

# Housing and HIV-Related Health Care Outcomes Among HRSA's Ryan White HIV/AIDS Program (RWHAP) Clients in 2024

## HIV VIRAL SUPPRESSION AMONG RWHAP CLIENTS BY HOUSING STATUS\*

### UNSTABLE HOUSING

**5.1%**

of clients

**79.8%**

reached  
viral suppression

### TEMPORARY HOUSING

**7.9%**

of clients

**87.0%**

reached  
viral suppression

### STABLE HOUSING

**87.0%**

of clients

**92.3%**

reached  
viral suppression

Nationally,

**91.4%**

of all RWHAP clients receiving HIV medical care **reached viral suppression**, which means they cannot sexually transmit HIV and can live longer and healthier lives.

\* Housing status definitions are based on the Housing Opportunities for Persons with AIDS (HOPWA) Program, Annual Progress Report (APR), Form HUD-40110-C and the McKinney-Vento Act, Title 42 US Code, Sec. 11302, General definition of homeless individual.
