Estimating Conference projects that Florida's GDP will grow 2.5 percent for the entire 2019-20 fiscal year, but continue slowing in the near term to 1.6 percent in the 2022-23 and 2023-24 fiscal years. In the longer term, growth is expected to average 2.0 percent per year. On the more real-time measure of personal income, the calendar year results were stronger: Florida ended 2018 with 6.2 percent growth over 2017—above the national growth rate of 5.6 percent. However, Florida's pace for the third quarter of 2019 (2019:Q3) sharply decelerated: Florida ranked 29th in the country with 3.5 percent growth over the prior quarter, which was below the reported growth of 3.8 percent for the United States as a whole. In the near term, the annual growth rates for the state are expected to drift from 5.1 percent (fiscal year 2019-20) down to 4.1 percent (2020-21 and 2022-23 fiscal years). In the longer term, growth is expected to average 4.3 percent per year. Underpinning the projected growth in personal income is continued population growth; these projections were slightly strengthened in December 2019 by the Demographic Estimating Conference. In addition, tourist visits continue to contribute strongly to Florida's economy. The Revenue Estimating Conference met in January in response to the new economic and population forecasts, indicating that the state's revenue collections for the General Fund are still expected to fall below the prior year by 0.5 percent this year; however, this is an improvement from the projected loss of 1.4 percent in August that was mostly caused by the loss of Indian Gaming revenue sharing. This improvement is largely related to the strength of collections in the first half of the fiscal year—some of which is not expected to continue through the remainder of the year.

The level of employment in Florida also continues to improve from the low levels of the Great Recession. For the third quarter of the 2019 calendar year, total non-farm employment stood at just over 9.0 million jobs. The forecast indicates that non-farm employment will add approximately 237,500 jobs during the course of the 2019-20 fiscal year, representing a 2.7 percent increase over the prior fiscal year. At 3.1 percent in November, Florida's unemployment rate was 0.4 percentage point below the national rate of 3.5 percent and matched the lowest unemployment rate ever achieved in Florida (March 2006). The Economic Estimating Conference believes Florida is now below the "full employment" unemployment rate (about 4.0 percent), and will stay there through the 2022-23 fiscal year.

While typical economic recoveries are led by increases in lending and housing construction; the recovery from the Great Recession has behaved differently in Florida. Overall, Florida's economic growth rates are healthy *in spite of* subdued construction activity, particularly in the residential sector. For now, tourism strength is overwhelming this persistent weakness. In the current forecast, tourism remains at record-breaking levels, while none of the key residential construction measures pass their prior peaks in the forecast horizon, an anticipated slowdown that has been built into all of the recent forecasts.

Even though it remains at relatively low levels, the construction sector is improving. Single-Family building permit activity, an indicator of new construction, remains in positive territory, with strong percentage growth rates in six of the last seven calendar years. Single family data was higher than the prior year by 20.3 percent in 2015, 11.1 percent in 2016, 13.5 percent in 2017, and 13.8 percent in 2018. Despite these strong percentage growth rates, the level is still low by historic standards—just over 63 percent of the long-run per capita level. The year-to-date data for the 2019 calendar year is showing marginal growth (4.1 percent)

compared to the recent past. The latest forecast calls for continuing improvement in these starts, reaching annual rates of 95.9 thousand units in the 2019-20 fiscal year and 95.9 thousand units in the 2020-21 fiscal year. To put these numbers in perspective, the peak year for single-family starts was the 2004-05 fiscal year at nearly 182 thousand units.

Because the most recent sales tax forecast relies heavily on strong tourism growth, the Legislative Office of Economic and Demographic Research (EDR) feels tourism-related revenue losses pose the greatest potential risk to the economic outlook in the near-term. In terms of magnitude, a recent study by EDR found an estimated 13.4 percent of the state's sales tax collections for the General Fund was directly attributable to purchases made by tourists. In the new forecast, meaningful improvement in the housing market is expected to continue to lag behind the rest of Florida's economy as homeownership rates remain low, mortgage rates increase, and housing affordability becomes a challenge. The latest downward revisions to the national economic forecast for many of these measures have further slowed the construction-related growth rates seen in Florida in the recent past. This means that tourism will need to continue its outsized performance in order for the broader economic measures to stay in normal territory.

According to the state's Long-Range Financial Outlook adopted in September 2019, the state is not anticipating a budget gap for the upcoming fiscal year, meaning the projected revenues should meet all anticipated needs. However, this assessment comes with one caveat. The projections for the subsequent years indicate that a structural imbalance is beginning to occur and that the Legislature will need to take future action to head it off. Of note, the nature of the problem has changed over the past year. In the 2018 Outlook, the recurring General Revenue demands exceeded the amount of recurring General Revenue available in the outer years. This year, there is no visible recurring issue, but the projected out-year deficits remain. In addition, the Long-Range Financial Outlook identifies potential future obligations of the Florida Hurricane Catastrophe Fund and Citizens Property Insurance Corporation as significant risks to the forecast. Refer to Note 14 to the financial statements for additional information related to the state's insurance enterprises.

ACKNOWLEDGEMENTS

Preparation of the CAFR requires a significant investment of time and resources of fiscal and accounting personnel throughout the state. We appreciate all the contributions made to this effort.

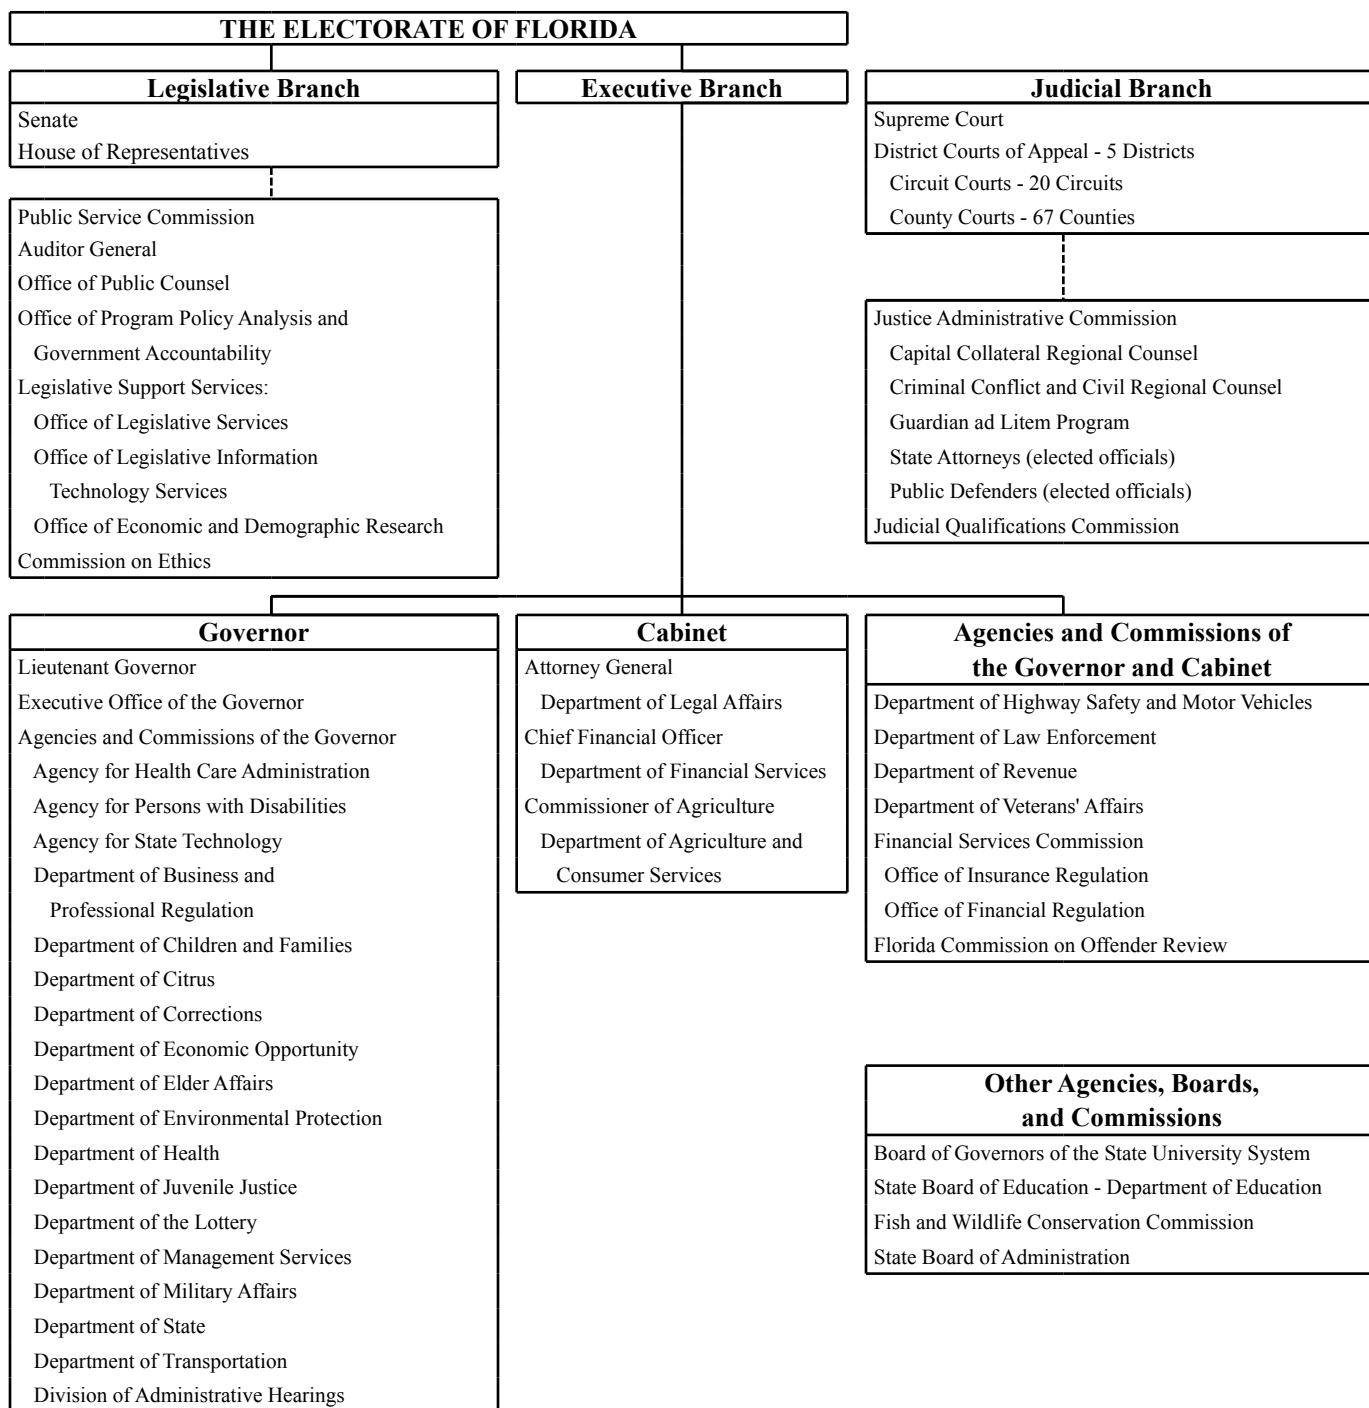

Sincerely,

Jimmy Patronis
Chief Financial Officer

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of:

- The Prepaid College Program Fund, which is a major enterprise fund and represents 32 percent and 14 percent, respectively, of the assets and revenues of the business-type activities.
- The Florida Turnpike System, which represents 80 percent and 89 percent, respectively, of the assets and revenues of the Transportation major enterprise fund.
- The Hurricane Catastrophe Fund, which is a major enterprise fund and represents 30 percent and 12 percent, respectively, of the assets and revenues of the business-type activities.
- The College Savings Plan and the trust fund maintained by the State Board of Administration to account for the investments of the Public Employee Optional Retirement Program, which collectively represent 6 percent of the assets and 3 percent of the revenues/additions of the aggregate remaining fund information.
- The Florida Retirement System Trust Fund maintained by the State Board of Administration to account for the assets and investment income of the Florida Retirement System Defined Benefit Pension Plan which represent 91 percent and 47 percent, respectively, of the assets and additions of the Pension and Other Employee Benefits Trust Funds.

- The Florida Housing Finance Corporation, Citizens Property Insurance Corporation, component units related to the State's universities and colleges, and certain other funds and entities that, in the aggregate, represent 62 percent and 33 percent, respectively, of the assets and revenues of the discretely presented component units.

The financial statements for the above-listed funds and entities were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for these funds and entities, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 and Note 10 to the financial statements, the State implemented Governmental Accounting Standards Board (GASB) Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, which is a change in accounting principle that provides for additional note disclosures. Our opinion is not modified with respect to this matter.

As discussed in Note 1 to the financial statements, certain State universities' component units changed from the Financial Accounting Standards Board accounting and financial framework to the GASB accounting and financial framework. This affects the comparability of amounts reported by the State universities' component units for the 2018-19 fiscal year with amounts reported for the 2017-18 fiscal year. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 16 through 21 and the budgetary information, funding and contribution information for pension and other postemployment benefits, and information on infrastructure using the modified approach on pages 180 through 193 be presented to supplement the basic financial statements. Such information, although not

a part of the basic financial statements, is required by the GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The Introductory Section on pages 6 through 9 and the combining and individual fund statements, related budgetary comparison schedules, and Statistical Section on pages 197 through 315 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and related budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The combining and individual fund statements and related budgetary comparison schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining and individual fund statements and related budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory Section and the Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2020, on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, administrative rules, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control over financial reporting and compliance. That report will be included as part of our separately issued report entitled *State of Florida Compliance and Internal Controls Over Financial Reporting and Federal Awards*.

Respectfully submitted,

Sherrill F. Norman, CPA
Tallahassee, Florida
February 21, 2020

MANAGEMENT’S DISCUSSION AND ANALYSIS

The information contained in the Management’s Discussion and Analysis (MD&A) introduces the basic financial statements and provides an analytical overview of the State of Florida’s (the state’s) financial activities and performance for the fiscal year ended June 30, 2019 (fiscal year 2018-19). Please read the MD&A in conjunction with the state’s financial statements that are presented in the Financial Section of this Comprehensive Annual Financial Report (CAFR).

Financial Statements Overview

The state’s basic financial statements are comprised of the following elements:

Government-wide Financial Statements

Government-wide financial statements provide both long-term and short-term information about the state's overall financial condition. Changes in the state’s financial position may be measured over time by increases and decreases in the Statement of Net Position. Information on how the state’s net position changed during the fiscal year is presented in the Statement of Activities. Financial information for the state’s component units is also presented.

Fund Financial Statements

Fund financial statements for governmental and proprietary funds focus on individual parts of the state, reporting the state's operations in more detail than the government-wide financial statements. Fund financial statements for fiduciary funds are also included to provide financial information related to the state’s fiduciary activities.

Notes to the Financial Statements

Notes to the financial statements provide additional information that is essential to the full understanding of the government-wide and fund financial statements. Refer to Note 1 to the financial statements for more information on the elements of the financial statements. Table 1 below summarizes the major features of the basic financial statements.

Table 1: Major Features of the Basic Financial Statements				
	Government-wide Financial Statements	Fund Financial Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire state government (except fiduciary funds) and the state’s component units	Activities of the state that are not proprietary or fiduciary	Activities of the state that are operated similar to private businesses	Instances in which the state is the trustee or agent for someone else’s resources
Required financial statements	<ul style="list-style-type: none"> Statement of net position Statement of activities 	<ul style="list-style-type: none"> Balance sheet Statement of revenues, expenditures, and changes in fund balances 	<ul style="list-style-type: none"> Statement of net position Statement of revenues, expenses, and changes in net position Statement of cash flows 	<ul style="list-style-type: none"> Statement of fiduciary net position Statement of changes in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset, liability, and deferred outflow/inflow information	<ul style="list-style-type: none"> All assets and liabilities, both financial and capital, and short-term and long-term All deferred outflows and deferred inflows of resources 	<ul style="list-style-type: none"> Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included All deferred outflows and deferred inflows of resources 	<ul style="list-style-type: none"> All assets and liabilities, both financial and capital, and short-term and long-term All deferred outflows and deferred inflows of resources 	<ul style="list-style-type: none"> All assets and liabilities, both financial and capital, and short-term and long-term All deferred outflows and deferred inflows of resources
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	<ul style="list-style-type: none"> Revenues for which cash is received during or soon after the end of the year Expenditures when goods or services have been received and payment is due during the year or soon thereafter 	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid

Condensed Government-wide Financial Statements and Overall Financial Analysis

Statement of Net Position

Table 2 below presents the state's Condensed Statement of Net Position as of June 30, 2019, and 2018, derived from the government-wide Statement of Net Position. The state's net position at the close of the fiscal year was \$66.8 billion for governmental activities and \$30.8 billion for business-type activities which was a combined total of \$97.6 billion for the primary government. The three components of net position include net investments in capital assets; restricted; and unrestricted. The largest component, totaling \$83.8 billion as of June 30, 2019, reflects net investments in capital assets. The state uses these capital assets to provide services to the citizens and businesses in the state; consequently, this component of net position is not available for future spending. Restricted net position is the next largest component, totaling \$28.9 billion as of June 30, 2019. Restricted net position represents resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used.

Governmental activities reflect a negative or deficit fund balance in unrestricted net position of \$16.2 billion at June 30, 2019. This deficit primarily results from education-related bonds for which the state is responsible for the liability while the related assets are owned by local school districts and are therefore not included in the state's financial statements. Refer to Note 8 to the financial statements, Governmental Activities – Unrestricted Net Position Deficit, for more information.

Business-type activities reflect a restricted net position of \$18.7 billion at June 30, 2019, a decrease of \$1.3 billion over the prior year. The decrease in the restricted net position over that reported in prior years is explained in the Major Fund Analysis, Proprietary Funds section that follows.

Table 2: Condensed Statement of Net Position
As of June 30
(in millions)

	Governmental Activities		Business-type Activities		Total Primary Government	
	2019	2018	2019	2018	2019	2018

Statement of Activities

Table 3 presents the state's Condensed Statement of Activities for fiscal year 2018-19 and fiscal year 2017-18, as derived from the government-wide Statement of Activities. Over time, increases and decreases in the net position measure whether the state's financial position is improving or deteriorating. The state's total net position increased during the fiscal year by \$3.6 billion. The net position of governmental activities increased by \$4.3 billion, and the net position of business-type activities decreased by \$696 million. The majority of the increase in total program expenses for governmental activities relates to a \$760 million increase in General Government expense after an offsetting \$1.1 billion increase and decrease in Education and Human Services expenses, respectively, while the largest increase in business-type activities expenses is the \$1.4 billion increase in Hurricane Catastrophe Fund program expenses. Refer to the Major Fund Analysis section for information regarding the overall increase in revenues from governmental activities.

Major Fund Analysis

Governmental Funds

The state's governmental funds reported a combined ending fund balance of \$20.1 billion at June 30, 2019, a \$1.9 billion or 10.7 percent increase from the prior year. Revenues increased by \$2.1 billion or 2.6 percent, other financing sources and uses increased by \$360 million or 13.2 percent, and expenditures increased by \$1.0 billion or 1.2 percent. Overall increases in revenues and expenditures were primarily attributable to a rise in tax revenues.

Proprietary Funds

The state's proprietary funds report combined ending net position of \$30.8 billion at June 30, 2019, of which \$10.9 billion is the net investment in capital assets, and \$18.7 billion is restricted for specific purposes. The remaining \$1.1 billion was unrestricted and available for purposes of the various funds. Information is provided below regarding major funds with significant variances relative to the prior year.

Lottery – This fund reported a net position of \$85 million at June 30, 2019, an increase of \$36 million or 75.3 percent. Revenues increased by \$488 million or 7.3 percent while expenses and operating transfers out increased by \$446 million or 6.6 percent. Revenues increased as result of an increase on ticket sales, prompted by higher jackpots and introduction of new games during the fiscal year. The increase in expenses and operating transfers out were due to higher ticket sales, which increased related prize expense and transfers to the Educational Enhancement Trust Fund. Also, the increase in net position was due to an increase in the market value of investments.

Hurricane Catastrophe Fund – The net position at June 30, 2019, totaled \$10.3 billion, a decrease of \$2.4 billion or 18.99 percent. Revenues increased by \$312 million or 23.8 percent while expenses and operating transfers out increased by \$1.4 billion or 55.8 percent. The decrease in net position was primarily due to a \$1.6 billion increase for the recorded loss reserves for Hurricanes Irma and Michael. Revenues increased over the prior year, primarily due to a \$327 million increase in investment income. This increase mainly resulted from changes made to the Fund's guidelines allowing for longer investment maturities.

Prepaid College Program – The net position at June 30, 2019, totaled \$3.7 billion, an increase of \$747 million or 25.3 percent. Revenues increased by \$1.1 billion or 176.9 percent while expenses increased by \$967 million or 1,948.0 percent. The increase in net position was primarily due to an increase in the market value of invested assets. The increase in revenues was primarily due to an increase in investment income from the fixed income investments and increase in the actuarial determination of the present value of future contract premiums, both resulted from a declining treasury rate environment. Expenses increased over the prior year primarily because of an increase in actuarial determination of the present value of future benefit payments, also as a result of a declining treasury rate environment.

General Fund Budget Variances

Budgeted expenditures are based on revenues estimated by the Revenue Estimating Conference and other sources. Original expenditures are budgeted for less than total expected available resources. There was a \$706 million increase between the original and final estimated revenues. Final budgeted total expenditures increased by \$899 million from the original budget. Variances between the original and final budget or between the final budgeted and actual amounts are not expected to significantly affect future services or liquidity. For additional information on the budget variances, refer to the Budgetary Comparison Schedule for the General Fund in the Other Required Supplementary Information section of the CAFR.

Capital Asset and Long-term Debt Activity

Capital Asset Activity

At June 30, 2019, the state reported \$78.5 billion in net capital assets for governmental activities and \$14.1 billion in net capital assets for business-type activities. Net capital assets for governmental and business-type activities increased from fiscal year 2017-18 to fiscal year 2018-19 by approximately 3.5 percent. The increase is primarily due to the capitalization of construction costs for infrastructure projects. Capitalized infrastructure projects include additions to and/or enhancements of roadways and bridges on the state's highway system. Construction commitments by the Florida Department of Transportation were approximately \$14.8 billion. Construction commitments by other state agencies for major projects including office buildings and correctional facilities increased by \$16 million compared to the prior year. Refer to Note 5 to the financial statements for information on capital assets and Note 7 to the financial statements for information on construction commitments.

Long-term Debt Activity

Total bonded debt outstanding decreased by \$915 million, or approximately 4.7 percent, from the prior fiscal year to a total of \$18.7 billion at June 30, 2019 due to new debt issued being less than scheduled amortization and debt service payments. The majority of the outstanding bonded debt serves to finance educational facilities (\$9.8 billion), the Florida Hurricane Catastrophe Fund (\$2.2 billion) and transportation (\$5.1 billion). New and refinanced bonded debt issues for 2019 totaled \$2.5 billion. Public-

Private Partnership (PPP) contracts outstanding increased from the prior year by \$222 million or 8.3 percent to a total of \$2.9 billion. The annual debt service requirements decreased from \$2.3 billion in 2018 to \$2.0 billion in 2019. The decrease in debt service in Fiscal Year 2019 reflected the impact of PPP payments. The annual debt service is projected to increase to approximately \$2.3 billion through Fiscal Year 2022, then decrease to approximately \$1.9 billion in Fiscal Year 2023, reflecting the payment obligations for the PPP I-395 and I-4 Projects.

Pursuant to the provisions of Governmental Accounting Standards Board (GASB) Statement No. 68 – *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, the State of Florida recorded \$7.7 billion in pension liabilities for the defined benefit plans it administers for the fiscal year ended June 30, 2019. The \$7.7 billion includes the State’s proportionate share of the liability for the Florida Retirement System Pension Plan, the Retiree Health Insurance Subsidy Program, and the Florida National Guard Supplemental Retirement Benefit Plan. (See Note 6 to the Financial Statements for further information.)

Pursuant to the provisions of GASB Statement No. 75 - *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the State of Florida recorded \$7.8 billion in other postemployment benefit liabilities for the fiscal year ended June 30, 2019. This resulted in a decrease of \$192 million or 2.4 percent. (See Note 6 to the Financial Statements for further information.)

The state maintained its credit ratings during the past year. During the fiscal year ended June 30, 2019, all three major rating agencies (Standard & Poor’s Rating Services, Fitch Ratings and Moody’s Investors Services) rated the state in the highest rating category and have affirmed the State’s AAA general obligation rating and Stable outlooks. The state’s benchmark debt ratio improved in Fiscal Year 2019 to 4.64 percent and is projected to remain below the 6 percent policy target for the foreseeable future.

Section 11 of Article VII of the State Constitution authorizes the state to issue general obligation bonds or revenue bonds to finance or refinance fixed capital outlay projects authorized by law. General obligation bonds are secured by the full faith and credit of the state and payable from specified taxes. Revenue bonds are payable solely from specified revenues. The responsibility to issue most state bonds rests with the Division of Bond Finance of the State Board of Administration. However, certain quasi-governmental entities also incur debt and are reported as part of the primary government. See the *State of Florida 2019 Debt Report* for more detailed information about the state’s debt position. The report can be found at www.sbafla.com/bondfinance or by contacting the Division of Bond Finance, 1801 Hermitage Boulevard, Suite 200, Tallahassee, Florida 32308, (850) 488-4782. Additional information on long-term debt is also found in Notes 6, 8, 9, and 10 to the financial statements and the Statistical Section of this report.

Infrastructure Accounted for Using the Modified Approach

The state elected to use the modified approach to account for roadways, bridges, and other infrastructure assets of the State Highway System. Under this approach, the Florida Department of Transportation (FDOT) committed to maintain these assets at levels established by FDOT and approved by the Florida Legislature. No depreciation expense is reported for these assets, nor are amounts capitalized in connection with improvements that lengthen the lives of such assets, unless the improvements also increase their service potential. FDOT maintains an inventory of these assets and performs periodic assessments to establish that predetermined condition levels are being maintained. The condition assessments performed during fiscal year 2018-19 show that the roadways and bridges of the State Highway System are being maintained at or near FDOT standards. These condition assessments were consistent with condition assessments conducted during past years. In addition, FDOT makes annual estimates of the amounts that must be expended to maintain the roadways and bridges included on the State Highway System at the predetermined condition levels. These estimates are based on the FDOT five-year plan that is revised as projects are added, deleted, adjusted, or postponed. Refer to the Other Required Supplementary Information of the CAFR for information on FDOT’s established condition standards, recent condition assessments, and other information on infrastructure reported on the modified approach.

Economic Factors

General Fund tax collections for the fiscal year ended June 30, 2019, came in 5.8 percent higher than the prior fiscal year, the highest level of growth seen since fiscal year 2012-13 when an unexpected large payment from the National Mortgage Settlement Agreement boosted collections. Ten years after the back-to-back negative growth rates seen during the collapse of the housing boom and entry into the Great Recession, Florida has left its long recovery period behind and returned to normalcy on nearly every measure. However, the growth in final collections going forward will be negatively affected by the loss of the Indian Gaming revenue share payment. The last payment was received from the Seminole Tribe in April 2019. This means that the growth rate for fiscal year 2018-19 is at the top-end of the range moving toward the 3.5 percent annual growth projected for the long-run.

Most (59.0 percent) of the year-over-year net increase in General Fund receipts (total revenue minus refunds) came from gains in sales tax collections. For fiscal year 2018-19, this revenue source noticeably increased its dominant share of the fund, ending the year with 67.9 percent of total revenue received. As the economy remained strong with gains in the state’s Gross Domestic Product and personal income over the prior year, signs of a fully recovered economy were clear in the widespread improvement across all areas of sales tax collections (nondurables, tourism and recreation, autos and accessories, other durables, building investment and business investment). Total sales tax liability grew a solid 5.3 percent from fiscal year 2017-18 to fiscal year 2018-19. This equates to \$1.40 billion in growth for this source, with nearly \$1.25 billion flowing through to the General Fund.

Including sales tax, just over three-fourths of the state's general revenue sources posted gains over the prior year, with a few continuing to make progress against strong headwinds. In this respect, several key revenue sources have continued to track the ebb and flow of the state's one lagging sector, the construction industry. Among them, documentary stamp and intangibles tax collections predominantly rely on activity in the state's real estate market. After the end of the housing boom in 2005-06, Florida's sizable inventory of unsold homes, home prices discounted for quick sale, and towering foreclosures hindered a return to normal conditions in the real-estate market. Thirteen years after the boom's peak, each metric still has a unique story to tell. For statewide existing single-family home sales and their associated median sales price, the magnitude of the growth was uneven with sales growing 3 percent and the median price growing 4.4 percent. This divergence is expected to be even greater in the 2019-20 fiscal year (8.7 percent and 2.8 percent, respectively). The results also remained in positive territory for single-family private housing starts (up 6.7 percent) and total construction expenditures (up 2.8 percent), with the expected growth in both categories softening in fiscal year 2019-20. However, with the major drivers all showing gains in fiscal year 2018-19, total documentary stamp taxes grew 5.2 percent. This growth brought documentary stamp taxes to 65.3 percent of their prior peak in fiscal year 2005-06. Reflecting a slightly different aspect of the market, intangibles tax collections, which entirely benefit the General Fund, strengthened as refinancing activity responded to low interest rates, ultimately posting a 3.8 percent gain over the prior year. Overall, the collection levels are still low by historic standards for the two sources, sometimes distorting the magnitude of percentage changes.

As a result of the federal law changes passed as part of the Tax Cuts and Jobs Act of 2017 and the Bipartisan Budget Act of 2018, Florida saw significantly higher collections from its Corporate Income Tax during fiscal year 2018-19. Corporate Income Tax receipts exceeded the monthly estimates adopted by the state's Revenue Estimating Conference in eleven of the twelve months in the fiscal year, making this source the state's second strongest contributor to real revenue growth. Moving well above their prior peak collection level in fiscal year 2006-07, corporate income tax receipts (prior to refunds) posted 30.1 percent growth over fiscal year 2017-18. After accounting for corporate refunds, net collections had even stronger growth of 31.4 percent. In anticipation of the higher collection rate resulting from the federal legislation, the Florida Legislature passed Chapter 2018-119, L.O.F. (HB 7093) which had the practical effect of retroactively reducing the tax rate for taxable years beginning on or after January 1, 2019, if net collections exceed forecasted collections by at least seven percent during fiscal year 2018-2019. The provisions in this bill were only effective for one year, but the Legislature has since extended these provisions to additional years.

At the end of the 2018-19 state fiscal year, net General Fund collections were \$507.2 million above the estimate for the year, a gain of 1.5 percent and over the plus or minus one percent range the Conference usually attributes to statistical noise. However, this was largely due to the induced outsized performance of the Corporate Income Tax. Removing Corporate Income Tax from the calculation shows that the state otherwise would have had its fourth consecutive year of ending the fiscal year within one percent of the estimate, signaling the underlying stability in the economy. Further, General Fund sources collectively performed better than the class of total revenue for the state. Including federal dollars and state trust funds, total revenue increased by 7.4 percent over this period.

The Revenue Estimating Conference last met in January 2020 to revise the General Fund forecast for fiscal years 2019-20 and 2020-21. The near-term National and Florida Economic Forecasts were weaker in several key areas compared to August; however, revenue collections had run above monthly estimates by a combined \$414.9 million since the last conference. Focusing on the year-to-date gains to the forecast, anticipated revenues were revised upward by \$306.0 million in fiscal year 2019-20 and by \$86.0 million in fiscal year 2020-21, for a two-year total of \$392.0 million, a change of less than one percent (0.9%) in fiscal year 2019-20 and less than one-half of one percent (0.3%) in fiscal year 2020-21. The relatively small size of the increase recognizes that there is an elevated level of risk to any forecast due to the mature stage of the current economic expansion and geopolitical pressures to global growth.

As a buffer against future financial shocks, the latest General Revenue Outlook shows that there will be just over \$1.934 billion in unallocated general revenue remaining at the end of the current fiscal year. In addition, the state's major reserve for emergencies, the Budget Stabilization Fund, has a planned balance of \$1.574 billion on June 30, 2020. The fund cash balance is now at the highest recorded level in its history. The other source most frequently mentioned as part of the state's informal reserve system is the Lawton Chiles Endowment Fund (LCEF). The LCEF had an estimated market value of \$812.0 million as of October 31, 2019, bringing the total of all reserves to nearly \$4.320 billion or 13.0 percent of the state's estimated General Fund tax collections for the current year (after payment of refunds). According to the state's Long-Range Financial Outlook adopted in September 2019, the state is not anticipating a budget gap for the upcoming fiscal year, meaning the projected revenues should meet all anticipated needs. However, this assessment comes with one caveat. The projections for the subsequent years indicate that a structural imbalance is beginning to occur and that the Legislature will need to take future action. Of note, the nature of the problem has changed over the past year. In the 2018 Outlook, the recurring General Revenue demands exceeded the amount of recurring General Revenue available in the outer years. This year, there is no visible recurring issue, but the projected out-year deficits remain.

GOVERNMENTAL FUND FINANCIAL STATEMENTS

Major Funds

GENERAL FUND

This fund is the State's primary operating fund. It accounts for the financial resources and transactions not accounted for in other funds.

NATURAL RESOURCES, ENVIRONMENT, AND GROWTH MANAGEMENT

This fund accounts for operations of various programs, such as air pollution control, water quality assurance, ecosystem management, and marine resources conservation.

PUBLIC EDUCATION

This fund includes internal reporting funds administered by the Department of Education to operate education-related programs.

HEALTH AND FAMILY SERVICES

This fund includes internal reporting funds used to operate various health and family service-related programs, such as health care, elder affairs, and public assistance.

TRANSPORTATION

This fund includes the internal reporting special revenue funds used to account for the administration of the maintenance and development of the State highway system and other transportation-related projects.

Nonmajor Funds

Nonmajor governmental funds are presented, by fund type, beginning on page 197.

**RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO
THE STATEMENT OF NET POSITION
JUNE 30, 2019
(in thousands)**

Total fund balances for governmental funds		\$ 20,121,163
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities reported in governmental funds are not financial resources and therefore are not reported in the funds.		
Land and other nondepreciable assets	20,101,360	
Nondepreciable infrastructure	51,084,214	
Buildings, equipment and other depreciable assets	6,924,433	
Accumulated depreciation	(4,588,913)	
Construction work in progress	<u>4,047,000</u>	
		77,568,094
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.		
Compensated absences	(719,836)	
Installment purchases/capital leases/public-private partnership agreements	(2,698,817)	
Claims payable	(1,932,706)	
Bonds payable	(13,488,365)	
Certificates of participation payable	(69,115)	
Pension liability	(7,482,908)	
Other postemployment benefits	(7,500,953)	
Due to other governments	(378,248)	
Other	<u>(13,052)</u>	
		(34,284,000)
Deferred amounts on refunding are reported in the Statement of Net Position as deferred outflows or deferred inflows of resources (to be amortized as interest expense) but are not reported in the funds.		
		12,345
Deferred amounts for pension-related items are reported in the Statement of Net Position as deferred outflows or deferred inflows of resources (to be amortized as pension expense) but are not reported in the funds.		
		2,552,988
Deferred amounts for other postemployment items are reported in the Statement of Net Position as deferred outflows or deferred inflows of resources (to be amortized as pension expense) but are not reported in the funds.		
		(1,386,163)
Accrued interest payable on bonds that is not recognized on the fund statements but is recognized on the Statement of Net Position.		
		(36,226)
Assets (receivables) not available to provide current resources are offset with deferred inflows of resources in the fund statements. The reduction of the deferred inflow and recognition of revenue increases net position in the Statement of Net Position.		
		1,725,277
Internal service funds are used to report activities that provide goods and services to other funds or agencies within the state. Therefore, the excess of assets over liabilities of the internal service funds are included as governmental activities on the Statement of Net Position.		
		<u>549,849</u>
Net position of governmental activities		<u>\$ 66,823,327</u>

The notes to the financial statements are an integral part of this statement.

THIS PAGE INTENTIONALLY LEFT BLANK

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2019
(in thousands)**

Net change in fund balance - total governmental funds	\$	1,947,446
Internal service funds are used by management to charge the costs of goods or services to other funds and agencies within the state. Therefore, the net revenue (expense) of the internal service funds is reported with governmental activities.		(43,632)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of these assets is allocated over the estimated useful lives of the assets and reported as depreciation expense. This is the amount by which capital outlay expenditures exceeded depreciation in the current period.		
Capital outlay expenditures	3,290,372	
Capital asset transfers, net	(174,302)	
Depreciation expense	<u>(285,825)</u>	
		2,830,245
In the Statement of Activities, the gain or (loss) on the sale of assets is reported whereas in the governmental funds only the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balances by the cost of the assets sold.		(345,879)
In the Statement of Activities, some revenues are recognized that do not provide current financial resources and are not recognized as revenues in the governmental funds until available, i.e., deferred inflows of resources, unavailable revenue.		73,142
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Decrease in compensated absences	8,904	
Decrease in accrued interest	8,056	
Decrease in claims payable	53,877	
Increase in other postemployment benefits	(227,638)	
Increase in net pension related items	(460,082)	
Decrease in due to other governments	18,818	
Increase in other liabilities	<u>(625)</u>	
		(598,690)
The incurrence of long-term debt (e.g., bonds and leases) provides current financial resources to governmental funds, while the repayments of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts, deferred amounts on refundings when debt is issued, whereas these amounts are deferred and amortized in the Statement of Activities.		
Bond proceeds	(625,953)	
Refunding bond proceeds	(1,229,094)	
Financing agreement proceeds	(429,892)	
Repayment of bonds	1,097,394	
Repayment of capital leases/installment purchase contracts	219,512	
Payment to refunded bond escrow agent	1,229,094	
Amortization of bond premium	190,046	
Amortization of amount deferred on refunding of debt	(11,309)	
Accrued interest payable at refunding	<u>(17,320)</u>	
		<u>422,478</u>
Change in net position of governmental activities	\$	<u><u>4,285,110</u></u>

The notes to the financial statements are an integral part of this statement.

PROPRIETARY FUND FINANCIAL STATEMENTS

Major Funds

TRANSPORTATION

This fund primarily accounts for operations of the Florida Turnpike Enterprise which includes the Florida Turnpike System.

LOTTERY

This fund accounts for state lottery operations, which include sale of lottery tickets, payment of lottery prizes, and transfers to the Education Enhancement Trust Fund.

FLORIDA HURRICANE CATASTROPHE FUND

This fund, administered by the State Board of Administration, is used to help cover insurers' losses in the event of a hurricane disaster.

PREPAID COLLEGE PROGRAM

This fund, administered by the State Board of Administration, is used to account for payments from purchasers of the Florida Prepaid College Program, a blended component unit. This program was created to provide a medium through which the cost of state post-secondary education may be paid in advance of enrollment at a rate lower than the projected corresponding costs at the time of enrollment.

REEMPLOYMENT ASSISTANCE

This fund accounts for the receipt of monies for and payment of unemployment compensation benefits.

Nonmajor Funds

Nonmajor enterprise funds are presented on page 237.

Internal Service Funds

Internal service funds are presented on page 243.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The State of Florida's (the state's) financial reporting entity includes the primary government (i.e., legislative agencies, the Governor and Cabinet, departments and agencies, commissions and boards of the Executive Branch, and various offices relating to the Judicial Branch) and its component units.

Component units, as defined in Governmental Accounting Standards Board (GASB) Codification Section 2100, *Defining the Financial Reporting Entity*, and Section 2600, *Reporting Entity and Component Unit Presentation and Disclosure*, are legally separate organizations for which the elected officials of the state are financially accountable. Financial accountability is the ability of the state to appoint a voting majority of an organization's governing board and to impose its will upon the organization. When the state does not appoint a voting majority of an organization's governing body, GASB standards require inclusion in the financial reporting entity if: (1) an organization is fiscally dependent upon the state because its resources are held for the direct benefit of the state or can be accessed by the state and (2) the potential exists for the organization to provide specific financial benefits to, or impose specific financial burdens on the state. In addition, component units can be other organizations for which the nature and significance of their relationship with the state are such that exclusion would cause the state's financial statements to be misleading.

Blended Component Units

A component unit is reported as blended when either (1) the component unit's governing body is substantively the same as the governing body of the state, *and* (a) there is a financial benefit or burden relationship between the governing body of the state and the component unit, *or* (b) management of the governing body of the state has operational responsibility for the component unit, *or* (2) the component unit provides services entirely, or almost entirely, to the state or otherwise exclusively, or almost exclusively, benefits the state, *or* (3) the component unit's outstanding debt is expected to be repaid entirely or almost entirely with resources of the state.

The following component units provide services entirely or almost entirely to the primary government, or have outstanding debt that is expected to be paid entirely or almost entirely with state resources:

- CareerSource Florida, Inc.
- Corrections Foundation, Inc.
- Florida Board of Governors
- Florida Citrus Commission (Department of Citrus)
- Florida Clerks of Court Operations Corporation
- Florida Commission on Community Service (Volunteer Florida)
- Florida Department of Transportation Financing Corporation
- Florida Engineers Management Corporation
- Florida Intergovernmental Relations Foundation*
- Florida Prepaid College Board
- Florida School for the Deaf and the Blind
- Florida Surplus Lines Service Office
- Florida Water Pollution Control Financing Corporation
- Inland Protection Financing Corporation
- Prescription Drug Monitoring Program Foundation*
- Scripps Florida Funding Corporation
- Space Florida
- State Board of Administration (SBA)
- State Board of Education (SBE)
- Wireless Emergency Telephone System

Blended component units that are considered major funds are reported in separate columns in the fund financial statements. Other blended component units that are considered non-major funds are reported with other funds in the appropriate columns in the fund financial statements. In addition, the financial data for some blended component units are reported in more than one fund type, some of which are considered major and others that are considered non-major. Refer to Section D of this note for more information on the determination criteria for major funds and a list of major funds and fund types.

* The state's financial statements do not include amounts relating to these component units. The assets of these component units at June 30, 2019, are approximately \$1,584,332.

Discretely Presented Component Units

Component units that are not blended are discretely presented. In the government-wide financial statements, discrete presentation entails reporting component unit financial data in a column separate from the financial data of the state.

In addition, financial data for discretely presented component units that are considered major are reported in separate columns in the basic financial statements for component units. Discretely presented component units that are considered non-major are combined and reported in one column in the component unit financial statements and are aggregated by type in the combining statements. The state's financial statements are reported for the fiscal year ended June 30, 2019. The state's component units' financial statements are reported for the most recent fiscal year for which an audit report is available. Some component units have a fiscal year other than June 30. Accordingly, amounts reported by the state as due from and to component units on the statement of net position may not agree with amounts reported by the component units as due from and to the state. Refer to Section D of this note for more information on major fund determination and presentation. The state's discretely presented component units are grouped into the following categories:

State Universities and Colleges. State universities and colleges receive funding from the state. The State University System is governed by the Florida Board of Governors. The Florida College System is governed by the State Board of Education. Each university and college is administered by a local board of trustees. All state universities and colleges have a June 30 year-end. Component units included in this category are:

State Universities

Major:

- University of Florida¹

Non-major:

- Florida Agricultural and Mechanical University
- Florida Atlantic University
- Florida Gulf Coast University
- Florida International University
- Florida Polytechnic University
- Florida State University
- New College of Florida
- University of Central Florida
- University of North Florida
- University of South Florida
- University of West Florida

Florida College System Institutions

Non-major:

- Broward College
- Chipola College
- College of Central Florida
- Daytona State College
- Eastern Florida State College
- Florida Gateway College
- The College of the Florida Keys
- Florida State College at Jacksonville
- Florida SouthWestern State College
- Gulf Coast State College
- Hillsborough Community College
- Indian River State College
- Lake-Sumter State College
- Miami Dade College
- North Florida College
- Northwest Florida State College
- Palm Beach State College

- Pasco-Hernando State College
- Pensacola State College
- Polk State College
- Santa Fe College
- Seminole State College of Florida
- South Florida State College
- St. Johns River State College
- St. Petersburg College
- State College of Florida, Manatee-Sarasota
- Tallahassee Community College
- Valencia College

¹ Significant transactions occurring during the 2018-19 fiscal year between the University of Florida and the state totaled \$875 million. These funds represent state appropriated funds to the University of Florida.

Florida Housing Finance Corporation (Major). Pursuant to Section 420.504, Florida Statutes (F.S.), this corporation was created as an entrepreneurial public corporation organized to provide and promote public welfare by administering the governmental function of financing or refinancing housing and related facilities in Florida. This entity has a December 31 year-end. Significant transactions occurring during the 2018-19 fiscal year between the Florida Housing Finance Corporation and the state included revenues of state documentary stamp taxes totaling \$312.8 million and transfers to state agencies of \$154.4 million.

Citizens Property Insurance Corporation (Major). Pursuant to Section 627.351(6), F.S., this corporation was created to provide certain residential property and casualty insurance coverage to qualified risks in the state under specified circumstances. This entity has a December 31 year-end. For additional information, refer to Note 14B.

Water Management Districts. Pursuant to Section 373.069, F.S., these districts were created to provide for the management and conservation of water and related land resources. In addition, the general regulatory and administrative functions of these districts are either fully or in part financed by general appropriations. Water management districts have a September 30 year-end. Component units included in this category are:

Non-major:

- Northwest Florida Water Management District
- St. Johns River Water Management District
- South Florida Water Management District
- Southwest Florida Water Management District
- Suwannee River Water Management District

Other. Additional discretely presented component units of the state include various foundations and not-for-profit organizations. The fiscal year-ends of these component units may vary. Component units included in this category are:

Non-major:

- Commission for Florida Law Enforcement Accreditation, Inc.*
- Enterprise Florida, Inc.
- Florida Agricultural Museum*
- Florida Agriculture Center and Horse Park Authority*
- Florida Agriculture in the Classroom, Inc.*
- Florida Birth-Related Neurological Injury Compensation Plan
- Florida Board of Governors Foundation, Inc.*
- Florida Concrete Masonry Education Council*
- Florida Corrections Accreditation Commission, Inc.*
- Florida Education Foundation, Inc.*
- Florida Education Fund, Inc.
- Florida Fund for Minority Teachers, Inc.*
- Florida Healthy Kids Corporation
- Florida Is For Veterans, Inc.*
- Florida Mobile Home Relocation Corporation*
- Florida Patient's Compensation Fund
- Florida State Fair Authority
- Florida Telecommunications Relay, Inc.*

- Florida Tourism Industry Marketing Corporation, Inc.
- Florida Veterans Foundation, Inc.*
- Florida Virtual School
- Forestry Arson Alert Association, Inc.*
- Friends of Florida State Forests, Inc.*
- Higher Educational Facilities Financing Authority
- Prison Rehabilitative Industries and Diversified Enterprises, Inc. (PRIDE)
- South Florida Regional Transportation Authority
- The Florida College System Foundation, Inc.*
- The Florida Endowment Foundation for Vocational Rehabilitation, Inc.
- Triumph Gulf Coast, Inc.
- Wildlife Alert Reward Association*
- Wildlife Foundation of Florida, Inc.*

* The state's financial statements do not include amounts relating to several component units. The assets and revenues relating to these component units totaled \$112 million and \$35 million, respectively. These amounts represent less than one percent of total aggregate component unit assets and revenues.

Joint Ventures

A joint venture is an organization that results from a contractual arrangement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain (1) an ongoing financial interest or (2) an ongoing financial responsibility. Financial data for the state's joint ventures are not included in its statements. The state's joint ventures include the following:

Apalachicola-Chattahoochee-Flint River Basin (ACFRB) Commission. Section 373.69, F.S., provided for the creation of an interstate administrative agency to promote interstate comity, remove causes of present and future controversies, equitably apportion the surface waters of the ACFRB, and engage in water planning. Operational funding required by the Commission is equally shared among the party states.

Board of Control for Southern Regional Education. Section 1000.32, F.S., promotes the development and maintenance of regional education services and facilities in the southern states to provide greater educational advantages and facilities for the citizens in the region. The states established a joint agency called the Board of Control for Southern Regional Education to submit plans and recommendations to the states from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation, and maintenance of educational facilities in the region.

Regional Planning Councils. Sections 186.501 through 186.513, F.S., the "Florida Regional Planning Council Act," provide for the creation of regional planning agencies to assist local governments in resolving their common problems. The regional planning councils are designated as the primary organizations to address problems and plan solutions that are of greater-than-local concern or scope. Participants in these councils are required by statutes to contribute to the support of these programs.

Southern States Energy Compact. Section 377.711, F.S., enacted this compact into law joining the State of Florida and other states to recognize that the proper employment and conservation of energy, and the employment of energy-related facilities, materials, and products can assist substantially in the industrialization of the South and the development of a balanced economy in the region. The State of Florida appropriates funds to support Florida's participation in the compact.

Interstate Commission of Nurse Licensure Compact Administrators. Section 464.0095, F.S., enacted this compact into law joining the State of Florida and other states with the general purpose to facilitate the states' responsibility to protect the public's health and safety with regard to nurse licensure and regulation. This compact is additionally purposed with facilitating the exchange of information among party states in the areas of nurse regulation, investigation, and adverse actions, promote compliance with the laws governing the practice of nursing, and decrease redundancies in the consideration and issuance of nurse licenses.

Related Organizations

Organizations for which the state is accountable because the state appoints a voting majority of the board, but for which the state is not financially accountable, are deemed "related organizations." The state's related organizations include certain transportation authorities, hospital districts, port authorities, aviation authorities and a financing corporation. The state is not financially accountable for any of these organizations; therefore, applicable financial data is not included in the state's financial statements.

Contact

Financial statements of the component units that issue separate statements and other financial statement-related information may be obtained from:

Department of Financial Services
Bureau of Financial Reporting
Statewide Financial Reporting Section
200 East Gaines Street
Tallahassee, Florida 32399-0364
Telephone: (850) 413-5511
Department Website: <http://www.myfloridacfo.com>

Joint ventures may be contacted directly for their financial statements.

B. Basic Financial Statements

The state's financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by GASB. The basic financial statements of the state, including its component units, are presented in the required format discussed below.

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from its discretely presented component units.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable to a specific function. Some functions may include administrative overhead that is essentially indirect expenses of other functions. The state currently does not allocate those indirect expenses to other functions. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; (2) grants and contributions that are restricted to meeting the operational requirements of a particular function; and (3) grants and contributions that are restricted to meeting the capital requirements of a particular function. Taxes and other items not included in program revenues are reported in general revenues.

Fund Financial Statements

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

C. Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned, while expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual, generally when they are both measurable and available. Revenues collected within 60 days of the end of the current fiscal year are considered available, with the exception of certain tax revenues, which are considered available when collected within 30 days of year-end. For governmental funds, certain long-term liabilities, such as compensated absences, due within 60 days of the end of the current fiscal year are expected to be liquidated with expendable financial resources and are recognized within the applicable governmental fund. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures for insurance and similar services extending over more than one fiscal year generally are accounted for as expenditures of the fiscal year of acquisition. Further, principal and interest on general long-term debt are recognized when due.

D. Basis of Presentation

Major Funds

GASB Codification Section 2200, *Comprehensive Annual Financial Report*, sets forth minimum criteria (percentage of the total assets and deferred outflows of resources, total liabilities and deferred inflows of resources, revenues, or expenditures/expenses for either fund category or the governmental and enterprise funds combined) for the determination of major funds. GASB Codification Section 2200 further requires that the reporting government's main operating fund (the General Fund) always be reported as a major fund. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The non-major funds are combined in a column in the fund financial statements and detailed in the combining statements. The state reports the following major funds:

Major Governmental Funds

General Fund – a fund that accounts for the financial resources of the state, except those required to be accounted for in another fund. This is the state's primary operating fund.

Natural Resources, Environment, and Growth Management – a special revenue fund that accounts for the operations of various programs such as air pollution control, water quality assurance, ecosystem management, and marine resources conservation. Transfers from other funds, pollutant tax collections, and federal grants are its major sources of revenue. Prior to 6/30/2018, this fund was reported as the Environment, Recreation, and Conservation Fund.

Public Education – a special revenue fund that includes funds used to operate education-related programs. Significant sources of revenue for this fund are federal grants, transfers from the Florida Lottery, and utility taxes.

Health and Family Services – a special revenue fund that includes funds used to operate various health and family service-related programs such as health care, elder affairs, and public assistance. Federal grants are the predominant sources of revenue for this fund.

Transportation – a special revenue fund that accounts for the maintenance and development of the state highway system and other transportation-related projects. It accounts for federal grants, motor fuel and aviation fuel taxes, automobile registration fees, and other revenues that are used for transportation purposes.

Major Business-type Funds

Transportation – an enterprise fund that primarily accounts for operations of Florida's Turnpike System.

Lottery – an enterprise fund that accounts for state lottery operations, which include sale of lottery tickets, payment of lottery prizes, and transfers to the Educational Enhancement Trust Fund.

Florida Hurricane Catastrophe Fund – an enterprise fund that accounts for operations of the Florida Hurricane Catastrophe Fund, which was created to help cover insurers' losses in the event of a hurricane disaster.

Prepaid College Program – an enterprise fund that accounts for payments from purchasers of the Florida Prepaid College Program. This program was created to provide a medium through which the cost of state post-secondary education may be paid in advance of enrollment at a rate lower than the projected corresponding costs at the time of enrollment.

Reemployment Assistance – an enterprise fund that accounts for contributions, benefit payments, grants, loans, and investments for the Unemployment Compensation Fund, which was created to pay reemployment assistance benefits to eligible individuals.

Fund Types

Additionally, the state reports the following fund types:

Internal Service Funds

These proprietary-type funds are primarily used to report activities that provide goods or services to other funds or agencies within the state, rather than to the general public. Internal service funds are classified into the following categories:

- **Employee Health and Disability** – includes funds that account for state employees' health and disability plans.
- **Data Centers** – includes funds that account for services provided by data processing centers operated by various agencies.

- **Communications and Facilities** – includes funds that primarily account for services provided by the Department of Management Services such as those related to the construction, operation, and maintenance of public facilities, and management and operation of the SUNCOM (state communication) Network.
- **Other** – includes funds that account for services provided to other state agencies such as legal services, records management, and community services (inmate work squads).

Fiduciary Fund Types

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and, therefore, cannot be used to support the state's own programs.

Private-Purpose Trust Funds – funds that are used to report trust arrangements under which principal and income benefit individuals, private organizations, or other governments including funds accounting for unclaimed property, federally guaranteed higher education loans, contributions to a college savings plan, and various others.

Pension and Other Employee Benefits Trust Funds – funds that are used to report resources that are required to be held in trust for the members and beneficiaries of the state's pension plans and other employee benefit plans.

Agency Funds – funds that are used to report resources held by the state in a purely custodial capacity. For example, these funds account for asset and liability balances related to retiree health care, taxes collected and held by the Department of Revenue for other entities, and student funds held by the Florida School for the Deaf and the Blind.

Investment Trust Funds – funds that are used to report the external portion of investment pools reported by the state.

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position/Fund Balance

Cash and Cash Equivalents

The state's cash includes cash on hand and on deposit in banks, including demand deposits, certificates of deposit, and time deposits. Most deposits are held by financial institutions qualified as public depositories under Florida law. Cash equivalents are short-term, highly liquid investments. For the purposes of GASB Codification Section 2450, *Cash Flows Statements*, pooled investments with the State Treasury are considered cash equivalents. Details of deposits are included in Note 2.

Investments

Florida Statutes authorize the state to invest in various instruments. The state reports investments in accordance with GASB Codification Section I50, *Investments*.

Investments with the State Treasury are reported at fair value which is obtained from independent pricing service providers. Independent pricing service providers use quoted market prices when available and employ various, sometimes proprietary, multifactor models for determining a security's fair value if it is not available from quoted market prices. Some securities, including U.S. government, municipal bonds, and mortgage-backed and asset-backed securities, are priced using evaluated bid prices. Evaluated bid prices are determined by taking bid prices and adjusting them by an evaluated adjustment factor derived from the independent pricing service's multifactor model. If values are not available using the above methods, secondary methods such as non-evaluated mid-price and bid price are used. If no source of values is available, cost or last available price from any source is used, or other pricing methodology as directed by the State Treasury.

Investments managed by the State Board of Administration (SBA) are reported in various funds. Investments of the Debt Service Escrowed Fund, which meet the requirements of a legal or in-substance defeasance, are reported at cost. Investments of the Local Government Surplus Funds Trust Fund are reported based on amortized cost. Other investments managed by the SBA, including those related to the state's defined benefit and defined contribution pension plans, are reported at fair value at the reporting date.

For SBA-managed investments, fair values are obtained or estimated in accordance with the Global Pricing Guidelines established with the SBA's custodian, BNY Mellon Bank. BNY Mellon Bank uses a variety of independent pricing vendors and designates certain vendors as the primary source based on asset type, class or issue. BNY Mellon Bank monitors prices supplied by primary sources and may use a supplemental price source or change the primary price source if any of the following occurs:

- The price of a security is not received from the primary price source.
- The primary price source no longer prices a particular asset type, class or issue.
- The SBA or its portfolio investment manager challenges a price and BNY Mellon Bank reviews the price with the vendor, who agrees that the price provided by that vendor may not be appropriate.

- The price from the primary source exceeds BNY Mellon Bank's price tolerance checkpoints and results in a vendor comparison review where another source is deemed to be more appropriate by the BNY Mellon Bank.

When a portfolio includes securities or instruments for which BNY Mellon Bank does not receive fair value information from its vendor price sources, BNY Mellon Bank uses a "non-vendor price source." Examples include, but are not limited to, limited partnerships or similar private investment vehicles that do not actively trade through established exchange mechanisms; other private placements where there is limited or no information in the market place; and unique fixed income and equity instruments. The SBA does not provide direction regarding the substitution of prices in such instances where securities or instruments are in the portfolio of an investment manager appointed by the SBA. In such cases where the SBA directed the purchase of such securities or instruments, BNY Mellon may obtain the non-vendor prices by contacting the SBA only if it is not commercially reasonable to directly obtain the non-vendor price information from the broker of record, as identified by the SBA.

For private market investments, where no readily ascertainable market value exists (including limited partnerships, hedge funds, directly-owned real estate, and real estate pooled funds), fair values for the individual investments are based on the net asset value (capital account balance) at the closest available reporting period, as communicated by the general partner and/or investment manager, adjusted for subsequent contributions and distributions. The valuation techniques vary based upon investment type and involve a certain degree of judgment. The most significant input into the net asset value of an entity is the value of its investment holdings. The net asset value is provided by the general partner and/or investment manager and reviewed by management.

Annually, the financial statements of all private market investments are audited by independent auditors. Private market investments in which the SBA has a controlling interest are also required to be valued annually by independent, licensed external appraisers selected by an appraisal management company retained by the SBA.

All derivative financial instruments are reported at fair value in the statements of net position. The instruments are adjusted to fair value at least monthly, with valuation changes recognized in investment earnings. Gains and losses are recorded in the statements of changes in net position as "net increase (decrease) in fair market value" during the period.

Because of the inherent uncertainty of the valuation using pricing methodologies other than the quoted market prices, the estimated fair values may differ from the values that would have been used had a ready market existed.

Investment detail is included in Note 2.

Inventories

Inventories primarily consist of expendable supplies. Inventories are recorded according to the consumption method as expenditures when consumed. At the end of the fiscal year, inventory is reported as an asset and identified in fund balance as non-spendable. The method used to determine the cost of inventories varies by agency responsible for the inventories.

Capital Assets

Capital assets are real, personal, and intangible property that have a cost equal to or greater than an established capitalization threshold and have an estimated useful life extending beyond one year. For additional information, refer to Note 5.

Deferred Outflows of Resources

A consumption of net assets by the government that is applicable to a future reporting period is presented as a deferred outflow of resources.

Long-term Liabilities

Refer to Note 6 for information on pension and other postemployment benefit (OPEB) liabilities; Note 8 for information on bonds payable and certificates of participation; Note 9 for information on installment purchases, capital leases, and public-private partnership agreements; and Note 10 for changes in long-term liabilities.

Compensated Absences Liability

Employees earn the right to be compensated during absences for vacation and illness, as well as, for unused special compensatory leave earned for hours worked on legal holidays and other specifically authorized overtime. Compensated absences for annual leave are recorded as a liability when the benefits are earned. Compensated absences for sick leave are calculated based on the vesting method. Within the limits established by law or rule, the value of unused leave benefits will be paid to employees upon separation from state service. The amounts reported for compensated absences are based on current year-end salary rates and include employer Social Security and Medicare tax and pension contributions at current rates.

Deferred Inflows of Resources

A deferred inflow of resources is an acquisition of net assets by the government that is applicable to a future reporting period.

Components of Net Position

The government-wide statement of net position classifies net position into the following categories: (1) net investment in capital assets, (2) restricted, and (3) unrestricted. The “net investment in capital assets” component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. “Restricted” net position is reported when constraints are placed on net position that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. “Unrestricted” net position consists of net position that does not meet the definition of “restricted” or “net investment in capital assets.” When both restricted and unrestricted resources are to be used for the same purpose, the agency responsible for administering the resources determines the flow assumption used to identify the portion of expenses paid from restricted resources. At June 30, 2019, the government-wide statement of net position reported a restricted net position of \$28.9 billion, of which \$15.2 billion is restricted by enabling legislation.

Components of Fund Balance

Nonspendable fund balance includes amounts that cannot be spent. This includes activity that is not in a spendable form such as inventories, prepaid amounts, and long-term portion of loans and notes receivable, net, unless the proceeds are restricted, committed or assigned. Additionally, activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund, is considered to be nonspendable.

Restricted fund balance has constraints placed upon the use of the resources either by an external party, such as the Federal Government, or imposed by law through a constitutional provision or enabling legislation.

Committed fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the state’s highest level of decision-making authority, the Legislature and the Governor, i.e. through legislation passed into law. Commitments may only be modified or rescinded by equivalent formal, highest-level action.

Unassigned fund balance is the residual amount of the General Fund not included in the three categories described above. Also, any remaining deficit fund balances within the other governmental fund types are reported as unassigned.

When an expenditure is incurred for purposes for which both restricted and unrestricted resources are available, it is the state’s general policy to use restricted resources first. When expenditures are incurred for which unrestricted (committed or unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the state’s general policy to spend committed resources first. However, the agency responsible for administering the resources determines the flow assumption used to identify the portion of expenses paid from restricted resources.

Fund Balances Classifications and Special Revenue by Purpose – GASB Codification Section 2200, *Comprehensive Annual Financial Report*, requires presentation of governmental fund balances and special revenue fund revenues by specific purpose. In the basic financial statements, the fund balance classifications are presented in the aggregate. The table presented below displays further detail of nonspendable fund balance and appropriation of resources existing at June 30, 2019 (in thousands).

	General Fund	Natural Resources, Environment, and Growth Management	Public Education	Health and Family Services	Transportation	Nonmajor Governmental Funds	Total
Fund balances:							
Nonspendable:							
Inventory and Prepaid Items	\$ 10,930	\$ 767	\$ —	\$ 36,787	\$ 7,234	\$ 2,836	\$ 58,554

Section 215.32(2)(b)4.a., F.S., provides that the unappropriated cash balances from selected trust funds may be authorized by the Legislature for transfer to the Budget Stabilization Fund and the General Revenue Fund through the General Appropriation Act. The amounts indicated below were identified in the State's 2019 General Appropriations Act as being unappropriated June 30, 2019, cash balances that are to be transferred to and from the funds indicated during the 2019-20 fiscal year (in thousands).

	General Fund	Natural Resources, Environment, and Growth Management	Public Education	Health and Family Services	Transportation	Nonmajor Governmental Funds	Total
Transfer to (from) Fund	\$ 152,000	\$ (70,000)	\$ —	\$ (58,500)	\$ —	\$ (23,500)	\$ —

Total	\$ 321,500	\$ (70,000)	\$ —	\$ (58,500)	\$ —	\$ (23,500)	\$ 169,500

F. Interfund Activity and Balances

The effect of interfund activities, except those between funds reported as governmental activities and funds reported as business-type activities, has been eliminated from the government-wide statements. In the fund financial statements, transfers represent flows of assets without equivalent flows of assets in return or a requirement for repayment. Transfers are recorded when a fund receiving revenue provides it to the fund which expends the resources. Transfers between funds are made to accomplish various provisions of law.

Interfund receivables and payables have been eliminated from the statement of net position, except for the residual amounts due between governmental and business-type activities.

For additional information, refer to Note 11.

G. Nonmonetary Transactions

The state participates in various activities that are, in part, represented by nonmonetary transactions. Examples include nonmonetary assistance in the form of Federal grants, such as vaccines, Electronic Benefit Transfer cards for food assistance, and donated food commodities. The state also acts as an agent for the United States Department of Agriculture in the distribution of donated food commodities to qualifying organizations outside the state's reporting entity. The fair value of these items is reported in the governmental fund financial statements.

State Attorneys and Public Defenders of the State of Florida are furnished certain office space and other services by counties under the provisions of Chapter 29, F.S. Some counties also provide certain facilities and services to other officers and staff of the judicial branch. The value of the facilities and services provided by the counties is not reported as revenue.

H. Operating and Non-Operating Revenues

Proprietary funds distinguish operating from non-operating revenues. Operating revenues are typically derived from providing goods or services, and include all transactions involved in delivering those goods or services. These revenues are a direct result of exchange-type transactions associated with the principal activity of the fund. Cash flow resulting from capital and related financing, noncapital financing and investment activities are considered non-operating for reporting purposes.

I. Accounting and Reporting Changes

The state implemented GASB Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement.

The state implemented GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. This Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

Effective July 1, 2018, certain State Universities component units, which had previously reported under the Financial Accounting Standards Board (FASB) standards of accounting and financial reporting for not-for-profit organizations, transitioned to GASB standards of accounting and financial reporting as a result of Chapter 2018-004, Laws of Florida.

J. Net Position Reclassifications and Restatements

Net position at June 30, 2018 have been adjusted as follows (in thousands):

	<u>Component Units</u>		
	<u>Governmental Activities</u>	<u>University of Florida</u>	<u>Nonmajor Component Units</u>
Net Position, June 30, 2018, as previously reported	\$ 62,495,258	\$ 5,735,558	\$ 26,327,879
To increase net position as a result of corrections removing duplicative pension entries.	1,580		
To increase net position as a result of corrections to prior year ending construction work in progress.	41,379		
To decrease net position due to conversion from FASB to GASB.		(82,776)	(116,424)
To decrease net position as a result of the implementation of GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions".			(28,629)
To decrease net position as a result of the implementation of GASB Statement No. 81, "Irrevocable Split-Interest Agreements".			(342)
To decrease net position as a result of the implementation of GASB Statement No. 87, "Leases".			(373)
To decrease net position due to pension adjustments.			(573)
Net Position, June 30, 2018, as restated	<u>\$ 62,538,217</u>	<u>\$ 5,652,782</u>	<u>\$ 26,181,538</u>

K. Budget Stabilization Fund

The State Constitution mandates the creation and maintenance of a Budget Stabilization Fund, in an amount not less than 5 percent nor more than 10 percent of the last complete fiscal year's net revenue collections for the General Revenue Fund. Monies in the Budget Stabilization Fund may be transferred to the General Revenue Fund to offset a deficit therein or to provide emergency funding, including payment of up to \$38 million with respect to certain uninsured losses to state property. Monies in this fund are constitutionally prohibited from being obligated or otherwise committed for any other purposes, in accordance with Section 216.222, F.S. Any withdrawals from the Budget Stabilization Fund must be restored from general revenues in five equal annual installments, commencing in the third fiscal year after the expenditure, unless the Legislature establishes a different restoration schedule, in accordance with Section 215.32, F.S.

The Budget Stabilization Fund had \$1.48 billion in cash at June 30, 2019. During fiscal year 2018-19, the General Revenue Fund was authorized to transfer \$66.5 million to the Budget Stabilization Fund. There were no disbursements made from the fund.

NOTE 2 - DEPOSITS AND INVESTMENTS**A. Deposits**

At June 30, 2019, the state's deposits in financial institutions totaled approximately \$2.3 billion for primary government and \$2.0 billion for discretely presented component units.

1. Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the state will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The state mitigates custodial credit risk by generally requiring public funds to be deposited in a bank or savings association that is designated by the Chief Financial Officer (CFO) as authorized to receive deposits in the state and meets the collateral requirements as set forth in Chapter 280, Florida Statutes (F.S.).

The CFO determines the collateral requirements and collateral pledging level for each Qualified Public Depository (QPD) following guidelines outlined in Section 280.04, F.S., and Department of Financial Services Rules, Chapter 69C-2, Florida Administrative Code. Collateral pledging levels include 25, 50, 110, and 150 percent of a QPD's average daily deposit balance, or, if needed, an amount as prescribed by the CFO. Section 280.13, F.S., outlines eligible types of collateral including direct obligations of the United States (U.S.) Government, federal agency obligations fully guaranteed by the U.S. Government, certain federal agency obligations, state and local government obligations, corporate bonds, and letters of credit issued by a Federal Home Loan Bank. Also, with the CFO's permission, eligible collateral includes collateralized mortgage obligations, real estate mortgage investment conduits and securities or other interests in any open-end management investment company registered under the Investment Company Act of 1940. However, the portfolio of the investment company must be limited to direct obligations of the U.S. Government and to repurchase agreements fully collateralized by such direct obligations of the U.S. Government, and the investment company must take delivery of such collateral either directly or through an authorized custodian.

In accordance with Section 280.08, F.S., if a QPD defaults, losses to public depositors are first satisfied with any applicable depository insurance, followed by demands of payment under any letters of credit or sale of the defaulting QPD's collateral. If necessary, any remaining losses are to be satisfied by assessments against the other participating QPDs according to a statutory based ratio.

At June 30, 2019, the following deposits were not secured pursuant to Chapter 280, F.S., and were exposed to custodial credit risk because they were uninsured and (1) uncollateralized, (2) collateralized with securities held by the pledging financial institution, or (3) collateralized with securities held by the pledging financial institution's trust department or agent but not in the state's name (in thousands).

**Schedule of Deposits with State Treasury
Exposed to Custodial Credit Risk
As of June 30, 2019**

Custodial Credit Risk	Bank Statement Balance (in U.S. \$)	
	Primary Government	Component Units
(1)	\$ 1,085,178	\$ 462,212
(2)	10,523	229,730
(3)	—	9,132
Total deposits subject to custodial credit risk	<u>\$ 1,095,701</u>	<u>\$ 701,074</u>

2. Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of a deposit. Under Section 215.47, F.S., and subject to the limitations and conditions of the State Constitution or of the trust agreement relating to a trust fund, moneys available for investment by the State Board of Administration (SBA) may be invested in fixed income obligations or stocks denominated in foreign currency. The SBA has developed total fund investment policies for the investment of assets in the Florida Retirement System (FRS) Pension Trust Fund and the Lawton Chiles Endowment Fund (LCEF) that set ranges on investments by asset class in each fund. Under the FRS Pension Trust Fund and LCEF investment policy statements approved by SBA Trustees effective July 1, 2018, and June 17, 2014, respectively, foreign and domestic equity securities are included in the global equity

asset class. The FRS Pension Trust Fund and LCEF have target allocations to global equities of 53% and 71%, respectively, with policy ranges from 45-70% for FRS and 61-81% for LCEF, but within these ranges there are no limits on the amount of foreign equity securities that are denominated in foreign currency. The FRS Pension Trust Fund is not limited to holding securities in foreign currency only in the global equity asset class. All asset classes may hold non-U.S. securities, depending on portfolio guidelines. The Florida Prepaid Program's comprehensive investment plan limits investment in foreign equities to 25% of total equities, with the target for total equities to be 70% of the actuarial reserve. In all cases, Florida law limits the exposure to foreign securities held outside of commingled funds to 50% of the total fund. The investment plans may be modified in the future if the SBA or Florida Prepaid adopts changes. This investment activity in foreign investments resulted in deposits in foreign currency as of June 30, 2019, as illustrated in the following schedule (in thousands):

**Schedule of Investments with State Board of Administration
Foreign Currency Deposits Held As of June 30, 2019**

B. Investments

At June 30, 2019, the state's investments reported in governmental and business-type activities and fiduciary funds totaled \$252.6 billion, consisting of pooled investments with the State Treasury in the amount of \$26.1 billion and other investments in the amount of \$226.5 billion. The State Treasury also had holdings at June 30, 2019, of \$4.3 billion for discretely presented component units in total. These investments are not reported as part of the primary government and may be different from the amounts reported by some component units due to different reporting periods. Other investments for discretely presented component units, excluding those investments held by SBA, totaled \$22.8 billion.

Pooled Investments with the State Treasury

Unless specifically exempted by statute, all cash of the state must be deposited in the State Treasury. The State Treasury, in turn, keeps the funds fully invested to maximize earnings. In addition, the State Treasury may invest funds of any board, association, or entity created by the State Constitution, or by law. As a result, pooled investments with the State Treasury contains deposits from funds and component units of the reporting entity (internal portion) as well as deposits from certain legally separate organizations outside the reporting entity (external portion). The external portion of pooled investments with the State Treasury is reported in a governmental external investment pool.

Pooled investments with the State Treasury are not registered with the Securities and Exchange Commission. Oversight of the pooled investments with the State Treasury is provided by the Treasury Investment Council per Section 17.575, F.S. The authorized investment types are set forth in Section 17.57, F.S.

Redemptions are on a dollar in/dollar out basis adjusted for distributed income. The fair value of the pooled investments with the State Treasury is determined at fiscal year-end for financial reporting purposes. See Note 1E, Investments, for further detail on fair value.

The State Treasury does not contract with an outside insurer in order to guarantee the value of the portfolio, or the price of shares redeemed.

Per Section 17.61(1), F.S., the State Treasury shall invest all general revenue funds, trust funds, all agency funds of each state agency, and of the judicial branch. As a result, state agencies and the judicial branch are considered involuntary participants in pooled investments with the State Treasury. The total involuntary participation as of June 30, 2019, was \$24 billion or 79% of the pool.

At year-end, the condensed financial statements for the Investment Pool maintained by the State Treasury were as follows (dollars in thousands):

**Schedule of Pooled Investments with State Treasury

* The coupon rate in effect at June 30, 2019, is reported. If a security is discounted, the purchase yield is reported.

The State Treasury records, as an investment, funds credited to the state's account in the Federal Unemployment Compensation Trust Fund pursuant to Section 904 of the Social Security Act. The fund is drawn upon primarily to pay reemployment assistance benefits. This money is pooled with deposits from other states and is managed by the Federal Government. No disclosures can be made of specific securities owned.

The schedule below discloses the detail of the State Treasury holdings at fair value at June 30, 2019, as well as reconciliation to the basic financial statements (in thousands):

**Schedule of Pooled Investments with State Treasury
As of June 30, 2019**

Investment type	Fair Value
Commercial paper	\$ 235,880

* The SPIA Revolving Account is included as cash and cash equivalent by the agencies.

** This amount excludes the Florida Birth-Related Neurological Injury Compensation Association's (NICA) participation in Treasury's Short Term Investment Fund (STIF). NICA's portion represents less than a tenth of a percent of the total investments held at Treasury.

Other Investments

Other investments in various funds of the state are primarily managed by the SBA. The largest of these funds managed by the SBA is the FRS Pension Trust Fund (Defined Benefit Pension Fund), whose total investments represented 72.6% of total other investments at June 30, 2019. Investments in the FRS Investment Plan Trust Fund (Defined Contribution Pension Fund) represents 4.9% of total other investment, while investments in the Florida Hurricane Catastrophe Fund and the Florida Prepaid College Trust Fund represented another 6.9% and 6.6%, respectively, of total other investments. Section 215.47, F.S., allows the SBA to invest funds in a range of instruments, including security lending agreements, reverse repurchase agreements, and alternative investments (including limited partnerships and hedge funds).

The schedule below discloses other investments at fair value at June 30, 2019, as well as reconciliation to the basic financial statements (in thousands):

¹ Investments of the Local Government Surplus Funds Trust Fund are reported based on amortized cost which approximates fair value. See the Local Government Surplus Funds Trust Fund disclosure on page 78 to obtain investment details of the Local Government Surplus Funds Trust Fund. In addition, investments of the Debt Service Escrowed Fund, which meet the requirements of a legal or in-substance defeasance, are reported at cost.

² Refer to Note 2.B.6. for detailed information regarding derivatives.

Reconciliation to the basic financial statements (in thousands):

¹ The column for Component Units presents investments managed by SBA for Component Units. For presentation of all other investments for Component Units, see the Schedule of Other Investments For Discretely Presented Component Units.

² Other investments and Restricted investments for Governmental and Business-type activities include security lending collateral. Refer to Note 2 B Schedule of Other Investments and B(5) Schedule of Other Investments on Loan Under Security Lending Agreements for additional information.

³ Differences between participant balances posted and actual investments. Some Component Units have fiscal year ends other than the state's year end of June 30, 2019.

Certain investments included in the above schedule were pledged as collateral with the SBA's futures and swaps clearing counterparties. These investments are presented below (in thousands):

FRS Pension Trust Fund
Securities Pledged as Collateral for Futures and Swaps Contracts
As of June 30, 2019

Investment Type	Fair Value
U.S. guaranteed obligations	\$ 74,634
Federal agencies	13,450
Total	\$ 88,084

In addition, cash and foreign currency required to open futures and swap contracts (i.e. initial margin) in the FRS Pension Trust Fund may be pledged as collateral with the SBA's futures and swap counterparties. Pursuant to these types of contracts, and also pending foreign currency contracts and commitments to purchase (TBAs), the FRS Pension Trust Fund agrees to receive or pay to the counterparties an amount of cash equal to the daily fluctuation in the value of the contract. Such receivables and payables are known as variation margin. All initial and variation margin amounts held by counterparties, and the variation margins held by the FRS Pension Trust Fund as of June 30, 2019, are included in "Accounts receivable" and in "Accounts payable and accrued liabilities", respectively, on the Statement of Fiduciary Net Position. These amounts are presented in the table below (in thousands):

FRS Pension Trust Fund
Cash and Foreign Currency Pledged as Collateral for Futures and Swaps Contracts
As of June 30, 2019

	Fair Value
Margin receivable from counterparties:	
Futures contracts	\$ 16,116
Swap contracts	7,645
Foreign currency contracts	9,480
Commitments to purchase (TBAs)	371
Total margin receivable	\$ 33,612
Margin payable to counterparties:	
Futures contracts	30,649
Swap contracts	5,606
Commitments to purchase (TBAs)	556
Total margin payable	\$ 36,811

The FRS Pension Trust Fund also held short positions in investments at June 30, 2019. Short investment positions are reported as liabilities on the Statement of Fiduciary Net Position. The schedule below presents the short investment positions at fair value at June 30, 2019 (in thousands):

**FRS Pension Trust Fund
Short Investment Position
As of June 30, 2019**

<u>Investment Type</u>	<u>Fair Value</u>
U.S. guaranteed obligations	\$ (26,607)
Federal agencies	(197,452)
Total	<u>\$ (224,059)</u>

The SBA issued a separate report (financial statements and notes) pertaining to the Local Government Surplus Funds Trust Fund (an external investment pool) within the state's Investment Trust Fund for the period ended June 30, 2019. This report may be obtained from the Chief Operating & Financial Officer, State Board of Administration of Florida, 1801 Hermitage Boulevard, Suite 101, Tallahassee, Florida 32308, (850) 488-4406.

Component Units

The schedule below discloses other investments reported at fair value, as of June 30, 2019, for discretely presented component units and a reconciliation to the basic financial statements (in thousands). Those investments held with the State Treasury as of June 30, 2019, are excluded.

**Schedule of Other Investments
For Discretely Presented Component Units
As of June 30, 2019**

<u>Investment type</u>	<u>Fair Value</u>
Certificates of deposit	\$ 23,708
Commercial paper	31,453
Repurchase agreements	1,054
Money market funds	263,095
U.S. guaranteed obligations	3,638,068
Federal agencies	1,571,029
Domestic bonds & notes	7,165,462
International bonds & notes	785,252
Domestic stocks	1,219,166
International stocks	839,303
Real estate investments	89,955
Mutual funds	2,640,355
Investment agreements	4,500,153
Total other investments for all types	<u>\$ 22,768,053</u>
Reconciliation of fair value to the basic financial statements:	
Other investments	\$ 17,236,742
Restricted investments	6,722,177
Less SBA Investments*	<u>(1,190,866)</u>
Total other investment for component units	<u>\$ 22,768,053</u>

* Investment types for component units with investments held by SBA are disclosed on the Schedule of Other Investments on page 76.

At June 30, 2019, 61.29% of total other investments for discretely presented component units belonged to the following major component units: Florida Housing Finance Corporation, University of Florida, and Citizens Property Insurance Corporation.

1. Credit Risk and Concentration of Credit Risk of Debt Securities

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Concentration of credit risk is the risk of loss attributed to the magnitude of the state's investment in a single issuer.

Pooled Investments with the State Treasury

The State Treasury follows the investment guidelines set forth in Section 17.57, F.S., for reducing exposure to investment credit risk. The State Treasury's rated debt investments as of June 30, 2019, were rated by the nationally recognized statistical rating organizations (NRSRO) Standard and Poor's (S&P) and Moody's. S&P ratings were primarily used. If S&P did not rate a security, or if the Moody's rating was lower for a security, then Moody's ratings were used. The ratings are presented below using the applicable rating scale (in thousands):

State Treasury Credit Quality Ratings As of June 30, 2019

		<u>\$ 26,271,896</u>						

¹ The remaining \$4,060,087 (in thousands) reported for Pooled Investments with State Treasury is comprised primarily of investments with the U.S. Treasury Unemployment Compensation Funds Pool.

² Long-term ratings are presented except for "A-1," which is a short-term rating for S&P.

³ U.S. guaranteed obligations and collateral for repurchase agreements which are explicitly guaranteed by the U.S. government do not require disclosure of credit quality.

The State Treasury's investment policies allow for unlimited investments in U.S. obligations and certain Federal Agency obligations. For other investments, the investment policies address concentration of credit risk by placing limits on amounts invested per issuer (taking into account the maturity date and duration of the investment). In addition, the policies also address limits on certain investments by credit ratings. Limits on amounts invested are expressed in dollar amounts per issuer and also in total amounts per investment type as a percentage of the investment pool's market value. As of June 30, 2019, more than five percent of the State Treasury's investment pool is invested in the Federal National Mortgage Association (FNMA), Federal Home Loan Bank System (FHLB), and the Federal Home Loan Mortgage Corporation (FHLMC). These investments are approximately 8 percent, 10 percent, and 8 percent of the of the State Treasury's investments pool, respectively.

Other Investments

The SBA, in compliance with Section 215.47, F.S., has adopted certain investment policies with regard to credit risk of debt securities. Investment policies vary by fund or portfolio. Below are the investment policies and credit risk disclosures for the FRS Pension Trust Fund, which constitutes the primary portion of other investments.

FRS Pension Trust Fund – Investments are generally managed through individual portfolios within various asset classes, as listed below. Some of the individual portfolios have slightly different restrictions on credit quality.

Short-term Portfolio – Securities must be high quality at the time of purchase. For short-term investment ratings, this is defined as the highest applicable rating from one of the NRSROs. For long-term investment ratings, this is defined as a minimum mid-single A rating from one of the NRSROs. Securities of a single issuer are generally limited to 5% of the market value of the portfolio (excluding U.S. Treasuries and Agencies).

Generally, securities in other major portfolios, such as the Mortgage Index Portfolio, Intermediate Aggregate Less MBS Index Portfolio and the Core Portfolio, should be rated investment grade by at least one of the NRSROs at the time of purchase [allowing a very small allocation to below investment grade (down to BB-/Ba3) for the Core Portfolio]. Securities for a single issuer are generally limited to 5% of the fair value of the portfolio (excluding U.S. Treasuries and Agencies).

Mortgage Index Portfolio – Securities are generally limited to those issued by the Government National Mortgage Association (GNMA), FNMA, and FHLMC. No specific credit rating criteria are listed.

Intermediate Aggregate Less MBS Index Portfolio and the Core Portfolio – These portfolios allow U.S. Treasuries, U.S. Government agencies, corporates, mortgage and asset backed securities, foreign sovereign debt, and municipals.

Lending Portfolios – Under investment policy guidelines in effect for the FRS Pension Trust Fund, eligible cash collateral investments are:

- Tri-party qualified repurchase agreement transactions collateralized by U.S. Treasury bills, notes, bonds, and/or strips, U.S. Government Agency securities, U.S. Government Agency mortgage-backed securities, and U.S. equity securities. Collateral consisting of U.S. Treasury and Government Agencies must maintain a market value of at least 102% of the market value of the securities subject to being repurchased. Collateral consisting of U.S. equities must maintain a market value of at least 110% of the market value of the securities subject to being repurchased,
- Money market mutual funds regulated by SEC rule 2a-7 and rated the highest applicable rating by at least one NRSRO and
- U.S. Treasury bills, notes, and bonds.

Security lending investments that were purchased prior to the policy guidelines established in December 2008 are being held to maturity in existing lending portfolios.

Lawton Chiles Endowment Fund – Policy guidelines allow cash collateral to be invested only in tri-party repurchase agreements and certain government money market funds, similar to those allowed for the FRS Pension Fund.

Florida Prepaid College Program Lending Program – Short-term obligations should be limited to obligations rated in the highest rating category by all NRSROs or, if only rated by one NRSRO, rated at the time of purchase in the highest rating category by that NRSRO (S&PA-1, Moody's P-1, Fitch F1 or equivalent). A "short-term obligation" means any eligible security or instrument (other than a repurchase agreement) which has an original maturity of 397 days or less at the time of purchase or has a put that entitles the holder to receive the principal amount at specified intervals not exceeding 397 days. With respect to bonds and other long-term obligations, investment is limited to obligations backed by the United States Government and have a maximum maturity

of 762 days. A “long-term obligation” means any eligible security or instrument (other than a repurchase agreement) which has a remaining maturity of greater than 397 days at the time of purchase and is not subject to a demand feature in 397 days or less.

The FRS Pension Trust Fund did not hold any investments with a single issuer representing 5% or more of the fund’s fair market value at June 30, 2019. The schedule below discloses credit quality ratings on investments held in the FRS Pension Trust Fund at June 30, 2019 (in thousands):

**FRS Pension Trust Fund

¹ S&P ratings were primarily used. If S&P did not provide a rating or did not provide the rating with the greatest degree of credit risk, then Moody's ratings were used. If neither rating agency issued a rating, the security was listed as "Not rated." Long-term ratings are presented except for the ratings presented for commercial paper and money market funds.

² All FRS investments are included in this schedule, including security lending collateral investments.

³ U.S. guaranteed obligations and repurchase agreements collateralized by securities explicitly guaranteed by the U.S. Government do not require disclosure of credit quality.

⁴ Federal agency TBAs and mortgage-backed securities are classified as "Not Rated" because they do not have explicit credit ratings on individual securities.

All futures, options, and swaps contracts held by the FRS Pension Trust Fund at June 30, 2019, were exchange traded, therefore minimizing counterparty credit risk through the use of futures and swaps clearing merchants and clearing houses. The FRS Pension Trust Fund may enter into contracts that allow for close-out netting with certain counterparties. In the event of default or early termination, the contract permits the non-defaulting party the right to close-out all transactions in a single net settlement to one net amount payable by one counterparty to the other. The aggregate fair value of non-exchange traded derivatives subject to close-out netting totaled \$(4.9) million as of June 30, 2019.

Counterparty credit ratings related to credit risk for forward foreign currency exchange contracts held in the FRS Pension Trust Fund at June 30, 2019, are listed below (in thousands):

FRS Pension Trust Fund

¹ S&P ratings were primarily used. If S&P did not provide a rating or did not provide the rating with the greatest degree of credit risk, then Moody's ratings were used. If neither rating agency issued a rating, the security was listed as "Not rated." Long-term ratings are presented except for the ratings presented for commercial paper and money market funds.

² All investments are included in this schedule, including security lending collateral investments.

³ U.S. guaranteed obligations and repurchase agreements that are collateralized by securities explicitly guaranteed by the U.S. government do not require disclosure of credit quality.

The Florida Prepaid Investment Plan held investments with the FNMA (8.66%) in excess of 5% of the Florida Prepaid Investment Plan's fair value.

Component Units

Investment policies with regard to credit risk of debt securities vary from component unit to component unit. In addition, investment policies vary among Universities' direct support organizations. Investment policies may be obtained separately from component units. Presented below are reported credit quality ratings for debt securities of major component units (in thousands). Amounts shown below represent only that portion of debt investments required to be disclosed by component units reporting under the GASB reporting model.

**Major Component Units
Credit Quality Ratings

* State of Florida major component units do not have any investments subject to concentration of credit risk.

2. Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the state will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

Pooled Investments with the State Treasury

The State Treasury's custodial risk policy states that securities must be held in an account in the state's name. As required by negotiated trust and custody contracts, many of the state's investments were held in the state's name by the Treasury's custodial financial institution at June 30, 2019. Investments that were uninsured and unregistered, and held by the counterparty, or by its trust department but not in the State's name, included the following (in thousands):

**State Treasury
Custodial Credit Risk
As of June 30, 2019**

	<u>Fair value</u>
Invested security lending collateral:	
Repurchase agreements	\$ 289,441
Federal agencies	366,079
Bonds and notes - domestic	337,067
Bonds and notes - international	195,998
Total	<u>\$ 1,188,585</u>

Other Investments

The SBA's custodial credit risk policy states that custodial credit risk will be minimized through the use of trust accounts maintained at top tier third party custodian banks. To the extent possible, negotiated trust and custody contracts shall require that all deposits, investments, and collateral be held in accounts in the SBA's name, or in the case of certain foreign investments, in an omnibus client account, but separate and apart from the assets of the custodian banks. This policy applies to investments evidenced by cash or securities, and does not apply to investments evidenced by contractual agreements such as private equity or real estate investments. As required by negotiated trust and custody contracts, many of the state's investments were held in the state's name or in the case of certain foreign investments, in an omnibus client account, by the SBA's custodial financial institutions at June 30, 2019. Investments that were uninsured and unregistered, with securities held by the counterparty, or by its trust department, but not in the SBA's name, included the following (in thousands):

Total	<u>\$ 31,212</u>

3. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of debt investments.

Pooled Investments with the State Treasury

Through its investment policy, the State Treasury manages its exposure to interest rate risk by limiting either the maturities or durations of the various investment strategies used for the investment pool. The maximum effective weighted duration allowed is in the Long Duration portfolio: six (6) years or the benchmark's effective duration if higher. In addition, the security lending portfolio manages exposure to interest rate risk by limiting the maximum weighted average maturity gap. The maximum weighted average maturity gap is defined as the difference between the weighted average days to maturity of the portfolio minus the weighted average days to maturity of the liabilities (loans). The maximum weighted average maturity gap for security lending portfolios is 30 days.

Presented below is the interest rate risk table for the debt investments with the State Treasury (in thousands). Investment types related to debt portfolios are presented using effective weighted duration. Investment types related to the security lending collateral portfolio are presented using weighted average maturity.

**Debt Investments

***The futures contracts effective weighted duration was calculated using notional values rather than fair values.

Other Investments

The SBA manages its exposure to interest rate risk through various investment policies. Policies and interest rate risk disclosures for debt investments within the FRS Pension Trust Fund are presented below.

Investments authorized by Section 215.47, F.S., are managed through individual portfolios within various asset classes. The individual portfolios may have different policies regarding interest rate risk. Major types of debt portfolios are listed below.

Short-term Portfolio – Weighted average maturity to final maturity date (WAL) is limited to 120 days in the internally managed FRS Short-term Investment Pool (STIPFRS) portfolio and weighted average time to coupon reset (WAM) is limited to 60 days. For securities without a fixed interest rate, the next coupon reset date is used as the maturity for the reset WAM calculation. No individual security shall have a final maturity date longer than 397 days except for U.S. Treasury and Agency securities, which shall not exceed five years.

Mortgage Index Portfolio – Portfolio duration should be similar to the duration of the mortgage-related fixed income market and should remain within plus or minus 0.25 years of the Barclays Capital U.S. MBS Index duration. Swaps and/or Agency debentures may contribute no more than 25% of the portfolio's total duration.

Intermediate Aggregate Less MBS Index Portfolio – Portfolio duration should remain within plus or minus 0.25 years of the Barclays Capital U.S. Intermediate Aggregate Bond Index duration less the MBS Index component. Interest rate swaps and interest rate futures, on a net basis, may contribute no more than 25% of the portfolio's total duration.

Core Portfolios – Portfolio duration should remain within plus or minus 0.50 years of the Barclays Capital U.S. Intermediate Aggregate Bond Index duration. Interest rate swaps and interest rate futures may contribute no more than 25% of the portfolio's total duration.

The Core Portfolio contains certain investments, known as collateralized mortgage obligations (CMOs), which are more sensitive to interest rate changes than others. Examples of CMO securities that qualify as “highly interest rate sensitive” include interest-only (IOs), principal-only (POs), and inverse floaters (INVs). IO and PO securities are transactions that involve the separation of the interest and principal components of a security. They are highly sensitive to prepayments by mortgagors, which increase the value of a PO and decrease the value of an IO. INVs have an inverse relationship to a benchmark rate, and the coupon payment is adjusted as the interest rate changes. If the benchmark interest rate decreases, the coupon rate increases and vice versa, which allows the bondholder to benefit from declining interest rates. Similar to an IO, an interest-only inverse floater's value increases as interest rates rise.

Security Lending Portfolios – Investment policy guidelines in effect for the FRS Pension Trust Fund allow investment in:

- Tri-party qualified repurchase obligations, with a term to repurchase not to exceed 45 calendar days that are fully collateralized by U.S. Treasury bills, notes, bonds and/or strips, U.S. Government Agency securities, U.S. Government Agency mortgage-backed securities, and U.S. equity securities,
- Money market mutual funds regulated by SEC rule 2a-7, and
- U.S. Treasury bills, notes, and bonds maturing within 92 days or less.

Security lending investments that were purchased prior to the investment policy guidelines established in December 2008, are still held in the FRS Pension Trust Fund lending programs, but are slowly paying down. For investments that had floating interest rates, interest rate reset dates were used to calculate the WAM.

The LCEF allows investment of cash collateral only in overnight repurchase agreements that are fully collateralized by U.S. Government and/or agency securities, and in certain money market funds with a rating of AAAM, AAAMmf, or AAAMmf by S&P, Moody's or Fitch, respectively.

For the Florida Prepaid lending program, investment policy guidelines state that the maximum rate sensitivity is 60 days. The “rate sensitivity” of a security or instrument shall mean (a) in the case of a fixed rate security or instrument (i) the date on which final payment is due or (ii) the principal amount can be recovered through demand (if applicable) or (b) in the case of a floating or variable rate security or instrument, the shorter of the period of time remaining until either (i) the next readjustment of the interest rate or (ii) the principal amount can be recovered through demand (if applicable).

Presented in the following schedule is the interest rate risk table for the FRS Pension Trust Fund (in thousands). Investment types related to debt portfolios are presented using effective weighted duration. Investment types related to short-term and securities lending collateral portfolios are presented using weighted average maturity.

¹ Investments sold short are reported as liabilities on the Statement of Fiduciary Net Position.

Presented below are interest rate risk schedules for all debt-related investments managed by the SBA (excluding the FRS Pension Trust Fund), as of June 30, 2019 (in thousands). Certain investment types may be presented using two or more interest rate risk methods if the investment types are managed using different techniques. For example, if investments are purchased to match scheduled debt payments, to coincide with Lottery prize payouts, or are entirely client directed investments, the investments are presented using the segmented time distribution method. If investments are in a portfolio that contains weighted average maturity restrictions, the investments are presented using this method. If investments are subject to certain restrictions on duration, then that method is used. Individual investments are only included in one of the following three methods scheduled below.

Debt Investments Managed by SBA (except FRS Pension Trust Fund)
That Use Segmented Time Distribution Method

4. Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates that will adversely affect the fair value of an investment.

Pooled Investments with the State Treasury

The State Treasury does not have any investments in foreign currency. State law and investment policy do not authorize investments in foreign currency related to State Treasury investment operations.

Other Investments

The FRS Pension Trust Fund, the LCEF, and the Florida Prepaid College Program had exposure to foreign currency risk at June 30, 2019. These funds are managed primarily by the use of “asset classes”.

The FRS Pension Trust Fund investment policy, approved on June 13, 2018 (effective July 1, 2018), by the Trustees, limits the global equity asset class (including domestic and foreign equities) to a policy range of 45-70% and a target allocation of 53%. All asset classes may hold non-U.S. securities, depending on portfolio guidelines. Within the global equity asset class, the FRS Pension Trust Fund also holds units in commingled international equity funds. The FRS Pension Trust Fund owns only a portion of the overall investment in the funds, which are also owned by other investors. Exchange-traded funds (ETFs) are investment funds that hold assets such as stocks or bonds and are traded on the stock exchanges. Participatory notes (P-notes) allow the FRS Pension Trust Fund to participate in certain foreign equity markets where direct participation is not possible due to local government regulations, tax policies, or other reasons. The FRS Pension Trust Fund’s unit holdings in the overall investments or notes themselves may be valued in U.S. dollars, but a portion of the underlying assets are exposed to foreign currency risk in various currencies. Within the alternative investment asset class, the FRS Pension Trust owns an interest in several alternative investment commingled funds (primarily limited partnerships) with other investors and, therefore, owns only a portion of the overall investment in the funds. The alternative investment funds denominated in foreign currency are presented in the foreign currency risk table below by currency. For the alternative investment funds denominated in U.S. dollars, some of the underlying investments may be exposed to foreign currency risk in various currencies. Alternative investments with potential exposure to foreign currency risk totaled \$26.7 billion as of June 30, 2019.

For the LCEF, Trustees approved an investment policy on June 17, 2014, that set the global equity asset class with a policy range of 61-81% and a target allocation of 71%. Other asset classes in the LCEF may hold non-U.S. securities as well, depending on portfolio guidelines.

The Florida Prepaid Program’s comprehensive investment plan limits investment in foreign equities to 25% of total equities, with the target for total equities to be 70% of actuarial reserve.

In all cases, Florida law limits the total exposure to foreign securities outside of commingled funds to 50% of the total fund. There is no requirement that this exposure to foreign currency be hedged through forward currency contracts, although some investment managers use them in many cases.

Presented below in U.S. dollars are the FRS Pension Trust Fund investments exposed to foreign currency risk as of June 30, 2019, listed in total, by currency (in thousands).

In addition to the investments presented above, the FRS Pension Trust Fund holds positions in futures contracts that are subject to foreign currency risk. A futures contract is an agreement between two parties, a buyer and a seller, to exchange a particular good for a particular price at a particular date in the future, all of which are specified in a contract common to all participants in a market on an organized futures exchange. Upon entering into a futures contract, collateral is deposited with the counterparty, in the SBA's name, in accordance with the initial margin requirements of the counterparty. Futures contracts are marked to market daily by the board of trade or exchange on which they are traded. The resulting gain/loss is received/paid the following day until the contract expires. The frequency of cash flows depends upon specified collateral and margin limits mutually agreed upon by the SBA and the third-party counterparty. The margin payments are exposed to foreign currency risk. The FRS Pension Trust Fund's futures contract positions at June 30, 2019, that have exposure to foreign currency risk are presented below (values in thousands):

¹ Futures denominated in U.S. dollars are based on an index that converts the foreign issues to U.S. dollar equivalents at currency market exchange rates.

The FRS Pension Trust Fund also held positions in option contracts that are subject to foreign currency risk at June 30, 2019. An option gives the buyer a stipulated privilege of buying or selling a stated property, security, or commodity at a given price (strike price) within a specified time (for an American-style option, at any time prior to or on the expiration date). A securities option is a negotiable contract in which the seller (writer), for a certain sum of money called the option premium, gives the buyer the right to demand within a specified time the purchase (call) from or sale (put) to the option seller of a specified number of bonds, currency units, index units, or shares of stock, at a fixed price or rate, called the strike price.

¹ Currency options on a currency pair, that are denominated in U.S. dollars, are dependent on the exchange rate of the given foreign currency relative to the U.S. dollar.

The FRS Pension Trust Fund did not hold any positions in swap contracts that were exposed to foreign currency risk at June 30, 2019.

The FRS Pension Trust Fund, LCEF, and the Florida Prepaid Program and Investment Plan also enter into foreign currency exchange contracts which are agreements to exchange the currency of one country for the currency of another country at an agreed-upon price and settlement date. Currently, there are two types of foreign currency contracts being utilized by the FRS Pension Trust Fund. Spot currency contracts are used primarily for trade settlement and currency repatriation and are valued at spot (traded) currency rates. Forward currency contracts are valued at interpolated forward rates and may be used to mitigate currency risk for changes in value associated with foreign holdings, payables and/or receivables. On the Statement of Fiduciary Net Position, individual forward currency contract positions are recorded as net in Other investments, and spot currency contracts are recorded as receivables and payables. In addition, such contracts may be used to seek additional value independent of underlying equity assets. The LCEF and Florida Prepaid Plans currently utilize only spot currency contracts. All of the contracts are subject to foreign currency risk. A schedule of the FRS Pension Trust Fund's foreign currency exchange contracts outstanding at June 30, 2019, is presented below, by currency (in thousands):

Component Units

Component unit information regarding foreign currency risk was not readily available.

5. Security Lending

Pooled Investments with the State Treasury

Section 17.61(1), F.S., authorizes the State Treasury to participate in a security lending program. Agents of the State Treasury loan securities, including U.S. government and federally guaranteed obligations, bonds, and notes to broker/dealers for collateral with a simultaneous agreement to return the collateral for the same securities in the future. Collateral for loaned securities cannot be less than 100 percent of the fair value of the underlying security plus accrued interest. Such collateral may consist of cash or government securities. Cash collateral is invested by the agent in investments authorized by Section 17.57, F.S. Maturities of investments made with cash collateral generally are not matched to maturities of the securities loaned because security loan agreements are generally open-ended with no fixed expiration date. The collateral under security lending agreements (including accrued interest) exceeded the fair value of the securities underlying those agreements (including accrued interest) on June 30, 2019. If a situation occurs where an agent does not receive collateral sufficient to offset the fair value of any securities lent, or the borrowers fail to return the securities or fail to pay the State Treasury for income distributions by the securities' issuers while the securities are on loan, the agent is required to indemnify the State Treasury for any losses that might occur. The State Treasury received \$ 1,189,219,592 cash collateral and \$1,937,782,659 non-cash collateral for securities loaned to others. Since the State Treasury does not have the ability to pledge or sell non-cash collateral securities, any non-cash portion of the collateral is not reported on the balance sheet. Securities held with others under security lending agreements with cash collateral totaled \$1,157,009,469. Securities held with others under security lending agreements with non-cash collateral totaled \$1,889,211,786.

Security lending asset and liability balances are allocated at fiscal year-end and reported among all participating funds of the primary government.

The securities held with others under security lending agreements as of June 30, 2019, are as follows (in thousands):

**State Treasury Investments on Loan Under Security Lending Agreements
As of June 30, 2019**

Securities on Loan for Cash Collateral, by Security Type	Fair Value of Securities on Loan*
U.S. guaranteed obligations	\$ 678,350
Federal agencies	50,658
Bonds and notes - domestic	363,365
Bonds and notes - international	64,636
Total securities on loan for cash collateral	1,157,009
<hr/>	
Securities on Loan for Non-Cash Collateral, by Security Type	
U.S. guaranteed obligations	1,883,837
Bonds and notes - domestic	647
Bonds and notes - international	4,728
Total securities on loan for non-cash collateral	1,889,212
Total securities on loan	\$ 3,046,221

* The fair value equals the carrying value of the investments on loan.

Other Investments

Through the SBA, various funds, including the FRS Pension Trust Fund, the LCEF, and the Florida Prepaid College Program participate in security lending programs during the fiscal year ended June 30, 2019. Initial collateral requirements for securities on loan range from 100% to 105%, depending on the lending agent, the type of security lent and the type of collateral received. The SBA had received and invested \$2,668,946,859 in cash and \$15,278,498,020 in U.S. government securities as collateral for the lending programs as of June 30, 2019. At June 30, 2019, the collateral held for the security lending transactions exceeded the fair value of the securities underlying the agreements (including accrued interest) except with three borrowers in the LCEF totaling \$1,346. Most security lending programs have indemnity clauses requiring the lending agent to assume borrower's risk from default. The FRS Pension Trust Fund also participated indirectly in security lending through investments in four commingled funds that do not offer borrower indemnification. The Fund receives a proportionate share of the security lending income generated from these activities. The SBA does not have the ability to pledge or sell the non-cash collateral securities, so the non-cash portion is not reported on the balance sheet or the Statement of (Fiduciary) Net Position. Maturities of investments made with cash collateral generally are not matched to maturities of the securities loaned-because security loan agreements are generally open-ended with no fixed expiration date. As such, investments made with cash collateral are primarily in short-term investments. However, investments purchased for some security lending programs included investments with final maturities of six months or more representing a range of approximately 10% to 47% of total collateral invested. There are no restrictions on the amount of securities that can be loaned at one time to one borrower for most funds.

At June 30, 2019, the collateral re-investment portfolios for the FRS Pension Trust Fund and the LCEF were primarily reinvested in repurchase agreements (repos) or selected money market funds in order to maximize earnings and reduce risk. The portfolios contain some legacy non-repo securities that will remain until they are either sold or mature. At June 30, 2019, there were four lending agents, including the two master custodians and two third-party agents.

The schedule below discloses the fair value and carrying value of investments on loan at June 30, 2019 (in thousands):

**Schedule of Other Investments on Loan Under Security Lending Agreements
As of June 30, 2019**

¹ The fair value of debt securities on loan includes accrued interest.

6. Derivatives

A derivative instrument is defined as a financial instrument or other contract that has all of the following characteristics:

- a. Settlement factors – It has (1) one or more reference rates and (2) one or more notional amounts or payment provisions or both. These terms determine the amount of the settlement or settlements and, in some cases, whether or not a settlement is required.
- b. Leverage – It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- c. Net Settlement – Its terms require or permit net settlement, it can readily be settled net by a means outside the contract, or it provides for delivery of an asset that puts the recipient in a position not substantially different from net settlement.

Derivative instruments consisted of futures, options, forward currency contracts, and swaps.

Pooled Investments with the State Treasury

Pursuant to the State Treasury's established investment policy guidelines, interest rate futures are used as part of the investment strategy related to interest rate risk, duration adjustments, and yield curve strategies. Although put and call options on any security are permitted under the State Treasury's investment guidelines, interest rate futures were the only type of derivative held as of June 30, 2019. The State Treasury did not utilize derivatives for hedging activities during the fiscal year ending June 30, 2019. All of the State Treasury investment derivatives were reported at fair value in the accompanying financial statements as of June 30, 2019.

A summary of investment derivatives traded in the State Treasury is presented below (in thousands):

	Notional (in U.S. \$)	Changes in Fair Value		Fair Value at June 30, 2019

Investment derivative instruments:					
Futures	\$ (978,800)	Investment Income	\$ (3,475)	Receivable/(Payable)	\$ (1,047)

This schedule includes both long and short positions.

See section 1E of Note 1 to these financial statements regarding State Treasury's securities pricing policies and independent pricing services methodologies related to securities not available on quoted market pricing exchanges.

Other Investments

The SBA has established investment policy guidelines for each investment portfolio. Pursuant to these guidelines, derivative investment instruments are authorized to be used as tools for managing risk or executing investment strategies more efficiently than could otherwise be done in cash markets, and may only be used as part of a prudent investment process. Various derivative investment instruments are used as part of the investment strategy to hedge against interest rate risk, currency risk in foreign markets, default risk, and mortgaged-backed security prepayment risk, and to effectively manage exposure to domestic and international equities, bonds, and real estate markets.

A futures contract is an agreement between a buyer and a seller to exchange a particular good for a particular price at a particular date in the future, all of which are specified in a contract common to all members in a market on an organized futures exchange. Upon entering into a futures contract, collateral (cash and/or securities) is deposited with the counterparty, in SBA's name, in accordance with the initial margin requirements of the counterparty. Futures contracts are marked to market daily by the board of trade or exchange on which they are traded. The resulting gain/loss is received/paid the following day until the contract expires. The frequency of cash flows depends on specified collateral and margin limits mutually agreed upon by the SBA and third-party counterparty. Future contracts involve, to varying degrees, risk of loss in excess of the variation margin disclosed in the Statement of Fiduciary Net Position. Losses may arise from future changes in the value of the underlying instrument.

An option gives the buyer a stipulated privilege of buying or selling a stated property, security, or commodity at a given price (strike price) within a specified time (for an American-style option, at any time prior to or on the expiration date). A securities option is a negotiable contract in which the seller (writer), for a certain sum of money called the option premium, gives the buyer the right to demand within a specified time the purchase (call) from or sale (put) to the option seller of a specified number of bonds, currency units, index units, or shares of stock, at a fixed price or rate, called the strike price.

A forward currency contract is a contractual obligation, typically over-the-counter, traded between two parties to exchange a particular good or instrument (i.e., currency) at a set price on a future date. The buyer of the forward agrees to pay the price and take delivery of the good or instrument and is said to be "long" the forward contract, while the seller of the forward, or "short", agrees to deliver the good or instrument at the agreed price on the agreed date.

A swap is a contractual agreement to exchange a stream of periodic payments utilizing a central clearing house, whereby, each party in the transaction enters into a contract with the central counterparty. These agreements may be over-the-counter or exchange-traded. Upon entering into a swap contract through a clearing house, collateral is deposited with the counterparty, in SBA's name, in accordance with the initial margin requirements of the counterparty. Swaps are available in and between all active financial markets. Examples include:

Interest rate swap – An agreement between two parties where one stream of future interest payments is exchanged for another based on a specified principal amount. Interest rate swaps often exchange a fixed payment for a floating payment that is linked to an interest rate.

Credit default swap – An agreement that allows one party to "buy" protection from another party for losses that might be incurred as a result of default by a specified reference credit (or credits). The "buyer" of protection pays a premium for the protection, and the "seller" of protection agrees to make a payment to compensate the buyer for losses incurred if a defined credit event occurs.

A summary of investment derivatives traded in the FRS Pension Trust Fund is presented below. As of June 30, 2019, all of the SBA investment derivatives were reported at fair value (in thousands).

	Notional (in U.S. \$)	Increase/(Decrease) in Fair Value		Fair Value at June 30, 2019	
		Classification	Amount (in U.S. \$)	Classification	Amount (in U.S. \$)

Futures (equity) ¹	\$ —	Investment Income	\$ (13)	Investment	\$ —

¹The Florida Prepaid Investment Plan traded equity futures during the fiscal year, but held no positions at June 30, 2019.

7. Commitments

Each year the FRS Pension Trust Fund enters into a number of agreements that commit the Fund, upon request, to make additional investment purchases (i.e., capital commitments) up to predetermined amounts over certain investment time periods. The unfunded capital commitments for private equity, real estate and strategic investments not reported on the FRS Pension Trust Fund Statement of Fiduciary Net Position totaled \$14.0 billion as of June 30, 2019.

8. Fair Value Hierarchy

The state categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are unadjusted quoted prices in active markets for identical assets. Level 2 inputs are either directly or indirectly observable for an asset (including quoted prices for similar assets), which may include inputs in markets that are not considered to be active. Level 3 inputs are significant unobservable inputs.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk.

Pooled Investments with the State Treasury

Securities classified in Level 1 are valued using quoted prices from the custodian bank's primary external pricing vendors.

Securities classified in Level 2 are evaluated prices from the custodian bank's primary external pricing vendors. The pricing methodology involves the use of evaluation models such as matrix pricing, which is based on the securities' relationship to benchmark quoted prices. Other evaluation models use actual trade data, collateral attributes, broker bids, new issue pricings and other observable market information.

Debt and equity securities classified as Level 3 are valued with prices from the custodian bank's external pricing vendors or an alternative pricing source, utilizing inputs such as stale prices, cash flow models, broker bids, or cost. Cost or book value may be used as an estimate of fair value when there is a lack of an independent pricing source.

Certain investments, such as money market funds and repurchase agreements, are not included in the table, because they are carried at cost and not priced at fair value. Unemployment compensation funds are not included in the table, because this money is pooled with deposits from other states and is managed by the Federal Government. No disclosures can be made of specific securities owned.

At June 30, 2019, the State Treasury had the following recurring fair value measurements:

Investments and Derivative Instruments Measured at Fair Value As of June 30, 2019

Investments by fair value level	Total	Level 1	Level 2	Level 3

Total investment derivative	<u>\$ (1,047)</u>	<u>\$ (1,047)</u>	<u>\$ —</u>	<u>\$ —</u>

Other Investments

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using quoted prices at June 30 (or the most recent market close date if the markets are closed on June 30) in active markets from the custodian bank's primary external pricing vendors, which utilize primary exchanges.

Debt securities classified in Level 2 are valued using evaluated prices from the custodian bank's external pricing vendors. The pricing methodology involves the use of evaluation models such as matrix pricing, which is based on the securities' relationship to benchmark quoted prices. Other evaluation models use actual trade data, collateral attributes, broker bids, new issue pricings and other observable market information.

Equity securities classified as Level 2 are valued using evaluated prices provided by the custodial bank's external pricing vendors, or alternative pricing source, such as investment managers, if information is not available from the primary vendors.

Debt and equity securities classified as Level 3 are valued with prices from the custodian bank's external pricing vendors or an alternative pricing source, utilizing inputs such as stale prices, cash flow models, or broker bids. Cost or book value may be used as an estimate of fair value when there is a lack of an independent pricing source.

Derivative instruments classified in Level 1 of the fair value hierarchy are exchange traded prices as provided by the custodian bank's external pricing vendors. Derivative instruments classified as Level 2 receive clearing house prices, which are based on models that reflect the contractual terms of the derivatives.

Private equity funds and real estate direct investments classified as Level 3 are valued using the methodology as described in the footnotes for the *Additional GASB 72 Required Disclosures* table, footnotes 11 and 13, respectively. Other private equity funds are measured at net asset value (NAV).

Certain investments, such as money market funds, repurchase agreements and U.S. guaranteed State and Local Government Series (SLGS) securities are not reported at fair value in the tables below because they are carried at cost and not priced at fair value. Additionally, U.S. guaranteed securities in the Debt Service Escrowed Fund and all investments of the Local Government Surplus Funds Trust Fund are not included in the tables below because they are carried at cost and amortized cost, respectively. See page 78 for information to obtain the Local Government Surplus Funds Trust Fund investment detail. Commingled investments are measured at the NAV per share (or its equivalent).

The FRS Pension Trust Fund had the following fair value measurements as of June 30, 2019 (in thousand):

¹ *Commingled International Equity Funds.* The six funds in this group are primarily invested in publicly traded international equity securities. Three of these funds focus on emerging markets. Each are valued at the NAV of units held at the end of the period based upon the fair value of the underlying investments. Four funds within this strategy are redeemable daily and two funds are redeemable monthly.

² *Commingled Real Estate Investment Funds.* The eight funds in this group consist primarily of real estate investments owned directly or through partnership interests located in the United States. These investments include multi-family, industrial, retail, office, apartments and mortgage loans on income producing property. Each are valued at the NAV of units held at the end of the period based upon the fair value of the underlying investments. All funds within this strategy are eligible for redemption quarterly.

³ *Activist Equity Funds.* The three funds in this group invest in public companies with the intent to effect positive change through influencing management. The funds may be structured with a focus on specific domestic or foreign geographic regions. These investments are valued at the NAV per share. One fund (approximately 42% of this strategy) is currently eligible for redemption monthly. Another fund (approximately 34% of this strategy) is eligible for redemption in six months due to annual lock-up restrictions. The remaining fund (approximately 24% of this strategy) is eligible for redemption in nine months due to contractual lock-up restrictions.

⁴ *Diversifying Strategies (Managed Futures) Hedge Funds.* The three funds that make up this group primarily trade equity and commodity futures, but can also participate in indexes, rates and currencies in markets across global markets. These funds use a systematic approach and focus on trends in price and other market signals. These investments are valued at the NAV per share. All funds within this strategy are redeemable within a month or less, as they are not subject to lock-up restrictions.

⁵ *Equity Long/Short Hedge Funds.* Consisting of four funds, this strategy invests both long and short, primarily in U.S. and global stocks that are mispriced by the markets. These managers vary in their use of short selling, leverage and definitions of growth or value. These funds are valued at the NAV per share. Two funds (approximately 32% of the value of this strategy) are currently eligible for redemption monthly, while the remaining two funds (approximately 68% of this strategy) are redeemable in three months or less due to quarterly redemption restrictions.

⁶ *Event Driven Hedge Funds.* The two funds in this group seek to gain an advantage from pricing inefficiencies that may occur in the onset or aftermath of a corporate action or related event. These investments are valued at the NAV per share. The funds in this strategy are no longer under contractual lockup, but due to exit restrictions, the redemption period ranges from three to six months.

⁷ *Global Macro Hedge Funds.* Consisting of six funds, which base their holdings (such as long and short positions in various equity, fixed income, currency, and futures markets) primarily on overall economic and political view of various countries. These funds are valued at the NAV per share. All funds in this strategy are no longer subject to contractual lock-up, and are redeemable in three months or less due to monthly and quarterly redemption restrictions.

⁸ *Multi-Strategy Hedge Funds.* The three funds in this group aim to diversify risks and reduce volatility by combining other strategies. These strategies are usually a mix of Equity Long/Short, Event-Driven, or Opportunistic Debt and Relative Value. These funds are valued at the NAV per share. One fund (approximately 30% of this strategy) is eligible for redemption in six months or less due to annual redemption restrictions. Another fund (approximately 44% of this strategy) is eligible for redemption biennially with the next redemption date in five months. The remaining fund (approximately 26% of this strategy) is eligible for redemption quarterly with the next redemption in three months.

⁹ *Opportunistic Debt Hedge Funds.* Consisting of four funds that pursue various strategies and asset classes, with an emphasis on mispriced debt or equity of companies in distress. These managers vary in their focus on early versus late stage situations, senior versus subordinated levels on the capital structure and non-traditional areas including high yield bonds and Emerging Markets debt, and may also pursue relative value and arbitrage strategies with various debt instruments.

These funds are valued at the NAV per share. One fund (approximately 29% of this strategy) is eligible for redemption in six months due to annual redemption restrictions. Three funds (approximately 71% of this strategy) are currently eligible for redemption in three months due to quarterly redemption restrictions.

¹⁰*Relative Value Hedge Funds.* Consisting of three funds, this strategy focuses on benefiting from valuation discrepancies that may be present in related financial instruments by simultaneously purchasing (long) or selling (short) these instruments. These investments are valued at the NAV per share. All funds in this strategy are no longer subject to contractual lock-up, and are redeemable in three months or less due to quarterly redemption restrictions.

¹¹*Insurance funds.* The five funds in this group invest primarily in reinsurance contracts and insurance-linked securities. These investments are valued at NAV per share. Two funds (approximately 39%) are eligible for redemption in seven months or less due to biannual redemptions restrictions. One fund (approximately 26%) is eligible for redemption in six months, subject to exit restrictions. One fund (approximately 29%) has varying restrictions due to underlying investment funds and redeemable within one to three months. The remaining fund (approximately 6%) is not eligible for redemption due to contractual lock-up restrictions.

¹²*Private Debt/Credit Opportunity Funds.* There are 54 private debt/credit funds investing primarily in Distressed, Mezzanine and Loans with some exposure to Special Situations. The fair value of these funds has been determined using the NAV at June 30, 2019 or one quarter in arrears adjusted for current quarter cash flows. These funds are not eligible for redemption. Distributions are received as underlying investments within the funds are liquidated, which on average can occur over the span of five to ten years.

¹³*Private Equity funds.* There are 210 private equity funds investing primarily in Leveraged Buyouts funds, Venture Capital funds, Secondary funds and Growth funds with some exposure to Special Situations, Diversifying Strategies and GP Investments. The fair value of 208 funds has been determined using the NAV at June 30, 2019, or one quarter in arrears adjusted for current quarter cash flows. The fair value of the remaining two funds (approximately 2% of the value of these investments) was based on external appraisals at June 30, 2019, and classified as Level 3. These funds are not eligible for redemption. Distributions are received as underlying investments within the funds are liquidated, which on average can occur over the span of five to ten years.

¹⁴*Private Real Asset Funds.* There are 74 real asset funds, 52 of which invest in real estate assets such as commercial office buildings, retail properties, multi-family residential properties, developments or hotels. In addition, the funds may be structured with a focus on specific geographic domestic or foreign regions. The remaining 22 funds invest in infrastructure, timberland, transportation and commodities. The fair value of these funds has been determined using the NAV at June 30, 2019, or one quarter in arrears adjusted for current quarter cash flows. These funds are not eligible for redemption. Distributions are received as underlying investments within the funds are liquidated, which on average can occur over the span of five to ten years.

¹⁵*Direct Real Estate Investments.* There are 69 direct owned/joint venture real estate assets that are valued based on annual external and/or quarterly internal appraisals and are classified as Level 3.

The schedule below discloses the fair value measurements for all other funds managed by the SBA (excluding the FRS Pension Trust Fund) at June 30, 2019, (in thousands):

Investments Measured at the NAV				
Commingled domestic bonds and notes funds ¹	\$ 1,916,174	\$ —	Daily	2 - 15 Days
Commingled domestic equity funds ²	3,461,142	—	Daily	1 - 5 Days
Commingled international equity fund ³	1,730,123	—	Daily	2 Days
Commingled real asset funds ⁴	787,711	—	Daily	1 - 15 Days
Total investments measured at the NAV	<u>\$ 7,895,150</u>			

¹*Commingled Domestic Bonds and Notes Funds:* Two Treasury Inflation-Protected Securities (TIPS) funds and six domestic bonds and notes funds are considered to be commingled in nature. The TIPS funds seek long-term real total return and is designed to keep pace with inflation. The six domestic bonds and notes funds utilize various investment strategies such as short/intermediate duration, index/benchmark tracking, high-yield, and corporate/government investment grade debt. Each fund is valued at the NAV of units held at the end of the period, based upon the fair value of the underlying investments. There were no unfunded commitments related to this investment type.

²*Commingled Domestic Equity Funds:* Seven domestic equity funds are considered to be commingled in nature. The domestic equity funds utilize various investment strategies such as index/benchmark tracking, small/mid cap, and large cap growth/value seeking appreciation and income. Each fund is valued at the NAV of units held at the end of the period, based upon the fair value of the underlying investments. There were no unfunded commitments related to this investment type.

³*Commingled International Equity Fund:* One international equity fund is considered to be commingled in nature. The fund invests in a portfolio of international equity securities whose total rates of return will approximate as closely as practicable the capitalization weighted total rates of return of the markets in certain countries for equity securities traded outside the United States. The fund is valued at the NAV of units held at the end of the period, based upon the fair value of the underlying investments. There were no unfunded commitments related to this investment type.

⁴*Commingled Real Asset Funds:* These two funds consist of various investments such as commodities, real estate, floating rate loans, energy industry Master Limited Partnerships, global infrastructure and agriculture. These funds are valued at the NAV of units held at the end of the period, based upon the fair value of the underlying investments. There were no unfunded commitments related to this investment type.

Component Units

Securities classified in Level 1 of the fair value hierarchy are valued using quoted prices in active markets from the custodian bank's primary external pricing vendors.

Securities classified in Level 2 are evaluated prices from the custodian bank's primary external pricing vendors, or alternative pricing source, such as investment managers, if information is not available from the primary vendors. The pricing methodology involves the use of evaluation models such as matrix pricing, which is based on the securities' relationship to benchmark quoted prices. Other evaluation models use actual trade data for similar securities, collateral attributes, broker bids, new issue pricings and other observable market information.

Securities classified as Level 3 are valued with prices from the custodian bank's external pricing vendors or an alternative pricing source, utilizing cash flow models.

Certain investments, such as commercial paper, repurchase agreements, money market funds, and various investment agreements, are not included in the table, because they are carried at cost and not priced at fair value.

The schedule below discloses the fair value measurements for major component units at June 30, 2019, (in thousands):

**Major Component Units
As of June 30, 2019**

Investment by fair value level	Fair Value Measurement Using			
	Total Fair Value	Level 1	Level 2	Level 3
Florida Housing Finance Corporation (FHFC)

NOTE 4 – TAXES AND TAX ABATEMENTS

A. Taxes

Florida levies neither a personal income tax nor an ad valorem tax on real or tangible personal property. Taxes are, however, one of the principal sources of financing state operations. A schedule of tax revenues by major tax type for each applicable major governmental fund, and for nonmajor governmental funds in the aggregate, is presented below (in thousands):

	General Fund	Natural Resources, Environment, and Growth Management	Public Education	Health and Family Services	Transportation	Nonmajor Governmental Funds	Total
Sales and use tax	\$ 28,006,498	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 28,006,498
Fuel taxes:							
Motor fuel tax	—	—	—	—	2,921,537	—	2,921,537
Pollutant tax	—	286,472	—	—	—	—	286,472
Aviation fuel tax	—	—	—	—	12,585	—	12,585

Total other taxes	1,150,471	—	—	670,752	—	259,261	2,080,484
Total	\$ 37,333,820	\$ 324,429	\$ 1,148,404	\$ 670,752	\$ 2,934,122	\$ 272,889	\$ 42,684,416

	Sales and Use Tax
Governmental fund statements	\$ 28,006,498
Government-wide accruals	(7,224)
Government-wide statements	<u>\$ 27,999,274</u>

B. Tax Abatements

For financial reporting purposes, a tax abatement is defined as an agreement between the government and an individual or entity through which the government promises to forgo tax revenues and the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the government or its citizens. As of June 30, 2019, tax abatement programs are as follows:

Program Name	Entertainment Industry Financial Incentive Program	Entertainment Industry Sales Tax Exemption Program
Program Purpose	To encourage the use of the state as a site for filming, for the digital production of films, and to develop and sustain the workforce and infrastructure for film, digital media, and entertainment production.	To encourage the use of the state as a site for filming, for the digital production of films, and to develop and sustain the workforce and infrastructure for film, digital media, and entertainment production.
Taxes being abated	Corporate Income Tax; Sales and Use Tax	Sales and Use Tax
Authority under which abatements are entered into	Section 288.1254, Florida Statutes (F.S.)	Section 288.1258, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	Applicants must meet minimum required Florida qualified expenditures, minimum requirements for hiring Florida employees, requirements for production type, provide proof of financing, and must not be considered obscene under Chapter 847, F.S.	Applicants must be a qualified production company producing specified types of content in Florida.
How taxes are reduced	Tax Credit	Tax Exemption
How amount of abatement is determined	Statutorily defined allocation determines the amount available for award to applicants. Applicants present estimated eligible costs and a total estimated tax credit is awarded. Awardees present actual expenditures to use the credit and an actual credit is certified.	Point of sale exemption on items used as an integral part of the production process in Florida, including production equipment, set design and construction, props, wardrobe, and real estate rental.
Provisions for recapturing abated taxes	Revocation of tax credits and any taxes exempted are due with interest and penalty.	Revocation of certificate and any taxes exempted are due with interest and penalty.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$27,686	\$16,831

Tax abatement programs, continued:

Program Name	Hope Scholarship Credit	Florida Tax Credit Scholarship Program
Program Purpose	To provide public-school students, who were subjected to incidents of violence or bullying at school, the opportunity to apply for a scholarship to attend an eligible private school rather than remain in an unsafe school environment.	To encourage private, voluntary contributions to nonprofit scholarship-funding organizations to expand educational opportunities for children of families that have limited financial resources.
Taxes being abated	Sales and Use Tax	Sales and Use Tax; Corporate Income Tax; Severance Taxes; Insurance Premium Tax
Authority under which abatements are entered into	Sections 212.1832 and 1002.40, F.S.	Section 1002.395, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	Applicants who must purchase or register a motor vehicle qualifying for the Hope Scholarship Program in Florida may designate \$105 of the state sales tax due at the time of purchase or registration to an eligible nonprofit scholarship-funding organization participating in the Program. If the state sales tax due is less than \$105, the designated amount would be the state sales tax due. Motor vehicle dealers, private tag agencies, and county tax collectors receiving contributions must remit the contributions directly to the designated nonprofit scholarship-funding organization and tax a credit on their sales and use tax return for the amount of the contributions.	A taxpayer must apply for approval and be issued an approval letter by the State. Taxpayer must make an eligible contribution to an eligible nonprofit scholarship-funding organization by the end of the tax year to earn the credit on the return.
How taxes are reduced	Tax Credit	Tax Credit
How amount of abatement is determined	Contribution is paid to a qualifying scholarship-funding organization for use in the Hope Scholarship Program.	Statutorily defined tax credit cap determines the amount available for award to applicants. The applicant must specify in the application each tax for which the taxpayer requests a credit and the applicable taxable year for a credit. The state approves tax credits on a first-come, first-served basis.
Provisions for recapturing abated taxes	If erroneous credits are discovered during an audit of the taxpayer's books and records, the amount of tax offset by the credit will be assessed.	If erroneous credits are discovered during an audit of the taxpayer's books and records, the amount of tax offset by the credit will be assessed.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$39,075	\$309,358

Tax abatement programs, continued:

Program Name	Capital Investment Tax Credit	New Markets Development Program
Program Purpose	To attract and grow capital-intensive industries in the State.	To promote capital investment in rural and urban low-income communities by allowing taxpayers to earn credits against specified taxes by investing in qualified community development entities that make low-income community investments in qualified active low-income community businesses to create and retain jobs.
Taxes being abated	Corporate Income Tax; Premium Tax	Corporate Income Tax; Insurance Premium Tax
Authority under which abatements are entered into	Section 220.191, F.S.	Section 288.9916, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	The business must establish a qualified project certified by the State and meet minimum capital investment, job creation, and wage requirements.	Qualified Community Development Entities (CDEs) apply to the Department of Economic Opportunity to have investments approved as qualified investments for tax credits. Taxpayers then earn credits by investing in CDEs that make investments in active low-income community businesses.
How taxes are reduced	Tax Credit	Tax Credit
How amount of abatement is determined	An annual credit may be claimed for up to 20 years in an annual amount up to 5 percent of the eligible capital costs generated by a qualifying project. The annual tax credit shall not exceed specified percentages of the annual tax liability.	Credit equal to 39 percent of the purchase price of the qualified investment.
Provisions for recapturing abated taxes	If erroneous credits are discovered during an audit of the taxpayer's books and records, the amount of tax offset by the credit will be assessed.	If erroneous credits are discovered during an audit of the taxpayer's books and records, the amount of tax offset by the credit will be assessed.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$61,055	\$48,586

Tax abatement programs, continued:

Program Name	Contaminated Site Rehabilitation Tax Credit	Research and Development Tax Credit
Program Purpose	To encourage voluntary rehabilitation of brownfield sites or sites contaminated with dry-cleaning solvent.	To encourage target industry business in the State.
Taxes being abated	Corporate Income Tax	Corporate Income Tax
Authority under which abatements are entered into	Sections 220.1845 and 376.30781, F.S.	Section 220.196, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	Participants must meet applicable eligibility criteria and enter either a Voluntary Cleanup Agreement or Brownfield Site Rehabilitation Agreement.	Taxpayer must claim and be allowed a research credit against federal income tax for qualified research expenses under Section 41, Internal Revenue Code, and also meet the definition of a target industry business as defined in Section 288.106, F.S.
How taxes are reduced	Tax Credit	Tax Credit
How amount of abatement is determined	The credit is 50 percent of rehabilitation costs, up to \$500,000 per site per year. To encourage completion of site rehabilitation, the applicant may claim an additional 25 percent of the total site rehabilitation costs, not to exceed \$500,000, in the final year of cleanup. To encourage the construction of affordable housing an applicant meeting applicable requirements may claim an additional 25 percent of the total site rehabilitation costs, not to exceed \$500,000.	The Florida credit is equal to 10 percent of the amount of qualified research expenses incurred in Florida and allowed under s. 41, IRC, which exceeds the base amount, defined as the average of the qualified research expenses incurred in Florida for the four tax years prior to the calendar year for which the credit is determined. The Florida credit may be prorated if the total credits applied for by all applicants exceed the credit cap (currently \$9 million).
Provisions for recapturing abated taxes	If erroneous credits are discovered during an audit of the taxpayer's books and records, the amount of tax offset by the credit will be assessed.	If erroneous credits are discovered during an audit of the taxpayer's books and records, the amount of tax offset by the credit will be assessed.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$16,186	\$13,850

Tax abatement programs, continued:

Program Name	Qualified Target Industry Tax Refund Program	Florida Renew Production Credit
Program Purpose	To encourage the growth of higher-wage jobs and a diverse economic base by providing state tax refunds to qualified target industry businesses that originate or expand in the state or that relocate to the state.	To encourage the production of renewable energy in the state.
Taxes being abated	Sales and Use Tax; Corporate Income Tax; Intangible Personal Property Tax; Excise Tax; Ad Valorem Tax; Insurance Premium Tax; Communication Service Tax	Corporate Income Tax
Authority under which abatements are entered into	Section 288.106, F.S.	Section 220.193, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	Applicants must be a new or expanding business in Florida, create a minimum number of new full-time jobs within one or more of Florida's designated targeted industries and meet minimum wage requirements.	The credit equals to \$0.01 per kilowatt-hour (kWh) of electricity produced and sold by the taxpayer to an unrelated party during a given tax year. The credit may be claimed for electricity produced and sold on or after January 1, 2013, through June 30, 2016. The combined total amount of tax credits which may be granted for all taxpayers under this section is limited to \$5 million in state fiscal year 2012-2013 and \$10 million per state fiscal year in state fiscal years 2013-2014 through 2016-2017.
How taxes are reduced	Tax Refund	Tax Credit
How amount of abatement is determined	Demonstrate minimum Florida job creation, maintenance and wages paid.	The Florida Renewable Energy Production Credit, which provided \$5 million for the first fiscal year of the program and \$10 million for subsequent years for an annual corporate tax credit equal to \$0.01/kWh of renewable electricity produced and sold.
Provisions for recapturing abated taxes	If erroneous credits are discovered during an audit of the taxpayer's books and records, the amount of tax offset by the credit will be assessed.	If erroneous credits are discovered during an audit of the taxpayer's books and records, the amount of tax offset by the credit will be assessed.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$15,833	\$13,689

Tax abatement programs, continued:

Program Name	Community Contribution Tax Credit Program	Florida Renew Tech Credit Program
Program Purpose	To encourage donations and local private support of projects that provide housing opportunities for persons with special needs or home ownership opportunities for low-income or very-low-income families.	To encourage investments in the production, storage and distribution of biodiesel, ethanol, and other renewable fuel in the state.
Taxes being abated	Corporate Income Tax; Insurance Premium Tax; Sales and Use Tax	Corporate Income Tax
Authority under which abatements are entered into	Sections 212.08(5)(p); 220.183; and 624.5105, F.S.	Sections 220.192, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	A taxpayer must apply for approval and be issued an approval letter by the state. A community contribution by a person must be in the following form: (a) Cash or other liquid assets; (b) Real property, including 100 percent ownership of a real property holding company; (c) Goods or inventory; or (d) Other physical resources identified by the state.	A taxpayer must provide the capital costs, operation and maintenance costs, and research and development costs incurred in connection with an investment in the production, storage and distribution of renewable fuels for transportation in the state.
How taxes are reduced	Tax Credit or Refund	Tax Credit
How amount of abatement is determined	The credit is equal to 50 percent of the value of the donation, with a limit of \$200,000 per year. Annual limit of entire program is \$24.9 million.	Eligible costs must be incurred between July 1, 2012, and June 30, 2016. This program allows \$1 million per state fiscal year for each taxpayer with a limit of \$10 million per state fiscal year.
Provisions for recapturing abated taxes	If erroneous credits are discovered during an audit of the taxpayer's books and records, the amount of tax offset by the credit will be assessed.	If erroneous credits are discovered during an audit of the taxpayer's books and records, the amount of tax offset by the credit will be assessed.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$18,120	\$10,403

The state had additional tax abatement programs, each amounting to less than \$8 million in revenue and estimated to be reduced in fiscal year 2018-19. In total, these programs resulted in \$22.5 million in estimated tax abatements and include the Brownfield Redevelopment Bonus Tax Refund, Qualified Defense and Space Contractor Tax Refund Program, ROA Building Materials Sales Tax Refund, Urban High-Crime Area Job Tax Credit Program, Rural Job Tax Credit Program, Enterprise Zone Jobs Credit, Enterprise Zone Business Property, Enterprise Zone Property Credit, New and Expanding Business, Semi-Conductor Defense and Space Technology Tax Exemption, Redevelopment Projects, Child Care Tax Credit, State Housing Credit, Hazardous Waste Facility Credit, Florida AMT Credit, Emergency Excise Tax Credit, and the Energy Economic Zone Tax Credit.

NOTE 5 - CAPITAL ASSETS

Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the assets' lives are not capitalized.

For financial statement purposes, the state reports capital assets under the following categories and has established a reporting capitalization threshold for each category. Applicable capital assets are depreciated over the appropriate estimated useful lives using the straight-line method.

Capital Asset Category	Financial Statement Capitalizing Threshold	Estimated Useful Life (in Years)
Land and other nondepreciable assets	Capitalize all	Not depreciable
Nondepreciable infrastructure	Capitalize all	Not depreciable
Construction work in progress	\$100,000 when work is completed	Not depreciable
Buildings, equipment, and other depreciable assets		
Buildings and building improvements	\$100,000	5 - 50
Infrastructure and infrastructure improvements (depreciable)	\$100,000	3 - 50
Leasehold improvements	\$100,000	2 - 15
Intangible assets	\$4,000,000	2 - 30
Property under capital lease	Threshold correlates to asset category	2 - 20
Furniture and equipment	\$1,000 and \$250 for non-circulated books	2 - 25
Works of art and historical treasures	Items capitalized as of June 30, 1999, remain capitalized; capitalize unless considered a collection	5 - 50
Library resources	\$25	5 - 50
Other capital assets	\$1,000	3 - 20

The state has elected to use the modified approach for accounting for its roadways, bridges and other infrastructure assets included in the State Highway System. Under this approach, the Department of Transportation has made the commitment to maintain these assets at levels established by the Department of Transportation and approved by the Florida Legislature. No depreciation expense is reported for such assets, nor are amounts capitalized in connection with improvements that lengthen the lives of such assets, unless the improvements also increase their service potential. The Department of Transportation maintains an inventory of these assets and performs periodic condition assessments to establish that the predetermined condition level is being maintained. In addition, the Department of Transportation makes annual estimates of the amounts that must be expended to maintain these assets at the predetermined condition levels. Refer to the Other Required Supplementary Information for additional information on infrastructure using the modified approach.

Not included in the reported capital assets are the irreplaceable collections at various historic sites and museums throughout the state. For example, the Museum of Florida History, located in Tallahassee, currently has artifacts illustrating the history of Florida since the arrival of human beings on the peninsula. It also has access to collections that include Florida upland and underwater archaeology, Florida archives, and Florida and Spanish colonial numismatics.

Depreciation expense charged to functions of governmental activities for the year ended June 30, 2019, is as follows (in thousands):

General Government	\$ 90,943
Education	11,518
Human Services	29,303
Criminal Justice & Corrections	87,267
Natural Resources & Environment	59,881
Transportation	38,251
Judicial Branch	6,246
Total depreciation expense (governmental activities)	\$ 323,409

NOTE 6 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

A. Pensions

The Florida Department of Management Services (Department) is part of the primary government of the State of Florida and is responsible for administering the Florida Retirement System (FRS) Pension Plan and Other State-Administered Systems. For the fiscal year ended June 30, 2019, the Department administered three defined benefit plans, two defined contribution plans, a supplemental funding of defined benefit plans for municipal police officers and firefighters, and various general revenue funded pension programs. Beginning with the fiscal year ended June 30, 2014, the Department issued a publicly-available, audited comprehensive annual financial report (CAFR) that includes financial statements, notes and required supplementary information for each of the pension plans which it administers. Detailed information about the plans is provided in the FRS CAFR which is available online or by contacting the Department.

Copies of this report, as well as the plans' actuarial valuations, can be obtained from the Department of Management Services, Division of Retirement (Division), Research and Education Section, P.O. Box 9000, Tallahassee, Florida 32315-9000; by telephone toll free at 877-377-1737 or 850-488-5706; by email at rep@dms.myflorida.com; or at the Division's website (www.frs.myflorida.com).

1. Defined Benefit Plans

The Florida Retirement System

The FRS is a cost-sharing multiple-employer public-employee retirement system with two primary plans – the FRS defined benefit pension plan (Pension Plan) and the FRS Investment Plan. The FRS Pension Plan was created in Chapter 121, Florida Statutes (F.S.), effective December 1, 1970, by consolidating and closing these existing plans to new members: the Teachers' Retirement System (Chapter 238, F.S.), the State and County Officers and Employees' Retirement System (Chapter 122, F.S.), and the Highway Patrol Pension Trust Fund (Chapter 321, F.S.). In 1972, the Judicial Retirement System (Chapter 123, F.S.) was closed and consolidated into the FRS. The FRS was created to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide the Investment Plan as a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. The FRS Investment Plan is an integrated defined contribution plan administered by the State Board of Administration (SBA). Effective July 1, 2007, the Institute of Food and Agricultural Sciences (IFAS) Supplemental Retirement Program, established under Section 121.40, F.S., was consolidated under the FRS Pension Plan as a closed retirement plan. Participation in the IFAS Supplemental Retirement Program does not constitute membership in the FRS.

Chapter 121, F.S., also provides for nonintegrated, optional retirement programs in lieu of the FRS to certain members of the Senior Management Service Class (SMSC) employed by the state, state elected officials who chose SMSC membership in lieu of Elected Officers' Class membership (EOC), and faculty and specified employees in the State University System and Florida College System institutions. Provisions relating to the FRS are also contained in Chapter 112, F.S.

Membership

FRS membership is compulsory for eligible employees filling a regularly established position in a state agency, county agency, state university, state college, or district school board, unless restricted from FRS membership under Sections 121.053 or 121.122, F.S., or allowed to participate in a non-integrated defined contribution plan in lieu of FRS membership. Participation by cities, municipalities, special districts, charter schools, and metropolitan planning organizations, although optional, is generally irrevocable after election to participate is made. Members hired into certain positions may be eligible to withdraw from the FRS altogether or elect to participate in the non-integrated optional retirement programs in lieu of the FRS except faculty of a medical college in a state university who must participate in the State University System Optional Retirement Program (SUSORP). Retirees initially reemployed in regularly established positions on or after July 1, 2010, may not participate in the FRS except for defined contribution plan retirees employed in a regularly established position on or after July 1, 2017. FRS Pension Plan retirees remain ineligible for renewed membership.

Retirees of the FRS Investment Plan, the SUSORP, the State Community College System Option Retirement Program (SCCSORP), and the Senior Management Service Optional Annuity Program who are initially reemployed on or after July 1, 2010, and who are employed in a regularly established position on or after July 1, 2017, will be enrolled in the FRS Investment Plan, SUSORP, or SCCSORP based upon the position held as renewed members on or after July 1, 2017.

There are five general classes of membership, as follows:

- *Regular Class* – Members of the FRS who do not qualify for membership in the other classes.
- *Senior Management Service Class* – Members in senior management level positions in state and local governments as well as assistant state attorneys, assistant statewide prosecutors, assistant public defenders, assistant attorneys general, deputy court administrators, and assistant capital collateral representatives. Members of the EOC may elect to withdraw from the FRS or participate in the SMSC in lieu of the EOC.
- *Special Risk Class* – Members who are employed as law enforcement officers, firefighters, firefighter trainers, fire prevention officers, state fixed-wing pilots for aerial firefighting surveillance, correctional officers, emergency medical technicians, paramedics, community-based correctional probation officers, youth custody officers (from July 1, 2001, through June 30, 2014), certain health-care related positions within state forensic or correctional facilities, or specified forensic employees of a medical examiner’s office or a law enforcement agency, and meet the criteria to qualify for this class.
- *Special Risk Administrative Support Class* – Former Special Risk Class members who are transferred or reassigned to nonspecial risk law enforcement, firefighting, emergency medical care, or correctional administrative support positions within an FRS special risk-employing agency.
- *Elected Officers’ Class* – Members who are elected state or county officers and the elected officers of cities and special districts that choose to place their elected officials in this class.

Beginning July 1, 2001, through June 30, 2011, the FRS Pension Plan provided for vesting of benefits after six years of creditable service for members working on or after July 1, 2001, and initially enrolled before July 1, 2011. Members not actively working in a position covered by the FRS Pension Plan on July 1, 2001, must return to covered employment for up to one work year to be eligible to vest with less service than was required under the law in effect before July 1, 2001. Members initially enrolled on or after July 1, 2011, vest after eight years of creditable service. Members are eligible for normal retirement when they have met the requirements listed below. Early retirement may be taken any time after vesting within 20 years of normal retirement age; however, there is a 5% benefit reduction for each year prior to the normal retirement age.

- *Regular Class, Senior Management Service Class, and Elected Officers’ Class Members* – For members initially enrolled in the FRS Pension Plan before July 1, 2011, six or more years of creditable service and age 62, or the age after completing six years of creditable service if after age 62. Thirty years of creditable service regardless of age before age 62.

For members initially enrolled in the FRS Pension Plan on or after July 1, 2011, eight or more years of creditable service and age 65, or the age after completing eight years of creditable service if after age 65. Thirty-three years of creditable service regardless of age before age 65.

- *Special Risk Class and Special Risk Administrative Support Class Members* – For members initially enrolled in the FRS Pension Plan before July 1, 2011, six or more years of Special Risk Class service and age 55, or the age after completing six years of Special Risk Class service if after age 55. Twenty-five years of special risk service regardless of age before age 55. A total of 25 years of service including special risk service and up to four years of active duty wartime service and age 52. Without six years of Special Risk Class service, members of the Special Risk Administrative Support Class must meet the requirements of the Regular Class.

For members initially enrolled in the FRS Pension Plan on or after July 1, 2011, eight or more years of Special Risk Class service and age 60, or the age after completing eight years of Special Risk Class service if after age 60. Thirty years of special risk service regardless of age before age 60. Without eight years of Special Risk Class service, members of the Special Risk Administrative Support Class must meet the requirements of the Regular Class.

Benefits

The Florida Legislature establishes and amends the benefit terms of the FRS Pension Plan. Benefits under the FRS Pension Plan are computed on the basis of age, average final compensation, creditable years of service, and accrual value per year by membership class. Members are also provided in-line-of-duty or regular disability and survivors’ benefits. Pension benefits of eligible retirees and annuitants are increased each July 1 by a cost-of-living adjustment. If the member is initially enrolled in the FRS Pension Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3% per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. This individually calculated annual cost-of-living adjustment is a proportion of 3% determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3%. FRS Pension Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

The DROP became effective July 1, 1998, subject to provisions of Section 121.091(13), F.S. FRS Pension Plan members who reach normal retirement are eligible to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in the DROP for a maximum of 60 months. Authorized instructional personnel may participate in the DROP for up to 36 additional months beyond their initial 60-month participation period. Monthly retirement benefits remain in the FRS Trust Fund during DROP participation and accrue interest until the member terminates to finalize retirement. As of June 30, 2019, the FRS Trust Fund held in trust \$2,542,917,693 in accumulated benefits and interest for 33,490 DROP participants. Of these 33,490 DROP participants, 31,749 were active in the DROP with balances totaling \$2,277,211,830. The remaining participants were no longer active in the DROP and had balances totaling \$265,705,863 to be processed after June 30, 2019.

Administration

The Division administers the FRS Pension Plan. The SBA invests the assets of the FRS Pension Plan held in the FRS Trust Fund. Costs of administering the FRS Pension Plan are funded from earnings on investments of the FRS Trust Fund. Reporting of the FRS Pension Plan is on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when the obligation is incurred.

Contributions

All participating employers must comply with statutory contribution requirements. Section 121.031(3), F.S., requires an annual actuarial valuation of the FRS Pension Plan, which is provided to the Legislature as guidance for funding decisions. Employer and employee contribution rates are established in Section 121.71, F.S. Employer contribution rates under the uniform rate structure (a blending of both the FRS Pension Plan and Investment Plan rates) are recommended by the actuary but set by the Legislature. Statutes require that any unfunded actuarial liability (UAL) be amortized within 30 plan years. Pursuant to Section 121.031(3)(f), F.S., any surplus actuarial amounts available to offset total retirement system costs are to be amortized over a 10-year rolling period on a level-dollar basis. The balance of legally required reserves for the FRS Pension Plan at June 30, 2019, was \$163,573,726,217. These funds were reserved to provide for total current and future benefits, refunds, and administration of the FRS Pension Plan.

The table below presents FRS employer contribution rates. Rates indicated are uniform rates for all FRS members and include UAL contribution rates. These rates do not include a 1.66% contribution rate for the Retiree Health Insurance Subsidy (HIS) Program and a 0.06% assessment for the administration of the FRS Investment Plan and the educational program available to all FRS members. In addition, the July 1, 2018, statutory employer rates do not include the 3.00% mandatory employee contribution for all membership classes except for members in the DROP.

Membership Class	Uniform Employer Rates Recommended by Actuarial Valuation as of July 1, 2017 for Fiscal Year 2018-2019	July 1, 2018 Statutory Rates (Ch. 121, F.S.)
Regular	6.54%	6.54%
Senior Management Service	22.34%	22.34%
Special Risk	22.78%	22.78%
Special Risk Administrative Support	33.26%	33.26%
Elected Officers - Judges	39.05%	39.05%
Elected Officers - Legislators/Attorneys/Cabinet	55.03%	55.03%
Elected Officers - County	46.98%	46.98%
DROP - applicable to members from all of the above classes or plans	12.37%	12.37%

Employee eligibility, benefits, and contributions by class are as previously described. Employees not filling regular established positions and working under the other personal services or temporary status are not covered by the FRS.

Retiree Health Insurance Subsidy Program

The HIS Program is a non-qualified cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, F.S. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the HIS Program. The benefit is a monthly payment to assist retirees of state-administered retirement systems in paying their health insurance costs and is administered by the Division. For the fiscal year ended June 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of creditable service completed at the time of retirement multiplied by \$5. The payments are at least \$30 but not more than \$150 per month, pursuant to Section 112.363, F.S. To be eligible to receive a HIS benefit, a retiree under a state-administered retirement system must provide proof of eligible health insurance coverage, which can include Medicare.

The HIS Program is funded by required contributions from FRS participating employers as set by the Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2019, the contribution rate was 1.66% of payroll pursuant to Section 112.363, F.S. The state contributed 100% of its statutorily required contributions for the current and preceding two years. HIS contributions are deposited in a separate trust fund from which HIS payments are authorized. HIS benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, the legislature may reduce or cancel HIS payments.

The Florida National Guard Supplemental Retirement Benefit Plan

The Florida National Guard Supplemental Retirement Benefit Plan (National Guard Benefit) is a single-employer, non-qualified defined benefit pension plan established under Section 250.22, F.S., and is administered by the Division. The Florida Legislature establishes and amends the plan. Florida National Guard retirees must have at least 30 years of Florida National Guard service. Normal retirement is at age 62 with early retirement available beginning at age 60. The monthly benefit is equal to 50% of the federal military pay table for the highest rank held while in the Florida National Guard less the benefit received from the Federal Government for military service. The benefit amount is recalculated whenever the federal military pay table is increased or the federal benefit is increased by a cost of living adjustment. The benefit is payable for the lifetime of the retiree without a survivor benefit option. The table below shows the number of employees covered by the benefit terms.

Active Members	10,954
Retirees	753
Terminated Vested Members	299
Total	<u>12,006</u>

The National Guard Benefit is funded by an annual appropriation from General Revenue by the Legislature. Any appropriated funds not obligated for benefit payments owed at June 30 each year revert to the General Revenue Fund.

Pension Amounts for Defined Benefit Pension Plans**Net Pension Liability**

At June 30, 2019, the State reported a total liability of \$7,709,641,876 for its proportionate share of the net pension liabilities of the defined benefit, multiple-employer cost-sharing pension plans and its single-employer, non-qualified pension plan. The table below presents the fiduciary net position for the FRS and HIS plans as well as the State's proportion and proportionate share as of the measurement date of June 30, 2018, and the fiduciary net position of the National Guard Benefit as of the measurement date of June 30, 2019:

	FRS Pension Plan	HIS	National Guard Benefit	Total
Plan total pension liability (A)	\$ 191,317,399,000	\$ 10,816,575,623	\$ 818,492,864	
Plan fiduciary net position (B)	(161,196,880,609)	(232,463,369)	—	
Plan net pension liability (A-B)	<u>30,120,518,391</u>	<u>10,584,112,254</u>	<u>818,492,864</u>	
State's proportion	<u>17.733845390%</u>	<u>14.641028104%</u>	<u>100.00%</u>	
State's proportionate share	<u>\$ 5,341,526,162</u>	<u>\$ 1,549,622,850</u>	<u>\$ 818,492,864</u>	<u>\$ 7,709,641,876</u>

The State’s proportion of the net pension liability for FRS Pension Plan and HIS was based on contributions paid to the plans by the State relative to the contributions paid by all participating employers. The table below shows the change in proportion since the prior measurement date:

	<u>FRS</u>	<u>HIS</u>
State's proportion at prior measurement date, June 30, 2017	17.591496280%	14.470956524%
State's proportion at measurement date, June 30, 2018	<u>17.733845390%</u>	<u>14.641028104%</u>
Increase / (decrease) in proportion	<u>0.142349110%</u>	<u>0.170071580%</u>

The table below shows the changes in National Guard Benefit net pension liability for the fiscal year ended June 30, 2019:

National Guard Benefit

Changes in Net Pension Liability	Total Pension Liability (a)	Increase (Decrease) Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances as of June 30, 2018	\$ 732,441,066	\$ —	\$ 732,441,066
Changes for the year:			
Service Cost	11,580,542	—	11,580,542
Interest on total pension liability	28,506,155	—	28,506,155
Effect of economic/demographic gains or losses	—	—	—
Effect of assumptions changes or inputs	60,964,398	—	60,964,398
Benefit payments	(14,999,297)	(14,999,297)	—

Administrative expenses	—	(45,000)	45,000
Balances as of June 30, 2019	\$ 818,492,864	\$ —	\$ 818,492,864

Actuarial Methods and Assumptions

The FRS Actuarial Assumption Conference is responsible for setting the assumptions used in the funding valuations of the defined benefit pension plan pursuant to section 216.136(10), Florida Statutes. The Department determines the assumptions in the valuations for GASB Statement No. 67 reporting purposes. The FRS Pension Plan's GASB Statement No. 67 valuation is performed annually. The HIS program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the FRS Pension Plan was completed in 2014 for the period July 1, 2008, through June 30, 2013. Because the HIS Program is funded on a pay-as-you-go basis, no experience study has been completed for that program. The actuarial assumptions that determined the total pension liability for the HIS Program were based on certain results of the most recent experience study for the FRS Pension Plan.

The total pension liability for each of the defined benefit plans was determined by an actuarial valuation as of the measurement date of July 1, 2018, using the entry age normal actuarial cost method. Inflation increases for the FRS Pension Plan and the HIS is assumed at 2.60%. Payroll growth for both plans is assumed at 3.25%.

Both the discount rate and the long-term expected rate of return used for FRS Pension Plan investments is 7.00%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from participating employers will be made at the statutorily required rates. Based on these assumptions, the plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return and was applied to all periods of projected benefit payments to determine the total pension liability.

Because the HIS Program uses a pay-as-you-go funding structure, a municipal bond rate of 3.87% was used to determine the total pension liability for the program. Mortality assumptions for both plans were based on the Generational RP-2000 with Projection Scale BB tables.

There were changes in benefit terms for the FRS Investment Plan prior to the measurement date that affected the total pension liability. An in-line-of-duty presumption was created for firefighters whose death or total and permanent disability results from 21 specified cancers or from the treatment of the cancer. There were no changes in benefit terms for HIS that affected the total pension liability since the prior measurement date. There were no changes between the measurement date and the reporting date which significantly impact the State’s proportionate share of the net pension liability, deferred outflows, deferred inflows and pension expense for either FRS Pension Plan or HIS.

The following changes in actuarial assumptions occurred in 2018:

- FRS Pension Plan: The long-term expected rate of return was reduced from 7.10% to 7.00%.
- HIS: The municipal rate used to determine total pension liability increased from 3.58% to 3.87%.

The long-term expected rate of return on FRS Pension Plan investments was determined using a forward-looking capital market economic model, which includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.0%	2.9%
Fixed income	18.0%	4.4%
Global equity	54.0%	7.6%
Real estate (property)	11.0%	6.6%
Private equity	10.0%	10.7%
Strategic investments	6.0%	6.0%
	100.0%	

The National Guard Benefit has not had a formal actuarial experience study performed. Due to the pay-as-you-go nature of the program, full actuarial valuations will be conducted in even-numbered years. Liabilities for odd-numbered years will be developed based on the results of a full actuarial valuation using standard actuarial roll-forward techniques. The total pension liability was determined by an actuarial valuation as of the valuation date, July 1, 2018, using the individual entry age normal actuarial cost method. The inflation rate was assumed at 2.60%, the annual increase in Federal Military Pay tables is assumed at 2.00%, and the Cost-of-Living adjustments are assumed at 2.60%.

Because the National Guard Benefit uses a pay-as-you-go funding structure, a municipal bond rate of 3.50% was used to determine the total pension liability for the program. Mortality assumptions for the plan was based on the Generational RP-2000 with Projection Scale BB tables.

There were no changes in benefit terms to the National Guard Benefit that affected the total pension liability since the prior measurement date.

The following changes in actuarial assumptions occurred in 2019 for the National Guard Benefit:

- The municipal bond rate used to determine total pension liability decreased from 3.87% to 3.50%.

Sensitivity Analysis

The following tables demonstrate the sensitivity of the net pension liability to changes in the discount rate. The sensitivity analysis shows the impact to the State’s proportionate share of the FRS and HIS plan’s net pension liability and the National Guard Benefit net pension liability if the discount rate was 1.00% higher or 1.00% lower than the current discount rate.

<i>FRS Pension Plan</i>			<i>HIS</i>		
1% Decrease 6.00%	Current Discount Rate 7.00%	1% Increase 8.00%	1% Decrease 2.87%	Current Discount Rate 3.87%	1% Increase 4.87%
\$9,748,509,282	\$5,341,526,162	\$1,681,266,148	\$1,764,929,625	\$1,549,622,850	\$1,370,152,176

<i>National Guard Benefit</i>		
1% Decrease 2.50%	Current Discount Rate 3.50%	1% Increase 4.50%
\$1,021,008,541	\$818,492,864	\$667,496,239

Pension Expense and Deferred Outflows / (Inflows) of Resources

In accordance with GASB Statement No. 68, paragraphs 54 and 71, changes in the net pension liability are recognized in pension expense in the current measurement period, except as indicated below. For each of the following, a portion is recognized in pension expense in the current measurement period, and the balance is amortized as deferred outflows or deferred inflows of resources using a systematic and rational method over a closed period, as defined below:

- Differences between expected and actual experience with regard to economic and demographic factors – amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees).
- Changes of assumptions or other inputs – amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees).
- Changes in proportion and differences between contributions and proportionate share of contributions – amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employee).
- Differences between expected and actual earnings on pension plan investments – amortized over five years.

The average expected remaining service life of all employees provided with pensions through the pension plans at June 30, 2018, was 6.4 years for FRS Pension Plan and 7.2 years for HIS.

The State's proportionate share of the components of collective pension expense and deferred outflows and inflows of resources reported in the pension allocation schedules for the measurement date year ended June 30, 2018, are presented below for each plan.

FRS Pension Plan

	Recognized in Expense Reporting Period Ending June 30, 2019	Recognition Period	Deferred Outflows of Resources	Deferred Inflows of Resources
Service cost	\$ 429,866,095	Current	\$ —	\$ —

Changes in proportion and differences between contributions and proportionate share of contributions	(11,245,634)	7.2 years	98,074,153	(138,671,997)
Net difference between projected and actual investment earnings	514,664	5 years	935,389	—
Contributions subsequent to the measurement date	—	1 year	80,050,945	—
Administrative expenses	24,644	Current	—	—
<i>Total</i>	<i>\$ 104,057,676</i>		<i>\$ 375,121,731</i>	<i>\$ (305,143,831)</i>

The average expected remaining service life of all employees provided with pensions through the National Guard defined benefit single-employer plan at June 30, 2019, was 11.6 years. The State's pension expense and deferred outflows and deferred inflows of resources reported for the fiscal year ended June 30, 2019, are presented below for the plan.

National Guard Benefit Plan

	Recognized in Expense Reporting Period Ending June 30, 2019	Recognition Period	Deferred Outflows of Resources	Deferred Inflows of Resources
Service cost	\$ 11,580,542	Current	\$ —	\$ —
Interest cost	28,506,155	Current	—	—
Effect of economic/demographic gains or losses (difference between expected and actual experience)	5,754,902	11.6 years	50,232,319	—
Effect of assumptions changes or inputs	21,365,686	11.6 years	248,573,385	(70,649,940)
Administrative expenses	45,000	Current	—	—
<i>Total</i>	<u>\$ 67,252,285</u>		<u>\$ 298,805,704</u>	<u>\$ (70,649,940)</u>

Deferred outflows of resources related to contributions paid subsequent to the measurement date as shown in the tables above will be recognized as a reduction of the net pension liability in the reporting period ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension expense will be recognized as follows:

Reporting Period Ending June 30,	FRS Pension Plan Expense	HIS Expense	National Guard Benefit Expense
2020	\$ 712,357,000	\$ 10,073,463	\$ 27,120,588
2021	474,773,592	9,994,605	27,120,588
2022	60,977,861	5,892,533	27,120,588
2023	303,502,409	(3,661,416)	27,120,588
2024	206,778,933	(24,618,264)	27,120,588
Thereafter	32,514,941	(7,753,966)	92,552,824
<i>Total</i>	<u>\$ 1,790,904,736</u>	<u>\$ (10,073,045)</u>	<u>\$ 228,155,764</u>

Payables to the Pension Plans

The State reported payables of \$7.2 million to the FRS Pension Plan, and \$1.7 million to the HIS Program as of June 30, 2019, for legally required contributions to the plans.

2. Defined Contribution Programs

FRS Investment Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the plan. Retirement benefits are based upon the value of the member's account upon retirement. The FRS Investment Plan provides vesting after one year of service regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the FRS Investment Plan, the years of service required for vesting under the Pension Plan (including the service credit represented by the transferred funds) is required to be vested for these funds and the earnings on the funds. The employer pays a contribution as a percentage of salary that is deposited into the individual member's account. Effective July 1, 2011, there is a mandatory employee contribution of 3.00%. The FRS Investment Plan member directs the investment from the options offered under the plan. Costs of administering the plan, including the FRS Financial Guidance Program, are funded through an employer assessment of 0.06% of payroll and by forfeited benefits of plan members. After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the FRS Investment Plan, receive a lump-sum distribution, or leave the funds invested for future distribution. Upon receiving a distribution, other than a de minimis distribution or required minimum distribution, the member is a retiree. Disability coverage is provided for total and permanent disability (non-duty or line of duty); the employer pays an employer contribution to fund the disability benefit which is deposited in the FRS Trust Fund. The member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the FRS Investment Plan and rely upon that account balance for retirement income. Survivor benefit coverage is provided to the surviving spouse or dependent children of members who die in line of duty; the employer pays an employer contribution to fund the survivor benefit which is deposited in the FRS Trust Fund. The member's account balance must be transferred to the FRS Pension Plan when approved for survivor benefits to receive guaranteed lifetime monthly benefits under the FRS Pension Plan for the surviving spouse or on behalf of the dependent children until the youngest unmarried dependent child reaches age 18, or up to age 25 if unmarried and enrolled as a fulltime student.

State University System Optional Retirement Program

Section 121.35, F.S., created the SUSORP for eligible State University System faculty, administrators, and administrative and professional staff. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the program. This program is designed to aid universities in recruiting employees who may not remain in the FRS long enough to vest. The SUSORP is a defined contribution plan that, upon signing an investment contract, provides full and immediate vesting of all contributions paid on behalf of the participants to the participating provider companies to invest as directed by the participant to provide retirement and death benefits. Employees in eligible positions are compulsory participants in the SUSORP unless they elect FRS membership. Faculty in a college of medicine with a faculty practice plan are mandatory SUSORP participants and cannot elect FRS membership.

The employing universities were statutorily required to contribute 5.15% of the participants' gross monthly compensation from July 2018, through June 2019. In accordance with Chapter 60U-2, Florida Administrative Code, 0.01% of the employer contribution rate was used for the administration of the SUSORP program and 5.14% was distributed to the provider companies designated by the participant. SUSORP members are not eligible to receive HIS Payments from the HIS Trust Fund. There is a HIS component included in the employer's contribution deposited in the members' accounts. Effective July 1, 2011, there is a mandatory employee contribution of 3.00%. A participant may contribute by salary reduction an amount not to exceed the percentage contributed by the university. In addition to the employer funding to the participants' accounts, the employing universities are required to make a contribution as a percent of covered payroll that is transferred to the FRS Trust Fund to help amortize any UAL. The required UAL contribution rate for fiscal year 2018-19 was 3.50%.

Senior Management Service Optional Annuity Program (SMSOAP)

Section 121.055, F.S., created the SMSOAP as an optional retirement program alternative for state members of the SMSC. Employees in eligible state positions may make an irrevocable election to participate in the SMSOAP in lieu of the SMSC. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the program, and closed the program to new members effective July 1, 2017.

The SMSOAP is a defined contribution plan that, upon signing an investment contract, provides full and immediate vesting of all contributions paid on behalf of the participants to the participating provider companies. Participants direct the investment of contributions to provide retirement and death benefits. Employers were required to contribute 6.27% of covered payroll from

July 2018 through June 2019. The employers' contributions were paid to the provider companies designated by the participant. Effective July 1, 2011, there is a mandatory employee contribution of 3%. A participant may contribute by salary reduction or deduction an amount not to exceed the percentage contributed by the employer. In addition to the employer funding to the participants' accounts, the state agencies are required to make a contribution as a percent of covered payroll that is transferred to the FRS Trust Fund to help amortize the UAL. The required UAL contribution rate for fiscal year 2018-19 was 17.89%.

Pension Amounts for Defined Contribution Plans

As of June 30, 2019, the State reported the following pension amounts related to the defined contribution plans:

Reporting Period Ended June 30, 2019	FRS Investment Plan	Optional Retirement Plan	Optional Annuity Program
<i>Pension Expense</i> ^{1,2} \$	70,259,823 \$	46,380,396 \$	71,153
<i>Forfeitures</i>	5,079,654	—	—
<i>Pension Liability</i>	2,965,352	—	—

¹ Pension expense excludes the required UAL which is recognized in the Defined Benefit Pension Plan as contributions.

² The amount of forfeitures is not reflected in pension expense recognized by the State and is used to offset administrative costs.

B. Other Postemployment Benefits (OPEB)

The Division of State Group Insurance (DSGI) within the Department is responsible for administering the State Employees' Group Health Insurance Program. The program covers retired employees and is considered an other postemployment benefits plan.

Plan Description

The DSGI Other Postemployment Benefits Plan (OPEB Plan) is a multiple-employer defined benefit plan which provides healthcare benefits to retired state and university employees in accordance with Section 110.123, Florida Statutes (F.S.). Pursuant to the provisions of Section 112.0801, F.S., all public employers that offer benefits through a group insurance plan shall allow their retirees and their eligible dependents the option to continue participation in the plan during retirement. As a part of normal retirement, a retiree has 60 days after separation to elect post-retirement health coverage. After 60 days, they are no longer entitled to benefits. A retiree is defined as any officer or employee who retires under a State retirement system or State optional annuity or retirement program or is placed on disability retirement and who begins receiving retirement benefits immediately after retirement from employment. In addition, any officer or employee who retires under the Florida Retirement System Investment Plan is considered a "retiree" if he or she meets the age and service requirements to qualify for normal retirement or has attained the age of 59.5 years and has the years of service required for vesting. The law also requires the claims experience of the retirees under 65 group to be combined with the claims experience of active employees for premium determination and the premium offered to retired employees to be no more than the premium applicable to active employees. As a result, the state implicitly subsidizes the premium rates paid by retirees due to increasing health care costs with age and the commingling of the claims experience in a single risk pool with a single premium determination for active employees and retirees under age 65.

There are six participating employers including, the primary government of the state and 14 discretely presented component units which are reported as one employer in the valuation, along with five other governmental entities. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. Benefit provisions as described by Section 110.123, F.S., and contributions, can be amended by the Florida Legislature. The Governor's recommended budget and the General Appropriations Act provide for a premium level necessary for funding the program each year on a pay-as-you-go basis.

Benefits Provided

The benefits provided are the same as those provided for active employees. Spouses and dependents of eligible retirees are also eligible for medical coverage. All non-OPS employees of the State are eligible to receive postemployment health care benefits. Four types of health plans are offered to eligible participants:

- Standard statewide Preferred Provider Organization (PPO) Plan.
- High Deductible PPO Plan.
- Standard Health Maintenance Organization (HMO) Plan.
- High Deductible HMO Plan.

HMO coverage is available only to those retirees who live or work in the HMO's service area. The four PPO and HMO options are considered managed-care plans and have specific provider networks.

Employees covered by benefit terms

At valuation date of July 1, 2017, there were 190,666 employees covered by the OPEB Plan, as shown in the following table:

Active members	137,962
No coverage active members	15,658
Retired and inactive members	37,046
Total employees	190,666

There are currently zero inactive plan members entitled to but not yet receiving benefits because the OPEB Plan does not provide a vested termination benefit.

Contributions

Retirees participating in the group insurance plans offered by the State of Florida are required to contribute 100% of the premiums. The State of Florida implicitly subsidizes the healthcare premium rates paid by retirees by allowing them to participate in the same health plan offered to active employees. Retirees under age 65 pay the same premium amounts as applicable to the active employees. Retirees over age 65 are included in the overall risk pool but pay a lesser premium amount than is applicable to active employees because Medicare is the primary payer. Retirees are required to enroll in the Federal Medicare (Medicare) program for their primary coverage as soon as they are eligible.

Note that the projected post-65 employee contributions for the fully-insured HMO plan are assumed to cover the entire cost of the program.

Total OPEB Liability

As of June 30, 2019, the State reported a total OPEB liability of \$10,551,552,000 of which the State (primary government) and its component units reported \$7,807,094,000 and \$2,744,458,000, respectively, for its proportionate share of the total OPEB liability measured as of June 30, 2018. The table below presents the State and its component units proportion change since the prior measurement date:

	State	Component Units
Proportion at prior measurement date, June 30, 2017	73.99%	26.01%
Proportion at measurement date, June 30, 2018	73.99%	26.01%
Increase / (Decrease) in proportion	—%	—%

Actuarial Assumptions and Other Inputs

The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Valuation date	July 1, 2017
Measurement date	June 30, 2018
Actuarial cost method	Entry age normal
Amortization method	The recognition period for the changes in assumption and proportionate share is 8 years
Actuarial value of assets	N/A
Inflation	2.60%
Salary Increases	Varies by FRS Class
Discount rate	3.87%
Healthcare cost trend rates	7.8% and 5.2% for PPO and HMO respectively for 2018, increasing to 10.6% and 8.0% by 2022, then decreasing to 5.2% for both PPO and HMO by 2044. Afterward decreasing by 0.1% for each per year to an ultimate rate of 3.8% by 2076 and thereafter.
Retirees' share of benefit-related costs	100% of projected health insurance premiums for retirees
Medical aging factors	4% per year prior to age 65 3% per year between ages 65 and 75 2% per year between ages 75 and 85 0% per year thereafter
Marital status	80% assumed married, with male spouses 3 years older than female spouses
Health care participation (HMO)	50% participation assumed, with 25% electing spouse coverage. Members who elected no coverage as actives are assumed to elect coverage in the same proportion as active members with coverage
Health care participation (PPO)	50% participation assumed, with 35% electing spouse coverage. Members who elected no coverage as actives are assumed to elect coverage in the same proportion as active members with coverage

The discount rate of 3.87% was based on the Bond Buyer General Obligation 20-year Municipal Bond Index. The discount rate changed from 3.58% for the opening balance as of June 30, 2017 to 3.87% as of June 30, 2018 actually resulting in an overall decrease in total OPEB liability.

Mortality rates were based on the Generational RP-2000 with Projected Improvement Scale BB. Disabled mortality has not adjusted for mortality improvements.

The demographic actuarial assumptions for retirement, disability, withdrawal and salary merit scales used in the June 30, 2017 OPEB valuation were based on the results of an actuarial experience study for the period January 1, 2010, through December 31, 2014, adopted by the Florida Retirement System July 1, 2016 Actuarial Valuation. Comparing with the previous valuation as of July 1, 2015, all the demographic assumptions remain unchanged except active mortality which was based on the Generational RP-2000 with Projected Improvement Scale BB and updated using the rates mandated by Chapter 2015-17, Florida Statutes for pension plans. The overall effect of the mortality change was an increase in the actuarial liability and normal cost.

The healthcare trend rates for the first five years used in this valuation were consistent with the Report on the Financial Outlook for the Fiscal Years Ending June 30, 2017 through June 30, 2023 as presented on August 3, 2017 at the Self-Insurance Estimating Conference. For out years, the long-term healthcare trends were generated by the Getzen Model, but no longer reflect the potential impact of the excise tax due to its uncertainty. The actuarial liability increased, and normal cost decreased slightly due to the changes in healthcare trend rate assumptions.

Retirees participating in the group insurance plans offered by the State of Florida are required to contribute 100% of the premiums. Retiree contributions were not as high as expected based on the expected increases from July 1, 2015, to July 1, 2017. As such, the net implicit subsidy gap further widened and costs increased.

Changes in Total OPEB Liability (in thousands)

See chart below for details.

Changes in Total OPEB Liability	State	Component Units	Total
Reporting period ending June 30, 2018	\$ 7,999,457	\$ 2,811,628	\$ 10,811,085
Changes for the year:			
Service cost	333,334	117,178	450,512
Interest	295,937	104,032	399,969
Changes of benefit terms	—	—	—
Difference between expected and actual experience	—	—	—
Changes of assumptions or other inputs	(689,139)	(242,256)	(931,395)
Benefit payments	(137,236)	(41,383)	(178,619)
Changes of proportionate shares to the total OPEB liability and difference between the actual benefit payments and expected benefit payments	4,741	(4,741)	—
Other changes	—	—	—
Net changes	(192,363)	(67,170)	(259,533)
Reporting period ending June 30, 2019	\$ 7,807,094	\$ 2,744,458	\$ 10,551,552

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following table demonstrates the sensitivity of the total OPEB liability to changes in the discount rate. The sensitivity analysis shows the impact to the state's proportionate share of the total OPEB liability if the discount rate was 1.00% higher or 1.00% lower than the current discount rate (expressed in thousands):

	1% Decrease 2.87%	Current Discount Rate 3.87%	1% Increase 4.87%
State	\$ 9,495,469	\$ 7,807,094	\$ 6,492,624
Component Units	3,337,980	2,744,458	2,282,381
Total	\$ 12,833,449	\$ 10,551,552	\$ 8,775,005

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following table demonstrates the sensitivity of the total OPEB liability to changes in the healthcare cost trend rates. The sensitivity analysis shows the impact to the state's proportionate share of the total OPEB liability if the healthcare cost trend rates were 1.00% higher or 1.00% lower than the current healthcare cost trend rate (expressed in thousands):

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
State	\$ 6,315,220	\$ 7,807,094	\$ 9,809,426
Component Units	2,220,013	2,744,458	3,448,346
Total	\$ 8,535,233	\$ 10,551,552	\$ 13,257,772

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2019, the State of Florida recognized OPEB expense of \$385,246,000 and \$135,427,000 for primary governments and the component units respectively. At June 30, 2019, the State of Florida reported deferred outflows of resources and deferred inflows of resources related to OPEB for state primary governments and component units from the following sources (expressed in thousands):

	State		Component Units	
	Deferred Outflows	Deferred Inflows	Deferred Outflows	Deferred Inflows
Changes of assumptions or other inputs	\$ —	\$ 1,572,098	\$ —	\$ 552,644
Changes of proportionate shares to the total OPEB liability and difference between the actual benefit payments and expected benefit payments	4,148	16,418	16,418	4,148
Transaction subsequent to the measurement date	145,516	—	51,229	—
Total	\$ 149,664	\$ 1,588,516	\$ 67,647	\$ 556,792

Amounts reported as deferred outflows of resources related to OPEB resulting from transactions subsequent to the measurement date as shown in the table above will be recognized as a reduction of the total OPEB liability in the reporting period ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (expressed in thousands):

Year Ending June 30,	State	Components Units	Total
2020	\$ (249,802)	\$ (84,917)	\$ (334,719)
2021	(249,802)	(84,917)	(334,719)
2022	(249,802)	(84,917)	(334,719)
2023	(249,802)	(84,917)	(334,719)
2024	(249,802)	(84,917)	(334,719)
Thereafter	(335,358)	(115,789)	(451,147)
Total	\$ (1,584,368)	\$ (540,374)	\$ (2,124,742)

NOTE 7 - COMMITMENTS AND OPERATING LEASES

A. Construction Commitments

Road and bridge construction projects, supervised by the Department of Transportation, are included in the Department of Transportation work program, which is updated during each budget cycle. As of June 30, 2019, the Department had available approximately \$14.8 billion in budget authority committed on executed contracts arising from both current and prior year projects. Other major construction commitments of the State of Florida at June 30, 2019, totaled \$469 million. Refer to Note 5 for additional disclosures relating to construction in progress. Construction commitments for component units totaled \$3.0 billion.

B. Florida Ports Financing Commission Revenue Bonds

Section 320.20, Florida Statutes, obligates the state to remit annually \$25 million to a designated trustee for the purpose of repaying the debt on certain Florida Ports Financing Commission revenue bonds. The Florida Ports Financing Commission is not part of the state's reporting entity. These revenue bonds do not create or constitute a legal obligation or debt of the state. Funding for the annual remittance comes from the State of Florida, Department of Transportation's portion of motor vehicle registration fees, which was \$633,150,916 for the fiscal year ended June 30, 2019. The table below represents the Florida Ports Financing Commission revenue bonds outstanding as of June 30, 2019:

Series	Amount
2011A	\$ 6,370,000
2011B	85,345,000
2011A (Intermodal)	49,245,000
2011B (Intermodal)	34,780,000
Total	\$ 175,740,000

C. Operating Leases

Operating leases are not recorded on the balance sheets or statements of net assets; however, operating lease payments are recorded as expenditures/expenses when incurred. Total operating lease payments for the state's governmental activities, business-type activities, and component units were \$136.8 million, \$9.5 million, and \$78.3 million, respectively, for the year ended June 30, 2019. The following is a schedule of future non-cancelable operating lease payments for the primary government and component units at June 30, 2019 (in thousands):

	Primary Government		Component Units
	Governmental Activities	Business-type Activities	
2020	\$ 138,570	\$ 8,965	\$ 79,180
2021	132,552	9,057	62,575
2022	120,238	9,036	55,648
2023	110,176	7,441	43,514
2024	98,851	6,947	38,278
2025-2029	197,818	22,798	128,134
2030-2034	75,715	3,098	32,002
2035-2039	33,061	—	11,501
2040-2044	20,691	—	4,185
2045-2049	3,945	—	7,295
2050-2054	—	—	212
2055-2059	—	—	212
2060-2064	—	—	212
2065-2069	—	—	212
2070-2074	—	—	212
2075-2079	—	—	212
2080-2084	—	—	212
2085-2089	—	—	85
Total	\$ 931,617	\$ 67,342	\$ 463,881

D. Encumbrances

As of June 30, 2019, encumbrances for major and nonmajor governmental funds were (in thousands):

	General Fund	Natural Resources, Environment, and Growth Management	Public Education	Health and Family Services	Transportation	Nonmajor Governmental Funds	Total
Encumbrances:	<u>\$ 153,035</u>	<u>\$ 27,047</u>	<u>\$ 101,750</u>	<u>\$ 90,805</u>	<u>\$ 45,844</u>	<u>\$ 795,247</u>	<u>\$ 1,213,728</u>

NOTE 8 - BONDS PAYABLE AND CERTIFICATES OF PARTICIPATION

A. Bonds Payable

1. Outstanding Bonds

Bonds payable at June 30, 2019, are as follows (in thousands):

Bond Type	Original Amount	Amount Outstanding	Interest Rates	Annual Maturity To
Governmental Activities:				
Road and Bridge Bonds	\$ 2,207,285	\$ 1,906,500	2.500%-5.000%	2048
Florida DOT Financing Corporation	164,005	154,800	4.000%-5.000%	2033
SBE Capital Outlay Bonds	305,990	101,430	2.000%-5.000%	2030
Lottery Education Bonds	1,676,320	971,465	3.000%-5.000%	2032
Public Education Bonds	9,796,425	7,367,140	2.000%-6.000%	2048
State University System Bonds	119,845	96,860	3.000%-5.000%	2033
University Auxiliary Bonds	974,970	764,161	2.120%-7.500%	2043
Inland Protection Bonds	60,615	39,600	4.850%-5.400%	2024
Florida Forever Bonds	1,096,985	669,285	2.000%-5.000%	2029
Water Pollution Control Bonds	564,775	276,575	3.500%-5.250%	2031
Florida Facilities Pool Bonds	190,835	176,670	3.000%-5.000%	2039
State Infrastructure Bank Bonds	123,615	16,965	4.250%-5.000%	2027
Seaport Investment Bonds	138,145	120,100	4.000%-5.000%	2043
Everglades Restoration Bonds	255,220	179,535	1.850%-5.000%	2035
	<u>17,675,030</u>	<u>12,841,086</u>		
Unamortized premiums (discounts) on bonds payable		840,637		
Total Bonds Payable	<u>\$ 17,675,030</u>	<u>\$ 13,681,723</u>		
Business-type Activities:				
Road and Bridge Bonds	\$ 3,730,480	\$ 2,685,070	2.500%-5.250%	2048
Florida Hurricane Catastrophe Fund Bonds	3,200,000	2,200,000	2.163%-2.995%	2022
	<u>6,930,480</u>	<u>4,885,070</u>		
Unamortized premiums (discounts) on bonds payable		159,848		
Total Bonds Payable	<u>\$ 6,930,480</u>	<u>\$ 5,044,918</u>		

2. Types of Bonds

Road and Bridge Bonds are issued to finance the cost of acquiring real property, or the rights to real property for state roads, or to finance the cost of state bridge construction. The bonds, serial and term, are secured by a pledge of a portion of the state-assessed motor fuel tax revenues, and by a pledge of the full faith and credit of the state.

Department of Transportation Financing Corporation Bonds are issued by the Florida Department of Transportation Financing Corporation (a blended component unit) to finance the cost of certain projects within the Department of Transportation's adopted Work Program. The bonds mature serially and are secured by a pledge of moneys deposited in the State Transportation Trust Fund, consisting primarily of revenues derived from fuel taxes, federal aid and motor vehicle fees.

Capital Outlay Bonds are issued to finance capital outlay projects of school districts and community colleges. The bonds mature serially and are secured by a pledge of a portion of the state-assessed motor vehicle license tax and by a pledge of the full faith and credit of the state.

Lottery Bonds are issued to finance the costs of various local school district educational facilities. The bonds mature serially and are secured by a pledge of a portion of the lottery revenues transferred to the Educational Enhancement Trust Fund.

Public Education Capital Outlay Bonds are issued to finance capital outlay projects of local school districts, community colleges, vocational technical schools, and state universities. The bonds, serial and term, are secured by a pledge of the state's gross receipts tax revenues and by a pledge of the full faith and credit of the state.

State University System Bonds are issued to construct university student life facilities. The bonds mature serially and are secured by a system pledge of Capital Improvement Fee revenues.

University Auxiliary Bonds are issued to construct university facilities, including primarily parking and student housing. The bonds, serial and term, are secured by university pledges of certain housing system revenues, parking system revenues, student fee assessments and indirect costs grant revenues.

Inland Protection Bonds are issued by the Inland Protection Financing Corporation (a blended component unit) for the purpose of financing the rehabilitation of petroleum contaminated sites. The bonds mature serially and are secured by a pledge of moneys derived from a wholesale excise tax primarily on petroleum products.

Florida Forever Bonds are issued to finance the cost of acquisition and improvements of lands, water areas, and related property interests and resources in the State of Florida for the purposes of restoration, conservation, recreation, water resource development, or historical preservation. The bonds mature serially and are secured by a pledge of documentary stamp tax collections.

Florida Water Pollution Control Bonds are issued by the Florida Water Pollution Control Financing Corporation (a blended component unit) to fund loans to local governments to finance or refinance the cost of wastewater treatment and storm water management projects. The bonds, serial and term, are secured by a pledge of the loan payments from local governments.

Florida Facilities Pool Bonds are issued to provide funds for the acquisition and construction of facilities to be leased to state agencies. The bonds mature serially and are secured by a pledge of the revenues derived from the leasing and operations of these facilities.

State Infrastructure Bank Bonds are issued primarily to finance loans made for the purpose of financing qualified transportation projects. The bonds mature serially and are secured by a pledge of repayments on pledged loans and moneys and investments held in reserve accounts.

Seaport Investment Program Bonds are issued primarily to finance improvements at various seaports within the State of Florida. The bonds, serial and term, are secured by a first lien on the annual allocation of certain fees derived from motor vehicle title certificates to the Seaport Investment Program.

Everglades Restoration Bonds are revenue bonds issued to finance the costs of acquisition and improvement of lands, water areas, and related property interests and resources for the purpose of implementing the Comprehensive Everglades Restoration Plan and to fund the Florida Keys Area of Critical State Concern protection program. The bonds mature serially and are secured by a pledge of documentary stamp tax revenues.

Toll Facilities Bonds are issued to provide construction funds for roads and bridges. Toll bonds, serial and term, are secured by a pledge of toll facility revenues.

Florida Hurricane Catastrophe Fund Bonds are issued by the State Board of Administration Finance Corporation. Post-event bonds are issued to make payments to participating insurers for losses resulting from covered events (hurricanes). The bonds mature serially and are secured by emergency assessments and reimbursement premiums. Pre-event bonds are also issued to provide a source of funds to reimburse participating insurers for losses relating to future covered events and are secured by reimbursement premiums.

3. Pledged Revenues

The table below contains information regarding revenues pledged to repay debt obligations (dollars in thousands). For each Bond Type, the table discloses Gross Revenue, Operating Expenses, Net Revenue Available for Debt Service, Principal, Interest, Coverage Ratio, Final Maturity, Remaining Debt Service, and Revenue Ratio. The Bond Types with Operating Expenses are considered self-supporting debt and are paid from the associated facilities being financed. If Operating Expenses are not shown, the bond type is considered to be Net Tax Supported debt and serviced by dedicated tax or fee revenues.

Bond Type	Revenue ³	Less Operating Expenses	Net Available for Debt Service	Debt Service			Coverage Ratio	Final Maturity	Remaining Debt Service	Revenue Ratio ⁵
				Principal	Interest ⁴	Total Debt Service				
Florida Turnpike (Toll Facility)	\$ 1,078,094	\$ 238,344	\$ 839,750	\$ 143,680	\$ 115,300	\$ 258,980	3.24	2048	3,813,412	77.89%
Florida Forever/Everglades ^{1,2}	2,651,100	—	2,651,100	116,305	45,272	161,577	16.41	2035	1,033,324	100.00%

¹Operating Expenses are not listed for various programs. For these programs, either no operating expenses reduce revenues available for debt service, or, in the case of the Lottery, include expenses unrelated to the operation of the program, such as payment of lottery prizes. Instead, for these programs, the revenue shown is the amount available to pay debt service.

²Remaining debt service assumes 3.25% interest rate on the Everglades Series 2007A-B Bonds (Multi-Modal).

³Refer to Note 8A.2. for information on the sources of pledged revenues.

⁴Debt service interest is shown net of interest subsidy payments received from the Federal Government for Build America Bonds.

⁵Revenue Ratio is calculated as Net Available for Debt Service divided by Revenue.

⁶Sunshine Skyway Revenue Bonds, Series 2019A were issued in Fiscal Year 2019; however, no debt service will be paid until Fiscal Year 2020. Coverage is shown based on maximum annual debt service of \$6,874,250 for illustrative purpose.

⁷Florida Hurricane Catastrophe Bonds debt service is reduced by interest earnings on bond proceeds and bond proceeds used to repay principal.

4. State Debt Limitations

Section 215.98, F.S., establishes the ratio of tax-supported debt service to tax-supported revenues as the benchmark debt ratio for purposes of setting the state's legal debt margin. Under the policy, if the ratio exceeds 6%, additional tax-supported debt may be authorized only if the Legislature determines the additional debt is in the best interest of the state. If the ratio exceeds 7%, additional tax-supported debt may be authorized only if the Legislature determines it is necessary to address a critical state emergency. During the fiscal year 2018-19, the ratio remained below 6%.

5. Debt Service Requirements

Annual debt service requirements to amortize bonds at June 30, 2019, are as follows (in thousands):

Year Ending June 30	Primary Government Governmental Activities				
	General		Direct Borrowings and Direct Placements		Total
	Principal	Interest	Principal	Interest	
2020	\$ 1,026,545	\$ 574,765	\$ 4,388	\$ 2,450	\$ 1,608,148

6. Advance Refundings and Current Refundings

During the fiscal year ended June 30, 2019, the state took advantage of favorable conditions and issued bonds for the purpose of refunding previously issued bonds. The refundings of these bond series were made in order to obtain lower interest rates and the resulting savings in debt service payments over the life of the bonds. The economic gains obtained by these refundings are the differences between the present value of old debt service and new debt service requirements.

The proceeds of the current refundings were used to immediately call the refunded bonds or deposited in Special Purpose Investment Accounts with the State Treasury and used to call refunded bonds within 90 days of the issuance of the refunding bonds. The proceeds of the advance refundings were deposited into irrevocable trusts and invested in direct obligations of the Federal government, obligations guaranteed by the Federal government, or Special Purpose Investment Accounts with the State Treasury. The funds deposited along with the interest to be earned will be sufficient to meet the future principal and interest payments on the refunded bonds as they become due.

Bonds legally defeased through the consummation of refunding transactions are not included in Florida's outstanding debt. Irrevocable escrow accounts held by the State Board of Administration to service the refunded bonds are reported as agency funds. The following refundings occurred during the fiscal year.

Advance Refundings

Governmental Activities

State of Florida, Department of Management Services Refunding Certificates of Participation, Series 2018A in the amount of \$251,945,000, in part, along with additional funds of \$30,198,935, were used to advance refund \$215,620,000 of the State of Florida, Department of Management Services Certificates of Participation, Series 2009C (Federally Taxable - Build America Bonds - Issuer Subsidy) maturing in the years 2020 through 2029. The refunding resulted in debt savings of \$20,169,965, an economic gain of \$14,902,846, and a deferred loss on refunding of \$2,538,088.

State of Florida, Department of Environmental Protection, Florida Forever Revenue Refunding Bonds, Series 2018A in the amount of \$119,305,000, in part, along with additional funds of \$16,003,980, were used to advance refund \$149,480,000 of the State of Florida, Department of Environmental Protection, Florida Forever Revenue Bonds, Series 2010B Build America Bonds (Federally Taxable-Issuer Subsidy) maturing in the years 2020 through 2029. The refunding resulted in debt savings of \$19,961,738, an economic gain of \$15,367,854, and a deferred loss on refunding of \$2,753,126.

State of Florida, Board of Governors, Florida Agricultural and Mechanical University Dormitory Revenue Refunding Bonds, Series A 2019-3 in the amount of \$36,402,142, along with additional funds of \$3,501,943, were used to advance refund \$35,080,000 of the State of Florida, Board of Governors, Florida Agricultural and Mechanical University Dormitory Revenue Bonds, Series 2012A, maturing in the years 2019 through 2032. The refunding resulted in an increase in debt service of \$5,462,886, and economic gain of \$890,064.

State of Florida, State Board of Education, Lottery Revenue Refunding Bonds, Series 2019A in the amount of \$74,685,000, along with additional funds of \$14,921,762, were used to advance refund \$99,200,000 of the State of Florida, State Board of Education Lottery Revenue Bonds, Series 2010B Build America Bonds (Federally Taxable-Issuer Subsidy) maturing in the years 2020 through 2029. The refunding resulted in debt savings of \$13,386,707, an economic gain of \$10,211,057, and a deferred loss on refunding of \$1,243,521.

Business-type Activities

State of Florida, Department of Transportation Turnpike Revenue Refunding Bonds, Series 2019A in the amount of \$224,455,000, along with additional funds of \$7,823,434, were used to advance refund \$255,000,000 of the State of Florida, Department of Transportation Turnpike Revenue Bonds, Series 2009B Build America Bonds (Federally Taxable-Issuer Subsidy) maturing in the years 2020 through 2039. The refunding resulted in debt savings of \$40,560,145, an economic gain of \$27,820,127, and a deferred loss on refunding of \$4,363,646.

Current Refundings

Governmental Activities

State of Florida, Full Faith and Credit, State Board of Education Public Education Capital Outlay Refunding Bonds, 2018 Series C in the amount of \$149,120,000, along with additional funds of \$1,933,126, were used to refund \$162,390,000 of the State of Florida, Full Faith and Credit, State Board of Education Public Education Capital Outlay Bonds, 2007 Series D maturing in the years 2019 through 2038. The refunding resulted in debt savings of \$31,834,854, an economic gain of \$24,124,332, and a deferred loss on refunding of \$2,779,384.

State of Florida, Board of Governors University of Florida Parking Facility Revenue Bonds, Series 2018A in the amount of \$39,070,000, in part, along with additional funds of \$79,500, were used to refund \$11,375,000 of the State of Florida, Board of Governors University of Florida Parking Facility Revenue Bonds, Series 2007A maturing in the years 2019 through 2027. The refunding resulted in debt savings of \$941,375, an economic gain of \$809,736, and a deferred loss on refunding of \$57,912.

State of Florida, Department of Management Services Refunding Certificates of Participation, Series 2018A in the amount of \$251,945,000, in part, along with additional funds of \$13,041,511, were used to refund \$14,205,000 of the State of Florida, Department of Management Services Certificates of Participation, Series 2008A maturing in the years 2019 through 2027 and

\$83,885,000 of the State of Florida, Department of Management Services Certificates of Participation, Series 2009A maturing in the years 2019 through 2028. The refunding resulted in debt savings of \$12,589,192, an economic gain of \$10,036,875, and a deferred loss on refunding of \$1,499,122.

State of Florida, Full Faith and Credit, State Board of Education Capital Outlay Refunding Bonds, 2019 Series A in the amount of \$8,560,000 were used to refund \$9,705,000 of the State of Florida, Full Faith and Credit, State Board of Education Capital Outlay Bonds, 2009 Series A maturing in the years 2020 through 2029. The refunding resulted in debt savings of \$940,603, an economic gain of \$830,548, and a deferred loss on refunding of \$137,660.

State of Florida, Full Faith and Credit, Department of Transportation Right-of-Way Acquisition and Bridge Construction Refunding Bonds, Series 2019A in the amount of \$240,695,000, along with additional funds of \$3,339,937, were used to refund \$161,850,000 of the State of Florida, Full Faith and Credit, Department of Transportation Right-of-Way Acquisition and Bridge Construction Bonds, Series 2009A maturing in the years 2020 through 2039 and \$105,345,000 of the State of Florida, Full Faith and Credit, Department of Transportation Right-of-Way Acquisition and Bridge Construction Refunding Bonds, Series 2009B maturing in the years 2020 through 2028. The refunding resulted in debt savings of \$52,157,039, an economic gain of \$41,265,221, a deferred loss on refunding of \$1,528,971 on the 2009A bonds and a deferred gain on refunding of \$12,969 on the 2009B bonds.

State of Florida, Full Faith and Credit, Department of Transportation Financing Corporation Bonds are issued by the Florida Department of Transportation Financing Corporation (a blended component unit) to finance the cost of certain projects within the Department of Transportation's adopted Work Program. The bonds mature serially and are secured by a pledge of moneys deposited in the State Transportation Trust Fund, consisting primarily of revenues derived from fuel taxes, federal aid and motor vehicle fees.

State of Florida, Board of Governors, Florida Agricultural and Mechanical University Dormitory Revenue Refunding Bonds, Series A 2019-1 in the amount of \$10,049,090, along with additional funds of \$1,232,305, were used to refund \$10,471,000 of the State of Florida, Board of Governors, Florida Agricultural and Mechanical University Dormitory Revenue Bonds, Series 2010A, maturing in the years 2019 through 2030. The refunding resulted in debt savings of \$1,333,856, and an economic gain of \$1,061,192.

State of Florida, Board of Governors, Florida Agricultural and Mechanical University Dormitory Revenue Refunding Bonds, Series A 2019-2 in the amount of \$6,798,534, were used to refund \$6,265,000 of the State of Florida, Board of Governors, Florida Agricultural and Mechanical University Dormitory Revenue Refunding Bond, Series 2010B, maturing in the years 2019 through 2025. The refunding resulted in debt savings of \$74,149, and an economic gain of \$213,568.

State of Florida, Full Faith and Credit, State Board of Education Public Education Capital Outlay Refunding Bonds, 2019 Series A in the amount of \$438,900,000, along with additional funds of \$8,459,678, were used to refund \$188,610,000 State of Florida, Full Faith and Credit, State Board of Education Public Education Capital Outlay Bonds, 2008 Series C maturing in the years 2020 through 2022, \$42,200,000 State of Florida, Full Faith and Credit, State Board of Education Public Education Capital Outlay Refunding Bonds, 2009 Series A maturing in the years 2020 through 2022, \$69,690,000 State of Florida, Full Faith and Credit, State Board of Education Public Education Capital Outlay Refunding Bonds, 2009 Series B maturing in the years 2020 through 2024, \$56,610,000 State of Florida, Full Faith and Credit, State Board of Education Public Education Capital Outlay Refunding Bonds, 2009 Series C maturing in the years 2020 through 2023, and \$114,250,000 State of Florida, Full Faith and Credit, State Board of Education Public Education Capital Outlay Refunding Bonds, 2009 Series D maturing in the years 2020 through 2024. The refunding resulted in debt savings of \$36,399,856, an economic gain of \$34,875,638, and a deferred gain on refunding of \$6,585,191.

State of Florida, Department of Environmental Protection Everglades Restoration Revenue Refunding Bonds, Series 2019A in the amount of \$19,570,000, along with additional funds of \$4,467,009, were used to refund \$26,595,000 of the State of Florida, Department of Environmental Protection Everglades Restoration Revenue Bonds, Series 2010B Build America Bonds (Federally Taxable-Issuer Subsidy) maturing in the years 2020 through 2029. The refunding resulted in debt savings of \$3,744,179, and an economic gain of \$2,966,797, and no deferred gain or loss on refunding.

Business-type Activities

None.

Cash In-substance Defeasance

Governmental Activities

The State of Florida, Department of Environmental Protection Florida Forever Revenue Bonds, Series 2010A (the “Series 2010A Bonds”) in the amount of \$10,000,000 was in-substance defeased on January 24, 2019, when a cash deposit of \$10,106,278 was made to an irrevocable escrow account. These funds were subsequently invested in direct obligations of the Federal government until used to redeem the Series 2010A Bonds on July 1, 2019.

7. Prior-year Defeased Bonds

In prior years, the state has deposited with escrow agents in irrevocable trusts amounts sufficient to meet the debt service requirements of certain bonds. These defeased bonds are not reported as outstanding debt. Irrevocable trusts established with the State Board of Administration are reported in an agency fund. Debt considered defeased consists of the following (in thousands):

	Principal at 6/30/2019
<u>Governmental Activities</u>	
University Auxiliary Bonds	\$ 419
Public Education Capital Outlay Bonds	127,325
Total	<u>\$ 127,744</u>

8. Arbitrage Regulations

The state complies with federal arbitrage regulations.

9. Direct Interest

The state's bonds are issued for the creation or continuing existence of various programs. Interest is reported at June 30, 2019, in the following governmental activities as direct expenses on the Statement of Activities (in thousands):

<u>Governmental Activities</u>	<u>Interest</u>
Education:	
SBE Capital Outlay Bonds	\$ 3,873
Lottery Education Bonds	31,198
Public Education Bonds	259,926
State University System Bonds	2,857
University Auxiliary Bonds	29,419
Total Education	<u>327,273</u>
Natural Resources and Environment:	
Inland Protection Bonds	2,362
Everglades Restoration Bonds	5,898
Water Pollution Control Bonds	12,397
Florida Forever Bonds	22,322
Total Natural Resources and Environment	<u>42,979</u>
Transportation:	
Road and Bridge Bonds (Right of Way)	66,969
State Infrastructure Bank Bonds	1,098
Seaport Investment Bonds	5,109
FDOT Financing Corporation	3,825
Total Transportation	<u>77,001</u>
Total Direct Interest	<u>\$ 447,253</u>

10. Governmental Activities – Unrestricted Net Position Deficit

Governmental activities reflect a negative unrestricted net position balance of \$16.2 billion at June 30, 2019. This deficit is primarily the result of education-related bonds in which the state is responsible for the debt, but the state colleges, state universities, or the local school districts own the capital assets. Because the state does not own these capital assets, the bonded debt is not netted on the line item "Net investment in capital assets." Instead, this bonded debt is netted with unrestricted net position. Education-related bonds include SBE Capital Outlay Bonds; PECO Bonds; State University System Improvement Bonds; and Lottery Education Bonds; which have a total ending balance at June 30, 2019, of \$9.1 billion. The state has an additional \$0.7 billion in other bonds, including Florida Forever bonds in which the state does not own the related capital assets. The resources related to the payment of this debt will be provided from future revenue sources. If these bonds were removed, the adjusted unrestricted net position for governmental activities would be a negative \$6.4 billion.

B. Certificates of Participation**1. Primary Government**

The state has issued certificates of participation (original amount of \$462,240,000) to finance privately operated detention and mental health facilities. The certificates of participation's interest rates range from 3.750% - 6.825% and the last maturity date is July 1, 2030. The following is a schedule of future minimum principal and interest payments for certificates of participation for governmental activities at June 30, 2019 (in thousands):

Year Ending June 30	Principal	Interest	Total
2020	\$ 31,100	\$ 18,340	\$ 49,440
2021	32,675	16,746	49,421
2022	34,325	15,071	49,396
2023	36,885	13,297	50,182
2024	38,775	11,413	50,188
2025-2029	180,630	28,056	208,686
2030-2034	29,645	726	30,371
Total	384,035	103,649	487,684
Unamortized premiums (discounts)	37,586	—	37,586
Total certificates of participation payable	<u>\$ 421,621</u>	<u>\$ 103,649</u>	<u>\$ 525,270</u>

2. Component Units

Component units (universities and a water management district) have issued certificates of participation (original amount of \$845,225,000) primarily to finance academic and student facilities, and construction projects for Everglades restoration. The certificates of participation's interest rates range from 2.500% to 5.250% and the last maturity date is July 1, 2048. The following is a schedule of future minimum principal and interest payments for certificates of participation for component units at June 30, 2019 (in thousands):

Year Ending June 30	General		Direct Borrowings and Direct Placements		Total
	Principal	Interest	Principal	Interest	
2020	\$ 16,155	\$ 24,363	\$ 6,752	\$ 5,628	\$ 52,898

NOTE 9 - INSTALLMENT PURCHASES, CAPITAL LEASES, AND PUBLIC-PRIVATE PARTNERSHIPS

A. Installment Purchases

The state has a number of installment purchase contracts primarily providing for the acquisition of buildings, furniture, and equipment. At June 30, 2019, 58% of the state's installment purchase contracts for primary governmental activities were for furniture and equipment, and the remaining 42% for buildings. Installment purchase contracts for component units consisted of 100% of furniture and equipment. The following is a schedule of future minimum installment purchase contract payments for the primary government and component units at June 30, 2019 (in thousands):

Year Ending June 30	Primary Government		Totals
	Governmental Activities	Business-type Activities	
2020	\$ 7,443	\$ 15,599	\$ 23,042
2021	4,975	—	4,975
2022	3,116	—	3,116
2023	2,263	—	2,263
2024	2,263	—	2,263
2025-2029	2,120	—	2,120
2030-2034	1,447	—	1,447

Less: Interest	(94)	(47)	(141)
Present value of future minimum payments	\$ 3,052	\$ 1,789	\$ 4,841

B. Capital Leases

The state has a number of capital leases providing for the acquisition of land, buildings, and furniture and equipment. At June 30, 2019, 100% of the state's capital leases for governmental activities were for furniture and equipment. Capital leases for component units consisted of 39% for buildings, 59% for furniture and equipment, and the remaining 2% for land. The following is a schedule of future minimum capital lease payments for the primary government and component units at June 30, 2019 (in thousands):

Year Ending June 30	Primary Governmental Activities
2020	\$ 2,750
2021	710

Present value of future	<u>\$ 76,106</u>	<u>\$ 11,239</u>	<u>\$ 87,345</u>

C. Public-Private Partnerships

Pursuant to Section 334.30, Florida Statutes, the Department of Transportation (Department) executed two 35-year, Public-Private Partnership concession agreements in March and October of 2009 for the design, build, finance, operation and maintenance of the Interstate 595 Corridor and the Port Miami Tunnel. Payments consist of construction-period payments, lump-sum final acceptance payments upon completion of construction, and annual performance-based availability payments to be made during the 30-year operations and maintenance period. The Department executed a 40-year concession agreement in September 2014 for the design, build, finance, operation and maintenance of 21 miles of the Interstate 4 Corridor in Seminole and Orange Counties. Annual availability payments are all-inclusive payments consisting of unpaid portions of construction costs, annual operations costs, and maintenance expenses. The payment schedule below includes the full amount of the estimated payments for the Interstate 595 Corridor and the Port Miami Tunnel and is an estimate of unpaid construction payments during the term of the agreements based on the percentage of completion of the projects at June 30, 2019, for the Interstate 4 Corridor. The annual availability payments for Interstate 595 Corridor and the Port Miami Tunnel are performance-based and are subject to change based on a fixed percentage as defined in the agreement and on the Consumer Price Index, which could impact the payment schedule. In October 2015, the Department executed a supplemental agreement with the I-595 concessionaire reflecting overall cost reductions for this project as a result of the concessionaire's debt refinancing. The annual availability payments for the Interstate 4 Corridor are performance-based with a portion of the payment that is level and another portion that is indexed based on the Consumer Price Index, which could impact the payment schedule. The lanes were open to traffic on Interstate 595 and Port Miami Tunnel in March and August 2014, respectively. Construction for the Interstate 4 Corridor is expected to be completed during fiscal year 2021. The Department has one other public-private partnership agreement for the design, build, and finance of another transportation project. The unpaid construction costs for this agreement as of June 30, 2019 represents 1% of payments due in 2020. The following is a schedule of future maximum payments for the primary government at June 30, 2019 (in thousands):

Year Ending June 30	Primary Government		Totals
	Governmental Activities	Business-type Activities	
2020	\$ 478,267	\$ 15,240	\$ 493,507

Total Governmental Activities	\$ 38,240,419	\$ —	\$ 7,491,732	\$ 7,576,115	\$ 38,156,036	\$ 4,624,468

¹Direct borrowings and direct placements have been separately identified due to the implementation of GASB Statement No. 88. Direct borrowings and direct placements for Governmental Activities includes bond issuances from University Auxiliary Bonds.

Long-term liabilities for governmental activities are generally liquidated by the applicable governmental funds and/or internal service funds. Specifically, the special revenue funds, capital projects funds, and/or internal service funds will liquidate the certificates of participation payable, installment purchase contracts, and capital lease obligations. The applicable special revenue funds and internal service funds will reduce deposits when such monies are earned. The governmental and internal services funds that account for employees' salaries and wages will liquidate the compensated absences liabilities. The General Fund, Health and Family Services Fund, and the non-major special revenue fund will generally liquidate claims payable. The Public Education Fund will liquidate the advances due to the Unclaimed Property Trust Fund to the extent that the Unclaimed Property Trust Fund does not have sufficient assets to pay claimants requesting payment of unclaimed funds. The nonmajor special revenue funds will generally liquidate other liabilities. The Transportation-Governmental Fund will liquidate the public-private partnership agreements and due to other governments liabilities from annual appropriations. Refer to Note 9 for additional information on the public-private partnership agreements. The pension liability and the Other postemployment benefits (OPEB) related to all governmental

funds are reported above. The pension liability is adjusted each year based upon investment performance and contributions received. The state does not currently fund the OPEB liability so it is non-liquidating. Refer to Note 6 for additional information on the pension liability and OPEB.

The Department of Management Services' outstanding \$176.7 million Florida Facilities Pool Bonds provide for acceleration in an event of a payment default, subject to request of the Trustee or the holders of not less than 25% of the outstanding bonds.

The outstanding \$61.9 million Board of Governors, Florida Agricultural and Mechanical University Dormitory Revenue and Revenue Refunding Bonds from direct borrowings provide that, upon any event of default the lender may: (1) declare the principal of, and interest on, the bonds immediately due and payable; (2) exercise any of its rights under the loan agreement; (3) apply for the appointment of receiver, trustee, liquidator, or conservator; or (4) at the request of the Secretary of the United States Department of Education, terminate the loan agreement and declare all amounts advanced to the University, and interest thereon, immediately due and payable. Should the Secretary request the lender to pursue option (4), such funds, including costs of collection, may be collected by administrative offset against payments due to the University from the Federal Government for grants and contracts.

The Department of Management Services' outstanding \$314.9 million certificates of participation provide for acceleration and the surrender of the financed public and private correctional facilities (the projects) in the event of a default. Upon an event of default or an event of non-appropriation, the Corporation may terminate the lease, take possession of the projects, and accelerate the rent payments due for the current fiscal year. If the Corporation elects not to terminate the lease upon an event of default, it may exclude the Department, sell or lease certain equipment, and hold the Department liable for monetary damages. Additionally, following an event of non-appropriation, the lease automatically terminates, and the Department must immediately surrender all projects to the Trustee, who may then liquidate, rent, or lease the projects. The Trustee may also exercise all remedies available to the Corporation or cause the Corporation to pursue such remedies.

The Department of Children and Families' outstanding \$69.1 million certificates of participation provide for acceleration and the surrender of the financed forensic mental health and civil commitment facilities (the projects) in the event of a default. Upon an event of default or event of non-appropriation, the principal of all outstanding certificates may be accelerated at the request of the Trustee or the owners of a majority of the outstanding certificates. Upon an event of default or an event of nonappropriation, the Corporation may terminate the lease and require the Department to vacate, surrender, and transfer possession of the projects to the Corporation. Additionally, upon an event of default, without terminating the lease, it may take possession of the project, exclude the Department, and sublet the project. In each case the Department is liable for monetary damages. The Trustee may exercise all remedies available to the Corporation, and may take possession of the projects, or any portions thereof, and dispose of the Corporation's interest therein for the benefit of the owners of the outstanding certificates.

The State of Florida's governmental and business-type activities also have an unused line of credit in the amount of \$53,704,804 as of June 30, 2019.

Changes in long-term liabilities for business-type activities and component units during the fiscal year ended June 30, 2019, are as follows (in thousands):

¹Public-private partnerships are included in the Installment purchases/capital leases lines of the Proprietary Funds Statement of Net Position.

As of June 30, 2019, the Florida Hurricane Catastrophe Fund's outstanding debt was secured with collateral of \$2.2 billion. This debt contains provisions that, in an event of default, the Trustee may, and upon written request of the holders of a majority of the aggregate principal amount of all outstanding parity obligations shall, declare the principal of all outstanding parity obligations to be due and payable immediately.

¹Direct borrowings and direct placements have been separately identified due to the implementation of GASB Statement No. 88.

The University of Florida Shands Teaching Hospital and Clinic's outstanding \$180.4 million direct placement bonds provide that the principal of all outstanding direct placement bonds may be accelerated upon an event of default.

The University of South Florida's outstanding \$252.0 million certificates of participation, including \$114.4 million direct placements, provide that the outstanding principal may be accelerated upon an event of default.

The University of Central Florida Foundation, Inc.'s outstanding \$73.6 million long-term debt from direct placements are secured with collateral of capital assets used in operations and provide that in an event of default, all outstanding amounts may be accelerated.

The State's component units also have unused lines of credit of \$66,198,411 as of June 30, 2019.

NOTE 11 - INTERFUND BALANCES AND TRANSFERS

At June 30, 2019, amounts to be received or paid with current available resources are reported as due from or due to other funds, whereas the noncurrent portion is reported as advances to or advances from other funds. Interfund balances at June 30, 2019, consist of the following (in thousands):

NOTE 12 - RISK MANAGEMENT

A. State Risk Management Trust Fund

The State Risk Management Trust Fund (Fund) provides property insurance coverage for state buildings and contents against loss from fire, lightning, sinkholes, flood, and other hazards customarily insured by extended coverage. The property insurance program has a self-insured retention of \$2 million per occurrence for losses arising from all perils listed above except named windstorm and flood. The property insurance program also has a self-insured retention of \$2 million per occurrence for losses arising from named windstorm and flood, but with an additional annual aggregate self-insured retention of \$40 million. Commercial reinsurance is purchased for losses over the self-insured retention up to \$68.5 million per occurrence for named windstorm and flood losses through February 15, 2020, and \$225 million per occurrence for covered perils other than named wind and flood.

The Fund's estimated liability for unpaid property insurance claims at the fiscal year-end is determined by an actuarial method and includes an amount for losses incurred but not yet reported. The amount paid for property claim losses did not exceed the self-insured retentions for the last two fiscal years. Changes in the Fund's property insurance claims liability amount for the fiscal years ended June 30, 2018, and June 30, 2019, were as follows (in thousands):

Fiscal Year Ended	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimate	Claim Payments	Balance at Fiscal Year-end
June 30, 2018	\$ 1,235	\$ 785	\$ (940)	\$ 1,080
June 30, 2019	\$ 1,080	\$ 519	\$ (511)	\$ 1,088

The estimated liability for unpaid property insurance claims for the fiscal year ended June 30, 2019, does not include outstanding property claim loss payments resulting from Hurricane Irma that struck Florida in September of 2017 or outstanding property claim loss payments resulting from Hurricane Michael that struck Florida in October of 2018. Estimated unpaid loss payments for Hurricane Irma and Hurricane Michael total \$16.5 million.

The Fund also provides casualty insurance coverage for the risks of loss related to federal civil rights and employment actions, workers' compensation, court-awarded attorney fees, automobile liability, and general liability. The state is self-insured for all claims associated with liability risks and in-state workers' compensation coverage. The state purchases an insurance policy for out-of-state workers' compensation coverage.

The estimated liability for unpaid casualty insurance claims at June 30, 2019, was \$1.15 billion. This amount was determined through an actuarial method based on historical paid and incurred losses and includes an amount for losses incurred but not yet reported. In addition, this amount includes the present value of workers' compensation indemnity claims liability of \$252.5 million, discounted using a 4 percent annual percentage rate per Section 625.091, Florida Statutes. The undiscounted workers' compensation indemnity claims liability is \$352.6 million.

Changes in the Fund's casualty insurance claims liability for the fiscal years ended June 30, 2018, and June 30, 2019, were as follows (in thousands):

Fiscal Year Ended	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimate	Claim Payments	Balance at Fiscal Year-end
June 30, 2018	\$ 1,139,604	\$ 138,379	\$ (134,532)	\$ 1,143,451
June 30, 2019	\$ 1,143,451	\$ 134,258	\$ (130,233)	\$ 1,147,476

Actual current year claims and changes in estimate for casualty lines of coverage for the fiscal year ended June 30, 2019, decreased by \$4.1 million as compared to the previous fiscal year.

B. Employee and Retiree Health Insurance Funds

Employees and retirees may obtain health care services through participation in the state's group health insurance plan or through membership in a health maintenance organization plan under contract with the state. The state's risk financing activities associated with state group health insurance, such as the risks of loss related to medical and prescription drug claims, are administered through the State Employees Group Health Insurance Trust Fund, an internal service fund. It is the practice of the state not to purchase commercial coverage for the risks of losses covered by this program.

The program's estimated fiscal year-end liability includes an amount for claims that have been incurred but not reported, which is based on analyses of historical data performed by both the state and its contractors. Changes in claims liability amounts for the fiscal years ended June 30, 2018, and June 30, 2019, were as follows (in thousands):

Fiscal Year Ended	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimate	Claim Payments	Balance at Fiscal Year-end
June 30, 2018	\$ 171,010	\$ 1,946,441	\$ (1,950,153)	\$ 167,298
June 30, 2019	\$ 167,298	\$ 2,118,454	\$ (2,088,265)	\$ 197,487

During the year, for program operations, both employee and retiree participation in the state group health insurance program are accounted for in the State Employees Group Health Insurance Trust Fund. Retiree participation in the program is considered an Other Postemployment Benefit (OPEB) for purposes of this report. See Note 6, Section B regarding OPEB for additional information. Asset and liability balances related to retiree participation in the program as of June 30, 2019, were transferred from the State Employees Group Health Insurance Trust Fund and reported in Other Agency Funds in accordance with the requirements of GASB Codification Section P53, *Reporting Assets Accumulated for Defined Postemployment Benefits Other Than Pensions not Provided Through Trusts that Meet Specified Criteria*.

NOTE 13 - FLORIDA PREPAID COLLEGE PROGRAM

The Stanley G. Tate Florida Prepaid College Program (Program) was created in 1987 to provide a medium through which the costs of tuition, tuition differential fee, local fees, and dormitory residence may be paid in advance of enrollment in a state postsecondary institution at a rate lower than the projected corresponding cost at the time of actual enrollment. The Florida Prepaid College Board (Board) administers the Program, and the State of Florida guarantees the obligations of the Board to qualified beneficiaries if moneys in the Program are insufficient. The Program is accounted for in an enterprise fund. An actuarial study is performed to determine the Program's funding status. The actuarial present value of future contract benefits reflects the present value of estimated future contract benefits and expenses and is adjusted for the effects of projected tuition and fees increases, dormitory housing fees increases, and termination of contracts. Additional information as of June 30, 2019, is as follows:

Actuarial present value of future contract benefits and expenses payable	\$ 11,292,893,208
Net position available (net of outstanding refund payments and unrealized gain/loss on securities lending portfolio)	\$ 14,990,000,000
Net position as a percentage of future contract benefits and expenses obligation	132.7%

NOTE 14 -INSURANCE ENTERPRISES

The State of Florida has established multiple enterprises that provide insurance, reinsurance, and guarantee services. The primary risk exposures to the state relate to catastrophic hurricane losses, access to liquidity from credit markets, and ultimate dependence on public assessments.

A. FLORIDA HURRICANE CATASTROPHE FUND

The Florida Hurricane Catastrophe Fund (FHCF) was created in 1993 by the Florida Legislature, as a state fund administered by the State Board of Administration (SBA) to provide a source of reimbursement to most residential property insurers for catastrophic hurricane losses, thereby creating additional insurance capacity. Most admitted residential property insurers writing FHCF covered policies are required to purchase reimbursement coverage with the FHCF.

The reimbursement coverage covers a portion of hurricane losses in excess of an insurer's share of an industry wide retention, up to the lesser of either the statutory limit or the actual claims-paying capacity of the FHCF. For the contract year ended May 31, 2019, the industry retention for determining each insurer's retention was \$7.255 billion per hurricane for the two hurricanes with the largest losses and \$2.418 billion for each additional hurricane in the contract year. The aggregate coverage capacity for the contract year (in excess of retention) was \$17.0 billion. The statute requires that an actuarially indicated formula developed by an independent actuary be used to calculate the reimbursement premiums collected for the coverage.

The SBA is required to contract with each insurer writing covered policies in the state to reimburse the insurer for a specified percentage of losses from covered events in excess of the insurer's retention. The total obligation of the SBA with respect to all contracts covering a particular contract year is statutorily capped at the "actual claims-paying capacity" of the FHCF, defined by law as the sum of the balance of the fund as of December 31 of the contract year, plus any reinsurance purchased by the fund, plus the amount the SBA is able to raise through the issuance of post-event revenue bonds. This amount is determined by the FHCF based on reports of its financial advisors and bond underwriters and is reviewed by the FHCF Advisory Council. The FHCF has a fiscal year end of June 30 and its reimbursement contracts expire on May 31. As of June 30, 2019, the FHCF had a net position of \$10.29 billion, including the net position of the State Board of Administration Finance Corporation.

If available resources and pre-catastrophe debenture financing are not adequate to satisfy reimbursement claims, the State Board of Administration Finance Corporation may issue revenue bonds secured by emergency assessments. The SBA has the sole authority to direct the Florida Office of Insurance Regulation to levy assessments on most property and casualty insurance policy premiums on behalf of the FHCF. Aggregate assessments may not exceed 10% and assessments in relation to losses in one contract year may not exceed 6%. This assessment authority is neither related to nor restricted by the assessments levied by either Citizens Property Insurance Corporation (Citizens), a discretely presented component unit, or the Florida Insurance Guaranty Association, Inc. (FIGA). As of June 30, 2019, the FHCF is not levying assessments.

Hurricane losses represent the estimated ultimate cost of all reported and unreported claims during the year that exceed the participating insurers' individual company retention levels. The estimates for current year and prior year losses are continually reviewed and adjusted as experience develops or new information becomes known and such adjustments are included in current operations. During the 2018 hurricane season, the State of Florida experienced Hurricane Michael, which made landfall at Mexico Beach, Florida, as a major Category 5 storm on October 10, 2018. As of June 30, 2019, the estimated ultimate loss to the FHCF for this hurricane was \$1.45 billion. Hurricane Irma, which occurred during the 2017 hurricane season, had an estimated ultimate loss to the FHCF of \$2.50 billion as of June 30, 2018. Due to increased loss development, Hurricane Irma's estimated ultimate loss to the FHCF as of June 30, 2019 was increased to a total of \$5.00 billion, an additional \$2.50 billion increase for fiscal year ended June 30, 2019.

In April 2013, pre-event Series 2013A Revenue Bonds were issued in the amount of \$2.0 billion to maximize the ability of the FHCF to meet future obligations. The proceeds from these bonds may be used to pay for losses incurred from future covered events. Investment earnings on these funds, as well as reimbursement premiums, if necessary, are used to pay the debt service requirements of these bonds. The remaining amount due at maturity and the maturity date for these bonds is \$1.0 billion on July 1, 2020.

In March 2016, pre-event Series 2016A Revenue Bonds were issued in the amount of \$1.2 billion to provide funds, together with other available funds, to maximize the ability of the FHCF to meet future obligations. The proceeds from these bonds may be used to pay for losses incurred from future covered events. Investment earnings on these funds, as well as reimbursement

premiums, if necessary, are used to pay the debt service requirements of these bonds. The amounts due at maturity and the maturity dates for these bonds will be \$550 million on July 1, 2019, and \$650 million on July 1, 2021.

In addition to the issuance of bonds, the FHCF purchased aggregate excess catastrophe reinsurance providing coverage to the FHCF for 92% of \$1.0 billion of losses in excess of \$10.5 billion of losses, effective June 1, 2019 through May 31, 2020; and \$1.0 billion of losses in excess of \$10.5 billion of losses, effective June 1, 2018 through May 31, 2019.

B. CITIZENS PROPERTY INSURANCE CORPORATION

Citizens Property Insurance Corporation (Citizens) was established on August 1, 2002, pursuant to Section 627.351(6), Florida Statutes (the Act), to provide certain residential and non-residential property insurance coverage to qualified risks in the State of Florida under circumstances specified in the Act. This legislation was enacted such that property insurance be provided through Citizens to applicants who are in good faith entitled to procure insurance through the voluntary market but are unable to do so. Citizens results from a combination of the Florida Residential Property and Casualty Joint Underwriting Association (the FRPCJUA) and the Florida Windstorm Underwriting Association (the FWUA). The FRPCJUA was renamed Citizens and the FWUA's rights, obligations, assets, liabilities and all insurance policies were transferred to Citizens. Unlike private insurers offering coverage through the admitted market, Citizens is not required to obtain or to hold a certificate of authority issued by the Florida Department of Financial Services, Office of Insurance Regulation (the Office). Likewise, Citizens is not subject to Risk-Based Capital (RBC) requirements or required to have a pledged deposit on file with the State of Florida. For purposes of its tax-exempt status, Citizens is considered a political subdivision and an integral part of the State of Florida. As such, Citizens' operations may be affected by the legislative process.

Citizens operates pursuant to a Plan of Operation (the Plan), under the Act, approved by the Financial Services Commission (the Commission) of the State of Florida. The Commission is composed of the Governor, the Chief Financial Officer, the Attorney General and the Commissioner of Agriculture of the State of Florida.

Citizens is supervised by a Board of Governors (the Board) which consists of nine individuals who reside in the State of Florida. The Governor appoints three members, and the Chief Financial Officer, the President of the Senate and the Speaker of the House of Representatives each appoint two members of the Board. At least one of the two members appointed by each appointing officer must have a demonstrated expertise in the insurance industry. The Chief Financial Officer designates one of the appointees as the Board's chair. All Board members serve at the pleasure of their appointing officers.

Citizens' President and Chief Executive Officer (Executive Director) and senior managers are engaged by and serve at the pleasure of the Board. The Executive Director is subject to confirmation by the Florida Senate.

Pursuant to the Act, all revenues, expenses, assets and liabilities of Citizens shall remain divided into three separate accounts: the Personal Lines Account, the Commercial Lines Account and the Coastal Account (collectively, the Accounts). A brief history of each account follows:

Personal Lines Account History - The FRPCJUA began operations on January 21, 1993, after Hurricane Andrew, pursuant to Section 627.351(6), F.S., to provide certain residential property insurance coverage to qualified risks in the State of Florida for applicants who were in good faith entitled to procure insurance through the private market but were unable to do so. Residential property coverage consists of the types of coverage provided to homeowners, mobile homeowners, tenants, condominium unit owners, and similar policies. The policies provide coverage for all perils covered under a standard residential policy, subject to certain underwriting requirements. Such policies may exclude windstorm coverage on property within eligible areas. This portion of the FRPCJUA's activities became the Personal Lines Account (PLA) under Citizens.

Commercial Lines Account History - The Florida Property and Casualty Joint Underwriting Association (FPCJUA) was activated in early 1994 to provide commercial residential coverage (i.e., coverage for condominium associations, apartment buildings and homeowner associations) to organizations unable to obtain such coverage from a private insurer. During 1995, legislation was enacted to transfer all obligations, rights, assets, and liabilities related to commercial residential coverage from the FPCJUA to the FRPCJUA. The legislation required that the premiums, losses, assets and liabilities be accounted for separately from the FRPCJUA's personal residential business. This portion of the FRPCJUA's activities became the Commercial Lines Account (CLA) under Citizens. In 2006, the FPCJUA was re-activated to provide commercial non-residential wind-only coverage. In 2007, legislation was enacted which resulted in the transfer and assumption of the FPCJUA's commercial non-residential policies by Citizens. These policies were added to the CLA.

Coastal Account History - The FWUA, which was a residual market mechanism for windstorm and hail coverage in select areas of the State of Florida, was created by an act of the Florida Legislature in 1970 pursuant to Section 627.351(2), Florida Statutes. FWUA was a Florida unincorporated association, the members of which were all property insurance companies holding a certificate of authority to provide property insurance coverage in the State of Florida. FWUA provided policies of windstorm insurance for property owners within the eligible areas who were unable to obtain such coverage from private insurers. Insured properties include personal residential, commercial residential and commercial non-residential properties. This portion of the FWUA's activities became the High-Risk Account under Citizens. In 2007, Citizens received authority to issue multi-peril policies in the High-Risk Account. Pursuant to legislative changes during 2011, the High-Risk Account was renamed the Coastal Account.

ASSESSMENTS

Citizens' enabling legislation and the Plan establish a process by which Citizens is required to levy assessments to recover deficits incurred in a given plan year for any of its three accounts. Deficits are calculated separately, and assessments are levied separately, for each of the three accounts. The Plan provides for deficits to be determined in accordance with standards promulgated by the Governmental Accounting Standards Board, adjusted for certain items.

In the event of a Plan Year Deficit in any Account, Citizens must first levy an assessment against the premium of each Citizens policyholder (the Citizens Policyholder Surcharge) in each of Citizens' Accounts, as a uniform percentage of the premium of the policy of up to 15% of such premium. Citizens Policyholder Surcharges are not subject to commissions, fees, or premium taxes; however, failure to pay a Citizens Policyholder Surcharge will be treated as failure to pay premiums.

If the Citizens Policyholder Surcharge is insufficient to eliminate a deficit in the Coastal Account, Citizens would then levy a Regular Assessment on assessable insurers, as defined in Section 627.351(6), F.S. The assessment is based upon each assessable insurer's share of direct written premium for the Subject Lines of Business in the State of Florida for the calendar year preceding the year in which the deficit occurred, and is applied as a uniform percentage of up to 2% of subject premiums. The Regular Assessment is not available for deficits within the PLA or CLA.

If the deficit in any year in any account is greater than the amount that may be recovered through Citizens' Policyholder Surcharges and Regular Assessments, Citizens is required to levy any remaining Plan Year Deficit as an Emergency Assessment. An Emergency Assessment is to be collected by all assessable insurers, Surplus Lines Agents, and Citizens from policyholders upon the issuance or renewal of policies for Subject Lines of Business for as many years as necessary to cover the Plan Year Deficit in the account.

The primary difference between the assessment base for Regular Assessments and Emergency Assessments is the inclusion of Citizens' direct written premium in the assessment base for Emergency Assessments, in addition to the Regular Assessment being limited to the Coastal account only.

For purposes of Regular Assessments and Emergency Assessments, the "Subject Lines of Business" are all lines of property and casualty insurance, including automobile lines, but excluding accident and health, workers' compensation, and medical malpractice insurance, and also excluding insurance under the National Flood and Federal Crop insurance programs.

In November 2012, Citizens received notice of an assessment from FIGA totaling \$27.8 million. Amounts recouped from policyholders relating to this assessment were \$154 thousand and \$1.1 million during 2018 and 2017, respectively. As of December 31, 2017, Citizens reported an over-collection in the amount of \$152 thousand within other current liabilities on the statements of net position. Citizens discontinued collections effective March 1, 2018 and settled the net over-collection in May 2018 with FIGA pursuant to Section 631.57(3)(f), Florida Statutes, and filed a final reconciliation with the Office.

Effective March 5, 2015, the 2005 Emergency Assessment was terminated for all policies with effective dates on or after July 1, 2015. The 2005 Emergency Assessment was anticipated to be collected over a ten year period commencing July 1, 2007. As of December 31, 2018 and 2017, collections in excess of the Emergency Assessment were \$141.7 million and \$143.6 million, respectively. These balances are reported as the reserve for future assessments on the accompanying statements of net position until such time as the Board approves a change to direct these excess collections to be used for any lawful purpose available within the Plan.

C. FLORIDA INSURANCE GUARANTY ASSOCIATION, INC.

The Florida Insurance Guaranty Association, Inc. (FIGA), a not-for-profit corporation, was established by the Florida Legislature through the Florida Insurance Guaranty Association Act of 1970 (the Act). FIGA was created to provide a mechanism for the payment of covered claims of insolvent insurers and to assist in the detection and prevention of insurers' insolvencies. FIGA operates under the supervision and approval of a board of directors, comprised of five to nine persons, recommended by the member insurers pursuant to Section 631.56, F.S., and subsequently appointed by the Department of Financial Services.

The members of FIGA are all insurers that hold a certificate of authority to provide property and casualty coverage in the State of Florida.

The funding of FIGA's activities is provided by distributions from the estates of insolvent insurers and assessments of members. The assessments are calculated and, as considered necessary, levied against member insurers on the basis of net direct written premiums in the State of Florida in the classes protected by the Act. FIGA obtains the amount of the net direct written premiums, by company and by class of protection, to use as the basis for assessment calculations. The maximum regular assessment rate is 2%. In addition to the regular assessment, during 2006, the Florida Legislature granted FIGA the authority to levy an emergency assessment up to an additional 2% of net direct written premiums for the account specified in Section 631.55(2)(b), F.S., to pay covered claims of insurers rendered insolvent by the effects of a hurricane. Also in 2006, FIGA was granted the authority to work with an affected municipality, county, or financing conduit organization under Chapter 163, F.S., to issue tax-exempt bonds should the funding need arise for the account specified in Section 631.55(2)(b), F.S. As of June 30, 2019, FIGA has not needed to utilize this bonding authority and no tax-exempt bonds have been issued.

D. FLORIDA WORKERS' COMPENSATION INSURANCE GUARANTY ASSOCIATION, INC.

The Florida Workers' Compensation Insurance Guaranty Association, Inc. (FWCIGA), a not-for-profit corporation, was established by the Florida Legislature in 1997 as a merger of the workers' compensation account of the Florida Insurance Guaranty Association, Inc., and the Florida Self-Insurance Fund Guaranty Association. FWCIGA was created to provide a mechanism for the payment of covered claims of insolvent workers' compensation insurers and to assist in the detection and prevention of insurers' insolvencies. FWCIGA operates under the supervision and approval of a board of directors, comprised of eleven persons. Eight directors are recommended by member insurers pursuant to Section 631.912, F.S., and subsequently appointed by the Florida Department of Financial Services. The remaining three directors are the Florida Insurance Consumer Advocate, designee of the state's Chief Financial Officer, and one person with commercial insurance experience appointed by the Governor.

The members of FWCIGA are all insurers that hold a certificate of authority to provide workers' compensation coverage in the State of Florida.

The funding of FWCIGA's activities is provided by distributions from the estates of insolvent insurers and assessments of members. The assessments are calculated and, as considered necessary, levied against member insurers on the basis of workers' compensation net direct written premiums in the State of Florida without taking into account any applicable discounts or credits for deductibles. FWCIGA obtains the amount of the net direct written premiums, by company, to use as the basis for assessment calculations. The maximum assessment rate is 2% for insurance companies and self-insurance funds. In addition to the regular assessment, the Florida Legislature granted FWCIGA the authority to levy an up to an additional 1.5% of net direct written premiums if the 2% assessment is insufficient to make payments for the calendar year.

NOTE 15 - CONTINGENCIES

A. Federal Family Education Loan Program

The Florida Department of Education (FDOE) administers the Federal Family Education Loan Program (FFELP), 20 USC s. 1071 et. seq. The primary purpose is to guarantee the repayment of principal and accrued interest of eligible student loans made by participating lenders under the FFELP.

The Higher Education Amendments of 1998 (the Amendments) were enacted on October 7, 1998, with a retroactive date of October 1, 1998, for most provisions. The Amendments changed the financial and reporting structure of guaranty agencies. Pursuant to the amendments, the FDOE established a Federal Student Loan Reserve Fund (Federal Fund) and a Guaranty Agency Operating Fund, as required, to account for the FFELP activities, 20 USC s. 1072a and s. 1072b.

The regulations for administering the program are found in Title 34 of the Code of Federal Regulations, Part 682. Student loans are issued by participating financial institutions to eligible students and their parents under FFELP. If a student loan guaranteed by FDOE defaults, the Federal Fund pays the lender for the defaulted student loan. The United States Department of Education (USDOE) is the program's reinsurer. Reinsurance amounts received from the USDOE to replenish the Federal Fund are currently 100%. Once the loan has defaulted, the FDOE begins collection activities with the borrower.

The passage of the Health Care and Education Reconciliation Act of 2010 ended the guarantor portion of the program after June 30, 2010. FDOE still maintains administrative and collection activities for the loans guaranteed by FDOE prior to July 1, 2010, as required by FFELP. The Federal Fund is used to account for assets held by FDOE as an agent for the Federal government and therefore is custodial in nature and is the property of USDOE. At June 30, 2019, approximately \$278 million of Program loans were still outstanding from loans that had been made prior to the Program ending on June 30, 2010. The amount of potential liability to the federal fund is indeterminable.

B. Federally Assisted Grant Programs

Medicaid Program - The United States Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS) is requesting state reimbursement of amounts determined unallowable under the Florida Medicaid Reform Section 1115 Demonstration Waiver Special Terms and Conditions for state fiscal years ended June 30, 2006, through June 30, 2014. The CMS alleged the State of Florida submitted Low Income Pool (LIP) cost limit reconciliations showing LIP payments in excess of allowable costs for LIP providers. The disallowance notice was issued on September 28, 2016, and the Agency for Health Care Administration (AHCA) filed its Request for Reconsideration with the CMS on November 21, 2016. On January 19, 2017, AHCA's Request for Reconsideration was denied by CMS. AHCA has filed an appeal with the Department Appeals Board (DAB). At this time, the briefing has concluded and a decision is expected to be issued. If AHCA is ultimately unsuccessful in its challenges, it may be required to return \$97,570,183 to the Federal Government.

Medicaid Program - CMS is requesting state reimbursement of the federal share paid for claimed Medicaid expenditures associated with LIP payments made under Florida's Medicaid Reform Section 1115 Demonstration covering the period from July 1, 2006, through June 30, 2009. The disallowance notices were issued on September 28, 2016, and AHCA filed its Request for Reconsideration with the CMS on November 21, 2016. On January 19, 2017, AHCA's Request for Reconsideration was denied by CMS. AHCA has filed an appeal with the DAB. At this time the briefing has concluded, and a decision is expected to be issued. If AHCA is ultimately unsuccessful in its challenges, it may be required to return \$63,233,036 to the Federal Government.

Medicaid Program - On July 29, 2016, AHCA posted amended outpatient Medicaid rates for state fiscal year 2016-2017 to its website. Those Medicaid reimbursement rate change forms were dated July 29, 2016 ("July 29 Rate Letters"). The Public Health Trust of Miami-Dade County, Florida filed its Petition for Formal Administrative Determination of Invalidity of Agency Statements and Existing Rule 59G-6.030 on October 31, 2016. The petition was then consolidated with other petitions that challenged the same issue. Petitioners alleged the July 29 Rate Letters and the methodology by which AHCA used to calculate the outpatient Medicaid rates are statements that constitute an unadopted rule. On February 13, 2017, the Division of Administrative Hearings (DOAH) issued an Order Extending Stay of Unadopted Rule Challenge and Rescheduling Final Hearing in Existing Rule Challenge. On February 23, 2017, the final hearing was held at DOAH. The Petitioners were unsuccessful and the Agency prevailed. The hospitals filed an appeal. The appeal has concluded and the Court entered an Order in favor of the Hospitals. At this time the Agency is attempting to calculate the impact of this challenge which could result in a net fiscal impact in excess of \$25 million.

Medicaid Program - This is a statewide class action lawsuit filed in 2005 related to children's access to medical and dental services. After a protracted trial, the court issued findings of fact and conclusions of law in 2014 that were unfavorable to the AHCA, without regard to the fact that in the meantime Florida's Medicaid program had been entirely transformed by the implementation of Statewide Medicaid Managed Care. In 2015, the State entered into a settlement agreement with the Plaintiffs requiring ongoing meetings and performance measures over the next four years. The measures reached in 2019 will determine whether the case will conclude or potentially go back to trial. If certain measurements are not met, the State may be required to seek an appropriation from the legislature in order to pay all pediatric physicians 100 percent of the Medicare rate. Depending on the outcome of the ongoing settlement negotiations, the cost of this case could reasonably exceed \$25 million going forward.

C. Other

Disability Rights Florida Inc. v. Julie Jones, Secretary, Florida Department of Corrections, Case No. 3:18-cv-179-J-25JRK (U.S. District Court, Middle District of Florida) - Plaintiffs alleged that the Florida Department of Corrections (DOC) denied mental health care to mentally ill inmates confined in the inpatient mental health units, in violation of the Eighth Amendment of the U.S. Constitution, Title II of the Americans with Disabilities Act, and the Rehabilitation Act. In February 2018, the Court approved a consent decree under which DOC agreed to implement widespread changes to its psychiatric treatment system. Potential costs to implement this agreement exceed \$115 million.

Inpatient/Outpatient hospital rate challenges - Approximately 60 petitioner hospitals challenged Notice of Agency Action letters issued by the AHCA in February 2015 regarding inpatient and outpatient hospital rates. The hospitals filed petitions with the Agency Clerk, which were forwarded to the Division of Administrative Hearings. By mutual agreement between AHCA and the petitioners, the cases were relinquished back to AHCA in March 2015 for settlement negotiations, which continue. Approximately half of these petitions have been resolved by final order. An adjustment to inpatient and outpatient reimbursement rates could result in a net fiscal impact exceeding \$25 million.

NOTE 16 - LITIGATION

Due to its size and broad range of activities, the State is involved in various, though sometimes routine, legal actions. The following are the significant loss contingencies associated with legal proceedings:

- A. Florida Department of Agriculture and Consumer Services, et al., v. Dolliver, et al., Case No. SC19-2047 (Fla. Supreme Court); Florida Department of Agriculture and Consumer Services, et al., v. Dellaselva, et al., Case No. 2D18-1393 (Fla. 1st DCA); Dellaselva, et al., v. Florida Department of Agriculture and Consumer Services, et al., Case No. 03-CA-1947 (20th Cir. Lee County); Ayers, et al., v. Florida Department of Agriculture and Consumer Services, Case No. 05-CA-4120 (9th Cir. Orange County); In re Citrus Canker Litigation, Case No. 03-8255 CA 13 (11th Cir. Miami-Dade County)**

Plaintiffs in these actions are homeowners seeking compensation for the removal of their canker-exposed citrus trees by the Florida Department of Agriculture and Consumer Services (DACS) after January 1, 2000.

Dellaselva (styled Dolliver in the Supreme Court), Case No. 03-CA-1947, concerns homeowners in Lee County. Plaintiffs were awarded judgments of \$13,625,249 for compensation and \$892,886 in attorneys' fees and costs, plus interest. The 2017 Florida Legislature appropriated \$16,475,800 for these judgments, but the Governor vetoed the appropriation and no such appropriation was made in either 2018 or 2019. The trial court issued a writ of mandamus ordering the DACS to pay the judgments, with interest. The Second District Court of Appeal affirmed the writ. The Department's appeal to the Florida Supreme Court is currently pending.

Ayers, Case No. 05-CA-4120, concerns homeowners in Orange County. Plaintiffs were awarded judgments of \$31,534,722 for compensation, and \$770,813 for attorneys' fees and costs, plus interest. These judgments remain unpaid, while accruing post-judgment interest.

In re Citrus Canker Litigation, Case No. 03-8255 CA 13, concerns homeowners in Miami-Dade County. The Court found no liability on behalf of the DACS. Plaintiffs' appeal is pending.

- B. McLane Suneast, Inc. v. Florida Department of Business and Professional Regulation, Case No. 14-CA-372 (9th Cir., Osceola County)**

McLane Suneast, Inc., a major distributor of tobacco products including cigars, cigarettes, and smokeless tobacco, alleged that the State's taxes and surcharges of cigarettes and other tobacco products, including those established by the "Protecting Florida's Health Act" (Chapter 2009-79, Laws of Florida), violate the Commerce Clause and the Equal Protection Clause of the U. S. Constitution, as well as the Due Process Clause and Equal Rights Clause of the Florida Constitution, by taxing different kinds of tobacco products disparately, without taxing or levying surcharges upon cigars. Plaintiff sought declaratory and monetary relief, including a refund of all cigarette and other tobacco taxes and surcharges paid to the Department of Business and Professional Regulation since July 1, 2009, the total amount of which exceeded \$5.5 billion by the beginning of 2019. The Department settled the case in May 2019 as part of a comprehensive settlement involving numerous, unrelated refund claims by Plaintiff, including those based on *Micjo v. Florida Department of Business and Professional Regulation*, 78 So. 3d 124 (Fla. 2nd DCA 2012), previously estimated at \$49 million. The parties settled the case and all unrelated claims for \$42.5 million total, after which Plaintiff dismissed the case in August 2019.

- C. Hoffer, et al., v. Secretary, Florida Department of Corrections, Case No. 19-11921 (U.S. Court of Appeals, 11th Cir.); Hoffer, et al., v. Secretary, Department of Corrections, Case No. 4:17-cv-214-MW-CAS (U.S. District Court, Northern District of Florida)**

Plaintiffs allege that the Florida Department of Corrections (DOC) failed to provide proper medical treatment to inmates with chronic Hepatitis C, thus violating the Eighth Amendment of the U.S. Constitution, Title II of the Americans with Disabilities Act, and the Rehabilitation Act. In November 2017, the Court certified the class and in December 2017 issued a preliminary injunction ordering DOC to provide certain treatment. On April 18, 2019, the U.S. District Court issued a final order requiring DOC to treat all inmates with Hepatitis C and, among other requirements, to improve its identification of people with the disease. DOC's appeal of the order is pending. The claim potentially represents future costs exceeding \$46 million for testing, treatment and staffing.

- D. Geffin, et al., v. DeSantis, et al., Case No. SC20-27 (Fla. Supreme Court); DeSantis, et al., v. Geffin, et al., Case No. 1D19-928 (Fla. 1st DCA); Geffin, et al., v. DeSantis, et al., No. 2017-CA-1364 (2nd Cir. Leon County) and Villacorta, et al., v. DeSantis, et al., No. 2017-CA-1526 (2nd Cir. Leon County). These two cases have been consolidated under Case No. 2017-CA-1364.**

Plaintiffs allege that the State of Florida Governor, Board of Governors, Board of Education, Department of Education, and Commissioner of Education are liable for failure to match private donations to public colleges, universities, and their students pursuant to four statutory programs. Plaintiffs allege breach and impairment of contract and seek declaratory relief and damages of over \$1 billion. The First District Court of Appeal reversed the trial court's denial of Defendants' motions to dismiss on sovereign immunity grounds. Plaintiffs are currently seeking discretionary review by the Florida Supreme Court.

- E. Florida Education Association, et al., v. Department of Education, et al., Case No. 4-17-cv-414-RH/CAS (U.S. District Court, Northern District of Florida)**

Plaintiffs, including the Florida Education Association and seven individual teachers, sought to maintain a class action against the Department of Education (DOE) and certain school districts. Plaintiffs allege violations of Title VII of the Civil Rights Act and the Florida Civil Rights Act based on claims of racial and age discrimination related to the application of the Best and Brightest Teacher Scholarship Program. The parties reached a settlement for which the 2019 Florida Legislature appropriated \$15.5 million and the Court has issued preliminary approval.

- F. UMB Bank, National Association, v. Florida Department of Transportation, Case No. 2018-CA-2677 (2d Cir., Leon County)**

Plaintiff, as successor trustee of the bonds sold to fund construction of the Garcon Point Bridge, filed suit against the Florida Department of Transportation (DOT), which insures, operates, and maintains the bridge pursuant to a Lease Purchase Agreement with the Santa Rosa Bay Bridge Authority. Plaintiff alleges that a toll increase is necessary to facilitate debt service and seeks damages of \$75 million for failing to increase tolls when initially requested by Plaintiff. In December 2019, the trial court granted Plaintiff's motion for summary judgment as to DOT's counterclaim and ordered DOT to implement the toll recommendations of its independent traffic consultant. The case remains open as to Plaintiff's claims for damages and attorneys' fees.

NOTE 17 - DEFICIT FUND BALANCE AND NET POSITION**A. Governmental Funds**

The *Public Education Fund* has a deficit unassigned fund balance of approximately \$821.1 million. The deficit is primarily the result of establishing an advance (long-term liability) on potential future claims by the Department of Financial Services' *Unclaimed Property Trust Fund*. The Department of Financial Services pays claims as they are due from current remittances. If sufficient funds are not available to pay claims, requests are made by the Department of Financial Services to the Department of Education to return the amount of funds necessary to pay claims or funds are borrowed from the Department of Financial Services' *Trust Funds Control Fund* and repaid prior to year-end.

B. Proprietary Funds

The Lottery has a deficit unrestricted net position of approximately \$53.2 million. This deficit is a result of certain liabilities being recorded for reporting purposes only and being excluded from the calculation of transfers to the *Educational Enhancement Trust Fund*. This deficit does not affect the Lottery's ability to pay prizes or to provide services.

The Internal Service Fund, *Data Centers*, has a deficit net position of approximately \$15.6 million. This deficit is primarily due to long-term obligations, consisting mainly of a compensated absences liability and an accrual of pension and other post-employment benefit (OPEB) liabilities. The compensated absences liability will be liquidated on a pay-as-you-go basis. The pension and OPEB liabilities do not require cash flows and have no effect on the ability to provide services.

The Internal Service Fund, *Other*, has a deficit net position of approximately \$98.9 million. This deficit is primarily due to long-term obligations, consisting mainly of a compensated absences liability and an accrual of pension and OPEB liabilities. The compensated absences liability will be liquidated on a pay-as-you-go basis. The pension and OPEB liabilities do not require cash flows and have no effect on the ability to provide services.

C. Component Units

The Component Units, *Florida Colleges* and *Other State Universities*, have deficit unrestricted net positions of approximately \$358.4 million and \$448.0 million, respectively. Those deficits are primarily due to long-term obligations, consisting mainly of a compensated absences liability and an accrual of pension and OPEB liabilities. The compensated absences liability will be liquidated on a pay-as-you-go basis. The pension and OPEB liabilities do not require cash flows and have no effect on the ability to provide services.

NOTE 18 - SUBSEQUENT EVENTS

A. Bonds

The following bonds for governmental activities and business-type activities of the primary government were issued or sold subsequent to June 30, 2019:

Agency/Bond	Series	Amount	Matures	Interest Rate
Governmental Activities:				
Board of Governors, Florida International University Parking Facility Revenue Refunding Bonds	2019A	\$ 19,805,000	07/01/2020-07/01/2039	4.000% - 5.000%
Full Faith and Credit, State Board of Education, Public Education Capital Outlay Refunding Bonds	2019 Series B	\$ 135,465,000	06/01/2020-06/01/2039	4.000% - 5.000%
Full Faith and Credit, State Board of Education, Public Education Capital Outlay Refunding Bonds	2019 Series C	\$ 234,155,000	06/01/2020-06/01/2039	3.000% - 5.000%
Full Faith and Credit, Department of Transportation, Right-of-Way Acquisition and Bridge Construction Bonds	2019B	\$ 184,500,000	07/01/2020-07/01/2049	3.000% - 5.000%
Department of Environmental Protection, Everglades Restoration Revenue Refunding Bonds	2019B	\$ 42,220,000	07/01/2020-07/01/2027	5.000% - 5.000%
Full Faith and Credit, State Board of Education, Public Education Capital Outlay Refunding Bonds	2019 Series D	\$ 168,825,000	06/01/2020-06/01/2039	3.000% - 5.000%
Inland Protection Financing Corporation Revenue Refunding Bonds	2019A	\$ 24,820,000	07/01/2020-07/01/2024	5.000% - 5.000%
Department of Transportation, Federal Highway Reimbursement Revenue Bonds (Indirect GARVEEs)	2019A	\$ 123,225,000	07/01/2020-07/01/2031	5.000% - 5.000%
Full Faith and Credit, State Board of Education, Capital Outlay Refunding Bonds	2020 Series A	\$ 20,530,000	01/01/2021-01/01/2030	5.000% - 5.000%
Board of Governors, University of Central Florida Parking Facility Revenue Refunding Bonds	2019A	\$ 6,120,000	07/01/2020-07/01/2029	5.000% - 5.000%
Florida Water Pollution Control Financing Corporation Water Pollution Control Revenue Refunding Bonds	2019A	\$ 214,220,000	01/15/2021-01/15/2030	1.850%-2.600%
Board of Governors Florida Agricultural and Mechanical University Dormitory Revenue Bonds	2019A	\$ 17,929,622	07/01/2031-01/01/2039	1.788%-2.123%
Business-type Activities:				
Department of Transportation, Turnpike Revenue Bonds	2019B	\$ 177,930,000	07/01/2020-07/01/2049	1.110% - 3.000%

CASH DEFEASANCE OF DEBT:

Agency/Bond/Series	Defeasance Date	Amount	Matures	Interest Rate
Governmental Activities:				
Board of Governors, University of Central Florida Student Health Center Revenue Bonds, Series 2004A	9/25/2019	\$ 2,685,000	07/01/2020-07/01/2024	4.750%-5.000%

B. Prepaid College Program

In January 2020, the Florida Prepaid College Board lowered Florida Prepaid College Program prices by \$1.3 billion for 224,000 existing customers who purchased prepaid college plans since 2008 due to successive years of lower than anticipated tuition and fee increases. As a result of the lower prices, the Board will provide refunds exceeding \$500 million to existing customers.

The notes to required supplementary information are an integral part of this schedule.

OTHER REQUIRED SUPPLEMENTARY INFORMATION**BUDGETARY REPORTING****Budget Process**

Chapter 216, Florida Statutes (F.S.), promulgates the process used to develop the budget for the State of Florida. Each year, the head of each state agency and the Chief Justice of the Supreme Court for the Judicial Branch submit a final annual legislative budget request to the Governor and Legislature by October 15 as required in Section 216.023(1), F.S. Then, at least 30 days before the scheduled annual legislative session in each year, the Governor, as Chief Budget Officer, submits his recommended budget to each legislator.

The Governor also provides estimates of revenues sufficient to fund the recommended appropriations. Revenue estimates for the General Fund and selected trust funds are made by the Revenue Estimating Conference. This group includes members of the Executive and Legislative branches with forecasting experience who develop official information regarding anticipated state and local government revenues as needed for the state budgeting process. Revenue estimates for trust funds not projected by the Revenue Estimating Conference (consisting mainly of special revenue funds) are provided by state agencies. These estimates may be revised during the course of the Legislature's consideration and adoption of a final budget. These estimates, together with known available cash balances, are further considered by the Governor and the Chief Justice of the Florida Supreme Court during the preparation of annual release (spending) plans. Further adjustments to the original budget's trust fund revenue estimates may be made to conform agency revenue estimates to actual and projected revenue streams.

The Governor's recommended budget is considered and amended by the Legislature and a final appropriations bill is then approved by the Legislature (subject to the line-item veto power of the Governor and override authority of the Legislature); this bill then becomes the General Appropriations Act. The Governor and the Chief Justice of the Supreme Court may, under certain conditions and subject to the review and objection procedures set forth in Section 216.177, F.S., establish appropriations and corresponding releases for amounts not appropriated by the Legislature to agencies and the Judicial Branch, respectively. This includes appropriations for non-operating disbursements, such as the purchase of investments and the transfer of money between state funds.

If circumstances warrant, the head of a department or the Chief Justice of the Supreme Court may transfer appropriations (other than fixed capital outlay appropriations) but only to the extent of 5 percent of the original appropriation or \$250,000, whichever is greater, or within certain programs and between identical funding sources and specific appropriation categories. Transfers of general revenue appropriations in excess of 5 percent or \$250,000, whichever is greater, or for fixed capital outlay, or for transfers of general revenue appropriations not allowed within the departments' program flexibility may be approved by the Legislative Budget Commission. The Governor and the Chief Justice of the Supreme Court may approve changes of expenditure authority within any trust fund for agencies and the Judicial Branch, respectively, if the changes are less than \$1 million. The Legislative Budget Commission may approve trust fund changes in excess of \$1 million. At the end of the fiscal year, any balance of an operating appropriation which has not been disbursed but is expended (recorded as a payable) or contracted to be expended (recorded as a reserve for encumbrances in governmental fund types), may be carried forward into the next fiscal year. If these appropriations, however, have not been disbursed by September 30 they will revert pursuant to Section 216.301(1), F.S.

The Chief Financial Officer approves disbursements in accordance with legislative authorizations. The budget is controlled at the account code level, which is defined as an appropriation category (e.g., salaries and benefits), and funded within a budget entity. The Governor and the Chief Financial Officer are responsible for detecting conditions which could lead to a deficit in any agency's funds and reporting that fact to the Legislative Budget Commission and the Chief Justice of the Supreme Court. The Constitution of the State, Article VII, Section 1(d), states, "Provision shall be made by law for raising sufficient revenue to defray the expenses of the state for each fiscal period."

Budgetary Basis of Accounting

The budgetary basis of accounting required by state law differs materially from the basis used to report revenues and expenditures in accordance with generally accepted accounting principles (GAAP). Appropriations are made from funds that are prescribed by law. These legal basis fund types (known as state funds) are the General Revenue Fund, numerous trust funds, and the Budget Stabilization Fund. Certain moneys maintained outside of the State Treasury, known as local funds, are available to agencies for their operations. Because the funds are located in banks outside of the State Treasury, budgetary authority and the disbursement of these funds are not controlled by the Chief Financial Officer. For example, the State Board of Administration operates from such funds.

The state presents budgetary comparison schedules for the General Fund and major special revenue funds as part of the other required supplementary information. In addition, budgetary comparison schedules for non-major special revenue funds which have legally adopted annual budgets are presented with other combining and individual fund statements and schedules.

Budgetary basis revenues are essentially reported on a cash basis and include amounts classified by GAAP as other financing sources. Budgetary basis expenditures include disbursements, except those for prior year carry/certified forwards, plus current year payables and encumbrances which are carried/certified forward into the next fiscal year. They also include amounts classified by GAAP as other financing uses. State law requires prior year payables and encumbrances not carried/certified forward to be paid from the current year budget. The Lump Sum expenditure category presented in the budgetary comparison schedules is used as a budgetary tool to track moneys appropriated to a particular fund until subsequent allocations are made to other expenditure categories.

The presentation of budgetary comparison information for the major governmental fund for transportation excludes the State Transportation Trust Fund within the Department of Transportation because it accounts for projects of a multi-year nature, and comparison of actual annual expenditures to a multi-year appropriated amount is not meaningful. Appropriations are made in total the first year of a project even though they are released and expended over the period of construction for a project. For the fiscal year ended June 30, 2019, State Transportation Trust fund revenues and expenditures totaled \$2.61 billion and \$7.08 billion, respectively, with \$4.49 billion of net other financing sources.

Budget to GAAP Reconciliation

The budgetary comparison schedules for the General Fund and the major special revenue funds present comparisons of the original budget and final budget with actual revenues and expenditures on a budgetary basis. A budget to GAAP reconciliation is presented following the budgetary comparison schedules because accounting principles for budgetary basis differ significantly from those used to present financial statements in conformity with GAAP.

Note to Required Supplementary Information

The Division of State Group Insurance's Other Postemployment Benefits Plan (OPEB) does not have assets accumulated in a trust that meets the criteria in Paragraph 4 of GASB Statement No. 75 to pay related benefits.

Potential factors that may significantly decrease/increase State's total OPEB liability reported as of June 30, 2018, include discount rate, inflation rate, salary increases, payroll growth, healthcare inflation, retiree contribution increase rate, medical aging factors, healthcare participation, healthcare cost trends, mortality rates, and other demographic assumptions.

The discount rate changed from 3.58% for the opening balance as of June 30, 2017, to the discount rate of 3.87% as of June 30, 2018. This change resulted in a decrease in total OPEB liability.

OTHER REQUIRED SUPPLEMENTARY INFORMATION

INFORMATION ABOUT INFRASTRUCTURE ASSETS REPORTED USING THE MODIFIED APPROACH

Pursuant to GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the state has adopted an alternative process to record depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, the state expenses certain maintenance and preservation costs and does not report depreciation expense. Assets accounted for under the modified approach include approximately 12,115 centerline miles of roads and 7,060 bridges that the state is responsible for maintaining.

In order to utilize the modified approach, the state is required to:

- Maintain an asset management system that includes an up-to-date inventory of eligible infrastructure assets.
- Perform condition assessments of eligible assets and summarize the results using a measurement scale.
- Estimate each year the annual amount to maintain and preserve the assets at the condition level established and disclosed by the state.
- Document that the assets are being preserved approximately at, or above, the established condition level.

Condition and Maintenance Programs

Resurfacing Program: Road pavements require periodic resurfacing. The frequency of resurfacing depends on the volume of traffic, type of traffic, pavement material variability, and weather conditions. Resurfacing preserves the structural integrity of highway pavements and includes pavement resurfacing, pavement rehabilitation, and minor reconstruction.

The Florida Department of Transportation (FDOT) conducts an annual Pavement Condition Survey. Pavements are rated on a scale of 0 to 10 (with 10 being the best) in each of three criteria: ride smoothness, pavement cracking, and wheel path rutting. Ride smoothness is what the motorist experiences. It directly affects motor vehicle operation costs. Pavement cracking refers to the structural deterioration of the pavement, which leads to loss of smoothness and deterioration of the road base by water seepage if not corrected. Wheel path rutting refers to depressions in pavement caused by heavy use. Ride smoothness and wheel path rutting are measured mechanically using lasers. Pavement cracking is determined through visual observation by experienced survey crews.

The condition rating scales were set by a statewide committee of pavement engineers, so that a pavement segment receiving a rating of six or less in any of the three rating criteria is designated a deficient pavement segment. In low-speed areas, the ride rating must drop to five or less before a pavement segment is considered deficient due to ride.

The FDOT standard is to ensure that 80% of the pavement on the State Highway System remains non-deficient.

Bridge Repair/Replacement Program: The FDOT Bridge Repair Program places primary emphasis on periodic maintenance and specified rehabilitation work activities on State Highway System bridge structures. The FDOT Bridge Replacement Program's primary focus is on the replacement of structurally deficient or weight restricted bridges on the State Highway System. In addition, the Bridge Replacement Program addresses bridges that require structural repair but which are more cost effective to replace.

The FDOT conducts bridge condition surveys using the National Bridge Inspection Standards to determine condition ratings. Each bridge is inspected at least once every two years. During the inspection process, the major components such as deck, superstructure, and substructure are assigned a condition rating. The condition rating ranges from 0 to 9. By FDOT policy, a rating of 8 to 9 is excellent. A rating of 6 to 7 is good. A rating of 5 indicates fair condition. A rating of 4 or less identifies bridges in poor condition requiring major repairs or replacement per FDOT policy. A rating of 2 indicates a critical bridge condition, and a rating of 1 indicates imminent bridge failure and is used for a bridge that is closed, but with corrective action may be put back into light service. A rating of 0 indicates that the bridge is out of service and beyond corrective action. Per FDOT policy, bridges rated fair or poor do not meet performance standards.

The FDOT standard is to ensure that 90% of all department maintained bridges do not need major repairs or replacement.

Routine Maintenance Program: The FDOT is responsible for managing and performing routine maintenance on the State Highway System to help preserve the condition of the system. Routine maintenance includes many activities, such as repairing

highways, keeping up roadsides, responding to emergencies, maintaining signs, striping roadways, and keeping storm drains clear and structurally sound.

The quality and effectiveness of the routine maintenance program is monitored by periodic surveys, using the Maintenance Rating Program (MRP), which results in an annual assessment. The MRP has been used since 1985 to evaluate routine maintenance of the transportation system in five broad categories or elements. The five rating elements are roadway, roadside, vegetation/aesthetics, traffic services, and drainage. The MRP provides a maintenance rating of 0 to 100 for each category and overall.

The FDOT standard is to achieve and maintain an overall maintenance rating of 80.

Condition Rating for the State Highway System

Routine Maintenance Program

	<u>2019</u>	<u>2018</u>	<u>2017</u>	<u>2016</u>	<u>2015</u>
Needed \$	690.1	\$ 655.0	\$ 661.3	\$ 627.4	\$ 599.9
Actual	817.7	756.1	741.7	723.3	694.6

The FDOT determines its program needs based on a five-year plan. The needed amounts provided above are for estimated expenses and commitments relating to projects within the plan at the time of the budget request. The nature of a long-term plan is that it is continually changing. Projects are added, deleted, adjusted, or postponed. The differences between the needed and actual amounts above reflect these changes.

PERMANENT FUNDS

Funds in this category include those administered by the Fish and Wildlife Conservation Commission, used to support fish and wildlife conservation programs of the State, in accordance with Section 379.207, Florida Statutes. The primary source of the principal of the funds includes proceeds of gifts, grants, contributions, and the sale of lifetime licenses. Also included in this category are various private scholarship funds administered by the Department of Education and used to pay scholarship awards as specified by the contributors. Only the interest income received and accrued from the investments of these funds can be used. No disbursement is made from the principal of the funds.

THIS PAGE INTENTIONALLY LEFT BLANK

NONMAJOR SPECIAL REVENUE FUNDS

EMPLOYMENT SERVICES

This fund includes internal reporting funds used for employee-service related programs of an administrative nature (non risk-related), such as workers' compensation, employment security, and labor market statistics.

GOVERNMENT ADMINISTRATION

This fund includes internal reporting special revenue funds primarily administered by the Department of State, Department of Management Services, and Department of Financial Services.

BUSINESS AND COMMUNITY DEVELOPMENT

This fund includes internal reporting special revenue funds primarily administered by the Executive Office of the Governor and the Department of Economic Opportunity.

REGULATION AND LICENSING

This fund includes internal reporting special revenue funds primarily administered by the Department of Business and Professional Regulation, Department of Highway Safety and Motor Vehicles, and Department of Financial Services.

TOBACCO SETTLEMENT

This fund includes internal reporting special revenue funds established to account for the settlement of *State of Florida, et al., v. American Tobacco Company, et al.*, Case No. 95-1466 AH, filed in the Fifteenth Judicial Circuit, in and for Palm Beach County Florida.

PUBLIC SAFETY

This fund includes internal reporting special revenue funds primarily administered by the Department of Law Enforcement, Department of Highway Safety and Motor Vehicles, Department of Legal Affairs, and Department of Military Affairs.

CORRECTIONS

This fund includes internal reporting special revenue funds administered by the Department of Corrections.

CONSUMER PROTECTION AND SAFETY

This fund includes internal reporting special revenue funds primarily administered by the Executive Office of the Governor, Department of Legal Affairs, Department of Revenue, and Department of Financial Services.

AGRICULTURE

This fund includes internal reporting special revenue funds administered by the Department of Agriculture and Consumer Services.

JUVENILE JUSTICE

This fund includes internal reporting special revenue funds administered by the Department of Juvenile Justice.

JUDICIAL SERVICES

This fund includes internal reporting special revenue funds primarily administered by the Justice Administrative Commission and the State Courts System.

MILITARY AND VETERANS' AFFAIRS

This fund includes internal reporting special revenue funds administered by the Department of Military Affairs and Department of Veterans' Affairs.

BLENDED COMPONENT UNITS

FLORIDA CLERKS OF COURT OPERATIONS CORPORATION

Pursuant to Section 28.35, Florida Statutes, this entity was created to recommend legislative changes in various court related fines, fees, service charges, and court costs, establish a process for reviewing and certification of proposed court-related budgets submitted by the clerks of court and establishing a system of uniform performance measures and standards for the clerks.

FLORIDA CITRUS COMMISSION

As authorized in Section 601.04, Florida Statutes, this entity was established to primarily promote the general welfare of the Florida citrus industry.

STATE BOARD OF ADMINISTRATION

This entity includes the following internal reporting special revenue funds administered by the State Board of Administration: Gas Tax Clearing Accounts and the Insurance Capital Build-up Program.

FLORIDA SCHOOL FOR THE DEAF AND THE BLIND

As authorized in Section 1002.36, Florida Statutes, this entity is a State-supported residential school for hearing-impaired and visually impaired students in preschool through 12th grade.

WIRELESS EMERGENCY TELEPHONE SYSTEM

As authorized in Section 365.172, Florida Statutes, this entity was established to promote a comprehensive statewide emergency telephone number system that will provide wireless telephone users with rapid direct access to public safety agencies.

CAREERSOURCE FLORIDA, INC.

This not-for-profit entity was created pursuant to Section 445.004, Florida Statutes, as the principal workforce policy organization for the State and the regional workforce boards.

FLORIDA WATER POLLUTION CONTROL FINANCING CORPORATION

Pursuant to Section 403.1837, Florida Statutes, this entity was created to finance the costs of water pollution control projects and activities described in Sections 403.1835 and 403.8532, Florida Statutes.

INLAND PROTECTION FINANCING CORPORATION

Pursuant to Section 376.3075, Florida Statutes, this entity was created to finance the rehabilitation of petroleum contamination sites pursuant to Sections 376.30-376.317, Florida Statutes, and the payment, purchase and settlement of reimbursement obligations of the Department of Environmental Protection pursuant to Section 376.3071(12), Florida Statutes.

FLORIDA SURPLUS LINES SERVICE OFFICE

Pursuant to Section 626.921, Florida Statutes, this entity was created to establish a system that would permit better access by consumers to approved unauthorized insurers.

CORRECTIONS FOUNDATION, INC.

This entity was organized to initiate developmental projects; raise funds; request and receive grants, gifts, and bequests; acquire, receive, hold, invest and administer securities, funds, or other property as authorized by Section 944.802, Florida Statutes.

SCRIPPS FLORIDA FUNDING CORPORATION

Pursuant to Section 288.955, Florida Statutes, this entity was created to facilitate the establishment and operation of a biomedical research institution for the purposes of enhancing education and research and promoting economic development and diversity.

PRIVATE-PURPOSE TRUST FUNDS

TRUST ESCROW ADMINISTRATION

These funds administered by the Department of Financial Services are used to account for trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

UNCLAIMED PROPERTY

This fund includes the internal reporting funds administered by the Department of Financial Services that are used to account for unclaimed property pursuant to Section 717.123, Florida Statutes.

STUDENT LOAN GUARANTY RESERVE

This fund administered by the Department of Education is used to account for federally guaranteed loans to Florida citizens to pay for higher education.

COLLEGE SAVINGS PLAN

This fund, administered by the State Board of Administration, is used to account for contributions from participants of the College Savings Plan as authorized by Section 1009.981, Florida Statutes. Participant contributions are collected and invested in accordance with the Plan provisions and participant direction.

OTHER

This category includes other internal reporting funds administered by various agencies that are used to account for trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

AGENCY FUNDS

TAX DISTRIBUTION AND ADMINISTRATION

These agency funds, administered by the Department of Revenue, are primarily used to account for taxes collected by the Department that are held for other municipalities, local governments, or outside entities.

OTHER

These agency funds, administered by various agencies, are used to account for resources held in trust for entities outside of the State government and for the asset and liability balance related to retiree health care.

FLORIDA SCHOOL FOR THE DEAF AND THE BLIND

These agency funds, administered by the School for the Deaf and the Blind, are used to account for resources held for students.

STATE BOARD OF ADMINISTRATION

These agency funds, administered by the State Board of Administration, are primarily used to account for escrowed bond funds.

STATISTICAL SECTION

Table of Contents

This section of the State of Florida's CAFR provides additional detailed information for use in assessing the financial condition of the government.

PAGE

Financial Trends - These schedules contain trend information to help assess how the state's financial position has changed over time.

Schedule A-1 - Net Position by Component	282
Schedule A-2 - Changes in Net Position	284
Schedule A-3 - Fund Balances - Governmental Funds	288
Schedule A-4 - Changes in Fund Balances - Governmental Funds	290

Revenue Capacity - These schedules present information on the state's most significant revenue sources and can assist with evaluating the government's ability to produce its own-source revenues.

Schedule B-1 - Revenue Base/Rate	292
Schedule B-2 - Principal Sales Tax Payers by Industry	294

Debt Capacity - These schedules may assist with an understanding of the state's outstanding debt and its ability to issue new debt.

Schedule C-1 - Ratios of Outstanding Debt by Type	296
Schedule C-2 - Ratios of Net General Bonded Debt Outstanding	298
Schedule C-3 - Legal Debt Margin	299
Schedule C-4 - Pledged-Revenue Coverage	300

Demographic and Economic Information - These schedules include demographic and economic information to communicate the state's socioeconomic environment. These schedules can assist with evaluating financial statement information in context with this historical data as well as among governments.

Schedule D-1 - Demographic and Economic Statistics	306
Schedule D-2 - Industry Sector Employment	308

Operating Information - These schedules include operating data to assist with understanding how information in the state's financial reports relate to services provided or activities performed by the state.

Schedule E-1 - Full-time Equivalent State Employees by Function	310
Schedule E-2 - Operating Indicators by Function	312
Schedule E-3 - Capital Assets by Function	314

State direct sales tax rate ⁽³⁾	6.0%	6.0%	6.0%	6.0%	6.0%

Note: Taxable sales information is available for reporting on a calendar-year basis only.

⁽¹⁾ Taxable sales associated with communications services tax.

⁽²⁾ As of the 2018-2019 fiscal year, figures and summaries provided for calendar year 2009 and future reporting periods are presented based upon the North American Industry Classification System (NAICS) classifications. Prior to 2018-2019, the taxable sales by industry data based on the NAICS classification system was only available for years 2012 or later.

⁽³⁾ The sales tax rate on non-residential electricity was 7.0% for utility service provided prior to July 1, 2014. For utility service on or after July 1, 2014, the state sales tax rate is 4.35%. The sales tax rate on communication services (nonresidential phone and all cable) was 6.8% from October 1, 2001 until August 1, 2010 when it was reduced to 6.65%. It was further reduced to 4.92% effective July 1, 2015. The sales tax rate on amusement machines is 4.0%. Farm equipment is tax-exempt.

Note: Details regarding the state's outstanding debt can be found in Notes 8 and 9 to the Financial Statements.

⁽¹⁾ Tax-supported revenues are comprised of State General Revenue receipts, including primarily sales and use tax revenues, and revenues generated from taxes specifically pledged for repayment of debt. See Schedule C-3 for a more complete description of tax-supported revenues.

⁽²⁾ Population data used in calculation of this ratio can be found in Schedule D-1.

**Legal Debt Margin
Last Ten Fiscal Years
(dollars in millions)**

Legal debt margin calculated for fiscal year 2018-2019:

Tax-supported revenues ⁽¹⁾	\$42,874
Debt limit ⁽²⁾	2,572
Debt applicable to limit:	
Aggregate debt service on tax-supported debt	<u>1,989</u>
Legal debt margin	<u>\$ 583</u>

	2010 ⁽³⁾	2011 ⁽³⁾	2012 ⁽³⁾	2013 ⁽³⁾	2014	2015	2016	2017	2018	2019
Debt limit ⁽²⁾	\$ 1,701	\$ 1,773	\$ 1,843	\$ 1,940	\$ 2,022	\$ 2,121	\$ 2,255	\$ 2,337	\$ 2,463	\$ 2,572
Total debt applicable to limit	<u>2,095</u>	<u>2,204</u>	<u>2,191</u>	<u>2,196</u>	<u>1,887</u>	<u>1,971</u>	<u>2,053</u>	<u>2,178</u>	<u>2,295</u>	<u>1,989</u>
Legal debt margin	<u>\$ (394)</u>	<u>\$ (431)</u>	<u>\$ (348)</u>	<u>\$ (256)</u>	<u>\$ 135</u>	<u>\$ 150</u>	<u>\$ 202</u>	<u>\$ 159</u>	<u>\$ 168</u>	<u>\$ 583</u>
Total net debt applicable to the limit as a percentage of debt limit.	123.16%	124.31%	118.88%	113.20%	93.32%	92.93%	91.03%	93.20%	93.18%	77.33%

⁽¹⁾ For purposes of this Schedule C-3, tax-supported revenues are comprised of the general revenues of the state, including primarily sales and use tax receipts, and the specific state tax revenues pledged for payment of debt service. Tax-supported debt is debt secured by the full faith and credit of the state or payable from general revenue or specified state tax sources. As of June 30, 2019, the total outstanding balance of tax-supported debt was approximately \$16,958,800,000.

⁽²⁾ The state debt fiscal responsibility policy, Section 215.98, Florida Statutes, establishes the ratio of tax-supported debt service to tax-supported revenues as the benchmark debt ratio for purposes of setting the state's legal debt margin. Under the present policy, if the ratio exceeds 6%, additional tax-supported debt may be authorized only if the legislature determines the additional debt is in the best interest of the state. If the ratio exceeds 7%, additional tax-supported debt may be authorized only if the legislature determines it is necessary to address a critical state emergency. The 6% ratio has been used to determine the debt limit in this schedule.

⁽³⁾ In Fiscal Years 2010, 2011, 2012, and 2013 tax-supported debt service exceeded 7% of tax-supported revenues.

Pledged-Revenue Coverage
Last Ten Fiscal Years
(dollars in thousands)

The schedules below contain information regarding revenues pledged to repay debt obligations. For each bond type, the schedules disclose Gross Revenue, Operating Expenses, Net Revenue Available for Debt Service, Principal, Interest, and Coverage Ratio. The bond types with operating expenses are considered self-supporting debt and are paid from the associated facilities being financed. If operating expenses are not shown, the bond type is considered to be Net Tax Supported Debt and serviced by dedicated tax or fee revenues.

⁽¹⁾ Refer to Note 8A.2. for information on the sources of pledged revenues.

⁽²⁾ Debt service interest is shown net of interest subsidy payments received from the Federal Government for Build America Bonds.

⁽³⁾ Source: Department of Lottery, Audited Financial Statements.

⁽⁴⁾ Coverage shown based on maximum annual debt service of \$6,874,250 for illustrative purposes.

⁽⁵⁾ Florida Hurricane Catastrophe Bonds debt service is reduced by interest earnings on bond proceeds and bond proceeds used to repay principal.

⁽⁶⁾ In Fiscal Year 2008, Florida Hurricane Catastrophe Fund executed a \$3.5 billion liquidity bond issue. The proceeds of the issue were used to redeem the bonds at maturity in Fiscal Year 2013. The coverage ratio shown is based only on the net revenue and does not include the bond proceeds used to redeem the bonds. Including the bond proceeds, the coverage ratio is 1.35.

⁽⁷⁾ FAMU Parking Bonds, Series 1997 final payment was in Fiscal Year 2018.

⁽⁸⁾ Coverage shown based on maximum annual debt service of \$2,382,950 for illustrative purposes.

Other Services ⁽²⁾	354	4.00%	301	4.11%
Total	6,892	77.86%	5,617	76.69%

Note: Privacy requirements prevent the state from obtaining and reporting specific information about the largest employers in the state's jurisdiction. Reporting by industry reveals the degree of concentration in the state's total employment base.

In December 2018, Florida's seasonally adjusted total nonagricultural employment was 8,989,900, an increase of 211,900 jobs (+2.4 percent) over the year. Florida's annual job growth rate had been positive for 100 out of 101 months. The only month not positive was due to Hurricane Irma that hit the state in September 2017. Prior to August 2010, the state had been losing jobs for three years. In December 2018, all ten major industries gained jobs over the year with professional and business services (+43,500 jobs) gaining the most followed by education and health services (+40,100 jobs).

⁽¹⁾ "Employment" is being calculated based on average total employment by industry for each calendar year. Percentages of "Total" employment are based on the following:

	2018	2009
Total non-agricultural employment (in thousands)	8,782	7,235
Total agricultural employment (in thousands)	68	88
Total employment	8,850	7,323

⁽²⁾ "Other Services" include the following: Automotive repair and maintenance, personal and laundry services, and religious, grantmaking, civic, professional, and similar organizations.

Sources: Florida Department of Economic Opportunity, Bureau of Workforce Statistics and Economic Research, Quarterly Census of Employment and Wages Program (for agricultural employment) and the U.S. Bureau of Labor Statistics, Current Employment Statistics Program (for all other industry data)

Note: Items denoted as unavailable have not been calculated for reporting as of the date of this CAFR.

⁽¹⁾ The Florida Retirement System includes retirees from the following employer groups: State Agencies, County Agencies, District School Boards, Universities, State Colleges, Cities, Special Districts, Hospitals, and Other. Refer to Note 6 and Other Required Supplementary Information for further details.

⁽²⁾ Information for this agency and/or item is only reported by calendar year. Information reported in each column represents calendar year ended December 31.

⁽³⁾ Beginning in 2014, the count being included reports the number of actual licenses versus prior years that reported the count of license holders.

⁽⁴⁾ Includes motor vehicles, manufactured homes, and vessels.

⁽⁵⁾ Effective July 1, 2012, Section 316.066, F.S., was amended to require all law enforcement agencies to report additional crash data to the Department of Highway Safety and Motor Vehicles. The 2012 data reflects six months of the reporting change in crashes and the 2013 data reflects a full year of the reporting change in crashes. The statutory change resulted in more crash reports being received for reporting.

SUMMARY

SUMMARY OF REPORT ON FINANCIAL STATEMENTS

The State of Florida's basic financial statements, as of and for the fiscal year ended June 30, 2019, were fairly presented, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our report is included in the Florida Comprehensive Annual Financial Report for the fiscal year ended June 30, 2019, issued by the Chief Financial Officer.

SUMMARY OF REPORT ON INTERNAL CONTROL AND COMPLIANCE

Internal Control Over Financial Reporting

We noted and consider the following matter involving internal control over financial reporting and its operation to be a significant deficiency:

- The Florida Department of Financial Services (FDFS), Statewide Financial Reporting Section (SFRS), recorded incorrect amounts for debt related to capital assets to Net Position – Net investments in capital assets (Net investments in capital assets). (Finding No. 2019-001)

We noted the following additional matters that we reported to management but do not consider to be significant deficiencies:

- The FDFS incorrectly recognized tobacco settlement amounts owed to the State as revenues prior to the amounts becoming available. Additionally, the FDFS did not record net receivables and unavailable revenue for all tobacco settlement amounts. (Finding No. AM 2019-01)
- The Florida Department of Transportation overstated disposition gain (loss) and Capital contributions amounts. (Finding No. AM 2019-02)
- The Florida Department of Health did not properly account for all construction work in progress and recorded incorrect amounts for construction work in progress to Capital assets, net and Human services, expenses for the 2017-18 and 2018-19 fiscal years. (Finding No. AM 2019-03)

SUMMARY OF REPORT ON FEDERAL AWARDS

State agencies, universities, and colleges administered approximately 565 Federal awards programs and program clusters during the 2018-19 fiscal year. Expenditures for the 23 major programs totaled \$25.6 billion, or approximately 69 percent of the total expenditures of \$36.9 billion, as reported on the supplementary Schedule of Expenditures of Federal Awards.

Compliance requirements for Federal awards programs are established in the *Office of Management and Budget (OMB) Compliance Supplement*. Types of compliance requirements include: Activities Allowed or Unallowed; Allowable Costs/Cost Principles; Cash Management; Eligibility; Equipment and Real Property Management; Matching, Level of Effort, Earmarking; Period of Performance; Procurement and Suspension and Debarment; Program Income; Reporting; Subrecipient Monitoring; and Special Tests and Provisions.

Compliance

The State of Florida complied, in all material respects, with the compliance requirements applicable to each of its major Federal awards programs, except as described in the following instances:

- The Florida Division of Emergency Management (FDEM) did not always obtain and maintain documentation to support costs charged to the 2017 Wildfires and Hurricanes Indemnity Program (WHIP). Additionally, the FDEM did not evaluate subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward or develop appropriate subrecipient monitoring plans based on an assessed risk of noncompliance and did not verify that all applicable subrecipients of the Disaster Grants program were audited. These instances of noncompliance resulted in opinion qualifications. (Finding No. 2019-002 – WHIP, and Finding Nos. 2019-040 and 2019-041 – Disaster Grants – Public Assistance (Presidentially Declared Disasters))
- The Florida Department of Military Affairs (FDMA) could not demonstrate that, prior to entering into covered transactions, the FDMA determined that the contractors were not suspended, debarred, or otherwise excluded by the Federal Government. Additionally, the FDMA did not include in applicable contractual agreements a clause requiring the contractor to comply with Federal guidance on suspension and debarment. These instances of noncompliance resulted in an opinion qualification. (Finding No. 2019-004 – National Guard Military Operations and Maintenance Projects)
- For the Unemployment Insurance (UI) program, we are unable to express, and do not express, an opinion on the Florida Department of Economic Opportunity's (FDEO's) compliance with the Reporting compliance requirement because the FDEO did not submit the required Federal Financial Reports to the Employment and Training Administration. (Finding No. 2019-014 – Unemployment Insurance)
- For the UI program, we are unable to express, and do not express an opinion on the Florida Department of Revenue's (FDOR's) compliance with the Special Tests and Provisions – Match with Internal Revenue Service (IRS) 940 Federal Unemployment Tax Act Tax Form compliance requirement because the FDOR could not provide a copy of the certification files provided to the IRS evidencing the match of employer tax payments with credits claimed for the payments on the employer's Form 940 or Schedule H. (Finding No. 2019-016 – Unemployment Insurance)
- The Florida Department of Children and Families did not always timely review and process Income Eligibility and Verification System data exchange responses, which resulted in an opinion qualification. (Finding No. 2019-030 – Temporary Assistance for Needy Families)
- Florida Agency for Persons with Disabilities records did not always evidence that continued stay reviews were completed for beneficiaries of Intermediate Care Facility Services for Individuals with Intellectual Disabilities in accordance with the time frame specified by Federal regulations, resulting in an opinion qualification. (Finding No. 2019-035 – Medicaid Cluster)

The results of our audit also disclosed other instances of noncompliance pertaining to programs administered by various State agencies and a college, as described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. Some of the instances of noncompliance resulted in questioned costs subject to disallowance by the grantor agency.

Internal Control Over Compliance

We noted numerous matters at various State agencies and one college involving internal control over compliance and its operation that we consider to be material weaknesses or significant deficiencies. Material weaknesses and significant deficiencies are described in the **SCHEDULE OF FINDINGS AND**

QUESTIONED COSTS and pertained to several compliance requirements. The instances described in the previous paragraphs on compliance for the WHIP (Finding No. 2019-002), National Guard Military Operations and Maintenance Projects (Finding No. 2019-004), Unemployment Insurance (Finding Nos. 2019-014 and 2019-016), Temporary Assistance for Needy Families (Finding No. 019-030), Medicaid Cluster (Finding No. 2019-035), and Disaster Grants – Public Assistance (Presidentially Declared Disasters) (Finding Nos. 2019-040 and 2019-041), are deficiencies in internal control over compliance considered to be material weaknesses.

SUMMARY OF REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The State's **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** (SEFA) is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the State's basic financial statements. The State's SEFA does not include Federal awards expenditures for the State's blended component units; CareerSource Florida, Inc. and the Florida Commission on Community Service; discretely presented component units of the State's universities and colleges; or discretely presented component units other than the State's universities and colleges. In our opinion, the SEFA is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

AUDIT SCOPE

As a condition of receiving Federal funds, the OMB requires, as described in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), an audit of the State's financial statements and major Federal awards programs. Pursuant to Section 11.45, Florida Statutes, we conducted an audit of the basic financial statements of the State of Florida as of and for the fiscal year ended June 30, 2019. We also subjected supplementary information contained in the State's Comprehensive Annual Financial Report and the State's SEFA to auditing procedures applied in our audit of the basic financial statements. Additionally, we audited the State's compliance with governing requirements for the Federal awards programs and program clusters that we identified as major programs for the fiscal year ended June 30, 2019. We also performed procedures to assess the reasonableness of the **SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS** prepared by the State of Florida.

AUDIT OBJECTIVES

The objectives of our audit were to:

- Express opinions concerning whether the State's basic financial statements were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- Express an opinion concerning whether the State's SEFA was presented fairly, in all material respects, in relation to the State's basic financial statements as a whole.
- Obtain an understanding of the internal control over financial reporting and the internal control over compliance for each major Federal awards program or program cluster, assess the control risk, and perform tests of controls, unless the controls were deemed to be ineffective.

- Express opinions concerning whether the State complied, in all material respects, with Federal statutes, regulations, and the terms and conditions of Federal awards that may have a direct and material effect applicable to each of the major Federal awards programs and program clusters.
- Determine whether management had taken appropriate actions to correct deficiencies noted in our previous audit reports.
- Assess the reasonableness of the Summary Schedule of Prior Audit Findings prepared by the State.

AUDIT METHODOLOGY

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, applicable standards contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the State of Florida's basic financial statements, and have issued our report thereon dated February 21, 2020. Our report includes a reference to other auditors who audited the financial statements of the Prepaid College Program Fund, Florida Turnpike System, Hurricane Catastrophe Fund, College Savings Plan and the trust fund maintained by the State Board of Administration to account for the investments of the Public Employee Optional Retirement Program, assets and investment income of the Florida Retirement System Defined Benefit Pension Plan, Florida Housing Finance Corporation, Citizens Property Insurance Corporation, component units related to the State's universities and colleges, and certain other funds and entities as described in our report on the State of Florida's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the State's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in Finding No. 2019-001 in the **Financial Statements Findings** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**, that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, administrative rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Additional Matters

We noted three additional matters that we reported to management as Finding Nos. AM 2019-01, AM 2019-02, and AM 2019-03 in the **ADDITIONAL MATTERS** section as listed in the table of contents.

Management Responses to Findings

Management's response to the significant deficiency identified in our audit is described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** Financial Statements Finding No. 2019-001. Management responses to the additional matters identified in our audit are included in the **ADDITIONAL MATTERS** section as listed in the table of contents. The responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the State's internal control or on compliance. This report is an integral part of an audit performed in accordance with

Government Auditing Standards in considering the State's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Legislative Auditing Committee

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

We have audited the State of Florida's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the State of Florida's major Federal programs for the fiscal year ended June 30, 2019. The State of Florida's major Federal programs are identified in the **Summary of Auditor's Results** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**.

The State of Florida's basic financial statements include the operations of component units which received Federal awards during the fiscal year ended June 30, 2019, that are not included in the State's **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**. Our audit of the State of Florida's major Federal programs did not include the operations of the blended component units, CareerSource Florida, Inc. and the Florida Commission on Community Service; discretely presented component units of the State of Florida's universities and colleges; or discretely presented component units other than the State of Florida's universities and colleges. As applicable, Federal awards administered by these component units are the subjects of audits completed by other auditors. Our audit also did not include the operations of the Legislature.

Management's Responsibility

Management is responsible for compliance with Federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the State of Florida's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*,

issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the State of Florida's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major Federal programs. However, our audit does not provide a legal determination of the State of Florida's compliance.

Basis for Qualified Opinion on the 2017 Wildfires and Hurricanes Indemnity Program, National Guard Military Operations and Maintenance (O&M) Projects, Unemployment Insurance, Temporary Assistance for Needy Families, Medicaid Cluster, and Disaster Grants – Public Assistance (Presidentially Declared Disasters)

As described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**, the State of Florida did not comply with requirements regarding the following:

Finding No. 2019-	CFDA No.	Major Program (or Cluster) Name	Compliance Requirement
002	10.120	2017 Wildfires and Hurricane Indemnity Program	Activities Allowed or Unallowed and Allowable Costs/Cost Principles
004	12.401	National Guard Military Operations and Maintenance (O&M) Projects	Procurement and Suspension and Debarment
030	93.558	Temporary Assistance for Needy Families	Special Tests and Provisions – Income Eligibility and Verification System
035	93.775, 93.777, 93.778	Medicaid Cluster	Special Tests and Provisions – Utilization Control and Program Integrity
040	97.036	Disaster Grants – Public Assistance (Presidentially Declared Disasters)	Subrecipient Monitoring
041	97.036	Disaster Grants – Public Assistance (Presidentially Declared Disasters)	Subrecipient Monitoring

Compliance with such requirements is necessary, in our opinion, for the State of Florida to comply with the requirements applicable to the respective programs.

As described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**, we were unable to obtain sufficient appropriate audit evidence supporting that the State of Florida complied with requirements regarding the following:

Finding No. 2019-	CFDA Nos.	Major Program (or Cluster) Name	Compliance Requirements
014	17.225	Unemployment Insurance	Reporting
016	17.225	Unemployment Insurance	Special Tests and Provisions – Match with Internal Revenue Service (IRS) 940 Federal Unemployment Tax Act (FUTA) Tax Form

Consequently, we were unable to determine whether the State of Florida complied with those requirements applicable to the programs.

Qualified Opinion on the 2017 Wildfires and Hurricanes Indemnity Program, National Guard Military Operations and Maintenance (O&M) Projects, Unemployment Insurance, Temporary Assistance for Needy Families, Medicaid Cluster, and Disaster Grants – Public Assistance (Presidentially Declared Disasters)

In our opinion, except for the noncompliance and possible effects of the matters described in the Basis for Qualified Opinion paragraphs, the State of Florida complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the 2017 Wildfires and Hurricanes Indemnity Program, National Guard Military Operations and Maintenance (O&M) Projects, Unemployment Insurance, Temporary Assistance for Needy Families, Medicaid Cluster, and Disaster Grants – Public Assistance (Presidentially Declared Disasters) for the fiscal year ended June 30, 2019.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the State of Florida complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major Federal programs identified in the **Summary of Auditor’s Results** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** for the fiscal year ended June 30, 2019.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** as:

Finding Nos. 2019-:			
003	013	018-019	025-026
028-029	033	036-039	042

Our opinion on each major Federal program is not modified with respect to these matters.

The State of Florida’s responses to the noncompliance findings identified in our audit are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. The State of Florida’s responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of the State of Florida is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the State of Florida's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State of Florida's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the following findings and included in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be material weaknesses:

Finding No. 2019-	CFDA Nos.	Major Program (or Cluster) Name	Compliance Requirements
002	10.120	2017 Wildfires and Hurricane Indemnity Program	Activities Allowed or Unallowed and Allowable Costs/Cost Principles
004	12.401	National Guard Military Operations and Maintenance (O&M) Projects	Procurement and Suspension and Debarment
014	17.225	Unemployment Insurance	Reporting
016	17.225	Unemployment Insurance	Special Tests and Provisions – Match with Internal Revenue Service (IRS) 940 Federal Unemployment Tax Act (FUTA) Tax Form
030	93.558	Temporary Assistance for Needy Families	Special Tests and Provisions – Income Eligibility and Verification System
035	93.775, 93.777, 93.778	Medicaid Cluster	Special Tests and Provisions – Utilization Control and Program Integrity
040	97.036	Disaster Grants – Public Assistance (Presidentially Declared Disasters)	Subrecipient Monitoring
041	97.036	Disaster Grants – Public Assistance (Presidentially Declared Disasters)	Subrecipient Monitoring

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the following findings and included in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be significant deficiencies:

Finding Nos. 2019-:

003	005-013	015	018
020-024	026-027	029	032-034
036	039	042	

The State of Florida’s responses to the internal control over compliance findings identified in our audit are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. The State of Florida’s responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Fax: (850) 488-6975

The President of the Senate, the Speaker of the
House of Representatives, and the
Legislative Auditing Committee

INDEPENDENT AUDITOR'S REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the State of Florida's basic financial statements. We issued our Independent Auditor's Report thereon dated February 21, 2020, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Florida's basic financial statements.

The accompanying **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Respectfully submitted,

A handwritten signature in blue ink that reads "Sherrill F. Norman".

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

SECTION I - SUMMARY OF AUDITOR'S RESULTS

Financial Statements

Type of auditor's report issued on whether the financial statements audited were prepared in accordance with GAAP: Unmodified on all opinion units

Internal control over financial reporting:

Material weaknesses identified? No

Significant deficiencies identified? Yes

Noncompliance material to financial statements noted? No

Federal Awards

Internal control over major Federal programs:

Material weaknesses identified? Yes

Significant deficiencies identified? Yes

Type of auditor's report issued on compliance for major Federal programs:

Unmodified for all major programs, except for the following programs for which the report was qualified:

2017 Wildfires and Hurricanes Indemnity Program (10.120)

National Guard Military Operations and Maintenance (O&M) Projects (12.401)

Unemployment Insurance (17.225)

Temporary Assistance for Needy Families (93.558)

Medicaid Cluster (93.775, 93.777, and 93.778)

Disaster Grants – Public Assistance (Presidentially Declared Disasters) (97.036)

Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? Yes

Dollar threshold used to distinguish between Type A and Type B programs: \$55,330,917

Auditee qualified as low-risk auditee? No

**LISTING OF MAJOR PROGRAMS
FISCAL YEAR ENDED JUNE 30, 2019**

Refugee and Entrant Assistance State/Replacement Designee Administered Programs	93.566	50,175,895
Stephanie Tubbs Jones Child Welfare Services Program	93.645	16,692,678
Social Services Block Grant	93.667	156,942,168
Children's Health Insurance Program	93.767	503,120,507
Medicaid Cluster (2)	93.775, 93.777, & 93.778	15,951,669,834
HIV Care Formula Grants	93.917	179,280,889
Block Grants for Community Mental Health Services	93.958	42,917,655
Block Grants for Prevention and Treatment of Substance Abuse	93.959	113,356,916
Disability Insurance/SSDI Cluster	96.001 & 96.006	137,626,317
Disaster Grants – Public Assistance (Presidentially Declared Disasters)	97.036	<u>905,022,718</u>
Total		<u>\$26,529,986,381</u>

Notes: (1) The Schedule of Expenditures of Federal Awards identifies the programs included within the respective clusters.
(2) This program included ARRA funds expended during the 2018-19 fiscal year.

SECTION II - FINANCIAL STATEMENTS FINDINGS

Our audit of the State of Florida's basic financial statements for the fiscal year ended June 30, 2019, disclosed a certain matter that we communicated in the **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**. The finding is categorized in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that findings be categorized in a manner that discloses their significance. The categorizations established and defined by the standards are as follows:

- A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.
- A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

SIGNIFICANT DEFICIENCY

NET INVESTMENTS IN CAPITAL ASSETS

Finding Number	2019-001
Opinion Unit	Governmental Activities
Financial Statements Account Titles	Net Position – Net investments in capital assets; Net Position – Unrestricted
SW Fund Number	N/A
State Agency	Florida Department of Financial Services (FDFS)
OLO-GF-SF-FID	N/A
Financial Statement Line Codes	5310 and 5910
Adjustment Amount	\$14,503,526,000
Statistically Valid Sample	N/A

Finding The FDFS, Statewide Financial Reporting Section (SFRS), recorded incorrect amounts for debt related to capital assets to Net Position - Net investments in capital assets (Net investments in capital assets).

Criteria Governmental Accounting Standards Board (GASB) Codification Section 1800.156 specifies that the *net investment in capital assets* component of net position is to consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of debt instruments that are attributable to the acquisition, construction, or improvement of those assets. Significant unspent related debt proceeds or deferred inflows of resources should not be included in the calculation of Net investments in capital assets.

Chief Financial Officer *Procedures for Government-Wide Financial Statements* provide a list of the documents and calculations needed to complete the government-wide statements, including the calculation of Net investments in capital assets.

Condition The SFRS established financial statement forms for State agencies to assist the SFRS in the compilation of the State's Comprehensive Annual Financial Report, including the determination of total outstanding bonds payable and the Amount deferred on refunding of debt. Additionally, the SFRS receives documentation from State agencies indicating which outstanding bonds were related to Governmental Activities capital assets.

During the 2018-19 fiscal year, the Governmental Activities, Capital assets, net totaled \$78.54 billion and outstanding bonds related to capital assets totaled \$2.3 billion. Our review of the SFRS calculation for Net investments in capital assets disclosed instances in which incorrect amounts were recorded. Specifically, we noted that the SFRS:

- Converted the amounts provided by State agencies in the Net investments in capital assets calculation to thousands, except for the Deferred inflow and Deferred outflow amounts for the Amount deferred on refunding of debt, resulting in deferred for refunding amounts totaling \$16.4 million being recorded as \$16.4 billion.
- Used unamortized premiums totaling \$2.1 billion to calculate the net of related debt portion of Net investments in capital assets instead of the actual unamortized premiums of \$155.9 million.

Cause According to SFRS management, while established procedures provided steps and calculations needed to determine Net investments in capital assets, such procedures did not provide for and SFRS staff did not evaluate the amounts used in the calculation for consistency and reasonableness. Additionally, SFRS

management did not review the appropriateness of the Net investments in capital assets calculation to ensure that errors, if any, were timely detected and corrected.

Effect

Prior to audit adjustment, the Governmental Activities, Net investments in capital assets account was overstated by \$14,503,526,000 and the Net Position – Unrestricted account was understated by \$14,503,526,000.

Recommendation

We recommend that SFRS management enhance controls to ensure that SFRS staff evaluate all governmental activities amounts provided by State agencies for consistency and reasonableness prior to completion of the government-wide financial statements. Additionally, we recommend that SFRS management enhance controls to ensure that supervisory review of government-wide net position calculations is conducted to promote the timely detection and correction of errors.

State Agency Response

We concur. The SFRS will enhance its review process through the creation and implementation of a financial statement reconciliation tool which will assist management in the review, identification, and correction of presentation errors noted between the respective financial statement line items. Additionally, updates to SFRS procedures will be made to include the use of the tool during review and include a comprehensive list of validation criteria that will be used by management to ensure the consistency and reasonableness of the amounts presented in the financial statements of the State of Florida.

THIS PAGE INTENTIONALLY LEFT BLANK

Section III - Federal Awards Findings and Questioned Costs

Our audit findings with regard to compliance and internal controls over compliance with the requirements of major Federal awards programs are disclosed on the following pages. Where applicable and determinable, we have disclosed actual questioned costs where known or likely questioned costs exceeded \$25,000. To identify the nature and significance of each finding, we have identified each finding with one or more of the following designations:

- **Disclaimer of Opinion.** A finding that presents conditions where the auditor is unable to express an opinion on a compliance requirement for a major Federal program. A disclaimer would be appropriate when the auditor is not able to perform procedures sufficient to enable the auditor to form an opinion on compliance. This would include findings of inadequate records that resulted in restrictions being placed on the scope of the audit.
- **Opinion Qualification.** A finding presenting a condition that affects the auditor's ability to give an unqualified opinion on compliance. This would include findings of noncompliance with Federal statutes, regulations, or the terms and conditions of Federal awards related to a major Federal program, the effects of which are material to the major Federal program as a whole.
- **Noncompliance.** A finding presenting noncompliance with Federal statutes, regulations, or the terms and conditions of Federal awards related to a major Federal program caused by error or fraud, the effects of which are material in relation to a type of compliance requirement identified in the *OMB Compliance Supplement*.
- **Material Weakness.** A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A material weakness is considered in relation to a type of compliance requirement identified in the *OMB Compliance Supplement*.
- **Significant Deficiency.** A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A significant deficiency is considered in relation to a type of compliance requirement identified in the *OMB Compliance Supplement*.
- **Questioned Costs.** Costs that are questioned by the auditor because of an audit finding that reported: (a) a violation or possible violation of a statute, regulation, or the terms and conditions of a Federal award, including funds used to match Federal funds; (b) costs, at the time of the audit, which were not supported by adequate documentation; or, (c) costs incurred that appeared unreasonable and did not reflect the actions a prudent person would take in the circumstances.

As part of the audit process, our findings were provided to the applicable entities for management's response. The responses were prepared by entity management and are included within the audit findings as well as Management's Corrective Action Plan.

We have presented our findings, generally, by Federal grantor agency and in the order of the Catalog of Federal Domestic Assistance Number (CFDA No.) assigned to each applicable Federal award program. Findings that pertain to multiple programs are generally presented as the first findings within the Federal grantor agency section. In some instances, a finding may pertain to programs provided by more than one Federal grantor agency. In such instances, the finding is presented within the section for the Federal grantor agency that provided the most funding for the applicable agency. An **Index of Federal Findings by Federal Agency and Compliance Requirement** is included to assist Federal grantor agencies in identifying applicable findings.

U.S. DEPARTMENT OF AGRICULTURE

Finding Number	2019-002
CFDA Number	10.120
Program Title	2017 Wildfires and Hurricanes Indemnity Program (WHIP)
Compliance Requirement	Activities Allowed or Unallowed and Allowable Costs/Cost Principles
State Entity	Florida Division of Emergency Management (FDEM)
Federal Grant/Contract Number and Grant Year	USDA-FSA-2018-001 2018
Statistically Valid Sample	No
Finding Type	Opinion Qualification and Material Weakness Questioned Costs – \$917,256.70
Finding	The FDEM did not always obtain and maintain documentation to support costs charged to the WHIP.
Criteria	<p>2 CFR 200.403(g) – <i>Factors affecting allowability of costs</i> – Except where otherwise authorized by statute, costs must be adequately documented to be allowable under Federal awards.</p> <p>2 CFR 200.404 – <i>Reasonable costs</i> – A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost. Consideration must be given to market prices for comparable goods or services for the geographic area.</p>
Condition	During the 2018-19 fiscal year, the FDEM provided \$81,154,535 in WHIP funds to 451 subrecipients (citrus producers). To receive reimbursement for WHIP project expenditures, the FDEM required citrus producers to submit an application and provide supporting documentation for each expense item for which reimbursement was requested. Our examination of FDEM records for 25 expenditure transactions, totaling \$19,496,193.19, disclosed that, for 10 transactions totaling \$4,533,340.85, FDEM records did not support that the transactions were allowable or reasonable. Subsequent to audit inquiry, the FDEM obtained supporting documentation from the citrus producers for some expenditures. However, for 6 unsupported expenditure transactions, questioned costs totaled \$917,256.70.
Cause	According to FDEM management, the expenditures were not supported due to staff oversight during the payment review process. Additionally, the FDEM did not require staff to review certain types of expenditure documentation for reasonableness prior to payment.
Effect	Absent appropriate documentation, the FDEM cannot demonstrate the allowability or reasonableness of WHIP expenditures and such amounts could be subject to disallowance by the Federal grantor agency.
Recommendation	We recommend that FDEM management strengthen reimbursement processing controls to ensure that FDEM records evidence that all costs charged to the WHIP are allowable and reasonable.
State Entity Response	Subsequent to audit inquiry, FDEM has substantiated \$326,624.85 of the questioned costs and is in the process of obtaining additional documentation to support \$46,700.00 to comply with 2 CFR 200.403(g). FDEM does not expect recoupment will be necessary. The remaining \$543,931.85 in questioned costs are related to arm's length transactions. The transactions described regularly occur as an industry standard. Many Citrus Recovery Block Grant (CRBG) applicants own groves and the caretaking companies that service and manage them. While the companies have the same owner, each company is operating as a separate legal entity. FDEM compared claimed costs to prices from other unaffiliated producer records as well as other market data sources area in

accordance with 2 CFR 200.404. All costs are evaluated and must be deemed eligible, reasonable and appropriate prior to payment. Subsequent to audit inquiry and prior to the audit report, the analyses found all claimed costs to be eligible and reasonable.

FDEM concurs with the auditor's recommendation and will strengthen reimbursement controls to ensure all costs are validated and determined reasonable prior to payment.

U.S. DEPARTMENT OF AGRICULTURE

Finding Number	2019-003
CFDA Number	10.558
Program Title	Child and Adult Care Food Program (CACFP)
Compliance Requirement	Subrecipient Monitoring
State Entity	Florida Department of Health (FDOH)
Federal Grant/Contract Number and Grant Year	5FL300350 2019 and 5FL300340 2019
Statistically Valid Sample	N/A
Finding Type	Noncompliance and Significant Deficiency
Finding	The FDOH did not include the correct citations to Federal regulations in subaward agreements.
Criteria	2 CFR Part 200.331 – <i>Requirements for pass-through entities</i> - All pass-through entities must ensure that every subaward is clearly identified to the subrecipient as a subaward and include certain information at the time of the subaward (e.g., applicable Federal regulations) and, if any of those data elements change, include the changes in subsequent subaward modifications.
Condition	Pursuant to Federal regulations, the FDOH used a Permanent Contract to document the FDOH's notification to subrecipients of applicable Federal regulations. During the 2018-19 fiscal year, the FDOH disbursed CACFP funds totaling approximately \$291 million to 2,204 subrecipients. Our review of the Permanent Contract disclosed that the Contract did not include the correct citations to applicable Federal regulations. According to the CACFP grant award, effective December 2014 CACFP funds were subject to the requirements included in 2 CFR 200 (Uniform Guidance); however, the Permanent Contract directed subrecipients to comply with regulations that predated the Uniform Guidance.
Cause	According to FDOH management, the FDOH did not notify subrecipients of the changes in applicable Federal regulations through the subaward because the FDOH is still in the process of revising the Permanent Contract to ensure compliance with Federal and State contract requirements.
Effect	The failure to notify subrecipients of the correct Federal regulations through the subaward may result in subrecipient noncompliance with Federal regulations.
Recommendation	We recommend that FDOH management revise the Permanent Contract to ensure that subrecipients are appropriately notified of the correct Federal regulations.
State Entity Response	<p>The Bureau of Child Care Food Programs (CCFP) is working with the Office of General Counsel (OGC) on an amendment to the Permanent Contract for CCFP contractors that executed agreements from July 1, 2019 through January 31, 2020. The existing Permanent Contract has been updated with the correct citations from 2 CFR 200, and will be used for any new contractors that come on the program starting February 1, 2020. CCFP is also working with OGC on comprehensive revisions to the Permanent Contract and Attachments which will be given to all 2,200+ subrecipients for execution on or before June 30, 2020.</p> <p>As part of the annual renewal process, all subrecipients are notified of the applicable 2 CFR Part 200 requirements through a question on the renewal application, through financial management training, and through an Audit Report Certification Form sent to all CCFP contractors from the FDOH Federal Compliance and Audit Management section.</p>

THIS PAGE INTENTIONALLY LEFT BLANK

U.S. DEPARTMENT OF DEFENSE

Finding Number 2019-004
CFDA Number 12.401
Program Title National Guard Military Operations and Maintenance (O&M) Projects
Compliance Requirement Procurement and Suspension and Debarment
State Entity Florida Department of Military Affairs (FDMA)
Federal Grant/Contract Number and Grant Year W911YN-19-2-1000
Statistically Valid Sample No
Finding Type Opinion Qualification and Material Weakness
Prior Year Finding Report No. 2019-186, Finding No. 2018-005

Finding The FDMA could not demonstrate that, prior to entering into covered transactions, the FDMA determined that the contractors were not suspended, debarred, or otherwise excluded by the Federal Government. Additionally, the FDMA did not include in applicable contractual agreements a clause requiring the contractor to comply with Federal guidance on suspension and debarment.

Criteria 2 CFR 180.300 – *What must I do before I enter into a covered transaction with another person at the next lower tier?* – When you enter into a covered transaction with another person at the next lower tier, you must verify that the person with whom you intend to do business is not excluded or disqualified. You do this by: (a) Checking System for Award Management (SAM) Exclusions, (b) Collecting a certification from that person, or (c) Adding a clause or condition to the covered transaction with that person.

United States Department of Defense, National Guard Bureau - *Master Cooperative Agreement* – The grantee agrees to check SAM to verify contractor eligibility to receive contracts. The verification shall be documented in the contract files. Also, for each contract for an amount equal to or greater than \$25,000, the grantee must include a clause requiring the contractor to comply with the guidance on suspension and debarment included in 2 CFR 180.

Condition During the 2018-19 fiscal year, the FDMA entered into 55 contractual agreements with 35 contractors utilizing O&M Projects funds totaling \$24,290,219. We examined FDMA records for 3 contractual agreements, totaling \$535,630, entered into with 3 contractors during the 2018-19 fiscal year. Our examination disclosed that FDMA records did not evidence that, prior to entering into the contractual agreements, the FDMA verified through SAM that the contractors were not suspended, debarred, or otherwise excluded. In addition, our examination disclosed that, although each contract exceeded \$25,000, the FDMA did not include in the 3 contractual agreements a clause requiring the contractor to comply with guidance on suspension and debarment. Our review of the FDMA *Construction Facility Management Office Contract Management Branch Standard Operating Procedures* disclosed that the *Procedures* did not require FDMA staff to verify that a contractor was not suspended, debarred, or otherwise excluded prior to entering into a contractual agreement or require that applicable contracts include a clause related to suspension and debarment compliance.

Cause FDMA policies and procedures did not require staff to verify through SAM that a contractor was not suspended, debarred, or otherwise excluded prior to entering into a contract, nor require that a clause related to suspension and debarment compliance be included in applicable contractual agreements.

Effect Absent adequate controls, the risk is increased that the FDMA could unknowingly enter into covered transactions with contractors who have been suspended, debarred, or otherwise excluded by the Federal Government. In addition,

O&M Projects funds provided to contractors could be subject to disallowance by the United States Department of Defense.

Recommendation

We again recommend that FDMA management enhance policies and procedures to ensure that FDMA records evidence that, prior to entering into covered transactions, the FDMA verified through SAM that contractors were not suspended, debarred, or otherwise excluded by the Federal Government. We also continue to recommend that FDMA management enhance policies and procedures to require that all contracts equal to or greater than \$25,000 include a clause requiring the contractor to comply with the guidance on suspension and debarment included in 2 CFR 180.

State Entity Response

We concur with your finding and recommendation. We are still in the process of enhancing our policies to include reviewing SAM for exclusions prior to contracting with a company. Additionally, we are working to require that all new contracts include proper language requiring the contractor to comply with the guidance on suspension and debarment.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-005
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Activities Allowed or Unallowed and Allowable Costs/Cost Principles
State Entity	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-013
Finding	Internal controls for the Electronic Payment Card (EPC) Processing and Settlement System need improvement
Criteria	2 CFR 200.303 – <i>Internal Controls</i> – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.
Condition	<p>The FDEO contracted with a service organization to provide services that enable UI claimants to receive UI benefits to which they are entitled through an electronic access card (debit card). During the 2018-19 fiscal year, the FDEO processed UI benefit payments totaling approximately \$358 million. Benefit payments distributed via debit card totaled approximately \$76 million.</p> <p>The service organization obtained an independent service auditor's report for the period July 1, 2018, through June 30, 2019, in which the service organization's auditors qualified their opinion related to logical access, network security, and computer operations controls. Given the significance of the service organization's role in the UI program, internal control weaknesses reported in the service auditor's report could significantly impact the UI program.</p>
Cause	The service organization had not effectively established certain IT controls, including controls related to logical access, network security, and computer operations.
Effect	Absent appropriate EPC Processing and Settlement System controls, the FDEO has reduced assurance that UI data is appropriately safeguarded.
Recommendation	We again recommend that the FDEO ensure that the service organization takes timely and appropriate corrective action to resolve the deficiencies noted in the independent service auditor's report.
State Entity Response	We concur with the finding. The contracted service organization is implementing process improvements and system enhancements to improve internal controls.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-006
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments and UI Program Integrity – Overpayments
State Entity	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-012
Finding	In our information technology operational audit report No. 2019-183, dated March 2019, we noted in Finding 4 that Reemployment Assistance Claims and Benefits Information System (RA System) application edits for postmark and received dates and related date sequencing need improvement. As of June 2019, the FDEO had not corrected the identified deficiencies.
Criteria	Effective application controls include edits to reasonably assure that data is valid and recorded in the proper format and include, among others, field format controls, required field controls, limit and reasonableness controls, valid combination of related data field values, and master file matching.
Condition	<p>The RA System is a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. During the 2018-19 fiscal year, the FDEO made UI benefit payments totaling approximately \$358 million.</p> <p>Our information technology operational audit disclosed that the controls over postmark and received dates and related date sequencing in the RA System need improvement. Specifically, the <i>Date Received</i> field erroneously updated automatically to the current date each time the document was assigned, reassigned, or indexed in the RA System. Also, when FDEO and contractor employees made manual entries to the <i>Date Received</i> field to correct the automatic updating or to the <i>Date Received</i> or the <i>Date Postmarked</i> fields in the normal course of work, no system edits existed to ensure that the dates sequenced correctly. For example, the RA System did not prevent the user from entering a date in the <i>Date Received</i> field that was prior to the date in the <i>Date Postmarked</i> field. Also, no edit existed to prevent the user from manually entering a future date in the <i>Date Received</i> field.</p> <p>While the FDEO identified application edits to ensure the accuracy and integrity of dates in the RA System during the scanning and indexing process, as of June 2019, the edits had not been implemented. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2018-19 fiscal year.</p>
Cause	While FDEO management issued a program change request to prevent the RA System from automatically updating the <i>Date Received</i> field to the current date, the program change request had not been prioritized for implementation. FDEO management also indicated that there had been no program changes to the RA System to ensure dates sequenced correctly and that the FDEO would address the date sequencing issues after the program changes for the <i>Date Received</i> field had been implemented.

Effect

The lack of appropriate application edits increases the risk that the accuracy of claims, benefit payments, and employer chargeability may be compromised and that benefit payments and employer charges may be based on incorrect information.

Recommendation

We recommend that FDEO management improve application edits to help ensure the accuracy and integrity of the dates in the RA System.

State Entity Response

We concur with the finding. Application edits have been identified to improve the accuracy and integrity of the dates in the RA System. Application edits were completed in September 2019.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-007
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments and UI Program Integrity – Overpayments
State Entity	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-012
Finding	In our information technology operational audit report No. 2019-183, dated March 2019, we noted in Finding 5 Reemployment Assistance Claims and Benefits Information System (RA System) control deficiencies causing language translation errors on forms and documents and incorrect error messages. As of June 2019, the FDEO had not corrected the identified deficiencies.
Criteria	Effective application input controls during data entry include system-generated error messages that provide timely and useful information and error handling procedures to reasonably ensure that errors and irregularities are timely and accurately detected, reported, and corrected.
Condition	<p>The RA System is a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. During the 2018-19 fiscal year, the FDEO made UI benefit payments totaling approximately \$358 million.</p> <p>Our information technology operational audit disclosed control deficiencies in the RA System causing language translation errors on forms and documents and incorrect error messages. While FDEO management indicated that they initiated a four-phased project to address the identified deficiencies, as of June 2019, the project was not expected to be completed until the end of 2020. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2018-19 fiscal year.</p>
Cause	<p>Certain language translation deficiencies previously identified had not been prioritized for implementation and additional language translation deficiencies were subsequently identified as part of our audit report No. 2019-183, but not corrected.</p> <p>For an error message provided in response to a claimant's failure to fully complete the <i>Discharged-Intoxication and Use of Intoxicants During Working Hours</i> questionnaire that had not been corrected, the existing ticket to correct the problem had not been prioritized. We also noted that an incorrect error message that prevented the submission of a straight <i>Disaster Unemployment Assistance</i> application was subsequently identified but not corrected.</p>
Effect	Effective controls related to language translations on forms and documents and appropriate error messages are essential to the timely and accurate detection, reporting, and correction of errors and irregularities and to ensure the completeness, accuracy, and validity of input data.

Recommendation

To help ensure the completeness, accuracy, and validity of RA System input data, we recommend that FDEO management continue efforts to implement effective controls related to language translations on forms and documents and enhance the appropriateness of error messages.

State Entity Response

We concur with the finding. FDEO has identified a project-level effort to address language translations on forms and documents as well as appropriateness of error messages. The four-phased project continues to be an on-going priority of FDEO.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-008
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments and UI Program Integrity – Overpayments
State Entity	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-012

Finding In our information technology operational audit report No. 2019-183, dated March 2019, we noted in Finding 6 that the procedures for the document intake and indexing processes need improvement to help ensure that all documents received for processing in the Reemployment Assistance Claims and Benefits Information System (RA System) are timely and accurately indexed to the appropriate claimant, claim, and claim issue. As of June 2019, the FDEO had not corrected the identified deficiencies.

Criteria Effective input controls include procedures to provide reasonable assurance that all inputs into the application have been authorized, accepted for processing, and accounted for and any missing or unaccounted for source documents or input files have been identified and investigated. As part of the claimant application process, claimants, employers, and third parties may be required to submit certain documents and information to the FDEO or respond to fact-finding documents issued by the FDEO. Response due dates are determined by the RA System or FDEO staff based on the document type. For appropriate processing, documents and information received by the FDEO should be timely linked to the appropriate claimant, claim, and claim issue to avoid unnecessary delays or cause the system to inappropriately process a claim or claim issue without consideration of documentation received but not yet indexed or processed.

Condition The RA System is a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. During the 2018-19 fiscal year, the FDEO made UI benefit payments totaling approximately \$358 million.

Our information technology operational audit disclosed that the FDEO lacked procedures to provide reasonable assurance that all received documents were timely and accurately indexed to the appropriate claimant, claim, and claim issue, including the reconciliation of received documents through the intake mail and fax processes with the documents indexed to the claimant, claim, and claim issue in the RA System. Also, documents received by the FDEO that did not contain sufficient information to index the document to the appropriate claimant, claim, or claim issue were placed in a folder on a shared drive for further investigation by adjudication staff and subsequent indexing to the appropriate claimant, claim, or claim issue in the RA System. However, if the investigation was unsuccessful after 30 days, adjudication staff purged the document from the shared drive.

While the FDEO continues to identify and develop improved procedures for the document intake and indexing process, as of June 2019, the uncorrected deficiencies remained a significant deficiency for the 2018-19 fiscal year.

Cause	Due to the lack of procedures, the FDEO could not demonstrate that it made good faith efforts to investigate and identify source documents received prior to purging them. While FDEO management had submitted program change requests in March 2015 and May 2015 related to accurate indexing and document tracking, efforts to remediate the indexing and document tracking issues had not been implemented.
Effect	The lack of adequate procedures for the document intake and indexing processes limits FDEO management's assurance that all documents received for processing in the RA System were sufficiently investigated and timely and accurately indexed to the appropriate claimant, claim, and claim issue, thereby increasing the risk of inaccurate claim determinations that may result in erroneous benefit payments and employer charges.
Recommendation	We recommend that FDEO management improve procedures for the document intake and indexing processes to help ensure that all documents received for processing in the RA System are timely and accurately indexed to the appropriate claimant, claim, and claim issue to improve the accuracy of claim determinations, benefit payments, and employer charges.
State Entity Response	We concur with the finding. FDEO continues to identify and develop improved operating procedures for the document intake and indexing processes.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-009
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments and UI Program Integrity – Overpayments
State Entity	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-012
Finding	<p>In our information technology operational audit report No. 2019-183, dated March 2019, we noted in Finding 7 that controls over the distribution of written claimant and employer claim notices continue to need improvement to help ensure that claim notices are timely distributed. As of June 2019, the FDEO had not corrected the identified deficiencies.</p>
Criteria	<p>Effective application processing controls include procedures to identify, analyze, and correct the incomplete execution of transactions, and monitoring procedures to ensure that data is timely and accurately processed.</p> <p>Section 443.151(2)(a), Florida Statutes, <i>Procedure concerning claims</i> – The FDEO must notify claimants and employers regarding monetary and nonmonetary determinations of eligibility.</p> <p>Section 443.151(3)(a), Florida Statutes, <i>Procedure concerning claims</i> – The FDEO shall promptly provide a notice of claim to the claimant’s most recent employing unit and all employers whose employment records are liable for benefits under the monetary determination. The employer must respond to the notice of claim within 20 days after the mailing date of the notice, or in lieu of mailing, within 20 days after delivery of the notice. If a contributing employer or its agent fails to timely or adequately respond to the notice of claim or request for information, the employer’s account may not be relieved of benefit charges.</p> <p>Section 443.151(5), Florida Statutes, <i>Procedure concerning claims</i> – The FDEO shall notify each employer who is liable for reimbursements in lieu of contributions for payment of the benefits at the address on file with the FDEO or its tax collection service provider, of the initial determination of the claim and must be given 10 days to respond. A contributing employer who responds within the allotted time limit may not be charged for benefits paid under an erroneous determination if the decision is ultimately reversed.</p> <p>20 CFR 625, Appendix B – <i>Standard for Claim Determinations – Separation Information</i> – The State must include in written notices of determinations furnished to claimants sufficient information to enable them to understand the determinations, the reasons therefor, and their rights to protest, request reconsideration, or appeal.</p>
Condition	<p>The Reemployment Assistance Claims and Benefits Information System (RA System) is a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and</p>

communicate with FDEO staff. During the 2018-19 fiscal year, the FDEO made UI benefit payments totaling approximately \$358 million.

Our information technology operational audit disclosed that controls related to the distribution of written claimant and employer claim notices needed improvement. Specifically, we noted that:

- During nightly processing, some claim issues remained in an “in progress” status after a determination or redetermination was recorded in the RA System for the claim issue. As a result, some written claimant and employer claim notices were not created and distributed.
- For claims that were determined to be monetarily eligible, some employer claim notices were not generated. As a result, the claim notices were not distributed on the following business day.
- Contrary to Federal regulations, written claim notices for claimants who were determined ineligible due to a claimant identity issue identified by the Fraud Initiative Rating and Rules Engine (FIRRE) process were not distributed to the claimants and claimants’ records were indefinitely locked.

As part of our information technology operational audit, we also evaluated RA System FIRRE processes to determine whether the FDEO timely distributed written determination letters to claimants when claimants’ records were locked due to claimant identity issues being identified by the FIRRE processes. The FDEO’s standard for timely distribution of the determination letters was within 48 hours of the response due date that was stated within the Suspicious Activity Notification Delivery letter previously sent to the claimant. We evaluated 40 of the 5,086 determination letters distributed from July 1, 2017, through September 13, 2018, to determine whether the letters were timely distributed to the claimants. Because of the absence of documentation, we were unable to determine whether the letters were timely distributed for 2 of the 40 determination letters evaluated. For 8 of the remaining 38 determination letters evaluated, we concluded that the letters were not timely distributed and ranged from 2 to 376 days late.

While the FDEO continues to identify and correct RA System issues preventing the timely distribution of written claimant and employer claim notices, the uncorrected deficiencies remained a significant deficiency for the 2018-19 fiscal year.

Cause FDEO management indicated that certain work-arounds, which included running daily scripts, were created to bypass system defects related to the distribution of claim notices. While the work-arounds forced the RA System to create and distribute certain claimant and employer claim notices, the work-arounds did not correct the original system defect and the failure of the RA System to timely distribute some claimant and employer claim notices persisted.

Effect Without appropriate controls over the distribution of written claimant and employer claim notices, the risk is increased that claimants may be denied due process or determination decisions may be made based on incorrect data causing benefit payments and employer charges to be inappropriately processed.

Recommendation We recommend that FDEO management continue efforts to identify and correct RA System defects and improve the controls over the distribution of written claimant and employer claim notices to help ensure that claim notices are timely distributed.

State Entity Response We concur with the finding. System enhancements have been identified to address the first two bullets with an expected resolution by the end of 2020. The third bullet was previously resolved with a business process update in September 2019.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-010
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments and UI Program Integrity – Overpayments
State Entity	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-012

Finding In our information technology operational audit report No. 2019-183, dated March 2019, we noted in Finding 8 that Reemployment Assistance Claims and Benefits Information System (RA System) processes related to System-generated claim issues need improvement to help ensure that claims are accurately and timely processed. As of June 2019, the FDEO had not corrected the identified deficiencies.

Criteria Data processing controls include procedures to ensure that data is processed completely, accurately, and timely, and retains its validity during processing.

Condition The RA System is a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. During the 2018-19 fiscal year, the FDEO made UI benefit payments totaling approximately \$358 million.

The RA System is designed to automatically generate issues for a claim based on predefined parameters in the System. FDEO staff are responsible for resolving the claim issues to avoid a delay in eligibility determinations and benefits payments. As part of our information technology operational audit, we reviewed documentation and defect tickets initiated by the FDEO to correct defects related to the appropriate generation of claim issues in the RA System. Our review disclosed that the RA System encountered processing defects related to the appropriate generation of claim issues.

While the FDEO identified a potential system enhancement to address the appropriate generation of claim issues, due to competing priorities, the enhancement had not been implemented as of June 2019. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2018-19 fiscal year.

Cause FDEO management indicated that, initially, they were unable to reproduce the circumstances of the defect that prevented the generation of claim issues in the RA System and a data fix was performed to correct the claims. Subsequently, in May 2017, FDEO Information Technology staff determined that the defect may be caused by paging back and forth by the claimant; however, FDEO management indicated that, as of February 21, 2019, a solution was still being investigated to remediate the defect.

Effect The appropriate generation of claim issues by the RA System would promote data completeness, accuracy, and validity and provide assurance that determination decisions are based on correct data and that claims will be accurately and timely processed.

Recommendation

We recommend that FDEO management continue efforts to identify and correct RA System processes related to the appropriate generation of claim issues to help ensure that claims are accurately and timely processed.

State Entity Response

We concur with the finding. FDEO has identified a proposed plan of action to detect and provide resolution to errors related to the appropriate generation of claim issues.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-011
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments and UI Program Integrity – Overpayments
State Entity	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-012
Finding	<p>In our information technology operational audit report No. 2019-183, dated March 2019, we noted in Finding 12 that deficiencies exist in Reemployment Assistance Claims and Benefits Information System (RA System) automated controls and processing of data that result in claimant benefit overpayments and erroneous claimant and employer charges. As of June 2019, the FDEO had not corrected the identified deficiencies.</p>
Criteria	<p>Automated application controls help ensure consistent treatment of data and that data processing consistently adheres to management's intention and requirements. Information systems process groups of identical transactions similarly; therefore, any inaccuracies arising from erroneous computer programming or design will occur consistently in similar transactions.</p>
Condition	<p>The RA System is a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. During the 2018-19 fiscal year, the FDEO made UI benefit payments totaling approximately \$358 million.</p> <p>Our information technology operational audit disclosed that the FDEO experienced deficiencies in the automated controls and processing of data in the RA System causing inaccurate and erroneous claimant benefit payments, claimant overpayment charges, and employer charges in the RA System.</p> <p>While the FDEO identified system enhancements to address the issues noted, due to competing priorities and the large-scale efforts identified to resolve the finding, the system enhancements had not been implemented as of June 2019. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2018-19 fiscal year.</p>
Cause	<p>FDEO management acknowledged that RA System claim processing deficiencies continued and that such deficiencies result in inaccurate claimant benefit payments, claimant overpayment charges, and excess employer charges.</p>
Effect	<p>Effective automated controls and controls that promote the consistent and accurate processing of data would prevent inaccurate claimant benefit payments, claimant overpayment charges, and excess employer charges that may affect the integrity of RA System data.</p>
Recommendation	<p>To prevent inaccurate and erroneous claimant benefit payments, claimant overpayment charges, and excess employer charges from being generated by the RA System, we recommend that FDEO management enhance RA System automated controls and improve the processing of data.</p>

State Entity Response

We concur with the finding. FDEO has identified a large-scale project-level effort enhancement to resolve automated controls and improve the processing of data.

Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-012

Finding In our information technology (IT) operational audit report No. 2019-183, dated March 2019, we noted in Finding 15 some access controls related to Reemployment Assistance Claims and Benefits Information System (RA System) user access privileges need improvement to promote an appropriate separation of duties and restrict users to only those functions necessary for their assigned job duties. As of June 2019, the FDEO had not corrected the identified deficiencies.

Criteria Effective access controls include measures that restrict user access privileges to data and IT resources to only those functions that promote an appropriate separation of duties and are necessary for the user's assigned job duties.

Agency for State Technology Rule 74-2.003(1)(d)(3), Florida Administrative Code, specifies that each agency shall ensure that access permissions and authorizations are managed incorporating the principles of least privilege and separation of duties. Workers shall be granted access to agency IT resources based on the principles of least privilege and need-to-know determination.

Condition The RA System is a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. During the 2018-19 fiscal year, the FDEO made UI benefit payments totaling approximately \$358 million.

As part of our IT operational audit, we reviewed the accounts for 50 RA System users assigned one or more of the five roles identified as high-risk by FDEO management to determine the appropriateness of the access privileges assigned. Our review disclosed that users had been assigned three of the five high-risk roles that were not required for the users' assigned job duties. Based on these role assignments:

- 33 RA System users could update claimant contact information including claimant addresses.
- 3 RA System users could update claimant payment information including check and direct deposit information.
- 43 RA System users could request claimant payments.
- 3 RA System users could update claimant authentication information such as social security numbers.
- 16 RA System users could issue and authorize (release) manual payments.

According to FDEO management, the FDEO has identified a project-level effort to establish procedures to restrict users to only those functions necessary for their assigned job duties; however, the procedures had not been implemented as of June 2019. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2018-19 fiscal year.

Cause

According to FDEO management, design limitations in the RA System prevented the users from being restricted to functions necessary for their assigned job duties.

Effect

Assigning access privileges to high-risk functions within the RA System that are inappropriate or not required for the user's job duties increases the risk of unauthorized modification, loss, or disclosure of claimant data.

Recommendation

We recommend that FDEO management limit access privileges to the RA System to promote an appropriate separation of duties and to restrict users to only those functions necessary for their assigned job duties.

State Entity Response

We concur with the finding. FDEO has discussed a project-level effort and is working to establish procedures to restrict users to only those functions necessary for their assigned job duties.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-013
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Period of Performance
State Entity	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	UI-29835-17-55-A-12 2017, UI-31287-18-55-A-12 2018, and UI-30211-17-60-A-12 2017
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency Questioned Costs – \$23,634.26 (Federal Grant Nos. UI-29835-17-55-A-12 \$1,188.78; UI-31287-18-55-A-12 \$3,816.80; UI-30211-17-60-A-12 \$18,628.68)
Finding	FDEO expenditures charged to the UI program were not always incurred during the authorized period of performance.
Criteria	2 CFR Part 200.309 – <i>Period of Performance</i> – A non-Federal entity may charge to the Federal award only allowable costs incurred during the period of performance.
Condition	During the 2018-19 fiscal year, the FDEO expended approximately \$449 million in UI program funds, including approximately \$358 million in benefit payments. Our analysis and examination of records relating to selected expenditures paid by the FDEO during the 2018-19 fiscal year disclosed five expenditures, totaling \$23,634.26, that were not incurred during the authorized period of performance.
Cause	FDEO management indicated that FDEO review procedures did not include a comparison of expenditures to a grant's authorized period of performance. As a result, expenditures were inadvertently charged to the wrong grant number.
Effect	Expenditures charged to a Federal award that are not incurred during the authorized period of performance could be subject to disallowance by the Federal grantor agency.
Recommendation	We recommend that the FDEO enhance review procedures to ensure that expenditures are incurred during the authorized period of performance and charged to the appropriate grant.
State Entity Response	FDEO will move the referenced expenditures to an allowable grant with a period of performance consistent with their dates of service. FDEO's processes have also been updated to review transactions for period of performance during the life of the grant as well as the closeout period.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-014
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Reporting
State Entity	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Disclaimer of Opinion and Material Weakness
Prior Year Finding	Report No. 2019-186, Finding No. 2018-015
Finding	The FDEO did not submit the required Federal Financial Reports to the Employment and Training Administration (ETA).
Criteria	UI Report Handbook No. 401, <i>ETA 227 – Overpayment Detection and Recovery Activities</i> – The ETA 227 report is due to the U.S. Department of Labor, ETA, quarterly on the first day of the second month after the quarter of reference.
Condition	<p>The FDEO processes all UI claims payment transactions through the Reemployment Assistance Claims and Benefits Information System (RA System), a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data.</p> <p>The ETA 227 report provides information on overpayments of intrastate and interstate claims under the regular State UI program and under Federal UI programs, including the Unemployment Compensation for Federal Employees, Unemployment Compensation for Ex-Service members, and Extended Benefits programs. FDEO accomplishments related to benefit payment controls are shown in the ETA 227 report and the ETA and the FDEO need such information to monitor the integrity of the benefit payment processes in the RA System. However, our inquiries of FDEO management disclosed that, during the 2018-19 fiscal year, the FDEO did not submit the required quarterly ETA 227 reports to the ETA.</p>
Cause	FDEO management indicated that the ETA 227 reports were not submitted due to a line by line review of the ETA 227 report initiated by the FDEO in May 2018 to address known data errors in the RA System. According to FDEO management, as of October 2019, the validation of the ETA 227 report was completed.
Effect	Absent the ETA 227 report information, the ETA and FDEO are unable to effectively monitor the integrity of the UI benefit payment processes. In addition, the FDEO is not in compliance with Federal regulations.
Recommendation	We recommend that FDEO take appropriate steps to ensure that ETA 227 reports are submitted in accordance with Federal regulations.
State Entity Response	We concur with the finding. FDEO completed its ETA 227 report validation project in October 2019 and has submitted all ETA 227 reports due as of January 2020. The next required submission is scheduled for May 2020.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-015
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Reporting and Special Tests and Provisions – Employer Experience Rating and Match with Internal Revenue Service (IRS) 940 Federal Unemployment Tax Act (FUTA) Tax Form
State Entity	Florida Department of Revenue (FDOR)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Finding	Internal controls for UI tax payment processing need improvement.
Criteria	2 CFR 200.303 – <i>Internal Controls</i> – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.
Condition	<p>The FDOR contracted with a service organization to provide tax filing solutions for multiple tax type types, including UI taxes. During the 2018-19 fiscal year, the FDOR received UI tax payments from employers totaling approximately \$525 million. The service organization was responsible for processing \$132.6 million in UI tax payments.</p> <p>The service organization obtained an independent service auditor's report for the period January 1, 2018, through December 31, 2018, in which the service organization's auditors qualified their opinion related to risk management and application development activities. Given the significance of the service organization's role in the UI program, internal control weaknesses reported in the service auditor's report could significantly impact the UI program.</p>
Cause	The service organization had not effectively established certain IT controls, including the establishment of a risk management program, the separation of application development duties, and the proper design of the change management process.
Effect	Absent appropriate UI tax payment processing controls, the FDOR has reduced assurance that the UI tax data is appropriately safeguarded.
Recommendation	We recommend that the FDOR ensure that the service organization takes timely and appropriate corrective action to resolve the deficiencies noted in the independent service auditor's report.
State Entity Response	FDOR will ensure the service organization takes timely and appropriate corrective action to resolve the deficiencies noted in the independent service auditor's report.

U.S. DEPARTMENT OF LABOR

Finding Number	2019-016
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Special Tests and Provisions – Match with Internal Revenue Service (IRS) 940 Federal Unemployment Tax Act (FUTA) Tax Form
State Entity	Florida Department of Revenue (FDOR)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Disclaimer of Opinion and Material Weakness
Finding	The FDOR could not provide a copy of the certification files provided to the IRS evidencing the match of employer tax payments with credits claimed for the payments on the employer's Form 940 or Schedule H.
Criteria	<p>26 CFR 31.3302(a)-3 – <i>Proof of credit under section 3302(a)</i> – States are required to annually certify for each taxpayer the total amount of contributions required to be paid under State law for the calendar year and the amounts and dates of such payments for the taxpayer to be allowed the credit against FUTA tax. To accomplish this certification, States annually match employer tax payments with credits claimed for these payments on the employer's Form 940 or Schedule H.</p> <p>IRS Publication 4485 – <i>Guide for the Certification of State FUTA Credits</i> – In September of each year, the IRS creates a FUTA Identification Data file of Form 940 or Schedule H filers to send to each state agency. The IRS distributes the FUTA Identification Data file to the states in October. State agencies are required to provide FUTA certification data to the IRS by January 31 of the following year.</p>
Condition	<p>The FUTA provides for cooperation between the Federal Government and state governments in the establishment and administration of UI. The employer is subject to a payroll tax levied by the Federal Government and state governments. The IRS uses the FUTA Certification Program to verify with the states that the credit claimed by the employer on the Form 940 or Schedule H was actually paid to the states' unemployment funds.</p> <p>On January 4, 2019, the FDOR uploaded FUTA certification files to the IRS. However, although we requested, the FDOR could not provide copies of the certification files provided to the IRS evidencing the match of employer tax payments with credits claimed for the payments on the employer's Form 940 or Schedule H.</p>
Cause	FDOR management indicated that copies of the certification files submitted to the IRS were inadvertently deleted and the files were unable to be recovered.
Effect	Absent documentation that the FDOR's certification of FUTA tax credits was supported by a match of employer tax payments with credits claimed, the FDOR cannot demonstrate that employer credits claimed on the Form 940 or Schedule H related to amounts paid to the State's unemployment fund.
Recommendation	We recommend that the FDOR enhance controls to ensure that copies of FUTA certification files submitted to the IRS are retained and evidence the match of employer tax payments with credits claimed for the payments.
State Entity Response	The archiving and retention of FUTA certification files had been manually performed in the past. FDOR's Information Services Program is currently testing a new process that will automatically archive copies of the certification copies for retention, and prevent this issue from reoccurring.

THIS PAGE INTENTIONALLY LEFT BLANK

U.S. ENVIRONMENTAL PROTECTION AGENCY

Finding Number	2019-018
CFDA Number	66.468
Program Title	Capitalization Grants for Drinking Water State Revolving Funds (DWSRF)
Compliance Requirement	Procurement and Suspension and Debarment
State Entity	Florida Department of Environmental Protection (FDEP)
Federal Grant/Contract Number and Grant Year	98452218 2018
Statistically Valid Sample	N/A
Finding Type	Noncompliance and Significant Deficiency
Finding	The FDEP did not appropriately verify the suspension and debarment status of all subrecipients receiving DWSRF funds.
Criteria	2 CFR 180.300 – <i>What must I do before I enter into a covered transaction with another person at the next lower tier?</i> – When you enter into a covered transaction with another person at the next lower tier, you must verify that the person with whom you intend to do business is not excluded or disqualified. You do this by: (a) Checking System for Award Management (SAM) Exclusions, (b) Collecting a certification from that person, or (c) Adding a clause or condition to the covered transaction with that person.
Condition	Pursuant to Federal regulations, the FDEP utilized two separate standard application forms for private and public subrecipients seeking funding for DWSRF projects. During the 2018-19 fiscal year, the FDEP made 15 subawards, totaling \$42,567,681, to public subrecipients and 2 subawards, totaling \$2,608,433, to private subrecipients utilizing DWSRF funds. We examined the standard application forms and noted that, while the application form for private subrecipients included a clause requiring the subrecipient to comply with the suspension and debarment requirements, the application for public subrecipients did not have a similar certification requirement. Additionally, FDEP records did not evidence that, prior to entering into the subaward agreements with the public subrecipients, that the FDEP verified through SAM that the subrecipients were not suspended, debarred, or otherwise excluded or that the FDEP had obtained a certification from each subrecipient demonstrating that the subrecipient was not suspended, debarred, or otherwise excluded.
Cause	FDEP management was not aware that suspension and debarment requirements applied to public subrecipients as well as private subrecipients.
Effect	Absent the verification of the suspension and debarment status of all subrecipients, the risk is increased that the FDEP may enter into covered transactions with subrecipients who have been suspended, debarred, or otherwise excluded by the Federal Government. In addition, DWSRF funds provided to ineligible subrecipients could be subject to disallowance by the U.S. Environmental Protection Agency.
Recommendation	We recommend that FDEP management revise the standard application for public subrecipients to include a certification requiring the subrecipient to comply with the suspension and debarment requirements specified in Federal regulations.
State Entity Response	Upon receiving this finding, the State Revolving Fund Program implemented a procedure to verify all applicants in SAM.gov during loan application review. In addition, the Program will request permission to do rulemaking to update the standard State Revolving Fund loan application to include a certification from the subrecipient that they are in compliance with Federal regulations for suspension and debarment.

U.S. DEPARTMENT OF EDUCATION

Finding Number	2019-019
CFDA Number	84.032
Program Title	Federal Family Education Loans
Compliance Requirement	Special Tests and Provisions – Assignment of Defaulted Loans to the United States Department of Education (USED)
State Entity	Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year	N/A
Statistically Valid Sample	N/A
Finding Type	Noncompliance
Finding	The FDOE did not assign all eligible loans to the USED.
Criteria	<p>34 CFR 682.409 – <i>Mandatory assignment by guaranty agencies of defaulted loans to the Secretary</i> – The state must assign to the USED any loan that meets all of the following criteria as of April 15 each year:</p> <ul style="list-style-type: none">• The unpaid principal balance is at least \$100.• The loan, and other loans held by the state for that borrower, have been held by the state for at least 5 years.• A payment has not been received on the loan in the last year.• A judgment has not been entered on the loan against the borrower. <p>Guaranty Agency Assignments Operational Procedures – <i>Appendix I</i> – All loans meeting the assignment criteria must be transmitted to the USED by December 31. The transmittal must be completed by submitting the eligible loan data in batches through the Student Aid Internet Gateway (SAIG). Additionally, the hard copy files must be sent to the USED no later than 2 weeks after the batch file has been accepted by the USED.</p>
Condition	According to FDOE records, 38,520 loans were eligible for assignment to the USED as of April 15, 2018. During the period May 2018 through December 2018, the FDOE submitted eight batches of loan data to the USED SAIG that included 13,678 loans eligible for assignment. Of the 13,678 loans, 12,782 loans were accepted by the USED; however, the FDOE did not assign the remaining 25,738 loans before December 31, 2018.
Cause	According to FDOE management, staff limitations prevented the FDOE from assigning all eligible loans before the December 31, 2018, deadline.
Effect	By not assigning all eligible loans to the USED, the USED does not have the loan information necessary to manage defaulted loans.
Recommendation	We recommend that the FDOE ensure that all eligible loans are assigned to the USED in accordance with Federal regulations and procedures.
State Entity Response	<p>In connection with the Department’s subrogation process, OSFA is required to send the USDOE an official forecast and timeline for submission. The Department sent to the USDOE the number of eligible loans and the number of loans per month that OSFA would be submitting for Subrogation. The USDOE acknowledged the forecast and timeline without issue or comment, and only asked to be notified if there were any changes to the timeline.</p> <p>The USDOE requires the Department to provide a full borrower file for each loan that will be assigned for Subrogation. The files contain all borrower information</p>

which include Lender information prior to OSFA's ownership and any documents or correspondence after claim payment, until the loan is assigned to USDOE.

To ensure fulfillment of this requirement, the Department has contracted with an external vendor to carry out this aspect of the servicing requirements for OSFA. The use of the vendor will increase OSFA's ability to efficiently meet the program's obligations in the future.

**U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
U.S. DEPARTMENT OF AGRICULTURE**

Finding Number	2019-020
CFDA Number	Various (See Condition)
Program Title	Various (See Condition)
Compliance Requirement	Activities Allowed or Unallowed and Allowable Costs/Cost Principles
State Entity	Florida Department of Children and Families (FDCF)
Federal Grant/Contract Number and Grant Year	See table in Condition below
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency

Finding The FDCF did not ensure that the service organization’s internal controls related to the allocation of costs for FDCF employees performing functions directly related to certain Federal programs were appropriately designed and operating effectively.

Criteria 2 CFR 200.303 and 45 CFR 75.303 – *Internal controls* – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Condition The FDCF contracted with a service organization to provide annual licenses, hosting, and support for the Web-based Random Moment Sampling (WebRMS) Application. The WebRMS Application uses random sampling techniques to determine the percentage of time spent on a particular Federal program by employees who deliver services that benefit various Federal programs. The FDCF utilizes the labor distribution information to allocate Federal awards to benefitting Federal programs.

While the FDCF tracked and reviewed the labor distribution information prepared by the service organization, the FDCF did not evaluate the design or operating effectiveness of the service organization’s internal controls, either internally or by obtaining and reviewing an independent service auditor’s report that adequately described the service organization’s internal controls and the auditor’s opinion on the effectiveness of the internal controls related to the allocation of costs for FDCF employees performing functions directly related to various Federal programs.

During the 2018-19 fiscal year, the WebRMS Application was used by the FDCF to allocate costs, totaling \$68,833,773, to the following major Federal programs:

CFDA Number	Program	Federal Grant Number and Grant Year	Federal Expenditures at the FDCF	Costs Allocated to Federal Program Using WebRMS Application
10.561	State Administrative Matching Grants for the Supplemental Nutrition Assistance Program	5FL400402 - 2019	\$ 80,464,068	\$38,521,410
93.558	Temporary Assistance for Needy Families	1801FLTANF - 2018 1901FLTANF - 2019	220,823,636	5,603,274
93.566	Refugee and Entrant Assistance State/Replacement Designee Administered Programs	1801FLRCMA - 2018 1901FLRCMA - 2019	35,131,878	451,830
93.667	Social Services Block Grant	G-1801FLSOAR - 2018 G-1901FLSOSR - 2019	84,910,585	4,720,602
93.778	Medical Assistance Program	1905FL5ADM - 2019	127,592,610	19,536,657
Totals			<u>\$548,922,777</u>	<u>\$68,833,773</u>

Cause

The FDCF did not require the service organization to provide an independent service auditor's report.

Effect

Absent an evaluation of the design and operating effectiveness of the service organization's internal controls over the WebRMS Application, the FDCF has reduced assurance that the sampling techniques used by the service organization are statistically valid, are operating as designed, and costs are appropriately allocated to Federal programs.

Recommendation

We recommend that the FDCF ensure that the service organization's internal controls related to the WebRMS Application are appropriately designed and operating effectively either internally or by obtaining and reviewing an independent service auditor's report.

State Entity Response

FDCF concurs with this recommendation and will either require the vendor to provide an independent service auditor's report or perform internally an evaluation of the internal controls related to the WebRMS Application to ensure internal controls are appropriately designed and operating effectively. The service organization is a for-profit organization that specializes in the provision of cost allocation services. FDCF has used this vendor for the past 20 plus years to provide its RMS and webRMS services, which are used by other states and is known by the U.S. Department of Health and Human Services, Division of Cost Allocation.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-021
CFDA Number	Various (See Condition)
Program Title	Various (See Condition)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Matching, Level of Effort, Earmarking, Period of Performance, Procurement and Suspension and Debarment, Reporting, Subrecipient Monitoring, and Special Tests and Provisions
State Entity	Florida Agency for State Technology (FAST) (Transferred to the Florida Department of Management Services (FDMS) effective July 1, 2019)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-021
Finding	In our information technology (IT) operational audit report No. 2020-149, dated March 2020, we noted in Finding 5 that some access privileges did not promote an appropriate separation of duties or were not necessary based on users' assigned job responsibilities.
Criteria	<p>Effective access controls include measures that restrict user access privileges to data and IT resources to only those functions that promote an appropriate separation of duties and are necessary for users' assigned job responsibilities. Appropriately restricted access privileges help protect data and IT resources from unauthorized modification, loss, or disclosure.</p> <p>Section 282.201(1)(f), Florida Statutes – <i>State data center</i> – The State Data Center (SDC) shall assume administrative access rights to resources and equipment, including servers, network components, and other devices, consolidated into the State Data Center. State agencies are to relinquish administrative rights to consolidated resources and equipment and the SDC is to provide customer entities with access to applications, servers, network components, and other devices necessary for entities to perform business activities and functions.</p>
Condition	<p>The SDC, established within the FAST, provides data center services for customer entities. As part of our IT operational audit, we evaluated administrative access privileges to the mainframe, Windows server, and Oracle database environments, and the interconnected network domains. Our audit procedures disclosed user accounts with administrative access privileges to mainframe environment resources that were not assigned to SDC staff. Specifically, we noted that:</p> <ul style="list-style-type: none">• For the Resource Access Control Facility (RACF) mainframe security environment applicable to three logical partitions (LPARs) assigned to one State agency, 20 of the 35 active accounts with one or more administrative access authorities were assigned to the State agency's staff as of April 26, 2019. The administrative access authorities included the ability to copy, reorganize, catalog, scratch user or data sets, specify logging options, and have full control over all RACF user profiles.• For the CA Top Secret mainframe security environment applicable to one State agency's LPAR, 1 of the 7 active administrative accounts with unlimited scope privileges as of May 2, 2019, was assigned to State agency staff. This account had the ability to create a terminal session.

Our audit procedures also disclosed server accounts with administrative access privileges that were not appropriate and that administrative access accounts for the Oracle production database clusters were not assigned to current SDC staff.

Additionally, our audit procedures disclosed the existence of user accounts with administrative access as of April 12, 2019, on three of the six SDC-managed network domains that were not appropriate, including active administrative user accounts assigned to employees who had separated from employment. Specifically, as shown in the table below, 7 of the 163 active accounts with administrative access were not appropriate.

Inappropriate Network Administrative Access Privileges

Number of Accounts with Administrative Access Privileges on an SDC-Managed Domain			
Network Domain	Total Administrative Accounts	Inappropriately Assigned to SDC Staff	Access Assigned to Former Employees
1	52	1	2
2	74	-	1
3	37	2	1
Total	<u>163</u>	<u>3</u>	<u>4</u>

Two of the 4 accounts assigned to former employees were assigned to one individual and, as of April 12, 2019, the 4 accounts assigned to the 3 former employees had remained active from 71 to 308 days after the employees' separation dates.

The SDC provides services for various systems managed by the Florida Department of Children and Families (FDCF), Florida Division of Emergency Management (FDEM), Florida Department of Economic Opportunity (FDEO), Florida Department of Revenue (FDOR), and the Florida Department of Health (FDOH). Systems at the FDCF include the Florida Online Recipient Integrated Data Access System, the GRANT System, the Collocated Cost Journal Transfer System, and the Refugee Services Database Application. The system at the FDEM is the Florida PA System. The system at the FDEO is the Reemployment Assistance Claims and Benefits Information System (RA System). The system at the FDOR is the System for Unified Taxation (SUNTAX). Systems at the FDOH include the Florida State Health Online Tracking System (SHOTS), the Management Information and Payment System (MIPS), the AIDS Drug Assistance Program (ADAP) Database, and the AIDS Information Management System (AIMS).

These systems are used to administer aspects of the following major Federal programs:

10.551 and 10.561 – Supplemental Nutrition Assistance Program (SNAP) Cluster

10.558 – Child and Adult Care Food Program

17.225 – Unemployment Insurance

93.268 – Immunization Cooperative Agreements

93.558 – Temporary Assistance for Needy Families (TANF)

93.566 – Refugee and Entrant Assistance State/Replacement Designee Administered Programs

93.645 – Stephanie Tubbs Jones Child Welfare Services Program

93.667 – Social Services Block Grant

93.775, 93.777, and 93.778 – Medicaid Cluster

93.917 – HIV Care Formula Grants

93.958 – Block Grants for Community Mental Health Services

93.959 – Block Grants for Prevention and Treatment of Substance Abuse

97.036 – Disaster Grants – Public Assistance (Presidentially Declared Disasters)

Cause

SDC management stated the user accounts with administrative access privileges to resources that were not assigned to SDC staff were assigned to customers for administration of the customers' resources. Additionally, SDC management indicated that the administrative accounts required analysis to determine whether the accounts were necessary and that, as part of an ongoing effort to remove unnecessary accounts with excessive permissions, database administration staff were working with the respective customer entities to ensure the accounts could be removed.

Effect

Inappropriate and unnecessary administrative access privileges to the mainframe, Windows server, and Oracle database environments, and the interconnected network domains, increase the risk of unauthorized modification, loss, or disclosure of data and IT resources.

Recommendation

To promote compliance with State law and an appropriate separation of duties, we recommend that FDMS management properly restrict administrative access privileges to the mainframe, Windows servers, and Oracle database environments, and the interconnected network domains, to only those functions necessary for the user's assigned job responsibilities and ensure administrative accounts are timely disabled when no longer necessary.

State Entity Response

The Department concurs. The Department will continue to evaluate and improve access control processes to ensure access to IT resources is appropriately restricted.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-022
CFDA Number	Various (See Condition)
Program Title	Various (See Condition)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Matching, Level of Effort, Earmarking, Period of Performance, Procurement and Suspension and Debarment, Reporting, Subrecipient Monitoring, and Special Tests and Provisions
State Entity	Florida Agency for State Technology (FAST) (Transferred to the Florida Department of Management Services (FDMS) effective July 1, 2019)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-021
Finding	In our information technology (IT) operational audit report No. 2020-149, dated March 2020, we noted in Finding 10 that certain State Data Center (SDC) security controls related to logical access, user authentication, and logging and monitoring, need improvement to ensure the confidentiality, integrity, and availability of customer entity data and related IT resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of data and related IT resources.
Condition	<p>The SDC, established within the FAST, provides data center services for customer entities. Our IT operational audit disclosed that certain SDC security controls related to logical access, user authentication, and logging and monitoring, need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising SDC data and related IT resources. However, we have notified appropriate FDMS management of the specific issues. The deficiencies noted we consider collectively to be a significant deficiency.</p> <p>The SDC provides services for various systems managed by the Florida Department of Children and Families (FDCF), Florida Division of Emergency Management (FDEM), Florida Department of Economic Opportunity (FDEO), Florida Department of Revenue (FDOR), and the Florida Department of Health (FDOH). Systems at the FDCF include the Florida Online Recipient Integrated Data Access System, the GRANT System, the Collocated Cost Journal Transfer System, and the Refugee Services Database Application. The system at the FDEM is the Florida PA System. The system at the FDEO is the Reemployment Assistance Claims and Benefits Information System (RA System). The system at the FDOR is the System for Unified Taxation (SUNTAX). Systems at the FDOH include the Florida State Health Online Tracking System (SHOTS), the Management Information and Payment System (MIPS), the AIDS Drug Assistance Program (ADAP) Database, and the AIDS Information Management System (AIMS).</p>

These systems are used to administer aspects of the following major Federal programs:

- 10.551, 10.561 – Supplemental Nutrition Assistance Program (SNAP) Cluster
- 10.558 – Child and Adult Care Food Program
- 17.225 – Unemployment Insurance
- 93.268 – Immunization Cooperative Agreements
- 93.558 – Temporary Assistance for Needy Families (TANF)
- 93.566 – Refugee and Entrant Assistance State/Replacement Designee Administered Programs
- 93.645 – Stephanie Tubbs Jones Child Welfare Services Program
- 93.667 – Social Services Block Grant
- 93.775, 93.777, 93.778 – Medicaid Cluster
- 93.917 – HIV Care Formula Grants
- 93.958 – Block Grants for Community Mental Health Services
- 93.959 – Block Grants for Prevention and Treatment of Substance Abuse
- 97.036 – Disaster Grants – Public Assistance (Presidentially Declared Disasters)

Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising SDC data and related IT resources.
Effect	Without appropriate security controls related to logical access, user authentication, and logging and monitoring, the risk is increased that the confidentiality, integrity, and availability of customer entity data and related IT resources may be compromised.
Recommendation	We recommend that FDMS management improve certain security controls related to logical access, user authentication, and logging and monitoring to ensure the confidentiality, integrity, and availability of SDC data and related IT resources.
State Entity Response	The Department concurs. The Department will continue to evaluate and improve security controls to ensure the confidentiality, integrity and availability of data and IT resources.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-023
CFDA Number	Various (See Condition)
Program Title	Various (See Condition)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Matching, Level of Effort, Earmarking, Period of Performance, Procurement and Suspension and Debarment, Reporting, Subrecipient Monitoring, and Special Tests and Provisions
State Entity	Florida Agency for State Technology (FAST) (Transferred to the Florida Department of Management Services (FDMS) effective July 1, 2019)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2019-186, Finding No. 2018-021
Finding	In our information technology (IT) operational audit report No. 2020-149, dated March 2020, we noted in Finding 6 that State Data Center (SDC) processes for performance and documentation of periodic access reviews need improvement to ensure assigned access remains appropriate.
Criteria	<p>FAST Rule 74-2.003(1)(a)(6), Florida Administrative Code – <i>Access Control</i> – Agency information owners are to review access rights (privileges) periodically based on system categorization or assessed risk.</p> <p>FAST Procedure AST-BWS-AP-001, <i>Active Directory Account Audit Procedure</i></p> <p>FAST Procedure AST-BIOS-P-100, <i>Physical Access Control Procedure</i></p> <p>FAST Procedure AST-ED-P-0021, <i>Employee Action Procedure</i></p>
Condition	<p>The SDC, established within the FAST, provides data center services for customer entities. As part of our IT operational audit, we evaluated the SDC's periodic review of access privileges. FAST rules require agency information owners to review access rights (privileges) periodically based on system categorization or assessed risk. Periodic reviews of user access privileges help ensure that only authorized users have access and that the access provided to each user remains appropriate. An effective periodic review consists of identifying the current logical and physical access privileges of all users and evaluating the assigned access privileges to ensure that they align with users' job responsibilities.</p> <p>Our audit procedures disclosed that the periodic access privilege review processes performed by the SDC need improvement. Specifically:</p> <ul style="list-style-type: none">• In response to our request for documentation of periodic reviews performed for Windows server local administrative and Active Directory administrative accounts, SDC management stated that in accordance with <i>Active Directory Account Audit Procedure</i>, periodic reviews of some administrative accounts were initiated using a scheduled task that ran a script biweekly in all SDC domains. The script generated a report of administrative access for each domain and automatically converted the reports to service requests requiring staff review. The reviewer created a change ticket for any account requiring changes (e.g., disabling). Our examination of the reports disclosed that:<ul style="list-style-type: none">○ A report generated on March 25, 2019, for one domain did not contain all administrative accounts for the domain. SDC management further stated that reports were not generated, nor access reviewed, for Windows server local administrative accounts.

- 1 of the 20 active accounts listed on the report dated March 25, 2019, was for an employee who had separated from AST employment on January 31, 2019. The biweekly reviews were ineffective as the account remained active and was not discovered during four biweekly reviews, including the review of the report generated on March 25, 2019.
- Although SDC management responsible for Oracle access within the Database Section of the Bureau of Central Services reviewed the access of current staff members within the Bureau on a periodic basis, not all active accounts, including accounts assigned to customer entities, were evaluated. Additionally, SDC staff had not established ownership of all active accounts to ensure that all noncustomer accounts were included in the SDC review.
- SDC management responsible for open systems access within the Open Systems Section of the Bureau of Central Services performed a quarterly review of access privileges granted to Open Systems Section staff. Reports were generated individually for each employee within the Open Systems Section with assigned server access. The reviews were not comprehensive as accounts on some servers could be omitted because the reviews were not performed on a server by server basis and did not encompass administrative accounts within the service management system assigned to others, including other SDC staff, customers, or historical accounts from prior data center administrations.

As part of our IT operational audit, we also evaluated the *Physical Access Control Procedure* and *Employee Action Procedure* and related process for periodic reviews of physical access privileges to the SDC buildings. The *Physical Access Control Procedure* required reviews of access be initiated in March and September of each year. The procedure further stated that supervisors would receive a notice to review access, including access to SDC buildings, according to the process details documented in the *Employee Action Procedure*. We found that periodic reviews of assigned physical access privileges were performed for staff with unlimited access privileges to the data center facility; however, periodic reviews were not performed for SDC staff with limited access privileges to the data center facility or for FDMS staff with access to the Sadowski Building.

The SDC provides services for various systems managed by the Florida Department of Children and Families (FDCF), Florida Division of Emergency Management (FDEM), Florida Department of Economic Opportunity (FDEO), Florida Department of Revenue (FDOR), and the Florida Department of Health (FDOH). Systems at the FDCF include the Florida Online Recipient Integrated Data Access System, the GRANT System, the Collocated Cost Journal Transfer System, and the Refugee Services Database Application. The system at the FDEM is the Florida PA System. The system at the FDEO is the Reemployment Assistance Claims and Benefits Information System (RA System). The system at the FDOR is the System for Unified Taxation (SUNTAX). Systems at the FDOH include the Florida State Health Online Tracking System (SHOTS), the Management Information and Payment System (MIPS), the AIDS Drug Assistance Program (ADAP) Database, and the AIDS Information Management System (AIMS).

These systems are used to administer aspects of the following major Federal programs:

10.551, 10.561 – Supplement Nutrition Assistance Program (SNAP) Cluster

10.558 – Child and Adult Care Food Program

17.225 – Unemployment Insurance

93.268 – Immunization Cooperative Agreements

93.558 – Temporary Assistance for Needy Families (TANF)

93.566 – Refugee and Entrant Assistance State/Replacement Designee Administered Programs

93.645 – Stephanie Tubbs Jones Child Welfare Services Program

93.667 – Social Services Block Grant

93.775, 93.777, 93.778 – Medicaid Cluster

93.917 – HIV Care Formula Grants

93.958 – Block Grants for Community Mental Health Services

93.959 – Block Grants for Prevention and Treatment of Substance Abuse

97.036 – Disaster Grants – Public Assistance (Presidentially Declared Disasters)

Cause

According to SDC management, the script generated to document review of access only reported the *Enterprise*, *Schema*, and *Domain Admins* security groups for Active Directory and did not include the *Administrators* security group. SDC management also stated that customer entity user and application accounts were managed by the customers and were not reviewed by the SDC. In response to our audit inquiry related to the physical access controls, SDC management stated that, although a periodic review was not performed, all badge requests were submitted by supervisors through the ticketing system, which served as documentation of a review.

Effect

Without documented effective processes for performing comprehensive reviews of access privileges using complete access lists, management's assurance that user access privileges were properly authorized and remain appropriate is limited.

Recommendation

We recommend that FDMS management perform comprehensive periodic reviews of logical and physical access privileges for users, maintain documentation of the reviews conducted, and ensure that access privileges are timely removed when no longer needed.

State Entity Response

The Department concurs. The Department will continue to evaluate and improve access control processes to ensure access to IT resources is appropriately restricted.

**U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
U.S. DEPARTMENT OF EDUCATION**

Finding Number	2019-024
CFDA Number	84.032 and 93.558
Program Title	Federal Family Education Loans and Temporary Assistance for Needy Families (TANF)
Compliance Requirement	Federal Family Education Loans – Reporting and Special Tests and Provisions – Conditions of Reinsurance Coverage; Death, Disability, Closed Schools, False Certification, Unpaid Refunds, Bankruptcy, and Teacher Loan Forgiveness Claims; Default Aversion Assistance; Collection Efforts; Federal Share of Borrower Payments; Assignment of Defaulted Loans to the United States Department of Education (USED); Federal Fund and Agency Operating Fund; Investments – Federal Fund; Collection Charges; and Enforcement Action TANF – Special Tests and Provisions - Child Support Non-Cooperation
State Entity	Florida State University (FSU)
Federal Grant/Contract Number and Grant Year	N/A – Federal Family Education Loans 1801FLTANF 2018 and 1901FLTANF 2019
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Finding	In our information technology (IT) operational audit report No. 2020-054, dated November 2019, we noted in Finding 2 that certain security controls related to physical access, logging and monitoring, and logical access for the Northwest Regional Data Center (NWRDC), an auxiliary operation of FSU, need improvement to help ensure the confidentiality, integrity, and availability of data and related IT resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of data and IT resources.
Condition	<p>The NWRDC provides data center services for various customer entities and IT systems, including the Federal Family Education Loan Program (FFELP) System at the Florida Department of Education (FDOE) and the Child Support Automated Management System (CAMS) at the Florida Department of Revenue (FDOR).</p> <p>The FDOE, Office of Student Financial Assistance (OSFA), is responsible for providing access to and administering State and Federal grants, scholarships, and loans to students seeking financial assistance for postsecondary study. The OSFA is the designated guaranty agency for the State of Florida for all FFELP loans with first disbursements prior to July 1, 2010, and the OSFA utilizes the FFELP System to administer FFELP loans. During the 2018-19 fiscal year, the FDOE expended \$49,749,552 under the FFELP program.</p> <p>The Florida Department of Children and Families (FDCF) is responsible for providing cash assistance under the TANF program. Benefit payments under the program are contingent upon the client’s cooperation with child support enforcement (CSE). The FDOR operates the CSE program and utilizes CAMS to provide services to parents and to maintain case member information, paternity and support establishment, enforcement of ordered obligations for support, and collection and distribution of support payments. During the 2018-19 fiscal year, the FDCF made TANF cash assistance payment totaling \$132,470,380.</p> <p>Our IT operational audit disclosed that certain NWRDC security controls related to physical access, logging and monitoring, and logical access needed improvement. We are not disclosing the specific details of the issues to avoid the possibility of compromising NWRDC customer entity data and related IT resources. However, appropriate NWRDC management were notified of the</p>

specific issues. The deficiencies noted we consider collectively to be a significant deficiency.

Cause

We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising NWRDC customer entity data and related IT resources.

Effect

Without appropriate security controls related to physical access, logging and monitoring, and logical access, the risk is increased that the confidentiality, integrity, and availability of customer entity data and related IT resources may be compromised.

Recommendation

We recommend that NWRDC management improve certain security controls related to physical access, logging and monitoring, and logical access to ensure the confidentiality, integrity, and availability of NWRDC customer entity data and related IT resources.

State Entity Response

NWRDC agrees with the finding and has improved controls in these areas. The following are updates for the three named items:

- Physical Access – Complete. NWRDC has improved its controls, and we plan to work with the Florida Auditor General personnel during their next operational audit to ensure they are satisfied with control improvements to address this item.
- Logging & Monitoring – Complete. NWRDC has implemented the audit recommendation.
- Logical Access – Complete. NWRDC has implemented the audit recommendation.

**U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
U.S. DEPARTMENT OF AGRICULTURE**

Finding Number	2019-025
CFDA Number	10.558 and 93.917
Program Title	Child and Adult Care Food Program (CACFP) HIV Care Formula Grants
Compliance Requirement	Subrecipient Monitoring
State Entity	Florida Department of Health (FDOH)
Federal Grant/Contract Number and Grant Year	5FL300350 2018 and 2019, 5FL300340 2018 and 2019, X08HA32362 2018, and X07HA00057 2018 and 2019
Statistically Valid Sample	No
Finding Type	Noncompliance
Finding	The FDOH did not verify that all applicable subrecipients were audited or timely issue management decisions for subrecipient audit findings.
Criteria	2 CFR 200.331 – <i>Requirements for pass-through entities</i> – All pass-through entities must verify that every subrecipient is audited as required by Subpart F – <i>Audit Requirements</i> when it is expected that the subrecipient’s Federal awards expended during the respective fiscal year equaled or exceeded the threshold set forth in 2 CFR 200.501 – <i>Audit requirements</i> . The pass-through entity’s monitoring of the subrecipient must include following up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award detected through audits. The pass-through entity is responsible for issuing a management decision for audit findings pertaining to the Federal award within 6 months of acceptance of the audit report by the Federal Audit Clearinghouse, in accordance with 2 CFR 200.521 – <i>Management decision</i> .
Condition	<p>During the 2018-19 fiscal year, the FDOH provided approximately \$291 million in CACFP funds to subrecipients and approximately \$76 million in HIV Care Formula Grants funds to subrecipients. To determine which subrecipients are required to be audited, the FDOH analyzes expenditure data and utilizes Audit Report Certification Forms that require subrecipients to certify whether or not an audit is required. The FDOH documented on an audit tracking log the dates audit reports were received, the dates corrective actions were taken, and the dates that the FDOH determined that sufficient corrective actions had been taken to address audit findings. Upon receipt of an audit report, the FDOH was to review the report and complete a Single Audit Report Checklist to document the review of the audit report.</p> <p>Our examination of the FDOH audit tracking log and FDOH expenditure data disclosed that the FDOH did not send to 5 CACFP subrecipients and 2 HIV Care Formula Grants subrecipients an Audit Report Certification Form or otherwise verify that the subrecipients were audited.</p> <p>In addition, our review of 21 audit reports included on the FDOH’s audit tracking log disclosed that, for 11 of the reports related to 7 CACFP subrecipients and 4 HIV Care Formula Grant subrecipients, the FDOH was unable to provide completed Single Audit Report Checklists evidencing that the FDOH obtained and reviewed the audit reports to ensure the timely issuance of management decisions, if necessary. We also noted that 1 of the 11 audit reports included audit findings related to the HIV Care Formula Grant program. Our examination of the management decision disclosed that the FDOH did not issue the management decision until subsequent to our audit inquiry (406 days late).</p>

Cause	According to FDOH management, the FDOH did not verify that the subrecipients were audited and the subrecipient audits were not timely obtained and reviewed due to coding errors in the data used to identify subrecipients, staffing reductions, and a review backlog. These issues contributed to the untimely issuance of the required management decision.
Effect	Absent verification that all applicable subrecipients were audited, the FDOH may not obtain the required audit reports to verify that all subrecipients complied with applicable Federal laws, regulations, and provisions of contracts and grant agreements. In addition, absent this verification and timely review of all required subrecipient audit reports, the FDOH may not ensure that any deficiencies noted during audit were appropriately followed up on or timely issue required management decisions.
Recommendation	We recommend that the FDOH take steps to verify that audit reports from all applicable subrecipients are timely obtained and reviewed to ensure that the subrecipients took timely and appropriate action to address all applicable deficiencies and to facilitate the timely issuance of management decisions.
State Entity Response	FDOH agrees that out of 2,499 records, seven providers (five sub-recipients from the CACFP and two from HIV Care Formula Grant) were omitted from the Export_FLAIR_Master_File that FDOH uses to generate certification forms to sub-recipient providers. The “glitch” was discovered, and the program codes were updated by the Florida Accounting Information Resource system team November 11, 2019. FDOH will perform a review of the Master File program codes each year prior to running the report to further reduce the potential for a similar incident. In addition, FDOH will modify the single audit report review workflow beginning July 1, 2020 to prioritize management decision letters to those providers with audit findings at the start of each audit reporting cycle, rather than on a first in/first out method. This will allow FDOH to meet the additional workload requirements under 2 CFR 200, while at the same time increasing the compliance level for the timeline prescribed under 2 CFR 200.521 - Management decision.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-026
CFDA Number	93.268
Program Title	Immunization Cooperative Agreements
Compliance Requirement	Period of Performance
State Entity	Florida Department of Health (FDOH)
Federal Grant/Contract Number and Grant Year	6 NH23IP000741-05-02 2018
Statistically Valid Sample	N/A
Finding Type	Noncompliance and Significant Deficiency Questioned Costs – \$348,618.89
Finding	FDOH expenditures charged to the Immunization Cooperative Agreements program were not always incurred during the authorized period of performance.
Criteria	2 CFR 200.309 – <i>Period of performance</i> – A non-Federal entity may charge to the Federal award only allowable costs incurred during the period of performance.
Condition	During the 2018-19 fiscal year, the FDOH expended \$306,600,812 in Federal funds, including \$293,881,585 for vaccines, for the Immunization Cooperative Agreements program. Our analysis and examination of records related to expenditures paid by the FDOH during the 2018-19 fiscal year disclosed 13 expenditures, totaling \$348,618.89, that were not incurred during the authorized period of performance.
Cause	According to FDOH management, upon the change of a fiscal year, the accounting codes used to identify expenditures to a particular grant are updated in the FDOH's accounting system. FDOH management indicated that the expenditures were charged to the incorrect grant because the expenditures were paid during the accounting codes update and FDOH staff did not identify the expenditures as being charged incorrectly during the review process.
Effect	Expenditures charged to a Federal award that were not incurred during the authorized period of performance could be subject to disallowance by the Federal grantor agency.
Recommendation	We recommend that the FDOH enhance review procedures to ensure that costs are attributable to the authorized period of performance and are charged to the correct grant.
State Entity Response	<p>Moving forward, when fiscal codes (Other Cost Accumulators (OCA) and Grant Number) for a new grant year are updated, all monthly expenditures will be audited internally by the Immunization Section's Grant Analyst and the Bureau of Epidemiology's Grant Manager to ensure that each payment is charged to the appropriate grant OCA for the time period indicated on the invoices. Any necessary corrections will be made as soon as they are identified and verified prior to the submission of the Federal Financial Report.</p> <p>Additionally, the program office will communicate with county health departments and other partners, to review invoices to ensure they were processed with the correct coding, and reflect the correct period of performance.</p> <p>These new processes will ensure the program complies with the project period integrity for each year of the grant.</p>

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-027
CFDA Number	93.268
Program Title	Immunization Cooperative Agreements
Compliance Requirement	Special Tests and Provisions - Control, Accountability, and Safeguarding of Vaccine and Record of Immunization
State Entity	Florida Department of Health (FDOH)
Federal Grant/Contract Number and Grant Year	6 NH23IP000741-05-02 2018
Statistically Valid Sample	No
Finding Type	Significant Deficiency
Finding	FDOH records did not always demonstrate that access to the Provider Education Assessment and Reporting system (PEAR) was only granted to authorized users and that the access privileges granted were appropriate.
Criteria	<p>Agency for State Technology (AST) Rule 74-2.003(1), Florida Administrative Code - <i>Access Control</i> - Each agency shall ensure that access to information technology resources is limited to authorized users, processes, or devices, and to authorized activities and transactions.</p> <p>AST Rule 74-2.003(5), Florida Administrative Code - <i>Information Protection Processes and Procedures</i> - Each agency shall ensure that security policies, processes and procedures are maintained and used to manage protection of information systems and assets.</p>
Condition	<p>The FDOH uses PEAR, a Federally owned system, to document field staff and provider interactions to ensure compliance with program requirements. As of June 30, 2019, 41 FDOH employees had access to PEAR. During the 2018-19 fiscal year, the FDOH expended Immunization Cooperative Agreements program funds totaling \$306,600,812.</p> <p>Our review of FDOH access controls for PEAR disclosed that controls over access needed improvement. Specifically, although requested, the FDOH could not provide documentation demonstrating the request for and approval of access privileges for 2 of 5 of the FDOH users selected for testing.</p>
Cause	FDOH management indicated that the FDOH had not established procedures for maintaining documentation evidencing the request for and approval of access to PEAR.
Effect	Absent procedures requiring that appropriate user access authorization documentation be prepared and maintained, the FDOH cannot demonstrate that access to PEAR is appropriately limited to authorized users for authorized purposes. Additionally, the data stored in PEAR may be at increased risk of compromise.
Recommendation	We recommend that the FDOH establish procedures addressing the preparation and maintenance of PEAR user access authorization documentation.
State Entity Response	<p>Vaccines for Children (VFC) Field Staff are responsible for conducting VFC-related site visits at VFC-enrolled provider sites. Requirements for conducting these types of visits are outlined in the Centers for Disease Control and Prevention's (CDC's) Immunization Program Operations Manual and its Vaccines for Children Operations Guide. For purposes of conducting VFC-related site visits, field staff are referred to as reviewers.</p> <p>Reviewers joining the VFC program must have access to CDC's PEAR. Access to PEAR is initiated by the Immunization Section's VFC Unit. Access to PEAR is granted by the CDC. Once access to PEAR is granted by the CDC, the VCF Unit</p>

can manage a reviewer's status (deactivate or reactivate reviewers and update reviewer email addresses, as applicable).

To initiate the process of gaining PEAR access:

The VFC Unit's Manager (VFC Manager) or VFC Assistant Manager will provide the site visit reviewer with PEAR Access Request Form.

The reviewer will complete the form and return it to the VFC Manager or Assistant Manager.

The VFC Manager or Assistant Manager will sign the form.

The signed form will be scanned and emailed to the CDC Public Health Advisor.

The CDC Public Health Advisor (PHA) will email CDC's Project Officer asking that the reviewer be granted access to the CDC's Secure Access Management Services (SAMS) system.

SAMS will send an email invitation to join SAMS along with identity proofing documents.

The reviewer will complete the identity proofing document and provide it to the PHA for signature.

The PHA will sign the form, scan the form along with the PEAR Access Request Form and store it at the following location: I:\IMM\Field Operations\PEAR Access Requests.

The reviewer will then email the completed identity proofing document to SAMS, as instructed by the CDC invitation to join SAMS.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-028
CFDA Number	93.558 and 93.667
Program Title	Temporary Assistance for Needy Families (TANF) Cluster and Social Services Block Grant (SSBG)
Compliance Requirement	Activities Allowed and Unallowed and Allowable Costs/Cost Principles
State Entity	Florida Department of Children and Families (FDCF)
Federal Grant/Contract Number and Grant Year	1801FLTANF 2018 and G-1801FLSOSR 2018
Statistically Valid Sample	N/A
Finding Type	Noncompliance Questioned Costs – \$47,194.43 G-1801FLSOSR 2018
Finding	The FDCF used incorrect allocation percentages for a protective investigations cost objective, resulting in costs being charged to the incorrect Federal program.
Criteria	2 CFR 200.405 – <i>Allocable costs</i> – If a cost benefits two or more projects or activities in proportions that can determined without undue effort or cost, the cost must be allocated to the projects based on the proportional benefit.
Condition	<p>The FDCF utilizes the Grants and Other Revenue, Allocation and Tracking System (GRANTS) to provide for a detailed analysis of grant activity. GRANTS tracks grant related expenditures and revenues, assigns expenditures to funding sources, calculates Federal earnings, assists in financial and Federal reporting, and the drawing of cash from the Federal Government.</p> <p>The primary flow of data within GRANTS starts with expenditure data in the Florida Accounting Information Resource Subsystem (FLAIR). Expenditures in FLAIR are assigned to various cost objectives, depending on the budget entity, category, and other cost accumulator that the expenditure is coded to in FLAIR. The expenditures (costs) charged to the cost objectives are then allocated based on factors such as the percentage of clients eligible for a Federal program or the percentage of abuse hotline calls received for adults and children. The allocation percentages for each cost objective are reviewed and approved by management and then entered into GRANTS.</p> <p>Our review of the allocation percentages included in GRANTS disclosed that, for one protective investigations cost objective, the FDCF entered the incorrect allocation percentages for the quarter ended September 30, 2018. As a result, the FDCF overallocated \$47,194.43 in protective investigations costs to the SSBG program and \$125,875.79 to State general revenue, and underallocated costs totaling \$173,070.22 to TANF.</p>
Cause	According to FDCF management, the last six digits of the allocation percentages were transposed when entered into GRANTS and the error was not discovered during supervisory review.
Effect	Expenditures were incorrectly allocated, resulting in costs being charged to the incorrect Federal program.
Recommendation	We recommend that the FDCF enhance supervisory review procedures to ensure that accurate allocation percentages are entered into GRANTS and used as the basis to allocate protective investigations costs to Federal programs.
State Entity Response	FDCF concurs with this recommendation and is currently in the process of transitioning from a quarterly manual input of cost allocation statistics to an automated quarterly cost allocation statistical upload into the GRANTS system to eliminate the risk of error. In the interim, FDCF will enhance supervisory review procedures to ensure that accurate allocation percentages are input to the GRANTS system.

**U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
U.S. DEPARTMENT OF AGRICULTURE**

Finding Number 2019-029
CFDA Number Various (See Condition)
Program Title Various (See Condition)
Compliance Requirement Period of Performance
State Entity Florida Department of Children and Families (FDCF)
Federal Grant/Contract Number and Grant Year Various (See Condition)
Statistically Valid Sample No
Finding Type Noncompliance and Significant Deficiency
 Questioned Costs - \$22,824,663.10
Prior Year Finding Report No. 2019-186, Finding No. 2018-025

Finding FDCF expenditures charged to various Federal program grants were not always incurred during the authorized period of performance.

Criteria 2 CFR 200.309 – *Period of performance* – A non-Federal entity may charge to the Federal award only allowable costs incurred during the period of performance.

Condition During the 2018-19 fiscal year, the FDCF expended approximately \$541 million in Federal funds for the programs noted in the table below. Our analysis and examination of records related to selected expenditures paid by the FDCF during the 2018-19 fiscal year disclosed 29 expenditures, totaling \$22,824,663.10, that were not incurred during the authorized period of performance.

CFDA	Program	Federal Grant Number and Year	Federal Expenditures	Questioned Costs
10.561	State Administrative Matching Grants for the Supplemental Nutrition Assistance Program	5FL400402 2019	\$ 80,464,068	\$ 21,198.56
93.558	Temporary Assistance for Needy Families	1901FLTANF 2019	220,823,636	7,211,409.94
93.667	Social Services Block Grant	G-1901FLSOSR 2019	84,910,585	1,026,003.49
93.958	Block Grants for Community Mental Health Services	3B09SM010010-19S2 2019	42,693,243	1,345,596.64
93.959	Block Grants for Prevention and Treatment of Substance Abuse	2B08TI010010-19 2019	112,045,760	13,220,454.47
Totals			<u>\$540,937,292.00</u>	<u>\$ 22,824,663.10</u>

Cause FDCF management indicated that the expenditures were charged to the incorrect grant due to the inability to monitor which grants costs were charged to.

Effect Expenditures charged to a Federal award that were not incurred during the authorized period of performance could be subject to disallowance by the Federal grantor agency.

Recommendation We recommend that the FDCF establish a monitoring process to ensure that costs are attributable to the authorized period of performance and are charged to the correct grant. We also recommend that the FDCF review expenditure data and records to determine the total costs that were charged to the grants in error.

State Entity Response

FDCF concurs with this recommendation. FDCF will work with our various Federal agencies to discuss challenges with respect to period of performance. In addition, FDCF is taking steps to ensure expenditures are identified in the appropriate period where the benefit to the state was realized.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-030
CFDA Number	93.558
Program Title	Temporary Assistance for Needy Families (TANF)
Compliance Requirement	Special Tests and Provisions – Income Eligibility and Verification System
State Entity	Florida Department of Children and Families (FDCF)
Federal Grant/Contract Number and Grant Year	1801FLTANF 2018 and 1901FLTANF 2019
Statistically Valid Sample	No
Finding Type	Opinion Qualification and Material Weakness
Prior Year Finding	Report No. 2019-186, Finding No. 2018-026
Finding	The FDCF did not always timely review and process Income Eligibility and Verification System (IEVS) data exchange responses.
Criteria	<p>42 USC 1320b-7 – <i>Income and eligibility verification system</i> – A State must have in effect an income and eligibility verification system.</p> <p>45 CFR 205.55 – <i>Requirements for requesting and furnishing eligibility and income information</i></p> <p>Program Policy Manual Section 3020.0100 – <i>Data Exchange</i> and Section 3020.0102 – <i>Processing Time Standards</i> – FDCF staff are to dispose of data exchange responses considered verified upon receipt within 10 calendar days and all other data exchange responses within 45 calendar days.</p>
Condition	<p>During the 2018-19 fiscal year, the FDCF made TANF cash benefit payments totaling \$132,470,380. Federal regulations require the FDCF to verify certain eligibility information through electronic data exchanges with other State and Federal agencies. Eligibility information is maintained in the Florida Online Recipient Integrated Data Access (FLORIDA) System. As part of the IEVS data exchange process, the FLORIDA System compares the data exchange response to eligibility information in the System; however, resolving data exchange responses requires employee action.</p> <p>As part of our audit, we examined FDCF eligibility records for 25 clients (cases), including 20 cases for which the FDCF was required to review and process IEVS data exchange responses. Our examination disclosed 9 instances related to 5 cases where the FDCF did not review and process the IEVS data exchange responses within the established time frames. Of the 9 instances, we noted 5 instances where the data exchanges were required to be reviewed and processed within 45 days but were reviewed and processed 11 to 102 days late. In the other 4 instances, the data exchanges were required to be processed within 10 days but were reviewed and processed 6 to 86 days late.</p> <p>In addition, we obtained IEVS Data Exchange Reports for August 2018, November 2018, and May 2019 to determine the number of data exchange responses that were not timely reviewed and processed. The three reports included a total of 767,591 data exchange responses that were not timely reviewed and processed, including 288,756 responses that were verified upon receipt. Specifically, the 767,591 data exchange responses were reviewed and processed 143 to 379 days late.</p>
Cause	According to FDCF management, the completion of IEVS data exchanges is a manual process requiring employee action. Due to the volume of data exchanges and the inability of the FLORIDA System to integrate IEVS data, actions were not timely performed.
Effect	Failure to timely review and process data exchange information may preclude the FDCF from promptly identifying changes in client eligibility status.

Recommendation

We recommend that the FDCF take appropriate actions to improve controls, including evaluating staffing resources and necessary system enhancements, to ensure that data exchange responses are reviewed and processed within established time frames.

State Entity Response

Regarding the identified cases where the Income Eligibility and Verification System data exchanges were not processed timely, the department concurs. Due to the overall volume of data exchanges for the Economic Self-Sufficiency Program, and the inability of the FLORIDA System to integrate data, the department will establish an extensive project management component to determine system enhancements and identify process improvements to ensure data exchanges are processed timely. Furthermore, the department is actively working a request for funds from the Florida Legislature to improve system and data integration and the overall functionality of the department's information technology systems.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-032
CFDA Number	93.767 and 93.775, 93.777, and 93.778
Program Title	Children's Health Insurance Program and Medicaid Cluster
Compliance Requirement	Activities Allowed or Unallowed and Allowable Costs/Cost Principles
State Entity	Florida Department of Health (FDOH)
Federal Grant/Contract Number and Grant Year	1805FL5021 2018, 1905FL5021 2019, 1805FL5MAP 2018, and 1905FL5MAP 2019
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Finding	The FDOH did not obtain or review the required independent service auditor's report that would ensure that the service organization's internal controls related to processing Children's Medical Services (CMS) medical claims payments were appropriately designed and operating effectively.
Criteria	2 CFR 200.303 and 45 CFR 75.303 – <i>Internal controls</i> – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.
Condition	<p>The FDOH contracted with a service organization to process and pay claims submitted by health care providers for the payment of services provided to CMS recipients that met CMS Plan requirements. The contract specified that the service organization was to submit an independent service auditors report to the FDOH by October 1st of each year of the contract. The service organization paid CMS medical claims totaling \$57,946,562 during the 2018-19 fiscal year. Effective February 1, 2019, the FDOH contracted with a provider to assist in the administration of the CMS Plan through a Managed Medical Assistance Program. The service organization is to process outstanding CMS medical claims through the end of the contract in February 2020.</p> <p>During the 2018-19 fiscal year, the FDOH did not obtain or review the required independent service auditor's report to evaluate the design and operating effectiveness of the service organization's internal controls related to the processing of CMS medical claims payments.</p>
Cause	FDOH management indicated that the report was unavailable due to an unresolved compliance matter with the service organization.
Effect	Absent an evaluation of the design and operating effectiveness of the service organization's internal controls related to the payment of CMS medical claims, the FDOH has reduced assurance that CMS claims payments are accurate and appropriate.
Recommendation	We recommend that the FDOH ensure that the service organization's internal controls related to CMS medical claims payments are appropriately designed and operating effectively by obtaining and reviewing an independent service auditor's report and, as necessary, ensuring appropriate corrective action is taken to resolve noted deficiencies.
State Entity Response	The State of Florida and the FDOH CMS Managed Care Plan (CMS Plan) management fund appropriately designed effective medical claims payment systems with two third-party administrators (TPA) as of February 1, 2019. MED3000 is the TPA for the service delivery model that ended January 31, 2019. WellCare Health Plans (WellCare) is contractually responsible to FDOH CMS Plan management as the TPA for the service delivery model implemented

February 1, 2019. The FDOH CMS Plan management will continue to require compliance from the two TPAs providing CMS Plan services. For example, the CMS Plan management received WellCare's independent service auditor's report for the period April 1, 2018 through March 31, 2019.

While MED3000 made a business economies of scale decision to not comply with the Annual Service Organization Control (SOC) 1 Type II Audit and Health Information Portability and Accountability Act (HIPAA) Compliance Review, other internal controls and processes have remained in place. CMS Plan management will continue to execute internal controls for the MED3000 claims lag payment and continue to seek compliance regarding the breach of the requirement for the SOC 1 report.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-033
CFDA Number	93.566, 93.775, 93.777, and 93.778
Program Title	Refugee and Entrant Assistance State/Replacement Designee Administered Programs (REAP) and Medicaid Cluster
Compliance Requirement	Activities Allowed or Unallowed and Allowable Costs/Cost Principles
State Entity	Florida Agency for Health Care Administration (FAHCA)
Federal Grant/Contract Number and Grant Year	1801FLRCMA 2018, 1901FLRCMA 2019, 1805FL5MAP 2018, and 1905FL5MAP 2019
Statistically Valid Sample	N/A
Finding Type	Noncompliance and Significant Deficiency
	Questioned Costs – \$133,386.66 (CFDA No. 93.566 – Federal Share \$136.62; Federal Grant Nos. 1801FLRCMA \$45.54 and 1901FLRCMA \$91.08; CFDA No. 93.778 – Federal Share \$81,317.53; Federal Grant Nos. 1805FL5MAP \$13,985.17 and 1905FL5MAP \$67,332.36)
Finding	Fee for service medical claim payments made to providers of Medicaid and REAP services were not always paid in accordance with established fee schedules.
Criteria	42 CFR 447.45(f)(iv) – <i>Timely claims payment</i> – For all claims, the agency must conduct prepayment claims review consisting of verification that a payment does not exceed any reimbursement rates or limits in the Medicaid State Plan. FAHCA Rule 59G-4.002, Florida Administrative Code – <i>Provider Reimbursement Schedules and Billing Codes</i> (Provider Fee Schedule) – Florida Medicaid reimburses for services rendered in the fee-for-service delivery system based on a fee schedule.
Condition	The FAHCA contracted with a fiscal agent to provide the Florida Medicaid Management Information System (FMMIS) that is used to process Medicaid and REAP fee for service claims submitted by providers. During the 2018-19 fiscal year, \$5.8 billion in Medicaid and \$1.2 million in REAP fee for service medical claims were processed. We examined FAHCA records for claim payments made to providers to determine whether the claim payments were in accordance with the Provider Fee Schedule. Our examination disclosed that, for one provider type and procedure code, the claims were not paid in accordance with the Provider Fee Schedule, resulting in an \$133,386.66 overpayment to eight providers.
Cause	FAHCA management indicated that the incorrect payment rates were programmed in FMMIS, resulting in the claims being paid in the incorrect amount.
Effect	Absent appropriate controls, claims may be paid in incorrect amounts and not be timely detected by FAHCA personnel.
Recommendation	We recommend that the FAHCA implement controls to ensure that all claims are paid for the correct amount and that FAHCA review the payment rates programmed in FMMIS to ensure that the payment rates are correct.
State Entity Response	To ensure that future Medicaid Fee Schedules are implemented into the Florida Medicaid Management Information System (FMMIS) correctly, the FAHCA has developed a Corrective Action Plan (CAP). The CAP has two components: 1. FAHCA will document a standard process for tracking the annual Medicaid fee schedule updates. The new procedure guide will include detailed instruction and processes for cross bureau meetings, tracking fee schedule updates, and system update verifications. 2. FAHCA will reprocess all fee-for-service claims identified in the audit as paying an incorrect rate. When the reprocessing occurs, the FMMIS will adjust the claims, and the Federal Share reduction will be automatically reported on the CMS-64.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number 2019-034
CFDA Number 93.775, 93.777, and 93.778
Program Title Medicaid Cluster
Compliance Requirement Allowable Costs/Cost Principles
State Entity Florida Agency for Health Care Administration (FAHCA)
Federal Grant/Contract Number and Grant Year 1805FL5MAP 2018 and 1905FL5MAP 2019
Statistically Valid Sample N/A
Finding Type Significant Deficiency
Prior Year Finding Report No. 2019-186, Finding No. 2018-029

Finding The FAHCA did not adequately ensure that the service organization's internal controls related to the invoicing, collecting, and reporting of drug rebates were operating effectively.

Criteria 2 CFR 200.303 and 45 CFR 75.303 – *Internal controls* – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Condition The FAHCA contracted with a service organization to invoice and collect rebates from, and resolve related disputes with, pharmaceutical manufacturers, and to provide required utilization data to the Centers for Medicare and Medicaid Services (CMS).

Each quarter, the FAHCA provided the service organization, from the Florida Medicaid Management Information System, pharmacy and medical claims data for drug costs paid during the quarter. The claims data included both Medicaid fee-for-service and Medicaid managed care claims. The service organization merged the claims data with rebate rates provided by the CMS and the State's Supplemental/Preferred Drug List vendor to calculate the amount of drug rebates to be invoiced to pharmaceutical manufacturers. Rebate collections for the 2018-19 fiscal year totaled approximately \$1.9 billion and approximately 2.6 million prescriptions were associated with the invoiced rebates per month.

The contract, effective February 1, 2014, specified that the FAHCA may conduct, or have conducted, performance reviews, compliance reviews, or both, of the service organization's procedures, computer system, and accounting records. Effective February 2018, the FAHCA amended the contract to require the service organization to provide the FAHCA with a System and Organization Controls (SOC 1) report prepared in accordance with applicable attestation standards established by the American Institute of Certified Public Accountants. A subsequent contract amendment required the service organization to provide a SOC 1 Type 1 report on May 31, 2019, and a SOC 1 Type 2 report for the fiscal years thereafter.

While the FAHCA tracked and reviewed contractually required reports and scorecards prepared by the service organization that indicated compliance with contractual requirements, and obtained the SOC 1 Type 1 report which evaluated the design of the service organization's internal controls related to the invoicing, collecting, and reporting of drug rebates, the FAHCA did not adequately evaluate the operating effectiveness of the service organization's internal controls, either internally or by obtaining a SOC 1 Type 2 report.

Cause	According to FAHCA management, the FAHCA amended the contract with the service organization to require the service organization to provide SOC 1 reports; however, due to the timing of the amendment, a SOC 1 Type 2 report could not be provided for the 2018-19 fiscal year.
Effect	Absent an evaluation of the operating effectiveness of the service organization's internal controls for the invoicing, collection, and reporting of drug rebates, the FAHCA has reduced assurance that drug rebate invoices are accurate.
Recommendation	We recommend that the FAHCA ensure that the service organization's internal controls related to the invoicing, collecting, and reporting of drug rebates are appropriately designed and operating effectively by obtaining and reviewing a SOC 1 Type 2 report.
State Entity Response	<p>The contract between FAHCA and the service organization has been amended. The amendment required the service organization to obtain an SSAE-18 Audit Report to ensure that the service organization internal controls related to invoicing, collecting, and reporting of drug rebates are appropriately designed and operating effectively. The service organization submitted an SSAE-18 Audit Report to FAHCA on May 31, 2019, pertaining to the SOC1, Type 1 audit which reported on the design of the vendor's internal controls.</p> <p>The service organization is also required to submit an SSAE-18 Audit Report by August 15, 2020 pertaining to the SOC 1 Type 2 audit that will cover the operating effectiveness of the vendor's controls.</p>

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-035
CFDA Number	93.775, 93.777, and 93.778
Program Title	Medicaid Cluster
Compliance Requirement	Special Tests and Provisions – Utilization Control and Program Integrity
State Entity	Florida Agency for Persons with Disabilities (FAPD)
Federal Grant/Contract Number and Grant Year	1805FL5MAP 2018 and 1905FL5MAP 2019
Statistically Valid Sample	No
Finding Type	Opinion Qualification and Material Weakness
Prior Year Finding	Report No. 2019-186, Finding No. 2018-031
Finding	FAPD records did not always evidence that continued stay reviews were completed for beneficiaries of Intermediate Care Facility Services for Individuals with Intellectual Disabilities (ICF-IIDs) in accordance with the time frame specified by Federal regulations.
Criteria	42 CFR Part 456.431 – Continued stay review required
Condition	<p>During the 2018-19 fiscal year, Medicaid payments for ICF services totaled \$299,113,570 and related to 2,519 ICF-IID beneficiaries. Federal regulations specify that a continued stay review must be completed every 6 months to determine whether the beneficiary's continued stay in the ICF-IID facility is needed. The FAPD is responsible for conducting continued stay reviews for all residents of public and private ICF-IID facilities and ensuring that resident utilization review plans provide for a review of each beneficiary's continued stay in the ICF at least every 6 months.</p> <p>We examined FAPD continued stay review records related to 60 ICF-IID beneficiaries to determine whether the reviews were timely completed. We noted that FAPD records did not evidence the conduct of a required continued stay review for 12 ICF-IID beneficiaries in accordance with the time frame specified by Federal regulations.</p>
Cause	FAPD management indicated that documentation evidencing conduct of the required continued stay reviews could not be located due to employee turnover.
Effect	Absent documentation of completed continued stay reviews, the FAPD cannot demonstrate that continued stay determinations for ICF-IID beneficiaries are completed within the time frame specified by Federal regulations or that a beneficiary's continued stay in an ICF-IID facility is needed.
Recommendation	We again recommend that FAPD management take steps, including implementing adequate record retention controls, to ensure that continued stay reviews of ICF-IID beneficiaries are timely completed and appropriately documented in accordance with Federal regulations.
State Entity Response	The Agency for Persons with Disabilities concurs with this finding.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-036
CFDA Number	93.775, 93.777, and 93.778
Program Title	Medicaid Cluster
Compliance Requirement	Special Tests and Provisions – Utilization Control and Program Integrity
State Entity	Florida Agency for Health Care Administration (FAHCA)
Federal Grant/Contract Number and Grant Year	1805FL5MAP 2018 and 1905FL5MAP 2019
Statistically Valid Sample	N/A
Finding Type	Noncompliance and Significant Deficiency
Finding	The FAHCA did not ensure that all external quality review activities were performed in accordance with Federal requirements.
Criteria	42 CFR 438.358(b) – <i>Activities related to external quality review</i> – For each managed care organization (MCO), prepaid inpatient health plan (PIHP), or prepaid ambulatory health plan (PAHP), the State or an external quality review organization (EQRO) must perform external quality review (EQR) activities, including a validation of performance improvement projects (PIPs) that were underway during the preceding 12 months; a validation of MCO, PIHP, or PAHP performance measures during the preceding 12 months; and a review, conducted within the previous 3-year period, to determine the MCO's, PIHP's, or PAHP's compliance with Federal standards and quality assessment and performance improvement requirements.
Condition	During the 2018-19 fiscal year, the FAHCA contracted with an EQRO to perform certain EQR activities for FAHCA Medicaid managed care programs, in addition to the EQR activities conducted by the FAHCA. The EQR activities the EQRO was to perform included a validation of PIPs and applicable performance measures. As part of our audit, we examined records related to the EQR activities conducted by the FAHCA and the EQRO during the 2018-19 fiscal year. Our examination disclosed that the FAHCA did not conduct a 3-year compliance review for the period December 2015 through December 2018.
Cause	According to FAHCA management, to facilitate the completion of the 3-year compliance review, a standardized compliance review tool had been developed to allow multiple FAHCA Bureaus to link information captured through FAHCA monitoring activities to the Federal standards, including an established threshold to determine health plan compliance; however, the compliance review tool had not been incorporated into current FAHCA monitoring practices.
Effect	Absent a 3-year review of compliance with Federal standards and quality assessment and performance improvement requirements, the FAHCA cannot demonstrate compliance with Federal regulations.
Recommendation	We recommend that the FAHCA incorporate the standardized compliance review tool into FAHCA monitoring activities and take actions to ensure that the 3-year compliance review and all EQR activities performed by the EQRO are timely conducted in accordance with Federal regulations.
State Entity Response	FAHCA, in conjunction with its EQRO, has developed a comprehensive compliance review tool that integrates both federal and state monitoring requirements. The tool identifies the FAHCA unit that is responsible for the monitoring activity and the frequency with which monitoring must occur for every federal EQRO regulation and all state contract requirements. FAHCA is in year two of the three-year federally required review cycle. At this time, FAHCA has completed approximately 80% percent of the requirements for the federally required review and has scheduled all remaining review activities to be completed by the end of the 3-year cycle.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-037
CFDA Number	93.775, 93.777, and 93.778
Program Title	Medicaid Cluster
Compliance Requirement	Special Tests and Provisions – Inpatient Hospital and Long-Term Care Facility Audits
State Entity	Florida Agency for Health Care Administration (FAHCA)
Federal Grant/Contract Number and Grant Year	1805FL5MAP 2018 and 1905FL5MAP 2019
Statistically Valid Sample	N/A
Finding Type	Noncompliance
Finding	The FAHCA did not ensure that inpatient hospital cost reports were periodically audited in accordance with the approved Florida Medicaid State Plan and Federal regulations.
Criteria	<p>42 CFR 447.253(g) – <i>Audit requirements</i> – The Medicaid agency must provide for periodic audits of the financial and statistical records of participating providers.</p> <p>42 CFR 447.253(i) – <i>Rates paid</i> – The Medicaid agency must pay for inpatient hospital and long-term care services using rates determined in accordance with methods and standards specified in an approved State plan.</p> <p>Florida Medicaid State Plan – Florida Title XIX Inpatient Hospital Reimbursement Plan, Version XLV, Effective July 1, 2018 – <i>Cost Finding and Cost Reporting</i> – Each hospital participating in the Florida Medicaid program shall file a cost report no later than 5 calendar months after the close of its cost reporting year.</p>
Condition	<p>During the 2018-19 fiscal year, the FAHCA reimbursed inpatient hospitals participating in the Medicaid program, except for State mental health hospitals, utilizing the Diagnosis-Related Groups (DRG) payment method. The DRG is a classification system that reflects clinically similar groupings of services that can be expected to consume similar amounts of hospital resources and is intended to provide for payment in full, without the need for subsequent cost settlement. Although inpatient hospitals reimbursed using the DRG payment method are not subject to subsequent cost settlement, cost reports continue to be required to determine inpatient cost-to-charge ratios that are used to calculate outlier payments and evaluate payment levels within the Medicaid program.</p> <p>As part of our audit, we requested that FAHCA management provide audited cost reports used to calculate payment rates for inpatient hospitals participating in the Medicaid program. Our inquiry disclosed that the FAHCA did not obtain audited cost reports or perform periodic audits of inpatient hospital cost reports, as required by the approved Medicaid State Plan and Federal regulations.</p>
Cause	According to FAHCA management, with the implementation of the DRG payment method, the FAHCA no longer obtained or used cost report data to calculate inpatient hospitals payment rates because the DRG payment method classifies inpatient stays and determines the rates based on a combination of the classification of services and the hospital where the services were rendered.
Effect	Absent evaluation of audited inpatient hospital cost reports, the FAHCA cannot demonstrate the reasonableness of reimbursements using the DRG payment method. Additionally, the FAHCA cannot demonstrate compliance with the approved Medicaid State Plan and Federal regulations.
Recommendation	We recommend that FAHCA management take steps to ensure that inpatient hospital cost reports are obtained and audited in accordance with the approved Medicaid State Plan to help evaluate payment levels within the Medicaid program and ensure compliance with Federal regulations.

State Entity Response

FAHCA agrees that the State Plan could be updated to provide the clarity that the cost report audits only apply to the hospitals reimbursed on a cost basis. The State Plan effective July 1, 2019 has been updated to reflect that only the state mental health hospitals, which are paid on a cost basis, must submit cost reports for audits.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2019-038
CFDA Number	93.775, 93.777, and 93.778
Program Title	Medicaid Cluster
Compliance Requirement	Special Tests and Provisions – Provider Eligibility (Screening and Enrollment)
State Entity	Florida Agency for Health Care Administration (FAHCA)
Federal Grant/Contract Number and Grant Year	1805FL5MAP 2018 and 1905FL5MAP 2019
Statistically Valid Sample	No
Finding Type	Noncompliance Questioned Costs – \$1,074,169.66 (CFDA No. 93.778 - Federal Share \$656,141.08; Federal Grant Nos. 1805FL5MAP \$154,072.59 and 1905FL5MAP \$502,068.49)
Finding	FAHCA records did not evidence that site visits of Medicaid Program providers were conducted in accordance with Federal regulations.
Criteria	<p>42 CFR 455.432(a) - <i>Site visits</i> – The State Medicaid agency must conduct pre-enrollment and post-enrollment site visits of providers who are designated as “moderate” or “high” categorical risks to the Medicaid Program. The purpose of the site visit is to verify that the information submitted to the State Medicaid agency is accurate and to determine compliance with Federal and State enrollment requirements.</p> <p>42 CFR 455.414 – <i>Revalidation of enrollment</i> – The State Medicaid agency must revalidate the enrollment of all providers regardless of provider type at least every 5 years.</p> <p>42 CFR 455.450(b)(2) – <i>Screening for providers designated as moderate categorical risk</i> – When the State Medicaid agency designates a provider as a “moderate” categorical risk, a State Medicaid agency must conduct on-site visits in accordance with Federal enrollment requirements.</p>
Condition	We examined FAHCA records for 40 providers enrolled in the Medicaid Program, including 17 designated as a “high” or “moderate” categorical risk, who received payments during the 2018-19 fiscal year to determine whether the providers met Program eligibility requirements. Our examination disclosed that, for 4 of the 17 providers, FAHCA records did not evidence that the FAHCA conducted a pre-enrollment site visit. In addition, for 2 of the 17 providers, the FAHCA could not provide documentation evidencing that a revalidation enrollment site visit was conducted at least every 5 years. Our review of the payments made to the 6 providers during the 2018-19 fiscal year disclosed that the FAHCA paid the providers \$656,141.08 in Federal funds.
Cause	FAHCA management indicated that the providers had hospital privileges and therefore, site visits were not required. In addition, FAHCA management indicated that the revalidation site visits were not conducted due to established procedures not being followed.
Effect	Absent site visits, the FAHCA cannot verify that the information submitted by providers is accurate or demonstrate that the providers are eligible for enrollment, or continued enrollment, in the Medicaid Program in accordance with Federal regulations.
Recommendation	We recommend that the FAHCA ensure that providers seeking enrollment in the Florida Medicaid Program receive site visits in accordance with Federal regulations. In addition, we recommend that the FAHCA revalidate the enrollment of providers at least every 5 years in accordance with Federal regulations.

State Entity Response

FAHCA will initiate an internal workgroup to review and compare FAHCA's site visit rules with the applicable federal regulations. Any deviations will be analyzed and, where appropriate, the Florida Medicaid policy will be modified.

FAHCA will schedule site visits for the providers identified in the audit.

THIS PAGE INTENTIONALLY LEFT BLANK

SOCIAL SECURITY ADMINISTRATION

Finding Number	2019-039
CFDA Number	96.001 and 96.006
Program Title	Disability Insurance (DI)/Supplemental Security Income (SSI) Cluster
Compliance Requirement	Reporting
State Entity	Florida Department of Health (FDOH)
Federal Grant/Contract Number and Grant Year	04-18-04FLDI00 2018
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency
Finding	The FDOH did not correctly report the hours worked or the equivalent full-time positions for employees engaged in activities related to the DI/SSI Cluster on a Federal report.
Criteria	The United States Social Security Administration (SSA) Program Operations Manual DI 39506.230 requires the FDOH to submit an SSA-4514 form quarterly to the SSA.
Condition	<p>The SSA-4514 form is used to report the number of hours worked and the number of equivalent full-time positions for employees engaged in DI/SSI Cluster activities by staffing category and employment status (i.e., full-time, part-time, or temporary). The report should reflect all hours worked by employees engaged in DI/SSI Cluster activities during the reporting period.</p> <p>Our examination of the SSA-4514 form submitted by the FDOH to the SSA for the quarter ended September 30, 2018, disclosed that the FDOH did not accurately report the number of hours worked or the number of equivalent full-time positions. Specifically, the FDOH understated the number of hours worked for on-duty, holiday and leave, and overtime by 108,556.50, 26,172.50 and 7,636.25 hours, respectively. Additionally, the FDOH understated the number of equivalent full-time positions for full-time, part-time, and temporary employees by 246.67, 0.18, and 29.65 positions, respectively.</p>
Cause	FDOH management indicated that an unidentified system error caused the report to be misstated. Additionally, FDOH review processes were insufficient to detect and correct the reporting errors.
Effect	The SSA-4514 form submitted by the FDOH to the SSA did not include accurate data.
Recommendation	We recommend that the FDOH take appropriate steps, including identifying the system error and enhancing review processes, to ensure amounts reported on SSA-4514 forms submitted to the SSA are accurate.
State Entity Response	<p>Florida Division of Disability Determinations' (DDD) Finance and Accounting (F&A) in conjunction with DDD's Bureau of Information Services has identified the error as a general network error that occurred while downloading the People First data. This error caused only a portion of the timesheet data to be downloaded and processed for this report.</p> <p>DDD's Bureau of Information Services is adding an automated check that will verify the integrity of the data that has been downloaded. F&A is also implementing an internal monitoring tool that will compare the previous report submission with the current report to identify abnormal changes in hours being reported, from quarter to quarter. This monitoring tool will be reviewed by management in conjunction with the United States Social Security Administration (SSA) - 4514 form prior to submission to SSA. The next SSA-4514 submission is due by April 30, 2020.</p>

THIS PAGE INTENTIONALLY LEFT BLANK

U.S. DEPARTMENT OF HOMELAND SECURITY

Finding Number 2019-040
CFDA Number 97.036
Program Title Disaster Grants – Public Assistance (Presidentially Declared Disasters)
Compliance Requirement Subrecipient Monitoring
State Entity Florida Division of Emergency Management (FDEM)
Federal Grant/Contract Number and Grant Year Various
Statistically Valid Sample N/A
Finding Type Opinion Qualification and Material Weakness
Prior Year Finding Report No. 2019-186, Finding No. 2018-036

Finding The FDEM did not evaluate subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward or develop appropriate subrecipient monitoring plans based on an assessed risk of noncompliance.

Criteria 2 CFR 200.331 – *Requirements for pass-through entities* – All pass-through entities must evaluate each subrecipient’s risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. All pass-through entities must monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved.

Condition During the 2018-19 fiscal year, the FDEM was responsible for 1,553 active large projects, with obligations totaling \$1,831,373,057, related to 17 declared disasters. Our audit disclosed that the FDEM had not evaluated subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward. Additionally, our audit found that, although the FDEM conducted subrecipient monitoring, the FDEM had not developed subrecipient monitoring plans based on an assessed risk of subrecipient noncompliance. Subsequently, in August 2019, the FDEM finalized and implemented policies and procedures for evaluating subrecipient risk of noncompliance and developing monitoring plans based on the assessments.

Cause As of June 2019, the FDEM had not established policies and procedures for conducting subrecipient risk assessments and developing monitoring plans based on an assessed risk of subrecipient noncompliance.

Effect Absent evaluating the risk of subrecipient noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward, and developing appropriate subrecipient monitoring plans based on a risk assessment, the FDEM cannot demonstrate that the monitoring performed appropriately addressed the highest risk subrecipients or adequately evaluated subrecipient compliance with financial and programmatic grant agreement requirements. Additionally, the FDEM cannot demonstrate compliance with applicable Federal regulations.

Recommendation We recommend that FDEM management assess subrecipient risk of noncompliance for all subrecipients and develop monitoring plans based on the assessed level of risk in accordance with established FDEM policies and procedures and applicable Federal regulations.

State Entity Response

FDEM developed a Subrecipient Compliance Program SOP, created a Compliance Unit to perform these duties, and began subrecipient risk assessments during the audit period. As recognized in the Condition above, the SOP was finalized and implemented in August 2019. All subrecipients for all open Public Assistance grants have been assessed for risk of non-compliance and have been assigned a risk rating based on the procedures outlined in the SOP. These risk ratings correspond to monitoring plans that are being implemented.

U.S. DEPARTMENT OF HOMELAND SECURITY

Finding Number 2019-041
CFDA Number 97.036
Program Title Disaster Grants – Public Assistance (Presidentially Declared Disasters)
Compliance Requirement Subrecipient Monitoring
State Entity Florida Division of Emergency Management (FDEM)
Federal Grant/Contract Number and Grant Year Various
Statistically Valid Sample N/A
Finding Type Opinion Qualification and Material Weakness
Prior Year Finding Report No. 2019-186, Finding No. 2018-035

Finding The FDEM did not verify that all applicable subrecipients were audited.

Criteria 2 CFR 200.331 – *Requirements for pass-through entities* – All pass-through entities must verify that every subrecipient is audited as required by Subpart F – *Audit Requirements* when it is expected that the subrecipient’s Federal awards expended during the respective fiscal year equaled or exceeded the threshold set forth in 2 CFR 200.501 – *Audit requirements*. The pass-through entity’s monitoring of the subrecipient must include following up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award detected through audits. The pass-through entity is responsible for issuing a management decision for audit findings pertaining to the Federal award in accordance with 2 CFR 200.521 – *Management decision*.

Condition During the 2018-19 fiscal year, the FDEM provided \$652,957,092 in Disaster Grants funds to 909 subrecipients. Our inquiries of FDEM management disclosed that the FDEM did not perform procedures to verify that all applicable subrecipients were audited as required by 2 CFR 200.501. As a result, the FDEM could not demonstrate that all required audits were obtained and reports reviewed to ensure that subrecipients took timely and appropriate action on all applicable deficiencies noted in the audits or whether the FDEM issued management decisions for applicable audit findings. Subsequently, in August 2019, the FDEM finalized and implemented policies and procedures for obtaining and reviewing subrecipient audits from all applicable subrecipients.

Cause As of June 2019, the FDEM had not established policies and procedures for obtaining and reviewing audit reports from all applicable subrecipients.

Effect Absent verification that all applicable subrecipients were audited, the FDEM may not obtain the required audit reports to verify that all subrecipients complied with applicable Federal laws, regulations, and provisions of contracts and grant agreements. In addition, the FDEM may not ensure that any deficiencies noted during audit were appropriately followed up on or issue required management decisions.

Recommendation We recommend that FDEM management obtain and review audit reports from all applicable subrecipients in accordance with established FDEM policies and procedures and applicable Federal regulations.

State Entity Response During the audit period, FDEM determined the population of subrecipients with Federal Single Audits needing reviews and began obtaining and reviewing reports. As recognized in the Condition above, the Subrecipient Compliance Program SOP was finalized and implemented in August 2019. FDEM has obtained and reviewed all audit reports required to be submitted by law, regulation, and policy. Management letters and subsequent follow up is completed as needed.

THIS PAGE INTENTIONALLY LEFT BLANK

U.S. DEPARTMENT OF EDUCATION

Finding Number	2019-042
CFDA Number	84.063 and 84.268
Program Title	Student Financial Assistance Cluster Federal Pell Grant Program (Pell) Federal Direct Student Loans (Direct Loan)
Compliance Requirement	Special Tests and Provisions – Return of Title IV Funds
State Entity	Daytona State College (DSC)
Statistically Valid Sample	N/A
Finding Type	Noncompliance and Significant Deficiency Questioned Costs – \$44,536 (CFDA No. 84.063 - \$14,927 and CFDA No. 84.268 - \$29,609)
Finding	DSC did not always accurately calculate the amount of Title IV grant and loan assistance that the student earned as of the student’s withdrawal date or timely return the appropriate amount of unearned funds to the United States Department of Education (USED).
Criteria	34 CFR 668.22 - <i>Treatment of Title IV funds When a Student Withdraws</i> (a)(1) When a recipient of Title IV grant or loan assistance withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance, the institution must determine the amount of Title IV grant or loan assistance the student earned as of the student’s withdrawal date. (j)(1) For a student who begins attendance, an institution must return the amount of unearned Title IV funds as soon as possible, but no later than 45 days after the date of the institution’s determination that the student withdrew.
Condition	From the population of 546 students who withdrew from classes and received \$1,288,815 in Pell and Direct Loan funds during the Spring 2019 Term, we examined DSC records to determine whether DSC accurately and timely calculated the funds earned by the students and timely returned any unearned funds to the USED. Our examination disclosed that DSC did not include book voucher funds as institutional charges when calculating the student’s earned Title IV funds and, consequently, understated the amount of unearned funds due to the USED. Subsequent to our audit inquiry, DSC reviewed the records for all students who withdrew from classes and received Pell and Direct Loan funds during the Fall 2018, Spring 2019, and Summer 2019 Terms and identified, for 321 students, \$14,927 in Pell and \$26,609 in Direct Loan unearned funds not previously identified or returned to the USED.
Cause	According to DSC management, an unknown coding issue in the PeopleSoft Campus Solutions module that occurred prior to the start of the Fall 2018 Term impacted the calculation of student’s earned financial aid by excluding Title IV book voucher funds from institutional charges.
Effect	Absent the accurate calculation of Title IV grant or loan funds earned by students at their withdrawal dates, unearned funds were not accurately determined or timely returned to the USED.
Recommendation	DSC should work with the software vendor to address the coding issue in the PeopleSoft Campus Solutions module and ensure that unearned Title IV grant and loan funds for students who withdraw from DSC are accurately calculated and timely returned.
State Entity Response	DSC identified there was an issue in mid-September 2019 and subsequently traced it back to the coding in People Soft Campus Solutions not reading the correct information beginning June 2018. Shortly after it was identified, DSC not only reached out to the vendor, but also updated the coding to ensure the

students who were issued book vouchers and withdrew had accurate charges picked up. Additionally, DSC conducted an analysis of all students during the period of review and returned the additional Pell and Direct Loan funds back to their respective programs via COD on 12/9/19 and 11/20/19, respectively. Moving forward the College will continue to monitor unearned funds sent to the USED to ensure all qualifying funds are returned in a timely manner.

ADDITIONAL MATTERS

Our audit of the State of Florida's basic financial statements for the fiscal year ended June 30, 2019, disclosed additional matters that we communicated in the **Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards**. Additional matters are issues that, in the auditor's opinion, should be reported, but which are not categorized as a significant deficiency or material weakness.

ADDITIONAL MATTER

UNAVAILABLE REVENUE

Finding Number	AM 2019-01
Opinion Unit	Aggregate Remaining Fund Information
Financial Statements	Fines, forfeits, settlements and judgments; Unavailable revenue; and
Account Titles	Receivables, net
SW Fund Number	203400
State Agency	Florida Department of Financial Services (FDFS)
OLO-GF-SF-FID	43-20-2-123001
GL Codes	61660, 47300, 15100
Adjustment Amount	\$130,016,297, \$132,769,405, \$2,753,108
Statistically Valid Sample	N/A

Finding The FDFS incorrectly recognized tobacco settlement amounts owed to the State as revenues prior to the amounts becoming available. Additionally, the FDFS did not record net receivables and unavailable revenue for all tobacco settlement amounts.

Criteria Governmental Accounting Standards Board (GASB) Codification Section N50.126 specifies that revenues should be recognized in the accounting period when the revenues become available and measurable. The FDFS, Statewide Financial Reporting Section (SFRS), *Statewide Financial Statement Guidance* manual provides that the modified accrual method of accounting is to be used by governmental funds, revenues are considered available if collection occurs within 60 days of fiscal year end, and amounts are considered receivable as soon as an enforceable legal claim is obtained. Amounts not considered available are to be recorded to a receivable and deferred inflows as unavailable revenue.

Condition Section 17.41, Florida Statutes, established the Tobacco Settlement Clearing Trust Fund to receive payments pursuant to the settlement of *State of Florida v. American Tobacco Co.*, No. 95-1466AH (Fla. 15th Cir. Ct. 1996). During the 2018-19 fiscal year, the FDFS incorrectly recorded the principal amount owed by R.J. Reynolds Tobacco Company (R.J. Reynolds), but not collected within 60 days of fiscal year end, as revenue - Fines, forfeits, settlements and judgements, instead of a deferred inflow, Unavailable revenue. Additionally, although the FDFS recorded a receivable for the principal amount, the FDFS did not record an asset, Receivables, net, or a deferred inflow, Unavailable revenue, for the interest R.J. Reynolds owed the FDFS. According to FDFS management, the FDFS had not received the principal payment from R.J. Reynolds as of November 4, 2019.

Cause According to FDFS management, the receivable and revenue were recorded within 60 days of fiscal year end as part of year-end closing; however, no subsequent evaluation of the appropriateness of the amounts recorded was performed. Additionally, the FDFS inadvertently did not record the interest portion of the receivable.

Effect Prior to audit adjustment, Fines, forfeits, settlements and judgments were overstated by \$130,016,297, Unavailable revenue was understated by \$132,769,405, and Receivables, net was understated by \$2,753,108.

Recommendation We recommend that FDFS management enhance year-end closing procedures to ensure that only amounts received within 60 days of fiscal year end are recorded as revenues. Additionally, we recommend that FDFS management ensure that all receivables, including interest, are properly recorded.

State Agency Response

The Office of Finance and Budget concurs with the Auditor General's finding. OFB Reconciliation and Reporting unit has reviewed and updated the year end checklist to include:

- Establishing receivables for the outstanding amounts owed by the tobacco companies
- Reviewing receivables at 09/30 and up to the completion of the CAFR to reclass as needed.

OFB Reconciliation and Reporting unit has also reviewed and updated procedure 2.8.01 Year End Financial Statements Preparation to include:

- Review of receivables at 09/30 to determine if any need to be reclassified.

ADDITIONAL MATTER

PROPERTY DISPOSITION GAIN (LOSS) AND CAPITAL CONTRIBUTIONS

Finding Number	AM 2019-02
Opinion Unit	Transportation Fund (Proprietary)
Financial Statements Account Titles	Property disposition gain (loss) and Capital contributions
SW Fund Number	505501
State Agency	Florida Department of Transportation (FDOT)
OLO-GF-SF-FID	550000-50-8-471001 and 550000-80-9-000001
GL Codes	65200 and 75200
Adjustment Amount	\$180,109,458
Statistically Valid Sample	N/A
Finding	The FDOT overstated Property disposition gain (loss) and Capital contributions amounts.
Criteria	<p>Governmental Accounting Standards Board Codification Section 2200.191 specifies that the reassignment of capital assets from governmental activities to an enterprise fund is to be reported as a capital contribution. In the reverse situation in which capital assets are reassigned from an enterprise fund to governmental activities, the disposal of the capital assets is to be reported by the enterprise fund as a nonoperating expense.</p> <p>The Florida Department of Financial Services (FDFS) <i>FLAIR Procedures Manual</i> requires governmental assets purchased with general capital asset funds to be accounted for in Governmental Activities. The FDFS, Statewide Financial Reporting Section, <i>Statewide Financial Statements Guidance</i> manual specifies that the movement of capital assets between Governmental Activities and proprietary funds are to be accounted for as transfers in general ledger codes 652XX and 752XX.</p>
Condition	Information related to the FDOT's SunRail fund is reported as part of the State's Transportation Fund (Proprietary). In accordance with FDFS procedures, to account for changes in SunRail fund capital assets during the 2018-19 fiscal year, the FDOT recorded a property transfer in to Governmental Activities and a Property disposition loss to the SunRail fund totaling \$180,109,458. Subsequent to accounting for current year Capital contributions, the FDOT correctly recorded a property transfer out to Governmental Activities totaling \$244,752,020. However, instead of eliminating the SunRail fund Property disposition loss and only recording current year Capital contributions totaling \$64,642,562, the FDOT incorrectly recorded to Capital contributions the June 30, 2019, capital asset balance totaling \$244,752,020.
Cause	In response to our audit inquiry, FDOT management indicated that an oversight resulted in incorrect entries being recorded that overstated the Property disposition gain (loss) and Capital contributions accounts.
Effect	Prior to audit adjustment, the Property disposition gain (loss) and Capital contributions accounts were overstated by \$180,109,458.
Recommendation	We recommend that FDOT management enhance review procedures to ensure that entries to record capital assets are appropriate and to promote the timely detection and correction of financial statement reporting errors.
State Agency Response	The Department concurs with the finding. Upon discovery of the issue, the Department has completed training for the Property Accountants on the proper accounting entries for transfers between proprietary and governmental funds. In addition, we have updated our year-end processes to include a management review of such entries to ensure accurate financial reporting.

ADDITIONAL MATTER
CAPITAL ASSETS, NET

Finding Number	AM 2019-03
Opinion Unit	Governmental Activities
Financial Statements	Net position – beginning, as restated; Human services, expenses; and
Account Titles	Capital assets, net
SW Fund Number	800000
State Agency	Florida Department of Health (FDOH)
OLO-GF-SF-FID	640000-80-9-641111
GL Codes	54200, 71100, and 27800
Adjustment Amount	\$41,379,332, \$2,776,730, \$44,156,062
Statistically Valid Sample	N/A

Finding The FDOH did not properly account for all construction work in progress and recorded incorrect amounts for construction work in progress to Capital assets, net and Human services, expenses for the 2017-18 and 2018-19 fiscal years.

Criteria Governmental Accounting Standards Board (GASB) Codification Section 2250.123 specifies that the correction of an error in previously issued financial statements should be accounted for and reported as a prior-period adjustment and excluded from the change in net position section of the government-wide statement of activities.

Chief Financial Officer (CFO) Memorandum No. 05 (2011-12), *Statewide Financial Statements Capital Asset Guidance and Rules for Tangible Personal Property*, states that construction work in progress is to reflect the economic construction activity status of buildings and other structures, infrastructure, additions, alterations, reconstruction, and installation, which are substantially incomplete.

CFO *Procedures for Government-Wide Financial Statements* provide that amounts recorded to Capital assets, net are used to determine the Net investments in capital assets amount.

FDOH policies and procedures, *Preparation of Financial Statements*, specify that the Office of Budget and Revenue Management (OBRM) is to prepare, based on a construction report provided by the Bureau of General Services (BGS), a schedule of construction work in progress amounts for the fiscal year, including the life-to-date (LTD) expenditures for each project. The OBRM is to provide the schedule to the Bureau of Finance and Accounting (BFA) for use in determining and recording the fiscal year-end amounts for construction work in progress and current expenditures.

Condition During the 2018-19 fiscal year, the OBRM did not provide and the BFA did not request LTD construction work in progress expenditure amounts. Instead, year-to-date (YTD) expenditure amounts totaling \$9,711,988 were provided and used to record construction work in progress and current expenditure amounts. Subsequent to our audit inquiry, BFA management obtained a corrected 2018-19 fiscal year construction work in progress schedule from the OBRM that showed LTD expenditure amounts totaling \$53,868,050. During the 2017-18 fiscal year, although the OBRM provided the BFA LTD construction work in progress expenditure amounts totaling \$48,956,470, BFA staff used YTD expenditure amounts totaling \$7,577,138 to record construction work in progress and current expenditure amounts.

Cause According to FDOH management, for the 2018-19 fiscal year, the BGS Design and Construction Section Budget Manager was responsible for confirming the accuracy of construction work in progress amounts prepared by the BGS and the OBRM and the BFA had not established a process to ensure amounts provided by the BGS and used to record construction work in progress and current

expenditures were accurate. Additionally, FDOH management indicated that, for the 2017-18 fiscal year, staff turnover and inadequate oversight resulted in BFA staff using YTD instead of LTD amounts.

Effect

Prior to audit adjustment, the Governmental Activities, Human services, expenses and Capital assets, net accounts were understated by \$2,776,730 and \$44,156,062, respectively, and the Net position – beginning, as restated account was understated by \$41,379,332. Additionally, the Governmental Activities, Net investments in capital assets account was understated by \$44,156,062.

Recommendation

We recommend that FDOH management enhance controls to ensure that BGS, OBRM, and BFA staff adhere to established policies and procedures for accounting for construction work in progress and current expenditure amounts.

State Agency Response

We concur.

The Department of Health will be reviewing and updating procedures for the Preparation of Financial Statements and training applicable staff to ensure that all are adhering to the established procedures. Additionally, the construction work in progress spreadsheet will be prepared by the Bureau of General Services and provided to the Bureau of Finance and Accounting and the Office of Budget and Revenue Management to ensure the same report is used consistently throughout the agency.

***Notes to the Schedule of Expenditures of
Federal Awards***

NOTE 1 - BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The Schedule of Expenditures of Federal Awards has been prepared in accordance with the Uniform Guidance and presents the Federal awards expended by the State of Florida. The Single Audit Act Amendments of 1996 (Public Law 104-156) and the Uniform Guidance in subpart F define Federal awards as Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. Federal financial assistance is defined as assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property, cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, or other assistance.

The following summary of the State of Florida's significant accounting policies and related information is presented to assist the reader in interpreting the Schedule of Expenditures of Federal Awards and should be viewed as an integral part of the accompanying schedule.

Reporting Entity

The reporting entity for the purposes of the accompanying schedule is the State of Florida primary government (i.e., legislative agencies, the Governor and Cabinet, departments and agencies, commissions, boards of the Executive Branch, and various offices relating to the Judicial Branch), the State Universities (SU), and the State Community Colleges and Florida Colleges (SCC) exclusive of any component units of the State Universities and Community Colleges and Florida Colleges.

Catalog of Federal Domestic Assistance

The Catalog of Federal Domestic Assistance is a government-wide compendium of individual Federal programs. A five-digit program identification number (CFDA No.) is assigned to each program included in the catalog. Those programs that have not been assigned a CFDA number by the Federal Government and those programs for which CFDA numbers could not be identified are entitled "Other Federal Awards" on the accompanying schedule and listed as CFDA No. "XX.UXX". The "U" stands for unknown, while the following "XX" represents the sequential numbering of the Federal Awarding Agency. Unknown programs that are also research and development programs are listed as CFDA No. "XX.RD".

Federal Expenditures

The column on the accompanying schedule captioned "Federal Expenditures," includes amounts using different bases of accounting. The reporting entities also include expenditures related to transfers received from other State Agencies, State Universities, State Community Colleges, and Florida Colleges in this column.

Amounts reported by State Agencies, State Universities, State Community Colleges, and Florida Colleges were determined in accordance with the accrual and modified accrual basis of accounting, with the exception of The Department of Military Affairs, Florida International University, Florida State University, and the University of Florida, which reported expenditures using the cash basis of accounting.

Appropriate expenditures are recognized, as applicable, in accordance with either OMB Cost Principles or cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursements.

Expenditures reported for the Unemployment Insurance (UI) Program (CFDA No. 17.225) and the Direct Loans Program (CFDA No. 84.268) are reported using the accrual basis of accounting.

Appropriate adjustments have been made to the expenditures reported on the accompanying schedule to preclude reporting both the transfers of Federal awards between the various State Agencies, State Universities, State Community Colleges, and Florida Colleges, and the subsequent expenditures.

Amounts Passed Through to Subrecipients Column

The column on the accompanying schedule captioned "Amounts Passed Through to Subrecipients" represents the amounts transferred by the State Agencies, State Universities, State Community Colleges, and Florida Colleges to subrecipients that are not included in the State's Schedule of Expenditures of Federal Awards. The amounts in this column are also included in the column captioned "Federal Expenditures". Transfers of Federal awards between the State Agencies, State Universities, State Community Colleges, and Florida Colleges are not included in this column.

American Recovery and Reinvestment Act of 2009 (ARRA)

On February 13, 2009, Congress passed the American Recovery and Reinvestment Act of 2009 (Public Law 111 -5) (Recovery Act). The Recovery Act’s three main goals are to create and save jobs, jump-start economic activity and invest in long-term economic growth, and promote accountability and transparency in government spending.

To maximize the transparency and accountability of funds authorized under the Recovery Act, recipients covered by the Single Audit Act Amendments of 1996 and Uniform Guidance must separately identify the expenditures for Federal awards under the Recovery Act on the Schedule of Expenditures of Federal Awards.

ARRA funds reported during the 2018-2019 Fiscal Year are included within the accompanying schedule. Expenditures reported on the accompanying schedule for ARRA awards totaled \$16,569,215.

Disaster Grants – Public Assistance (CFDA No 97.036)

After a Presidential-Declared disaster, FEMA provides a Public Assistance Grant to reimburse eligible costs associated with repair, replacement, or restoration of disaster-damaged facilities. The Federal government reimburses in the form of cost-shared grants which requires state matching funds. For the fiscal year ended June 30, 2019, \$50,835,829 of approved eligible expenditures that were incurred in a prior year are included on the Schedule.

Noncash Assistance

The State participates in several Federal awards programs in which noncash benefits are provided through the State to eligible program participants. The programs where noncash benefits were used are identified in the following table. The programs that report 100% direct noncash benefits are accompanied on the table by a (1).

CFDA Number	Program Title	Total Noncash Benefits
10.551	Supplemental Nutrition Assistance Program(1)	\$ 4,105,561,822
10.553	School Breakfast Program	8,472
10.555	National School Lunch Program	93,074,068
10.557	WIC Special Supplemental Nutrition Program for Women, Infants, and Children(1)	234,250,335
10.565	Commodity Supplemental Food Program(1)	1,731,999
10.569	Emergency Food Assistance Program (Food Commodities)(1)	75,897,158
12.700	Donations/Loans of Obsolete DOD Property(1)	2,514,582
16.922	Equitable Sharing Program	44,811
20.513	Enhanced Mobility of Seniors and Individuals with Disabilities	12,614,429
20.526	Bus and Bus Facilities Formula Program	993,564
39.003	Donation of Federal Surplus Personal Property	10,462,422
93.268	Immunization Cooperative Agreements	293,881,585
97.067	Homeland Security Grant Program(1)	4,540
	Total Noncash Assistance	\$ 4,831,039,787

NOTE 2 – INDIRECT COST RATE

In accordance with §200.414 Indirect (F&A) costs and §200.510, the following State of Florida entities used the 10% de minimis indirect cost rate.

State Entities

Justice Administrative Commission

State Colleges

Broward College

NOTE 3 - UNEMPLOYMENT INSURANCE

The Unemployment Insurance (UI) Program (CFDA No. 17.225) is a unique Federal-State partnership, founded upon Federal law but implemented primarily through State law. Pursuant to this Program, unemployment benefits are paid to eligible unemployed workers for periods of involuntary unemployment. Benefits are paid from Federal funds and from State unemployment taxes that are deposited into the State's account in the Federal Unemployment Trust Fund (FUTF). State benefits were funded from State taxes. The State's administrative expenditures incurred under this Program are funded by Federal grants. Expenditures reported on the accompanying schedule for the UI Program are identified in the following table.

Federal Administration	\$ 85,322,609
Federal Benefits Ex-Military/Federal Employees	2,839,736
Federal Benefits TRADE/Disaster	1,288,055
State Benefits funded by State Taxes	353,975,913
	<hr/>
	\$ 443,426,313

NOTE 4 - LOANS AND LOAN GUARANTEES

The State of Florida participates in several Federal loan programs in which funds are provided through the State to eligible program participants.

State Infrastructure Bank (CFDA No. 20.205)

The Federal State Infrastructure Bank (SIB) for the Highway Planning and Construction Program (CFDA No. 20.205) is an investment fund from which loans and other forms of credit assistance are provided for highway construction, transit capital, or other surface transportation projects. The Federal share (80 percent) of SIB disbursements made during the 2018-19 fiscal year totaled \$5,733,900. Of this amount, \$40,491 was reported on the 2017-2018 SEFA as the Federal share (80 percent) of SIB accruals for the 2017-18 fiscal year. The Federal Share (80 percent) of SIB accruals for the 2018-19 fiscal year total \$2,481,464. The total of \$8,174,874 is included on the accompanying schedule with other expenditures from the Highway Planning and Construction Program. The federal portion (80 percent) of the outstanding balance of the SIB loans at June 30, 2019 totaled \$49,819,451.

Federal Family Education Loans (CFDA No. 84.032)

Under the Federal Family Education Loans (FFEL) Program, the U.S. Department of Education guarantees the repayment of loans made to students by participating financial institutions. The Florida Department of Education administers the FFEL Program (CFDA No. 84.032) for the State. During the 2018-2019 fiscal year, payments made to lenders to cover student loans in default totaled \$49,749,552. The value of outstanding loans guaranteed at June 30, 2019, totaled \$277,997,641.

Higher Education Loans

The table below summarizes activity by the state for federally funded student loan programs.

CFDA Number	Program Title	Current Year Disbursements	Value of Loans Outstanding
47.076	Education and Human Resources	\$ -	\$ 335,000
84.032	Federal Family Education Loans	49,749,552	277,997,641
84.038	Federal Perkins Loan (FPL)-Federal Capital Contributions	-	55,479,466
84.142	College Housing and Academic Facilities Loans	-	419,000
84.268	Federal Direct Student Loans	1,811,012,818	-
93.264	Nurse Faculty Loan Program (NFLP)	-	2,018,089
93.342	Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	-	5,374,389
93.364	Nursing Student Loans	-	42,578
93.408	ARRA - Nurse Faculty Loan Program	-	6,996
Totals		\$ 1,860,762,370	\$ 341,673,159

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA AGENCY FOR HEALTH CARE ADMINISTRATION (FAHCA)
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-028	Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	The FAHCA terminated the contract with a private vendor designated as a Quality Improvement Organization (QIO) for numerous contract compliance issues, including the failure to deny a single prior authorization request for behavior analysis services. Consequently, the FAHCA paid an unknown number and amount of unallowable behavior analysis services claims to providers of Medicaid services.	Fully Corrected	<p>The FAHCA is continuing to engage in a number of activities to ensure that behavior analysis services are appropriately authorized and paid in accordance with the coverage policy and fee schedule. In addition to contracting with a new utilization management vendor, the FAHCA also implemented several system edits to enforce policy limits and has engaged in extensive monitoring of providers.</p> <p>In regard to the amount of any unallowable claims, this is an ongoing effort through the Bureau of Medicaid Program Integrity, which is pursuing overpayments from providers. The FAHCA has returned the federal matching portion for any amounts that have been recovered through our monitoring efforts to date. As such, we continue to believe that any unallowable funds paid during this time period have already, or are in the process of, being returned to the federal government, and the Agency will continue to do so, as more overpayments are collected.</p> <p>Shevaun Harris (Medicaid/Policy & Quality) (850) 412-4264</p>
2018-029 2017-039 2016-041 2015-037	Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	The FAHCA did not adequately ensure that the service organization's internal controls related to the invoicing, collecting, and reporting of drug rebates were appropriately designed and operating effectively.	Partially Corrected	<p>The contract between FAHCA and the service organization has been amended. The amendment required the service organization to obtain an SSAE-18 Audit Report to ensure that the service organization internal controls related to invoicing, collecting, and reporting of drug rebates are appropriately designed and operating effectively. The service organization submitted an SSAE-18 Audit Report to FAHCA on May 31, 2019, pertaining to the SOC 1 Type 1 audit which reported on the design of the vendor's internal controls. The service organization is also required to submit an SSAE-18 Audit Report pertaining to the SOC 1 Type 2 audit that shall cover the operating effectiveness of the vendor's controls by August 15, 2020.</p> <p>Paula McKnight Robinson (Medicaid/MPF) (850) 412-4156</p>

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA AGENCY FOR HEALTH CARE ADMINISTRATION (FAHCA)
 FOR THE FISCAL YEAR ENDED JUNE 30, 2019

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-030 2017-041 2016-042 2015-038	Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	The FAHCA made payments to ineligible Medicaid Program providers.	Partially Corrected	There are 2 Customer Change Request in process to fix this issue. CSR3265 – Out of State Provider Renewal and CSR3259 - Bypassed Providers for Renewal. The CSRs are on target for July 31, 2019 and August 31, 2019 implementations respectively. Due to the size and complexity of these system changes, development, testing, and implementation have taken over a year. Cheryl A. Travis (Medicaid/MFAO) (850) 412-3416
2018-032	Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	The FAHCA computer system used to store all Medicaid Program Integrity (MPI) complaints and cases, the Fraud and Abuse Case Tracking System (FACTS), did not appear to store all complaints received and cases established during the 2017-18 fiscal year.	Partially Corrected	For the period of July 1, 2018, through June 30, 2019, there has been no program modifications made by the previous vendor (Column Technologies – contract expired December 31, 2018) or by the Agency's IT staff when the system was brought in-house. Since January 1, 2019, the Agency's IT staff has been implementing the change from an outside vendor to managed, maintained and operated in-house. Meetings with the Agency's IT staff will take place to discuss programing options or other modifications to the FACTS program to resolve the issue. Two e-mails were sent to all staff that have access to FACTS reminding them of the "Opening and Saving a New Complaint/Case Record" and "Instructions for Case and Complaint Records 'Opened in Error'." Fred Becknell (HQA/MPI) (850) 412-4554
2017-044	Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	Information technology controls for the Fraud and Abuse Case Tracking System (FACTS), disclosed in our information technology operational audit report No. 2017-093, need improvement.	Fully Corrected	Finding #9 AHCA implemented a Managed Security Service in December 2018. 24 hour IT security monitoring is in place. Scott Ward (IT) (850) 412-4844

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA AGENCY FOR HEALTH CARE ADMINISTRATION (FAHCA)
 FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Finding No(s). (1)	Program/Area	Brief Description	Status of Finding	Comments (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2016-040	Children's Health Insurance Program (CHIP) CFDA No. 93.767	The FAHCA did not modify the subaward agreement to notify the subrecipient of CHIP funds that, as of December 2014, the terms and conditions of the Federal award had been revised.	Fully Corrected	Florida Healthy Kids Corporation, MED140, DRAFT Contract Amendment #13 includes a provision within the Revised Project Work Plan requiring FAHCA to notify the subrecipient of the receipt of CHIP federal funds, and any subsequent modifications to the funds, and as part of the notification, include the elements identified in 2 CFR 200.331(a), Requirements for Pass-through Entities. The contract amendment anticipated execution date is on or before August 8, 2019. In the absence of an executed contract amendment, FAHCA continues to observe the requirements identified in 2 CFR 200.331 (a). Angela Wiggins (Medicaid/Policy) (850) 412-4198
2013-054 FA 12-067 FA 11-070 FA 10-067 FA 09-062 FA 08-059	Medicaid Cluster CFDA Nos. 93.720, 93.775, 93.777, and 93.778	The FAHCA made payments to an ineligible provider.	Partially Corrected	There are 2 Customer Change Request in process to fix this issue. CSR3265 – Out of State Provider Renewal and CSR3259 - Bypassed Providers for Renewal. The CSRs are on target for July 31, 2019 and August 31, 2019 implementations respectively. Due to the size and complexity of these system changes, development, testing, and implementation have taken over a year. Cheryl A. Travis (Medicaid/MFAO) (850) 412-3416

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA AGENCY FOR PERSONS WITH DISABILITIES (FAPD)
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-031 2017-043 2016-043 2015-039	Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	The FAPD did not always ensure that continued stay reviews were conducted every 6 months for beneficiaries of Intermediate Care Facility Services for Individuals with Intellectual Disabilities. (ICF-IIDs).	Partially corrected	FAPD has executed a contract with Keystone Peer Review Organization, Inc. to outsource the Utilization Review/Continued Stay Reviews (UR/CSR) function. One performance goal in the contract is to ensure 100% of the reviews are conducted every 6 months for beneficiaries of Intermediate Care Facility Services for Individuals with Intellectual Disabilities. On June 1, 2019 APD began working with KEPRO to transition the Continued Stay Reviews for all Medicaid eligible recipients residing in an ICF/IID. This process will be streamlined and electronic. KEPRO will be responsible for: Ensuring the timely completion of all CSRs in accordance with federal and state laws; Confirming the initial physician certification and annual re-certifications; and Confirming the facilities UR Plan. APD will continue to be responsible for: Eligibility and admissions. KEPRO will provide a monthly report to APD for review. Recurrence: Auto schedule due date errors. Separated employee missed the CSR completion date. Corrective action: Review of auto scheduled due dates.

Note: (1) Finding No(s). refer to audit findings in report No. 2016-159 (2015-), report No. 2017-180 (2016-), report No. 2018-189 (2017-), or report No. 2019-186 (2018-).

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
Florida Department of Children and Families (FDCF)
For the Fiscal Year Ended June 30, 2019**

Finding No(s). (1)	Program/Area	Brief Description	Status of Finding	Comments (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-003	Supplemental Nutrition Assistance Program (SNAP) Cluster CFDA Nos. 10.551 and 10.561	The FDCF did not submit the required Federal Financial Reports to the United States Department of Agriculture (USDA).	Partially Corrected (A)	<p>Florida's FNS-209 is fixed. The program is working with FNS to submit the corrected reports. The Department reconciled the incorrect FNS 209 reports to the new reports that were generated after the Integrated Benefit Recovery System (IBRS) changes and upgrades. FNS is working to resolve technical issues regarding the incorrect historical balances in their system.</p> <p>On April 9, 2019, the Department had a conference call with the USDA FNS Southeast Regional Office (SERO) to discuss submission of the corrected FNS-209 reports. The Department informed FNS SERO that we have the corrected reports, and we needed guidance on how to submit the reports and determine how many quarters of the corrected reports is required. FNS SERO will work with the USDA FNS National Office for further guidance and contact us once a determination has been made. To date, neither FNS SERO nor the National Office have contacted us.</p>

1317 Winewood Boulevard, Tallahassee, Florida 32399-0700

Mission: Work in Partnership with Local Communities to Protect the Vulnerable, Promote Strong and Economically Self-Sufficient Families, and Advance Personal and Family Recovery and Resiliency

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
Florida Department of Children and Families (FDCF)
For the Fiscal Year Ended June 30, 2019

Finding No(s). (1)	Program/Area	Brief Description	Status of Finding	Comments (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-024 2017-034	Supplemental Nutrition Assistance Program (SNAP) Cluster CFDA Nos. 10.551 and 10.561 Temporary Assistance for Needy Families (TANF) Cluster CFDA Nos. 93.558 and 93.714 Refugee and Entrant Assistance State/Replacement Designee Administered Programs CFDA No. 93.566 Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	Information technology controls for the Florida Online Recipient Integrated Data Access (FLORIDA) System disclosed in our information technology operational audit report No. 2019-022, need improvement.	Partially Corrected (B)	A process change/enhancement requires the program office to develop and approve the plan. Pilots of the Security Audit System are still ongoing with additional regions going live at their respective times. Determined through research, users with the same security profile would not be able to make table changes and then have those changes migrated to the production region. A production table change requires several promotional builds by our QC team, including a Clear Quest ticket requiring approval by several different areas within the Department. With this additional information we would like to request this finding be reviewed again by management staff for closure. The FLORIDA mainframe has now been incorporated into the LogRhythm application further enhancing the process of prohibiting inappropriate use of the ACCESS systems.
2018-025	Various	FDCF expenditures charged to various Federal program grants were not always incurred during the authorized period of performance.	Not Corrected (C)	Revenue Management is currently working with the Accounting and Finance Office to identify the key challenges for determining the process needed to code payment information into FLAIR. An inventory of the different types of expenditures is currently being taken to identify the expenditure types that need a process for an additional FLAIR entry to be able to identify the service period when the payment is being entered into FLAIR.
2018-026 2017-035 2016-034 2015-024 2014-024 2013-039 FA 12-040 FA 11-046 FA 10-041 FA 09-042 FA 08-037	Temporary Assistance for Needy Families (TANF) Cluster CFDA No. 93.558	The FDCF did not always timely review and process Income Eligibility and Verification System (IEVS) data exchange responses.	Partially Corrected (D)	In March 2019, the Department reconvened a statewide Case Maintenance Unit (CMU) workgroup, which meets regularly to develop and assess process improvements to facilitate the timely and correct processing of IEVS data exchange (DE) responses. The workgroup is working to eliminate the priority DE backlog as well as implement an action plan statewide by September 30, 2019, to ensure all DE responses are processed within the prescribed timeframes. As of July 8, 2019, the backlog of priority DEs has been reduced by 81% since the start of the project.

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
Florida Department of Children and Families (FDCF)
For the Fiscal Year Ended June 30, 2019**

Finding No(s). (1)	Program/Area	Brief Description	Status of Finding	Comments (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-027 2017-036 2016-033 2015-028 2014-027 2013-042 FA 12-043 FA 11-049 FA 10-042 FA 09-044	Temporary Assistance for Needy Families (TANF) Cluster CFDA No. 93.558	The FDCF could not always demonstrate that Florida Department of Revenue (FDOR) Child Support Enforcement (CSE) sanction requests for uncooperative TANF recipients were received and reviewed or appropriately imposed.	Fully Corrected (D)	Regarding the two sanction requests that the Department did not receive, the Department created a file that is sent daily to FDOR, and uses it to troubleshoot issues as they occur. For the two sanction requests that were not appropriately imposed, eligibility staff at the local sites resolved the issues on June 28, 2019. A TANF CSE sanction refresher training, with an emphasis on the timely termination of the TANF benefit and correct completion of the eligibility system screens to impose the sanction, will be conducted.
2017-040	Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	The FDCF did not always document that Medicaid recipients met eligibility requirements.	Fully Corrected (D)	Continuation of benefits beyond the eligibility period: In June 2017, the Department implemented the Auto Action Changes process which automatically closes or ex partes individuals who are no longer eligible for their current Medicaid coverage group. This process applied only to the current month. In April 2018, the Department implemented the next phase in which the Auto Action/End of Review Period process closes Medicaid assistance groups for past month review periods. The final phase was implemented in May 2018, which consisted of closing Medically Needy coverage groups. Assignment of rights for third party liability: A question addressing third party liability was added to the interview template with a soft launch on June 26, 2018. A video training postcard was released September 14, 2018, along with the hard launch of the interview template. Note: The Centers for Medicare and Medicaid Services has closed this finding.

Note: (1) Finding No(s). refer to audit findings in report No. 2009-144 (FA 08-), report No. 2010-165 (FA 09-), report No. 2011-167 (FA 10-), report No. 2012-142 (FA 11-), report No. 2013-161 (FA 12-), report No. 2014-173 (2013-), report No. 2015-166 (2014-), report No. 2016-159 (2015-), report No. 2017-180 (2016-), report No. 2018-189 (2017-), or report No. 2019-186 (2018-).

Name and Title of Responsible Official(s) (A) Andrew McClenahan, Director, Public Benefits Integrity
 (B) Mark Mahoney, Staff Director, Revenue Management
 (C) Bonny Allen, Information Security Manager, Information Technology Services
 (D) Maggie Mickler, Director, Economic Self-Sufficiency

THIS PAGE INTENTIONALLY LEFT BLANK

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DEPARTMENT OF ECONOMIC OPPORTUNITY (FDEO)
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

<u>Finding No(s).</u> <u>(1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-012 2017-006	Unemployment Insurance (UI) CFDA No. 17.225	Information technology controls for CONNECT, disclosed in information technology operational audit report No. 2019-183, need improvement.	Partially Corrected	The referenced audit report noted Finding no(s). 4, 5, 17-20, and 22. Efforts to correct the findings are currently underway.
2018-013 2017-007	Unemployment Insurance (UI) CFDA No. 17.225	Internal controls for the Electronic Payment Card Processing and Settlement System need improvement.	Not Corrected	Conduent completed an independent audit and the report (SOC 1) was issued to DEO in September 2019. This report continues to contain internal control findings. Efforts to resolve the issues are continuing.
2018-014	Unemployment Insurance (UI) CFDA No. 17.225	DEO records did not always evidence that employer responses to UI benefit claims were considered in making benefit eligibility determinations.	Fully Corrected	A process change was implemented in June 2019.
2018-015 2017-009 2017-010 2016-011 2016-012 2015-007 2015-008 2014-009 2014-010	Unemployment Insurance (UI) CFDA No. 17.225	DEO could not provide accurate data demonstrating that benefit overpayments were properly identified and handled or that debts resulting from overpayments were appropriately offset. In addition, DEO could not demonstrate that the reported overpayment amounts on Federal Financial Reports were accurate.	Partially Corrected	The Department is taking appropriate steps to validate the data reported on the ETA 227 and is working with USDOL to re-transmit first quarter 2018 data. Monthly updates are provided to USDOL. Some enhancements have been identified that would resolve overpayment issues within CONNECT. A testing effort is scheduled to begin this summer and will identify all other defects.
2018-017 2017-011 2016-013 2015-009 2014-011	Unemployment Insurance (UI) CFDA No. 17.225	DEO case investigation records did not always include all required documentation evidencing compliance with DEO and Federal requirements.	Fully Corrected	A process change that requires the retention of all hard files was implemented March 2019.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DEPARTMENT OF EDUCATION (FDOE)
FOR THE FISCAL YEAR ENDED JUNE 30, 2019

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-018 2017-026	Federal Family Education Loans CFDA No. 84.032	Information technology controls for the Federal Family Education Loan Program (FFELP) System disclosed in our information technology operational audit report No. 2018-196, need improvement.	Fully Corrected	As disclosed in our Corrective Action Plan provided in response to the finding 2018-018, FLDOE had partially completed the correction action to resolve the prior audit finding disclosed in report No. 2018-196. The remaining activities, which took place after June 30, 2018, included the review and approval of the finalized procedures that address the auditors' findings.
2018-019 2017-022	Federal Family Education Loans CFDA No. 84.032	Information technology controls for the Federal Family Education Loan Program (FFELP) System related to compliance with Federal requirements for the assignment of defaulted loans to the United States Department of Education (USED), disclosed in our information technology operational audit report No. 2018-196, need improvement.	Fully Corrected	Similar to the finding 2018-018, FLDOE had partially completed the corrective action plan developed in response to the information technology (IT) operational audit report No. 2018-196 prior to the fiscal year ending June 30, 2018. Since then, revised procedures have been approved and are currently in effect.
2018-020 2017-025	Federal Family Education Loans CFDA No. 84.032	FDOE procedures did not require, prior to granting National Student Loan Data System (NSLDS) user access privileges, documented verification that the access privileges were granted in accordance with United States Department of Education (USED) requirements. Additionally, the FDOE did not always timely deactivate user access privileges to the NSLDS when users were no longer eligible to have access.	Fully Corrected	OSFA has added language to the written procedures and has created an enrollment form for supervisors to complete when requesting access for an employee related to their specific job function to justify the need for access to NSLDS. Additionally, OSFA has implemented procedures to timely deactivate a user's account the same day the employee terminates, utilizing the Access Management document that is completed and submitted by the supervisor.

Suzanne Pridgeon
Deputy Commissioner, Finance and Operations

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DEPARTMENT OF EDUCATION (FDOE)
FOR THE FISCAL YEAR ENDED JUNE 30, 2019

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2017-018	Title I Grants to Local Educational Agencies CFDA No. 84.010	The FDOE did not follow Federal regulations for adjusting the United States Department of Education (USED) determined Title I, Part A, Local Educational Agency (LEA) allocations to account for LEAs not on the Census list or redetermine LEA eligibility.	Fully Corrected	On January 7, 2019, the FLDOE entered into an Agreement with the U.S. Department of Education resolving the finding pertaining to the allocation procedures. Since that time (and prior to June 30, 2019), the FLDOE has implemented the actions identified in the Agreement.
2017-019	Title I Grants to Local Educational Agencies CFDA No. 84.010	The FDOE did not conduct sufficient subrecipient monitoring of Local Educational Agencies (LEAs) based on the results of the program-specific risk assessment.	Fully Corrected	The Bureau of Federal Education Programs (BFEP) modified processes and procedures to ensure LEAs were selected based on the results of the risk assessment.
2017-021	Migrant Education – State Grant Program (MEP) CFDA No. 84.011	The FDOE did not evaluate each Local Educational Agency's (LEA's) risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward based on current data. Additionally, the FDOE did not conduct sufficient subrecipient monitoring of the LEAs.	Fully Corrected	BFEP conducted a risk assessment of the MEP and modified processes and procedures to ensure LEAs were selected based on the results of the risk assessment.

Note: (1) Finding No(s). refer to audit findings in report No. 2018-189 (2017-), or report No. 2019-186 (2018-).

Name and Title of Responsible Official(s): Mike Blackburn, Inspector General

FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-002 2017-002	Investment earnings (losses); Expenditures, current; and Pooled investments with State Treasury	The FDOH improperly recorded withdrawals from the State Treasury Investment Pool as investment earnings and current expenditures.	Fully Corrected	The FLAIR Expansion Set File was updated on February 15, 2019 to pull in the General Ledger Code 14100 so withdrawals from the State Treasury Investment Pool as a credit to Investments rather than investment earnings and current expenditures. All FLAIR entries year-to-date related to this item were corrected on February 18, 2019.

Note: (1) Finding No(s). refer to audit findings in report No. 2018-189 (2017-), or report No. 2019-186 (2018-).

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DEPARTMENT OF LEGAL AFFAIRS (FDLA)
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-007	Crime Victim Assistance CFDA No. 16.575	The FDLA did not notify subrecipients of required award information.	Partially corrected	The OAG notified the 2018-2019 subrecipients in November of 2018 of the award information and the 2019-2020 subrecipients at the time of the award. However, it has been determined that one data point, the Date the Federal Government Awarded the funds to the OAG, was inadvertently left off the 2018-2019 and 2019-2020 forms. The OAG has initiated a change request to our software vendor to add the "date field" for future grant awards on the OAG Grant Award Project Summary Form. Additionally, the OAG will return a copy of the 2019-2020 Grant Award Project Summary Form to each subgrantee with the date added for their signature and acknowledgement.
2018-008	Crime Victim Assistance CFDA No. 16.575	FDLA controls did not always ensure that the results of on-site monitoring visits were adequately documented and, in some instances, FDLA records did not evidence review and verification of follow-up corrective actions by subrecipients.	Fully corrected	Victim Assistance program monitoring visits are adequately documented, and FDLA records reflect review and verification of follow-up corrective actions by subrecipients.

Note: (1) Finding No(s). refer to audit findings in report No. 2019-186 (2018-).

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES (FDMS)
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-021 2017-031	Various	Information technology controls for the State Data Center disclosed in our information technology operational audit report No. 2018-187, need improvement.	Partially Corrected	<p>The Department of Management Services, Division of State Technology (DST), formerly known as Florida Agency for State Technology, continues to make progress on remediating findings 5 and 6 related to access privileges and their periodic review as described in the Florida Auditor General report number 2018-187.</p> <p>As stated in the original audit response to report 2018-187, these issues are pervasive throughout state agencies and remediation is a multi-year project.</p> <p>Finding 5 – DST staff continues to work with our customers to restrict access accounts and produce the required documentation for delegation of required administrative privileged access accounts.</p> <p>Finding 6 – DST has partially completed remediation efforts concerning periodic review of access privileges. Completed remediation includes updated procedures and modifications of the access review processes. DST continues to work with customers to resolve the remaining concerns over the verification and ownership of accounts.</p>
2016-024 2015-017	Statewide Cost Allocation Plan (SWCAP)	Reconciliations for the 2017 SWCAP disclosed one fund with an excessive balance.	Partially Corrected	<p>The Legislature decreased the fee from 1% to .70% effective November 1, 2015, to address the excess balance in the Purchasing Operating Trust Fund. The Department of Management Services will continue to provide periodic funding model analyses, including revenues and balances, to the Governor and Legislature to assist them in decisions concerning the MFMP fee. The ability to impact revenue generated for this fund is dependent upon legislative action.</p>

Note: (1) Finding No(s). refer to audit findings in report No. 2016-159 (2015-017), report No. 2017-180 (2016-024), report No. 2018-189 (2017-031), or report No. 2019-186 (2018-021).

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DEPARTMENT OF MILITARY AFFAIRS (FDMA)
 FOR THE FISCAL YEAR ENDED JUNE 30, 2019

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> <small>(If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)</small>
2018-004 2017-005	National Guard Military Operations and Maintenance (O&M) Projects CFDA No. 12.401	FDMA records did not evidence that access to the Integrated Emergency Operations Management System (IEOMS) was granted only to authorized users or that access privileges granted were appropriate.	Fully Corrected	
2018-005	National Guard Military Operations and Maintenance (O&M) Projects CFDA No. 12.401	The FDMA could not demonstrate that, prior to entering into covered transactions, the FDMA determined that the contractors were not suspended, debarred, or otherwise excluded by the Federal Government. Additionally, the FDMA did not include in applicable contractual agreements a clause requiring the contractor to comply with Federal guidance on suspension and debarment.	Not Corrected	Corrective action going forward will be to review the US Government System for Award Management for any exclusions prior to contracting with a company. Furthermore, all new contracts will include language advising of the procedure to be followed to check for exclusions as a requirement for award of contract, and language that requires the contractor to agree to comply with Federal guidance on suspension and debarment.
2018-006	National Guard Military Operations and Maintenance (O&M) Projects CFDA No. 12.401	The FDMA did not always report program income on Federal Financial Reports.	Fully Corrected	

Note: (1) Finding No(s). refer to audit findings in report No. 2018-189 (2017-), or report No. 2019-186 (2018-).

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DEPARTMENT OF REVENUE (FDOR)
FOR THE FISCAL YEAR ENDED JUNE 30, 2019

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-016	Unemployment Insurance (UI) CFDA No. 17.225	Information technology controls for the System for Unified Taxation (SUNTAX) disclosed in our information technology operational audit report No. 2019-124, need improvement.	Partially Corrected	FDOR is in the process of reviewing individual user access to SUNTAX; in addition, all SUNTAX users' privileges will be reviewed semi-annually in the future. New roles are being created that allow for separation of duties of users and developers. Beginning April 2019, FDOR added a weekly review of separated users to ensure accurate and timely removal of access and began a quarterly reconciliation of active SUNTAX accounts against employee separation/transfer reports. FDOR has implemented other improved security controls in response to the findings and is exploring additional improvements as well.
2017-038 2016-035 2015-029	Child Support Enforcement CFDA No. 93.563	Internal controls for the State Disbursement Unit (SDU) Processing System (SMART System) need improvement.	Partially Corrected	FDOR received documentation from the SDU evidencing corrective action taken after the close of the audit period. The SDU provided a description of the procedures implemented to address the finding as well as copies of various monitoring reports.
2016-036 2015-030	Child Support Enforcement CFDA No. 93.563	The FDOR did not always ensure that required subrecipient audits were completed, timely received, and reviewed and that determinations were made regarding whether management decisions and corrective actions were required. Additionally, the FDOR did not always evaluate each subrecipient's risk of noncompliance.	Fully Corrected	

Note: (1) Finding No(s). refer to audit findings in report No. 2016-159 (2015-), report No. 2017-180 (2016-), report No. 2018-189 (2017-), or report No. 2019-186 (2018-).

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT)**

FOR THE FISCAL YEAR ENDED JUNE 30, 2019

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-001	Long-term liabilities, Due within one year, Charges for Services, and Net position – beginning, as restated; Fees and charges, Deposits, and Fund Balance – beginning, as restated	The FDOT did not record a prior-period adjustment for the correction of an error in previously issued financial statements. Additionally, the FDOT did not record a liability for a payment received prior to meeting eligibility requirements and becoming susceptible to accrual.	Fully Corrected	The Department now has a new AR administrator that has been trained on this issue and has the updated accounting entry templates for future use.
2017-012	Highway Planning and Construction Cluster CFDA Nos. 20.205, 20.219, 20.224, and 23.003	The FDOT needs to improve certain information technology (IT) security controls related to user authentication for the FDOT Consultant Invoice Transmittal System (CITS) and the Electronic Estimate Disbursement (EED) System.	Partially Corrected	Chapter 2 section 2.3.3 of our Transportation Technology manual has been updated to reflect the password requirements for Active Directory and RACF separately. This recommendation was completed 7/1/18 per OIT, accepted on 8/15/18 by OIG. We are still addressing the second part of the finding due to the age of the system.
2017-013	Highway Planning and Construction Cluster CFDA Nos. 20.205, 20.219, 20.224, and 23.003	Information technology controls for the Financial Management (FM) Suite disclosed in our information technology operational audit report No. 2017-206, need improvement.	Partially Corrected	The rewrite of FPM falls within the scope of the Work Program Integration Initiative project, which is estimated to be completed June 30, 2021.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT)
 FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Finding No(s). (1)	Program/Area	Brief Description	Status of Finding	Comments (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2017-014	Highway Planning and Construction Cluster CFDA Nos. 20.205, 20.219, 20.224, and 23.003	The FDOT did not always notify subrecipients of required award information.	Partially Corrected	FDOT is notifying subrecipients of required award information for risk assessments and monitoring plans by updating and distributing FDOT's "Grant Disbursement Agreements" procedure and Work Program Instructions manual. These documents were provided to FDOT's district offices for dissemination to grant managers. The department's contracts/agreements have also been updated to add references to 2 CFR 200.331 requirements. In November 2018, FDOT's Office of the Comptroller developed Grant Disbursement Agreement training that includes instruction on conducting risk assessments and developing monitoring plans. FDOT is in the process of creating a template agreement that will include all components of the required award information.
2017-015	Highway Planning and Construction Cluster CFDA Nos. 20.205, 20.219, 20.224, and 23.003	The FDOT did not evaluate subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward or develop an appropriate monitoring plan based on the risk of noncompliance assessed. Additionally, the FDOT did not adequately monitor some of its subrecipients.	Partially Corrected	Grant Disbursement Agreement training was developed by FDOT's Office of the Comptroller. Included in the on-demand computer based training is a module on conducting subrecipient risk assessments and developing monitoring plans. Specifically, this module #7 provides the criteria for low, moderate, and high risk subrecipients and provides guidance on developing monitoring plans. The training can be found on Learning Curve, FDOT's employee training platform, by clicking on "Catalog" and then "Comptroller." Training course is listed as "Grant Disbursement Agreement." The internal link, available to all FDOT employees by logging in, is https://floridadot.myabsorb.com/#/online-courses/28de85e0-ae2-40aa-969d-51e4259e2d5e . FDOT is in the process of further developing our policies and processes for subrecipient risk assessments and monitoring plans.

Note: (1) Finding No(s). refer to audit findings in report No. 2018-189 (2017-), or report No. 2019-186 (2018-).

January 16, 2020

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DIVISION OF EMERGENCY MANAGEMENT (FDEM)
 FOR THE FISCAL YEAR ENDED JUNE 30, 2019

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-033	Disaster Grants – Public Assistance (Presidentially Declared Disasters) CFDA No. 97.036	The FDEM did not always maintain documentation to support costs charged to the Disaster Grants program.	Fully Corrected	
2018-034	Disaster Grants – Public Assistance (Presidentially Declared Disasters) CFDA No. 97.036	Information technology controls for the Florida Public Assistance System (FloridaPA.org) disclosed in our information technology operational audit report No. 2019-049, need improvement.	Fully Corrected	
2018-035	Disaster Grants – Public Assistance (Presidentially Declared Disasters) CFDA No. 97.036	The FDEM did not verify that all applicable subrecipients were audited.	Partially Corrected	<p>After receipt of the report in March 2019, FDEM implemented a new process using FLPA disbursement data to identify recipients for a reconciliation and confirmation that audits are ultimately received when required. Many of these policies, procedures, and tasks were implemented prior to June 30, 2019.</p> <p>A module was added to the FDEM Recovery Bureau Grants Management system whereby a notification is sent to all subrecipients that they must submit a single audit or certify that they are not subject to the requirement. This is done for every subrecipient, every fiscal year. This module was added in August 2019, after the end of the audit period and therefor although in development as of June 30, 2019, was not fully implemented as of that date.</p> <p>In the period between the report date and August 2019, FDEM used a Recovery Single Audit Tracking Spreadsheet. This spreadsheet did not fully address the prior fiscal year audit requirements. The module referenced above has replaced this stop-gap measure.</p>

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DIVISION OF EMERGENCY MANAGEMENT (FDEM)
 FOR THE FISCAL YEAR ENDED JUNE 30, 2019

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2018-036	Disaster Grants – Public Assistance (Presidentially Declared Disasters) CFDA No. 97.036	The FDEM did not evaluate subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward or develop an appropriate monitoring plan based on an assessed risk of noncompliance. Additionally, the FDEM did not obtain required reports from some of its subrecipients.	Partially Corrected	After receipt of the report in March 2019, FDEM worked to implement a new process to evaluate and objectively define the risk of each recipient. FDEM was not able to complete this task for all program subrecipients by the end of the audit period: June 30, 2019. As of January 15, 2020, all subrecipients have been evaluated and assigned a risk rating that corresponds to the prescribed monitoring actions outlined in the FDEM Recovery Bureau Compliance SOP.

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2017-047	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The University did not always accurately report enrollment status changes to the NSLDS for Pell Grant recipients and Direct Loan borrowers.	Fully Corrected	The modifications to the extract program has been completed and implemented as of February 2019 to timely and accurately report enrollment status changes.
2017-048	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The University did not always accurately calculate the amount of Title IV HEA grant or loan assistance that the student earned as of the student's withdrawal date.	Fully Corrected	As of December 2018, the Office of Financial Aid has strengthened the Return to Title IV Funds internal process by implementing additional training as well as requiring multiple administrative officials to monitor and track Return to Title IV calculations. All Return to Title IV calculations will be validated and signed off by the Financial Aid Office Assistant and Associate Directors to ensure accurate calculations and timely return of funds to the U.S. Department of Education.

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2017-047	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The University did not always accurately and timely report enrollment status changes to the NSLDS for Pell Grant recipients and Direct Loan borrowers.	Fully Corrected	The University implemented three actions this year: 1. Increased our submissions to NSC to every two weeks instead of monthly. This ensured that we were better able to clear errors in time for the monthly reporting of records from NSC to NSLDS. 2. Manually reported all late degree postings to NSC for enrollment status changes. 3. Manually reported last date of attendance for all students who were considered unofficially withdrawn (earned all F's, I's or U's). These students were updated in NSC as withdrawn but were not withdrawn through the official university process (this could lead to future discrepancies between term withdrawal status in SC and NSC/NSLDS records).

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
DAYTONA STATE COLLEGE (DSC)
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2017-047	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The College did not always accurately and timely report enrollment status changes to the NSLDS for Pell Grant recipients and Direct Loan borrowers.	Partially corrected	The College identified some issues where the enrollment date and the reported date did not match. The College is rectifying the issue and created a new report to ensure accurate dates and timely reporting. The College will report at least once every 30 days.
2017-048	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The College did not always timely return unearned funds to the United States Department of Education (USED).	Partially corrected	Similar to the timely reporting to NSLDS for Pell Grant and Direct Loan, the reporting dates did not match. The College has created new reports to ensure a timely return of Title IV funds.

Note: (1) Finding No(s). refer to audit findings in report No. 2018-189 (2017-).

EASTERN FLORIDA STATE COLLEGE (EFSC)
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2017-047	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The College did not always accurately and timely report enrollment status changes to the NSLDS for Pell Grant recipients and Direct Loan borrowers.	PARTIALLY CORRECTED	<p>The college previously commented: <i>The college has contracted for software consultants to provide a complete review of NSLDS reporting and training of staff involved in the process. In addition, college staff will review School Transmission Detail for each submission and review all instances where reported details differ from expected results.</i></p> <p>These actions have been completed, and the issues that initially led to this finding have been resolved.</p> <p>In the course of the current audit, the auditors have identified instances where the college accurately and timely reported enrollment status changes to the National Student Clearinghouse (NSC) that were not reflected in NSLDS records. We are working with NSC to resolve these discrepancies and prevent future occurrences.</p> <p>The college will develop and implement monitoring procedures to confirm the NSC accurately and timely reports enrollment status changes to the NSLDS.</p>

Note: (1) Finding No(s). refer to audit findings in report No. 2018-189 (2017-) and report No. 2019-186 (2018-).

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2017-046	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The College did not always timely return unclaimed Title IV HEA funds to applicable Federal programs.	Fully Corrected	
2017-047	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The College did not always accurately and timely report enrollment status changes to the NSLDS for Pell Grant recipients and Direct Loan borrowers.	Partially Corrected	Two students were reported on NSLDS as "No Record Found". PHSC reported both students to the National Clearinghouse and the two students were not identified on any error reports PHSC receives from the National Clearinghouse. NSLDS received notification from COD for one student who was receiving a Grant and was Full time in the Fall of 2016 and then two "No Record Found" in the 2016 year. The student did receive Pell grant in the 2016/2017 academic year and should have been reported to NSLDS by the National Clearinghouse. NSLDS had two "No Record Found" in the Fall of 2018. The status from COD was unknown. The student did receive Pell grant in the 2018/2019 academic year and should have been reported to NSLDS by the National Clearinghouse. Both students received their aid. The College has manually updated the NSLDS records to properly reflect the transactions.

Note: (1) Finding No. refers to audit findings in report No. 2018-189 (2017).

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2017-047	Federal Pell Grant Program CFDA No. 84.063	The College did not always accurately and timely report enrollment status changes to the NSLDS for Pell Grant recipients.	Partially Corrected	The enrollment status changes that the auditor identified in report 2018-189 were corrected. However, there were a few more students whose enrollment status changes were not reported due to the file submission taking place several weeks after the end of our first drop and add period. The intent was to get the file as accurate as possible with the first submission because of the constant drop and add status of some of our students. Based on what the auditor discovered, we have moved back our initial submission date to immediately after the first drop and add period is over so this should not be an issue in the future.

Note: (1) Finding No. refers to audit finding in report No. 2018-189 (2017-).

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

ST. JOHNS RIVER STATE COLLEGE (SJRSC)

FOR THE FISCAL YEAR ENDED JUNE 30, 2019

<u>Finding No(s).</u> (1)	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2015-085	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The College did not always accurately and timely report enrollment status changes to the NSLDS for Pell Grant recipient and Direct Loan student borrowers.	Partially Corrected	Although certain procedures were implemented to improve the accuracy of the information reported to NSLDS, the College determined that it needs to increase the frequency of reporting enrollment status changes to the NSLDS for Pell Grant recipient and Direct Loan student borrowers who officially withdraw from the institution to fully correct this audit finding. Effective January 2020 for the Spring Term, enrollment status changes will be reported twice each month during the term to ensure status changes are timely reported to NSLDS. In addition, the Financial Aid Office will randomly spot check official withdrawals on various dates to confirm the information was reported timely and accurately.

Note: (1) Finding No. refers to audit findings in report No. 2016-159 (2015-).

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (If Finding is not Fully Corrected, include reason for Finding's recurrence and corrective actions planned and taken)
2017-046 2015-075	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The College did not always timely return unclaimed Title IV HEA funds to applicable Federal programs.	Fully Corrected as of 12/10/18	
2017-047	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The College did not always accurately and timely report enrollment status changes to the NSLDS for Pell Grant recipients and Direct Loan borrowers.	Fully Corrected as of 2/6/19	
2017-048	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The College did not always accurately and timely calculate the amount of Title IV HEA grant or loan assistance that the student earned as of the student's withdrawal date and did not always timely return unearned funds to the United States Department of Education (USED).	Partially Corrected as of 10/16/19	During faculty orientation, they are taught how to submit final grades, including that last day of attendance is to be entered at the end of term if a F is given. An email is also sent to faculty at the end of term as a reminder of how to input final grades. Communication has been made to Associate Dean of Enrollment Management and FA staff that when calculating R2T4, tuition/fee waivers must be excluded. The R2T4 procedure has also been updated to include this exclusion.

Note: (1) Finding No(s). refer to audit findings in report No. 2019-186.

MANAGEMENT'S CORRECTIVE ACTION PLAN

**PREPARED AND SUBMITTED BY MANAGEMENT IN
ACCORDANCE WITH THE UNIFORM GUIDANCE**

**FOR THE FISCAL YEAR ENDED
JUNE 30, 2019**

RON DESANTIS
GOVERNOR

MARY C. MAYHEW
SECRETARY

**State of Florida
Management's Corrective Action Plan –
Florida Agency for Health Care Administration
For the Fiscal Year Ended June 30, 2019**

Finding Number: 2019-033

Planned Corrective Action: To ensure that future Medicaid Fee Schedules are implemented into the Florida Medicaid Management Information System (FMMIS) correctly, the FAHCA has developed a Corrective Action Plan (CAP). The CAP has two components:

1. FAHCA will document a standard process for tracking the annual Medicaid fee schedule updates. The new procedure guide will include detailed instruction and processes for cross bureau meetings, tracking fee schedule updates, and system update verifications.
2. FAHCA will reprocess all fee-for-service claims identified in the audit as paying an incorrect rate. When the reprocessing occurs, the FMMIS will adjust the claims, and the Federal Share reduction will be automatically reported on the CMS-64.

Anticipated Completion Date: July 31, 2020

Responsible Contact Person: Carla Sims
850-412-4013

Finding Number: 2019-034

Planned Corrective Action: The contract between FAHCA and the service organization has been amended. The amendment required the service organization to obtain an SSAE-18 Audit Report to ensure that the service organization internal controls related to invoicing, collecting, and reporting of drug rebates are appropriately designed and operating effectively. The service organization submitted an SSAE-18 Audit Report to FAHCA on May 31, 2019, pertaining to the SOC1, Type 1 audit which reported on the design of the vendor's internal controls.

The service organization is also required to submit an SSAE-18 Audit Report pertaining to the SOC 1 Type 2 audit that shall cover the operating effectiveness of the vendor's controls by August 15, 2020.

Anticipated Completion Date: August 15, 2020

Responsible Contact Person: Carla Sims
850-412-4013

Finding Number: **2019-036**

Planned Corrective Action: FAHCA's monitoring of the managed care plans is both broad and deep. It includes regular measurement of standardized, nationally recognized measures of managed care performance, including Healthcare Effectiveness Data and Information Set (HEDIS) and Consumer Assessment of Health Plan Satisfaction (CAHPS), as well as regular review of dozens of plan submitted reports. FAHCA staff weekly reviews all complaints and issues submitted about the program and takes action if a plan is found to have violated its contract. Complaints raised by stakeholders and issues revealed in regular reporting also lead to targeted monitoring, which can take an array of forms (e.g., secret shopper calls to providers, onsite reviews, in depth records reviews). These activities lead to routine "contract actions" including liquidated damages, corrective action plans, and sanctions. This multi-faceted approach ensures that FAHCA focuses on both routine activities that ensure the program is operating effectively as well as reviewing and taking action on actual, emerging issues in the managed care environment.

The monitoring requirements in the required EQRO three-year review are a subset of the overall FAHCA managed care compliance approach. FAHCA does not consider that these requirements alone constitute a sufficient managed care monitoring program. That said, FAHCA completed 11 of the 14 federal standards required for the 3-year review and has taken steps to ensure that, in the next 3-year cycle, all EQRO requirements will be met.

FAHCA, in conjunction with its EQRO, has developed a comprehensive compliance review tool that integrates both federal and state monitoring requirements. The tool identifies the FAHCA unit that is responsible for the monitoring activity and the frequency with which monitoring must occur for every federal EQRO regulation and all state contract requirements. FAHCA is in year two of the three-year federally required review cycle. At this time, FAHCA has completed approximately 80% percent of the requirements for the federally required review and has scheduled all remaining review activities to be completed by the end of the 3-year cycle.

Anticipated Completion Date: Complete

Responsible Contact Person: Carla Sims
850-412-4013

Finding Number: **2019-037**

Planned Corrective Action: FAHCA provides for the audit of hospital cost reports for providers that remain on a cost-based reimbursement methodology. Specifically, this applies to the state mental health hospitals. As such, we are in compliance with the guidance in relation to cost-based reimbursement provided in 42 CFR 447.202 which states, "The Medicaid agency must assure appropriate audit of records if payment is based on costs of services or on a fee plus cost of materials."

FAHCA has transitioned to a prospective payment system that no longer uses cost reports for the reimbursement of almost all hospital providers. We are not aware of federal intention or directive for states to continue auditing cost reports if they are not used to establish reimbursement rates. In addition, a strict interpretation of this CFR is not consistent with the fact that CMS allows for states to rely on the Medicare audited cost reports even in cost-based reimbursement systems.

In addition, we do not believe 42 CFR 447.253(g) applies to auditing cost reports for hospital providers when those cost reports are not being used to set rates. 42 CFR 447.253(g) states “the Medicaid agency must provide for periodic audits of the financial and statistical records of participating providers.” Florida does ensure there are reviews of hospital financial and statistical records, including the review of hospital Disproportionate Share Hospital (DSH) reimbursement through the DSH audit and reviews of financial data through the Florida Hospital Uniform Reporting System.

The outlier component of the inpatient hospital reimbursement accounts for an estimated 14% of the simulated payment. The Agency will explore ways to review or audit the financial and statistical records of the components used in the outlier calculation.

Also, FAHCA agrees that the State Plan could be updated to provide the clarity that the cost report audits only apply to the hospitals reimbursed on a cost basis. The State Plan effective July 1, 2019 has been updated to reflect that only the state mental health hospitals, which are paid on a cost basis, must submit cost reports for audits.

Anticipated Completion Date: September 30, 2020
Responsible Contact Person: Carla Sims
850-412-4013

Finding Number: **2019-038**
Planned Corrective Action: FAHCA will initiate an internal workgroup to review and compare FAHCA's site visit rules with the applicable federal regulations. Any deviations will be analyzed and, where appropriate, the Florida Medicaid policy will be modified.

FAHCA will schedule site visits for the providers identified in the audit.

Anticipated Completion Date: December 31, 2020
Responsible Contact Person: Carla Sims

Finding Number:

2019-035

Planned Corrective Action:

FAPD executed a contract with Keystone Peer Review Organization, Inc. (KEPRO) to outsource the Utilization Review/Continued Stay Reviews (UR/CSR) function. One performance goal in the contract is to ensure 100% of the reviews are conducted every 6 months for beneficiaries of Intermediate Care Facilities for Individuals with Intellectual Disabilities. KEPRO began reviewing records in June 2019 and assumed responsibility for the UR/CSR function in July 2019. KEPRO has an electronic system that tracks due dates for CSRs, certification and UR plans.

In addition to the executed contract, FAPD continues to conduct monthly Medical Case Management conference calls (Statewide and Regional) for FAPD staff (including supervisors). UR/CSR is a standard topic on the agenda and includes the region providing an update on the UR/CSRs performed and any outstanding issues. Also discussed during our conference calls are upcoming reviews and any potential barriers of the CSRs that are coming due and to account for all the CSRs that should have been completed. FAPD continues to focus on ensuring that all reviews are completed timely. Additionally, FAPD continues to be responsible for eligibility and admissions (initial paperwork and notification to KEPRO of the admission).

FAPD continues to monitor Regional completion of CSRs and Certificates of Need completed by the facilities.

Regional management continues to provide oversight and supervision of the UR/CSR process.

Management's Corrective Action Plan –
Florida Department of Children and Families
For the Fiscal Year Ended June 30, 2019**

Finding Number: **2019-020**

Planned Corrective Action: FDCF will either require the vendor to provide an independent service auditor's report or perform internally an evaluation of the internal controls related to the WebRMS Application to ensure internal controls are appropriately designed and operating effectively. The service organization is a for-profit organization that specializes in the provision of cost allocation services. FDCF has used this vendor for the past 20 plus years to provide its RMS and webRMS services, which are used by other states and is known by the U.S. Department of Health and Human Services, Division of Cost Allocation.

Anticipated Completion Date: 06/30/2020

Responsible Contact Person: Mark Mahoney

Finding Number: **2019-028**

Planned Corrective Action: FDCF is currently in the process of transitioning from a quarterly manual input of cost allocation statistics to an automated quarterly cost allocation statistical upload into the GRANTS system to eliminate the risk of error. In the interim, FDCF will enhance supervisory review procedures to ensure that accurate allocation percentages are input to the GRANTS system.

Anticipated Completion Date: 06/30/2020

Responsible Contact Person: Mark Mahoney

Finding Number: **2019-029**

Planned Corrective Action: FDCF will work with our various Federal agencies to discuss challenges with respect to period of performance. In addition, FDCF is taking steps to ensure expenditures are identified in the appropriate period where the benefit to the state was realized.

Anticipated Completion Date: 09/30/2020

Responsible Contact Person: Wendy Castle

Finding Number: **2019-012**
Planned Corrective Action: FDEO has discussed a project level effort and is working to establish procedures to restrict users to only those functions necessary for their assigned job duties.
Anticipated Completion Date: December 2020
Responsible Contact Person: Wendy Castle

Finding Number: **2019-013**
Planned Corrective Action: FDEO will move the referenced expenditures to an allowable grant with a period of performance consistent with their dates of service. FDEO's processes have also been updated to review transactions for period of performance during the life of the grant as well as the closeout period.
Anticipated Completion Date: March 31, 2020
Responsible Contact Person: Caroline Womack

Finding Number: **2019-014**

Planned Corrective Action: FDEO completed validation of the ETA 227 report in October 2019 and has submitted all ETA 227 reports due as of January 2020. The next required submission is scheduled for May 2020.

Anticipated Completion Date: Completed

Management's Corrective Action Plan –
Florida Department of Education
For the Fiscal Year Ended June 30, 2019

Finding Number: 2019-019

Planned Corrective Action: In an effort to fulfill the requirements of the Federal Family Education Loans Program, the Florida Department of Education (FDOE) has recently contracted with a vendor that will assume the responsibility of the servicing requirements for the OSFA Guaranty Agency. In the future, all loans that are eligible will be assigned to the United States Department of Education per the contract requirements. FDOE will maintain oversight of the assignments of eligible loans through the necessary review of the contract's deliverables.

**State of Florida
Management's Corrective Action Plan –
Florida Department of Financial Services
For the Fiscal Year Ended June 30, 2019**

Finding Number: **2019-001**

Planned Corrective Action: The Statewide Financial Reporting Section (SFRS) within the Bureau of Financial Reporting is in the process of enhancing its controls and procedures relating to the preparation and review of the governmental fund and the government-wide financial statements. The enhancements focus on identifying differences noted between the governmental funds and the government-wide presentation while strengthening management's ability to review and correct those differences noted. The update to SFRS controls will include the creation of a financial statement reconciliation tool within the WDesk software application, which will assist management in the review, identification, and correction of presentation errors noted between the respective financial statement line items. The tool will provide comparability checks that allow management to easily confirm data relationships between the financial statements. In conjunction with the financial statement reconciliation tool, updates to the procedures will be made to include the use of the tool by management and additionally include a comprehensive list of validation criteria that will be used by management to ensure the consistency and reasonableness of the amounts presented in the financial statements of the State of Florida.

**State of Florida
Management's Corrective Action Plan –
Florida Department of Health
For the Fiscal Year Ended June 30, 2019**

Finding Number: 2019-003

Planned Corrective Action: The Bureau of Child Care Food Programs (CCFP) is working with the Office of General Counsel (OGC) on an amendment to the Permanent Contract for CCFP contractors that executed agreements from July 1, 2019 through January 31, 2020. The existing Permanent Contract has been updated with the correct citations from 2 CFR 200, and will be used for any new contractors that come on the program starting February 1, 2020. CCFP is also working with OGC on comprehensive revisions to the Permanent Contract and Attachments which will be given to all 2,200+ subrecipients for execution on or before June 30, 2020.

As part of the annual renewal process, all subrecipients are notified of the applicable 2 CFR Part 200 requirements through a question on the renewal application, through financial management training, and through an Audit Report Certification Form sent to all CCFP contractors from the Florida Department of Health Federal Compliance and Audit Management section.

Anticipated Completion Date: June 30, 2020

Responsible Contact Person: Renee Kane, Chief, Bureau of Childcare Food Programs
Brenda Lane, Policy and Program Development Administrator

Finding Number: **2019-025**

Planned Corrective Action: The Florida Department of Health (FDOH) agrees that out of 2,499 records, seven providers (five sub-recipients from the Child and Adult Care Food Program and two from HIV Care Formula Grant) were omitted from the Export_FLAIR_Master_File that FDOH uses to generate certification forms to sub-recipient providers. The “glitch” was discovered, and the program codes were updated by the Florida Accounting Information Resource system team November 11, 2019. FDOH will perform a review of the Master File program codes each year prior to running the report to further reduce the potential for a similar incident. In addition, FDOH will modify the single audit report review workflow beginning July 1, 2020 to prioritize management decision letters to those providers with audit findings at the start of each audit reporting cycle, rather than on a first in/first out method. This will allow FDOH to meet the additional workload requirements under 2 CFR 200, while at the same time increasing the compliance level for the timeline prescribed under 2 CFR 200.521 - Management decision.

Anticipated Completion Date: September 30, 2020

Responsible Contact Person: Kéno! Saint-Fort, Federal Compliance & Audit Management Section

Finding Number: **2019-026**

Planned Corrective Action: Moving forward, when fiscal codes (Other Cost Accumulators (OCA) and Grant Number) for a new grant year are updated, all monthly expenditures will be audited internally by the Immunization Section’s Grant Analyst and the Bureau of Epidemiology’s Grant Manager to ensure that each payment is charged to the appropriate grant OCA for the time period indicated on the invoices. Any necessary corrections will be made as soon as they are identified and verified prior to the submission of the Federal Financial Report.

Additionally, the program office will communicate with county health departments and other partners, to review invoices to ensure they were processed with the correct coding, and reflect the correct period of performance.

These new processes will ensure the program complies with the project period integrity for each year of the grant.

Anticipated Completion Date: July 1, 2020

Responsible Contact Person: Amy Rikken, Immunization Section Administrator

Finding Number: **2019-027**

Planned Corrective Action: Vaccines for Children (VFC) Field Staff are responsible for conducting VFC-related site visits at VFC-enrolled provider sites. Requirements for conducting these types of visits are outlined in the Centers for Disease Control and Prevention's (CDC's) Immunization Program Operations Manual and its Vaccines for Children Operations Guide. For purposes of conducting VFC-related site visits, field staff are referred to as reviewers.

Reviewers joining the VFC program must have access to CDC's Provider Education Assessment and Reporting system (PEAR). Access to PEAR is initiated by the Immunization Section's VFC Unit. Access to PEAR is granted by the CDC. Once access to PEAR is granted by the CDC, the VFC Unit can manage a reviewer's status (deactivate or reactivate reviewers and update reviewer email addresses, as applicable).

To initiate the process of gaining PEAR access:

1. The VFC Unit's Manager (VFC Manager) or VFC Assistant Manager will provide the site visit reviewer with PEAR Access Request Form.
2. The reviewer will complete the form and return it to the VFC Manager or Assistant Manager.
3. The VFC Manager or Assistant Manager will sign the form.
4. The signed form will be scanned and emailed to the CDC Public Health Advisor.
5. The CDC Public Health Advisor (PHA) will email CDC's Project Officer asking that the reviewer be granted access to the CDC's Secure Access Management Services (SAMS) system.
6. SAMS will send an email invitation to join SAMS along with identity proofing documents.
7. The reviewer will complete the identity proofing document and provide it to the PHA for signature.
8. The PHA will sign the form, scan the form along with the PEAR Access Request Form and store it at the following location: I:\IMM\Field Operations\PEAR Access Requests.
9. The reviewer will then email the completed identity proofing document to SAMS, as instructed by the CDC invitation to join SAMS.

Anticipated Completion Date: July 1, 2020

Responsible Contact Person: Amy Riggen, Immunization Section Administrator

Finding Number: **2019-032**

Planned Corrective Action: The State of Florida and the Florida Department of Health (FDOH) Children's Medical Services (CMS) Managed Care Plan (CMS Plan) management fund appropriately designed effective medical claims payment systems with two third-party administrators (TPA) as of February 1, 2019. MED3000 is the TPA for the service delivery model that ended January 31, 2019. WellCare Health Plans (WellCare) is contractually responsible to FDOH CMS Plan management as the TPA for the service delivery model implemented February 1, 2019. The FDOH CMS Plan management will continue to require compliance from the two TPAs providing CMS Plan services. For example, the CMS Plan management received WellCare's independent service auditor's report for the period April 1, 2018 through March 31, 2019.

While MED3000 made a business economies of scale decision to not comply with the Annual Service Organization Control (SOC) 1 Type II Audit and Health Information Portability and Accountability Act (HIPAA) Compliance Review, other internal controls and processes have remained in place. CMS Plan management will continue to execute internal controls for the MED3000 claims lag payment and continue to seek compliance regarding the breach of the requirement for the SOC 1 report.

Anticipated Completion Date: June 30, 2020

Responsible Contact Person: Cheryl Young, Director, Office of CMS Managed Care Plan

Finding Number: **2019-039**

Planned Corrective Action: Florida Division of Disability Determinations' (DDD) Finance and Accounting (F&A) in conjunction with DDD's Bureau of Information Services has identified the error as a general network error that occurred while downloading the People First data. This error caused only a portion of the timesheet data to be downloaded and processed for this report.

DDD's Bureau of Information Services is adding an automated check that will verify the integrity of the data that has been downloaded. F&A is also implementing an internal monitoring tool that will compare the previous report submission with the current report to identify abnormal changes in hours being reported, from quarter to quarter. This monitoring tool will be reviewed by management in conjunction with the United States Social Security Administration (SSA) - 4514 form prior to submission to SSA. The next SSA-4514 submission is due by April 30, 2020.

Management's Corrective Action Plan –
Florida Department of Military Affairs
For the Fiscal Year Ended June 30, 2019**

Finding Number: **2019-004**

Planned Corrective Action: We concur with your finding and recommendation. Corrective action going forward will be to review the US Government System for Award Management for any exclusions prior to contracting with a company. SAM will be checked for all contract actions to include task orders issued against continuing contracts for A/E, professional services. All A/E firms under continuing contracts will be contacted to inform them of this procedure for all future task orders and to make them aware of their responsibility to comply with federal guidance on suspension and debarment.

Furthermore, all new contracts will include language advising of the procedure to be followed to check for exclusions as a requirement for award of contract, and a clause requiring the contractor to comply with Federal guidance on suspension and debarment.

State of Florida
Management’s Corrective Action Plan –
Daytona State College
For the Fiscal Year Ended June 30, 2019

Finding Number: 2019-042

Planned Corrective Action: When the issue was identified in September 2019, DSC not only reached out to the vendor, but also updated the coding to ensure the students who were issued book vouchers and withdrew had accurate charges picked up. The College conducted an analysis of all students who were issued book vouchers, and withdrew, during the period of review and returned the additional Pell and Direct Loan funds back to their respective programs via COD on 12/9/19 and 11/20/19, respectively. Moving forward DSC will continue to monitor unearned funds sent to the USED to ensure all qualifying funds are returned in a timely manner.

Anticipated Completion Date: This has been completed as of the final return of unearned funds which took place on 12/9/2019
